The primary purpose of this forecast is to present a prospective view of the City's General Fund revenue and expenditure levels during the next five fiscal years (2019 through 2023) and to fulfill our statutory requirement to provide a balanced five year plan. It is important to note that current services budget development for FY2019 has been developed by the Mayor and approved by the City Council; it is awaiting approval by the MARB.

Assumptions and Commentary for the Revenue Forecast:

Current Tax revenue projection for the fiscal year 2019-2023 budget contains the following assumptions:

- Mill rate of \$37.00 (includes \$0.15 for Capital and Non-recurring expenditures) for Motor Vehicles for all 5 fiscal years. A
- Mill rate for real estate and personal property beginning at \$36.26 (includes \$0.15 for Capital and Non-recurring expenditures) in 2019 and increasing to \$39.99 by fiscal year 2023. ^B
- Grand List growth for real estate and personal property of 0.31% from 2019 to 2020, 0.06% from 2020 to 2021, 4.06% from 2021 to 2022, and 0.06% from 2022 to 2023. This is based on estimates made by the City Assessor and includes commercial projects that are completed and those that will be started in 2019 and completed during the next five fiscal years. It also includes the decennial revaluation, which is estimated at 4% based upon results of prior revaluations as well as recent experienced economic activity in the City. Two of the commercial projects were granted tax abatements which are calculated into the increases in the grand list. ^c
- Tax collection rate of 98.40% of the tax levy is based on historical tax collection rate.
- Tax abatements will be negotiated on a case by case basis.
- This five year plan does not include any incremental tax revenues associated with the Havens project as the ultimate timing of its completion is uncertain. However, preliminary estimates of property taxes (net of abatements) to be collected range from \$500 thousand to \$1.6 million annually.

Non-Current Tax revenues are based on prior years' experience and adjusted for future expected fluctuations. The City is also engaging a consultant to assist it in maximizing collection of past due personal property tax. The estimates for these personal property tax audit collections are based on historical experience that the tax auditor has achieved with similar localities. The City has also engaged a consultant to assist the City in collecting past due amounts on Motor Vehicle taxes.

Interest & Lien Fees revenues are based on historical rates of collection of interest on past due taxes with a projected increase of 3% to 5% annually. This is consistent with our expectation that the City will maintain its historical 98.4% tax collection rate. ^D

Licenses and Permits revenues, primarily comprised of building and construction related permits, reflects an increase over FY2018 budgeted amounts in fiscal 2019 with a slight decline forecast for the remaining years as we expect building activity to slow down marginally. All other license and permit revenues are expected to increase 3% annually.

Fines, Forfeits and Penalties, primarily comprised of parking tag revenue, are expected to increase over FY 2018 budgeted numbers in the FY2019 forecast, with a 3% to 10% annual increase thereafter. The City has installed new parking meters at public beaches in the past year; the City has also increased parking enforcement.

Use of Money and Property revenue is expected to increase as the City's financial situation is stabilized and it is able to earn interest on its deposits. The City has also increased fees associated with renting its public facilities.

Other Agency Revenue consists of revenues from federal and state sources. These revenues are expected to remain flat over the 5 years and are consistent with prior audited amounts. These amounts do not include any revenues to be provided by the MARB, which revenue is presented separately from Other Agency Revenue.

Charges- Current Services revenues are consistent with prior audited amounts, with some expected to remain flat, and others expected to increase 3% to 5% annually over the 5 years based on historical data.

Other Revenues are consistent with prior audited amounts, and expected to remain relatively flat or increase annually over the 5 years based on historical data.

Other Financial Sources revenues predominantly represent transfers from the sewer fund to cover debt service on general obligation debt carried by the City which is associated with sewer fund assets previously acquired. Future general obligation debt offerings benefiting the sewer fund will be accounted for directly in the sewer fund and will not be reflected in the City's general fund.

