1. The Connecticut Criminal Justice System and the State Administrative Agency (SAA)

The State of Connecticut has a centralized and unified criminal justice system. Connecticut is divided into 169 municipalities. There is no county government. There is no overlap of functions such as might arise with county government or a multi-tier court system. The Judicial Branch operates a single tier, unified court system with an intermediate appellate court and a supreme court. With the exception of local police services in the larger communities, all criminal justice functions are provided by state agencies.

All of the criminal and juvenile justice formula grant programs emanating from the U. S. Department of Justice, except the Victims of Crime Act, are administered by the same unit within the Criminal Justice Policy and Planning Division of the Office of Policy and Management (OPM). The Office of Policy and Management, the state administrative agency (SAA) for the JAG Grant, is well positioned to coordinate JAG Grant activities with other federal and state initiatives given that it is the state's budget and planning agency.

In addition to serving as the SAA for the JAG grant, the Criminal Justice Policy and Planning Division (CJPPD) of OPM is statutorily required to develop strategic plans to improve the outcomes and operation of the criminal justice system. The CJPPD collaborates with the state criminal justice agencies and local governments in assessing and analyzing existing functions and identifying opportunities for improvements in services to promote greater public safety. The CJPPD Undersecretary serves as the chair of the **Criminal Justice Policy Advisory Commission (CJPAC)**. By statute (Sec. 4. Section 18-87j), the CJPAC is directed to:

- (1) Develop and recommend policies for preventing prison and jail overcrowding;
- (2) Examine the impact of statutory provisions and current administrative policies on prison and jail overcrowding and recommend legislation to the Governor and the General Assembly;
- (3) Research and gather relevant statistical data and other information concerning the impact of efforts to prevent prison and jail overcrowding and make such information available to criminal justice agencies and members of the General Assembly;
- (4) Advise the undersecretary of the Criminal Justice Policy and Planning Division on policies and procedures to promote more effective and cohesive state criminal justice and juvenile justice systems and to develop and implement the offender reentry strategy.

2. Statement of Need

The totality of the service needs of the Connecticut criminal justice system can best be demonstrated through the examination of the of the budgeted entities and organizations of Connecticut state agencies and organizations, municipal law enforcement agencies and the non-profit community sector serving offenders and victims. **Table 1** provides a comprehensive list of the budgeted entities that make up the Connecticut criminal justice system.

Table 1
Budgeted Entities and Organizations
Of the Connecticut Criminal Justice System

Entity/Organization	Proposed Gov's Budget FY 2020
<u>Courts/Probation/Juvenile Justice</u>	
Judicial Branch	\$516,227,000.00
Court Support Services Division (included in JUD above)	
<u>State Law Enforcement/Prosecution</u>	
Chief State's Attorney	\$51,147,000.00
Department of Emergency Services and Public Protection (DESPP)	\$253,281,000.00
State University Police Forces (UCONN, ECSU, CCSU, SCSU, WCSU) (estimated salaries - sworn staff only)	\$9,590,000.00
<u>Defender Services</u>	
Chief Public Defender	\$66,773,000.00
<u>Adult Corrections</u>	
Department of Correction	\$616,477,000.00
Board of Pardons and Paroles (included in DOC above)	
<u>Mental Health and Addiction Services</u>	
Department of Mental Health and Addiction Services (DMHAS)	\$698,697,000.00
<u>Juvenile Delinquency and Child Protective Services</u>	
Department of Children and Families (DCF)	\$788,802,000.00
Office of the Child Advocate	\$670,000.00
<u>Victim Advocacy</u>	
Office of the Victim Advocate	\$406,000.00
<u>Forensic Services</u>	
Office of the Chief Medical Examiner	\$7,015,000.00
<u>Data/Research/Planning and Policy/System Improvement</u>	
Office of Policy and Management	
Criminal Justice Policy and Planning Division (estimated salary expense)	\$1,600,000.00
Grand Total State Government	\$3,010,685,000.00
<u>CT Municipal Law Enforcement</u>	
CT Municipal Law Enforcement Agencies (estimated salaries - sworn staff only)	\$490,000,000.00
Grand Total Municipal Government	\$490,000,000.00
<u>Services in Private/Non-profit community</u>	
Offender Services in private/non-profit community	N/A
Victim Services in private/non-profit community	N/A
Grand Total Private/Non-profit Community	N/A
Grant Total Connecticut Criminal Justice System	\$3,500,685,000.00

3. How the State Allocates JAG Program Funding

Connecticut's allocation of its annual JAG allocation of \$1.6 to \$1.7 million dollars is generally dependent upon an analysis of which agency/entity may be requesting/requiring funding, what is the nature of the project being proposed, does the project have performance metrics that can be adequately measured, and how, and at what decision point, will the criminal justice system be measurably impacted through increased process flow efficiencies, firm/sustainable cost reductions and outright diversion from the criminal system.

Those allocation decisions may be further impacted by current Administration criminal justice priorities, current or unforeseen violent crime events, Federal mandates, issue areas and priorities emanating from the Connecticut General Assembly or the wide variety of criminal justice policy and planning groups that are meeting regularly to examine criminal justice issues in Connecticut.