Assumptions and Commentary for the Expenditures Forecast:

Payroll/Personal Services

Payroll growth is projected to remain flat for FY2019 through FY2021 as the City has implemented pay increase freezes with collective bargaining units that are out of contract. While the City does not currently anticipate increasing wages in FY2022 and FY2023, this plan includes a contingency expense for a 1% and 2% increase in wages, respectively. The plan also includes an addition of two FTEs for financial positions starting FY2020.

Non-Payroll Expenses

The plan utilizes the Federal Reserve Bank's inflation expectations model in allowing for expected increases in general non-payroll related expenses. This rate approximates 2% each year during the five year plan.

Defined Benefit Pensions

The city currently has 2 defined benefit pension plans, the Police Department Pension and the Allingtown Fire Department Pension. The Police Department Pension Plan contributions are based on an actuarial study performed. Contributions to the Police Plan represent 100% of the contributions currently recommended by the actuary. The Allingtown Fire Department Pension contributions represent the City's share of the pension costs. Contributions to the Fire Plan represent 100% of the contributions recommended by the actuary in a separate valuation.

Defined Contribution Pensions

City Pension Plan contributions represent 5% of employee pay and is fully funded. After 2009, all new Police hires have been included in the Defined Contribution Plan and all Allingtown Fire employees have been included since 2013.

Health and Other Post-Employment Benefits (OPEB)

The City of West Haven is self-insured for its employee and retiree health care claims. For fiscal year 2019, the City's budgeted health insurance costs are based on Segal Consulting's analysis of budget projections including a 3% self-fund claims margin. These costs are projected to increase by 7.6% annually from fiscal year 2019 to 2023. The City has been engaging its health provider partners to identify areas where the City may be able to achieve additional savings moving forward. ^E

Education

The City's education contribution to the West Haven Public Schools is projected to increase yearly from 2019 through 2023 by 0.4% a year and is based upon expected budget growth provided by the Public Schools. Because the City's public schools are classified as an "alliance district", any increases in the education cost sharing grant will go directly to the Board of Education budget. Therefore the city is not the public school's sole funding source. F

West Haven Public Library

The West Haven Public Library is a legally separate entity that receives funding from the City. The plan includes a 2.0% decrease year over year from FY2019 through FY2023 in library funding as the library is also creating a 5 year plan which eliminates certain expenses in order to reduce its reliance on City funding. The plan put forth by the city also includes a \$25 thousand contingency for the library in 2019 which is likely to be realized when the library issues their funding requests. ^G

Debt Service

Debt Service principal and interest payments for FY2019 through FY2023 includes amounts outstanding as of the beginning of FY 2019 as well as debt service associated with capital debt offerings for fiscal years 2019 (\$8.6M), 2020 (\$4.2M), 2021 (\$3.2M), 2022 (\$2.7M), and 2023 (\$2.7M). Certain Debt Service principal and interest payments also include Water Pollution Control debt that is included in the City's general obligation bonds as of the beginning of fiscal year 2019 through 2023. A transfer from Water Pollution Control to the City for its share of the debt service is included in revenues for each of the five years. ^H

Operational Efficiencies and Cost Savings Initiatives

The City has engaged or intends to engage consultants to assist it in identifying certain operational efficiencies and cost savings as follows:

- A consulting firm has been engaged to assess the City's effective use of its IT system, Munis. The
 consultant will identify all modules the City currently is contracted to use, will assess the effective use,
 make recommendations and assist in training City employees to use the system more effectively.
- A consultant has been engaged to assess the City's benefits administration process, including reconciling census data to billing records.
- A consultant has been engaged to identify potential cost savings in the City's workers compensation and heart and hypertension coverages.
- As previously mentioned, the City has engaged consultants to maximize delinquent personal property tax and motor vehicle tax collection.
- The city has implemented changes to enhance time tracking, which has already begun to reduce overtime compensation and compensated time accruals.

Additionally, the City is considering exploring shared service agreements with the Board of Education related to certain administrative functions common at both the City and the Board of Education (payroll, procurement, IT, etc.).

The projected efficiency savings are predicated on an assumption that beginning in FY2020 and through FY 2023 the City will be able to cut the total expenditures 1% of total expenditures at a cost of 25% of those total savings.

Building Fund Balance Reserves

The City understands the importance of building fund reserves in order to weather tough economic times. Through this plan, the City is building a fund balance of slightly over 5% of total expenditures by FY2023. The City feels that they will have made reasonable progress through this plan and will be in a strong position to continue building the appropriate fund balances far into the future.

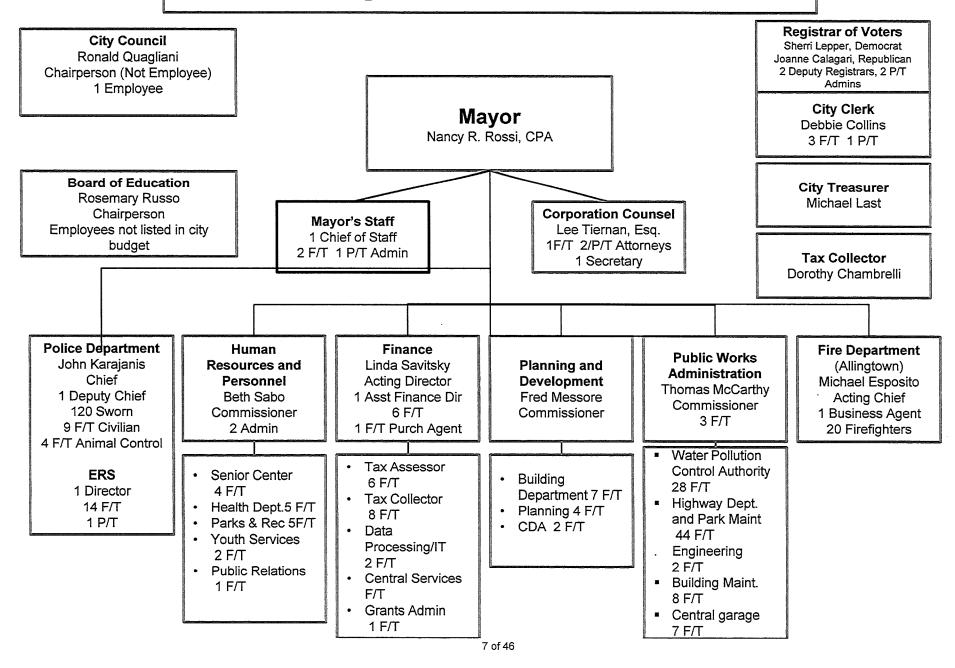

Additional Expense Reductions for FY2019

The City has executed certain personnel actions, eliminated certain budgeted FTEs, or planned for operational efficiencies or negotiated more favorable contract terms as follows:

- A \$28k savings in the Mayor's department by eliminating 2 part-time positions.
- An 8% savings (\$177k) in Corporation Counsel Department through the elimination of positions and reassignment of the hours in part-time positions.
- \$14k in savings in telephone administration through savings from changing carriers
- \$16k in savings with the registrar of voters by reducing part time hours and decreasing certain hourly wage rates
- \$55k in savings in Planning & Development Administration through the elimination of certain discretionary projects which were incurred in prior years that will not be incurred in the future.
- \$124k in savings in the Comptroller Department as previous budgeted positions that have remained vacant are eliminated.
- \$51k savings in the Purchasing / Risk Management Department by eliminating a vacant position. This savings is partially offset by a 5% increase in the annual maintenance contract costs as well as a one-time \$15k expenditure for Microsoft site licenses.
- \$71k savings in the Information & Technology Data Processing Department through elimination of a full-time position.
- \$26k savings in Central Services primarily through efficient reductions in postage and other supplies and equipment.
- \$39k reduction in the Emergency Reporting System through the elimination of one position.
- \$510k reduction to the Police Department Operations through the elimination of unfilled budgeted positions. There are also planned reductions of certain overtime costs.
- \$152k reduction in Police Department support department through the elimination of two civilian positions and a decrease in certain supplies expenses.
- \$24k reduction in Animal Control through a reduction of part-time wages.
- \$24k reduction in Engineering through a reduction in hours.
- \$44k reduction in Vehicle Maintenance Department primarily through reduced costs on auto fuel and fluids.
- \$180k reduction in Solid Waste Department based on increased efficiency.
- \$196k decrease in Building Maintenance Department due to positions eliminated and utilities cost savings.
- \$146k reduction in Highways and Parks administration because of energy costs savings on street lighting after installation of LED lighting.
- \$45k savings in Human Resources Department through the elimination of community center attendant and a reduction in certain transit fees and charges.
- \$39k reduction in recreational services, primarily through a reduction of beach constable's time, a reduction in spec. activity instructor's time and reduction of subsidy to a youth association.
- \$20k reduction in the Health Department as the City identified certain wages that were eligible for utilization under grants and moved to the special revenue fund.
- \$75k reduction in Library support. If the library board submits a strategic plan in support of its next budgetary request, City Council will consider restoring \$25k of funding.
- \$95k savings in State Mandated Benefits. This is based on an expected decrease in worker's comp premium and heart & hyper comp.

Please see the Organizational Chart of the following page for a broader context of full time employees at the City.

City of West Haven Organizational Chart

Commentary for the Long Term Obligations of the City

The City's bonds are generally 20 years in length. Debt Service payments range from \$14.5 million to \$20.8 million annually through the five year plan. Those payments include existing outstanding debt plus planned future bonding of new capital projects. Anticipated new debt issuances for City capital projects range from \$2.7 million to \$8.6 million. H

According to OPM's Municipal Fiscal Indicators, the City's bonded per capita of \$2,208 in fiscal year 2016 was 56th highest out of 169 municipalities and below the statewide average of \$2,480 per capita. It is important to note that a significant portion of the City's debt relates to its 2002 issuance of pension obligation bonds (POBs). These POBs will be fully paid off in 2022, which is the cause for the large drop-off in debt service in fiscal year 2022-23 shown above.

One of the pressing capital needs facing the City and its Sewer Fund is a consent decree entered into with the U.S. Environmental Protection Agency (EPA) to undertake sewer separation and other projects. Sewer projects, many of which are eligible for funding through the State's Clean Water Fund (CWF) loan program (for which interest rates are 2%), account for just over \$5 million of the City's \$8.754 million CIP for FY2017-18. The City has a seven-year program for sewer project estimated at \$47.7 million.

Proposed Actions/Considerations:

- The City will continue to work with its outside financial advisor to review potential bond structure options, including restructuring opportunities, related its existing and proposed debt.
- The City, will continue to analyze its short and long-term capital needs.

Police Pension Plan

The City provides a Police Pension Plan, a defined benefit plan, for those hired before November 1, 2009. The City's January 1, 2016 actuarial valuation indicated that the number of active members (current employees) decreased from 100 in 2014 to 87 in 2016, while the number of retired employees increased from 142 to 151 during this time period. This trend has and will continue, with an increasing proportion of this closed plan's members receiving benefits.

In September 2002, the City issued pension obligation bonds for this plan, which brought the funding ratio to 100 percent. The City's funding ratio has dropped through the years based on not making the full actuarial determined contributions in a number of years and not meeting certain actuarial assumptions.

The Actuarially Determined Contribution (ADC) developed by actuaries to fund the plan includes both the normal cost for current service and the amortization of the unfunded liability. The City uses a Level Percent of Payroll method of amortization, which involves some backloading of the payments in the schedule. This results in an increasing payment schedule that will be reflected in the City's proposed Revised Five-Year Plan. The City's January 1, 2016 valuation projected that the ADC would rise from the current level of approximately \$1.9 million to almost than \$3.5 million in 2023, peaking at almost \$3.9 million in fiscal year 2028. This assumes that the City contributes 100 percent of the ADC and that the plan meets its actuarial assumptions. Future actuarially determined contributions and funded status are reflected in the chart below:

City of Wes	t Haven General Fur	nd		<u> </u>						
Long Range Forecast - City Pays 100% of Actuarially Determined Contribution										
Valuation	Accrued	Actuarial Value	Unfunded Accrued	Funded	Fiscal	Employer	Employee	Benefit	Net Cash	
Date	Liability	of Assets	Liability	Ratio	Year	Contributions	Contributions	Payment	Flows	
1/1/2018	134,535,000	119,558,000	14,977,000	88.90%	2019	2,414,000	544,000	(8,398,000)	(5,440,000)	
1/1/2019	137,278,000	119,473,000	17,805,000	87.00%	2020	2,936,000	551,000	(8,586,000)	(5,099,000)	
1/1/2020	140,170,000	120,411,000	19,759,000	85.90%	2021	3,334,000	539,000	(8,898,000)	(5,025,000)	
1/1/2021	143,117,000	124,004,000	19,113,000	86.60%	2022	3,432,000	521,000	(9,272,000)	(5,319,000)	
1/1/2022	145,933,000	127,939,000	17,994,000	87.70%	2023	3,467,000	509,000	(9,583,000)	(5,607,000)	

As noted in the Assumptions and Commentary for the Expenditures Forecast, the City's budgeted contributions to the Police Plan 100% of the contributions currently recommended by the actuary. While the table above is obtained from the actuary report dated September 12, 2016 indicating 2019 employer contribution of \$2,414,000, this financial plan only incorporates an expected 2019 employer contribution of \$1,994,500 per the Milliman letter dated February 21, 2018.

Allingtown Fire Department Pension Plan

As of July 1, 2015, the Allingtown Fire Department Pension Plan, closed to new members as of July, 2013, had 49 retirees and beneficiaries collecting benefits and 22 active members. The Allingtown Plan has a total pension liability of \$29,183,167, as of June 30, 2017 (the most recent valuation available), with assets valued at \$6,498,293, resulting in a funding ratio of 22.27 percent. Future actuarially determined contributions and funded status are reflected in the chart below:

			Long Range	Forecast-	Allingtown Fi	re Pension			
Valuation	Accrued	Actuarial Value	Unfunded	Funded	Fiscal Year	Town	Employee	Benefit	Net
Date	Liability	of Assets	Accrued Liability	Ratio	Ending	Contributions	Contributions	Payments	Cash Flows
7/1/2017	29,699,940	6,498,293	23,201,647	21.90%	2019	2,174,625	146,661	(1,667,935)	653,351
7/1/2018	30,425,000	7,477,000	22,948,000	24.60%	2020	2,251,000	147,000	(1,700,000)	698,000
7/1/2019	31,156,000	8,657,000	22,499,000	27.80%	2021	2,322,000	148,000	(1,730,000)	740,000
7/1/2020	31,901,000	9,964,000	21,937,000	31.20%	2022	2,395,000	132,000	(1,883,000)	644,000
7/1/2021	32,663,000	11,401,000	21,262,000	34.90%	2023	2,435,000	122,000	(1,954,000)	603,000

Other Post Employment Liabilities (OPEB)

OPEB costs and liabilities largely relate to retiree health insurance benefits for pre- and post-65 retirees, but include other benefits such as life insurance. The City's OPEB unfunded liability as of June 30, 2017 was \$164,262,272. There are 1.479 total participants, of whom 901 are active, 420 are retired, 45 are beneficiaries, and 113 are spouses.

These benefits are largely determined through collective bargaining agreements for current employees and past agreements in the case of retirees, although the agreement under which some retired may tie certain premium sharing amounts and benefit designs to those for current employees.

Valuations are done for OPEB plans in a manner similar to those done for pension plans. The total accrued liability is estimated and an ADC, which includes both a normal cost and an amortization amount for the unfunded liability, is calculated. Like many local governments, currently West Haven does not prefund these benefits through employer and active employee contributions set aside in a trust fund. The City pays these benefits on a pay-as-you-go basis, with the City paying its share of the estimated premium and the retirees their share. This results, typically, in annual costs that grow based on health inflation and increases in the number of retirees. In the Five-Year Plan, the City has budgeted an annual contribution for advance funding in an OPEB trust of \$50 thousand in FY2020 and increases of \$25 thousand annually thereafter.

In addition to the above, the City also has an unfunded OPEB liability related to the Allingtown Fire Department, according to the July 1, 2015 valuation, of \$20,937,282. As of July 1, 2015 the plan had 71 members, including 22 active employees, 24 retired members and 25 spouses. Annual benefit payments for 2017 were just over \$700,000.

Active and retiree health insurance are budgeted in one line item in the City budget, with BOE health insurance costs contained in their budget. Health benefits for Sewer Fund and Allingtown Fire employees are included in those budgets. The Five-Year Plan assumes health insurance inflation of 8.4 percent per year. The City is also working, through collective bargaining, to make changes in retiree health plan eligibility, cost sharing and design for new hires and existing employees. The State's Office of Policy and Management, on behalf of the MARB, has also engaged Segal, an actuarial and employee benefits consulting firm, to take a comprehensive review of the City's health plan funding, procurement approaches and alternatives and related matters in regard to both active and retiree health plans.

Conclusion

As required, the City's plan projects a surplus in each of the five years as indicated in the table on the following page.

These surpluses noted on the following page will be achieved as the City continues to fully fund the Police Pension required contribution and on a path to begin to advance fund its OPEB contributions. Additionally, these surpluses will be achieved without MARB funding in the final plan year.

Actual results may differ from the estimates made in this plan. However we believe that the underlying estimates are reasonable based upon our prior experience and current economic conditions.

<u>Assumptions and Commentary for the Allingtown Fire Department Revenue Forecast:</u>

Current Tax revenue projection for the fiscal year 2019-2023 budget contains the following assumptions:

- Mill rate on real estate and personal property increases from \$14.0 in fiscal year 2019 to \$15.5 in fiscal 2023.^J
- Mill rate on motor vehicles stays flat at \$8.00.
- Grand List growth for real estate and personal property of 0.31% from 2019 to 2020, 0.06% from 2020 to 2021, 4.06% from 2021 to 2022, and 0.06% from 2022 to 2023. This is based on estimates made by the City Assessor and includes commercial projects that are completed and those that will be started in 2019 and completed during the next five fiscal years. It also includes the decennial revaluation, which is estimated at 4% based upon results of prior revaluations as well as recent experienced economic activity in the City. ^L
- Tax collection rate of 98.40% of the tax levy is based on historical tax collection rate.

Non-Current Tax revenues are based on prior years' experience and adjusted based on future expected fluctuations.

Assumptions and Commentary for the Allingtown Fire Department Expenditures Forecast:

Payroll/Personal Services

Payroll growth is projected to remain flat from fiscal year 2019 to fiscal year 2023, consistent with the contract that has been collectively bargained with Allingtown Fire Department employees. Overtime is expected to remain flat over the next 5 fiscal years. We have included a contingency for a 1% payroll increase in fiscal years 2022 and 2023.

Non-Payroll Expenses

The plan utilizes the Federal Reserve Bank's inflation expectations model in allowing for expected increases in general non-payroll related expenses. This rate approximates 2% each year during the five year plan. There are no projected savings from efficiencies or other cost savings measures in the plan.

Defined Benefit Pension

The Allingtown Fire Department Pension is a closed plan that is funded by the City of West Haven Allingtown Fire Department and its employees. Contributions to the Fire Plan represent 100% of the contributions recommended by the actuary for a fully funded pension plan.

Health and Other Post-Employment Benefits (OPEB)

For fiscal year 2019, the plan's budgeted health insurance costs are based on Segal Consulting's analysis of budget projections including a 3% self-fund claims margin. These costs are projected to increase by 7.6% annually from fiscal year 2019 to 2023.

Conclusion

As required, the City's plan projects a surplus in each of the five years as indicated in the table on the following page.

Through this plan, the City is building a fund balance of slightly under 5% of total expenditures by FY2023. The City feels that they will have made reasonable progress through this plan and will be in a strong position to continue building the appropriate fund balances far into the future.

Actual results may differ from the estimates made in this plan. However we believe that the underlying estimates are reasonable based upon our prior experience and current economic conditions.

Assumptions and Commentary for the Water Pollution Control Revenue Forecast:

Revenue projections for the fiscal year 2019-2023 budget contains the following assumptions:

- Sewer use rate is \$426 for FY 2019. This rate is expected to decrease to \$422 in FY 2020 and then grow to \$430 in FY 2023.
- Charges to the Town of Orange for joint services rendered are expected to increase 3% annually over the next five fiscal years. West Haven is engaging a consultant to review certain aspects of the contract between West Haven and Orange to determine that the amounts billed to Orange are proper. P

Assumptions and Commentary for the Water Pollution Control Expenditures Forecast:

Payroll/Personal Services

Payroll growth is projected to increase by 2% in fiscal year 2019 and fiscal year 2020, consistent with the contract that has been collectively bargained with Water Pollution Control employees. There is no projected increase in fiscal years 2021, 2022 and 2023. Overtime is expected to decline in fiscal year 2020 and remain flat over the next 3 fiscal years as two employees will be returning from long term leave, which will lead to a decline in overtime. We have included a contingency for a 1% payroll increase in fiscal years 2022 and 2023.

Non-Payroll Expenses

The plan utilizes the Federal Reserve Bank's inflation expectations model in allowing for expected increases in general non-payroll related expenses. This rate approximates 2% each year during the five year plan. Because the U.S. Environmental Protection Agency and the Connecticut Department of Environmental Protection exercise significant jurisdiction over the Water Pollution Control operations (including operating under a Consent Decree), the plan does not anticipate any reduction in non-payroll expenses.

In order to build up the fund balance reserve to approximately \$2.5M, which represents approximately 20% of budgeted expenditures, the City has included a contingency reserve each year to build that fund balance. ^Q

Debt Service

Debt Service principal and interest payments for FY2019 through FY2023 includes amounts outstanding as of the beginning of FY 2019 as well as debt service associated with capital debt offerings for fiscal years 2019 through 2023. The Water Pollution Control fund expects to issue new debt each year to fund capital projects associated with the EPA Consent Decree Order as well as other sewer system upgrades. A transfer from Water Pollution Control to the City for its share of the debt service is included in City revenues for each of the five years. ^R

Health and Other Post-Employment Benefits (OPEB)

Health and Other Post-Employment Benefits costs are included in the budget expenditure line for fringe benefits. For fiscal year 2019, the plan's budgeted health insurance costs are based on Segal Consulting's analysis of budget projections including a 3% self-fund claims margin. These costs are projected to increase by 7.6% annually from fiscal year 2019 to 2023.^N

Conclusion

As required, the City's plan projects that the Water Pollution Control fund will break even in each of the five years as indicated in the table on the following page. Amounts include a contingency reserve to begin to reestablish a fund balance reserve for the fund.

Actual results may differ from the estimates made in this plan. However we believe that the underlying estimates are reasonable based upon our prior experience and current economic conditions.

2019-20 2020-21 2021-22

2022-23

GF NOTE: The schedule of total debt above represents the amounts originally included for each year of debt service on the general fund. The "Current Model" column represents the final debt service amounts excluding BANs. In FY2019, the City's original plan excluded approximately \$189 thousand in interest related to a proposed City G.O. bond debt issuance which was accounted for in every remaing plan year after 2019. In FY2020-2023, the client included proposed Clean Water Fund debt issuances in the general fund schedule which should have been accounted for on the WPCA fund. Therefore, those amounts were removed from the general fund added to the WPCA fund.

WPCA NOTE: For FY19-23, WPCA intends to issue capital improvement bonds to fund capital projects related to the EPA consent decree and sewer pump station upgrades. The debt payout schedule prepared by the city's financial advisor (as seen above in 'WPCA Total Debt") incorporates debt issuances to fund 100% of the EPA consent decree additions and 100% of the identified proposed sewer pump upgrades. The City's 5 year plan includes debt service for 100% of the EPA consent decree projects and approximately 100% of \$374k of the proposed sewer pump upgrades in FY 2020 , 50% of \$1.29M in FY 2021, 35% of \$1.86M in FY 2022, and 30% of \$2.28M in FY 2023. We do not believe that delaying these projects will significantly impact the effectiveness and efficiency of the WPCA operations. The additional debt shown in the model (\$155 thousand a year, refer to following page) is for additional projects that were not included in the consultant's debt schedules.

Independent Fire Districts

The City currently has two independent fire districts which are not part of the City's financial reporting entity. As such, we do not have visibility into their operations or their financial condition.

However, at the request of the MARB, we were able to obtain, under the Connecticut Freedom of Information Act, information about the other post-employment benefits liability. Those liabilities are as follows:

WHFD OPEB- 30,554,300

WSFD OPEB - 23,514,840

Please note that, at this time, the Fire Districts indicated that they are not able to provide mill rate information on a prospective basis for five years. They indicated that the nature of the fire service and the operations of the independent fire districts, the impact of collective bargaining obligations, the amount of state aid and federal grant funding received, grand list and the like greatly affect the budget that is adopted by the District and its taxpayers from year to year. Nevertheless, the current mill rate for real property and motor vehicles is WHFD 11.99 and 8.0 WSFD 10.129 and 8.0 respectively.

Finally, the Fire District's acknowledged that there could be a possible study of fire operations in West Haven. The Fire Districts believe that the input of the independent fire districts is critical to this process, and they would gladly participate in an in-house taskforce of the fire service in West Haven that includes representatives of all stakeholders. However, they noted that any change to the current structure to the independent fire districts would require certain processes and procedures in accordance with applicable law.

The City has previously obtained a study evaluating possible alternatives in consolidating the various independent fire districts in the City. The study was conducted in 1996 by the widely respected MMA Consulting group. Response capability under an organizational restructuring would improve fire department deployment capabilities and would:

- Require less unit replacement.
- Redeployment strategy will provide more effective service delivery.
- Effective supervisory and command structure.
- Increase in ladder company crew sizes, which increases safety and effectiveness.
- More opportunities for career development of personnel.
- Can ensure effective use of recourses.

This 1996 study suggested that, if the recommended changes through consolidation were implemented, estimated savings of approximately \$228k per year would result, which is approximately \$367k in today's dollars. There have been numerous technological and other innovations since the date of that 1996 report which may yield additional savings.

We are in the process of engaging MMA to conduct a new study for the "organizational restructure" of WHFD to be completed by December 1^{st} 2018 that addresses the following.

- Administrative savings associated with a WHFD "organizational restructure."
- Insurance and pension savings associated with a WHFD "organizational restructure."
- Evaluation of a potential Mill Rate increase/decrease for constituents in the First Fire and West Shore districts.

Please note that MMA Consulting has not committed to conducting a 2018 study. We are in contact with the National Fire Protection Agency (NFPA), the U.S. Fire Administration and the Center for Public Safety Management for assistance in procuring a firm with the capability of administering a study on the three fire district administrations of West Haven, CT.