The Criminal Justice Policy and Planning Division of the Office of Policy and Management holds a unique place in the Connecticut criminal justice system owing to its enabling legislation in 2005 (see Public Act 05-249 and codified in [Sec. 4-68m through 4-68r of the Connecticut General Statutes](#)). The Criminal Justice Policy and Planning Division (CJPPD) has been given deep and broad statutory authority and mandates to coordinate criminal justice policy, planning and data collection activities across the Executive and Judicial branches of government.

The State of Connecticut is well placed to be a national leader in its data driven criminal justice policy, planning and program evaluation analyses owing to its statutory mandates to produce (1) a monthly indicator document of system variables (which have been tracked since 2006), (2) an annual prison population forecast report and (3) an annual recidivism study of Connecticut offenders.

Chart 1 below (e.g., the process flow and systemic decision points in the Connecticut criminal Justice System) presents the monthly input and output model designed to explain the flow of offenders through the Connecticut criminal justice system – from arrest to admissions status to release status and discharge. These statistics are adjusted every month (and published regularly) based on actual counts of offender movements through the system.

The state of Connecticut will continue to use this input/output model and its more comprehensive monthly indicators report (see **Appendix A: Monthly Indicators Report**) to analyze and evaluate project proposals put forth under the JAG program for potential funding.

Chart 1: Connecticut Criminal Justice System: Monthly Counts and Flows

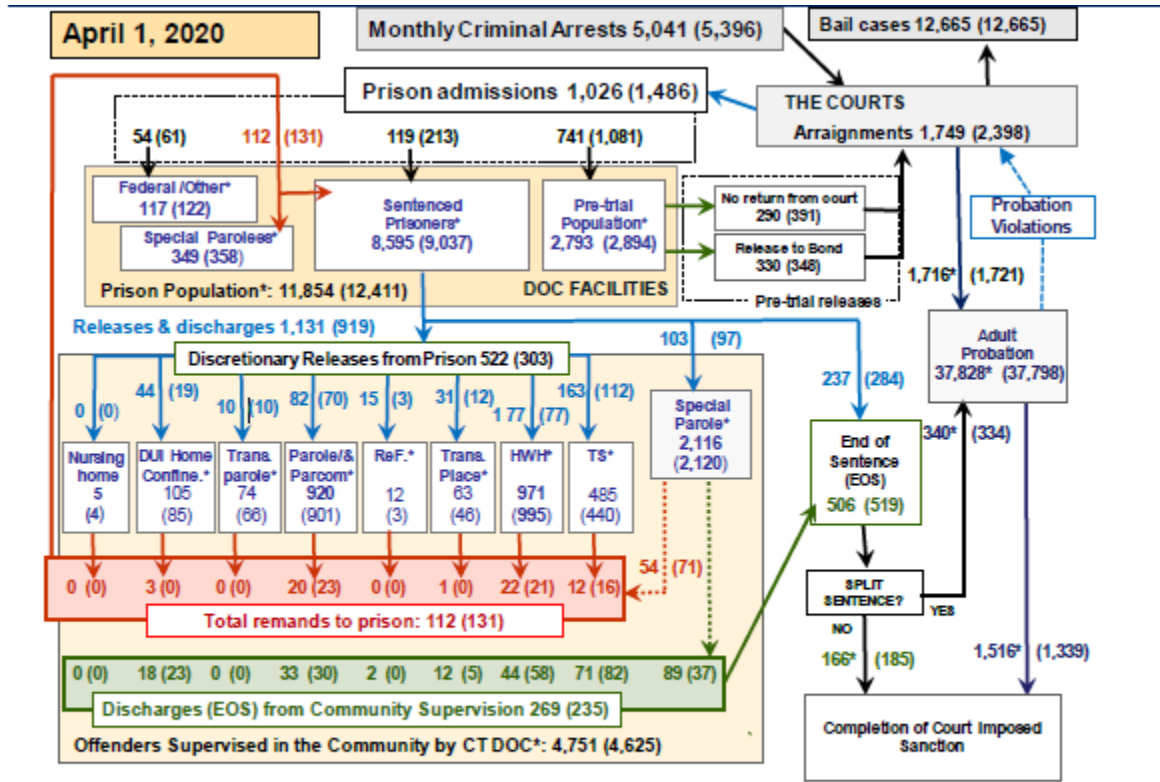

Chart 2 contains monthly operations data for March 2020 and daily counts reported on April 1, 2020. Asterisks (*) indicate the daily count on April 1st. Figures for last month are enclosed by parentheses. Sources: Arrests – CRMVS, Court and probation data - CSSD, all other data - CT DOC.

Source: April 2020 Monthly Indicator Report (April 2020). K. Baudoin, K. Bobula, Office of Policy and Management, Criminal Justice Policy and Planning Division

4. Consultation with Connecticut Criminal Justice Stakeholders

A. Criminal Justice Stakeholder Policy and Planning Groups

It is important to understand the absolute number and breadth of Criminal Justice Stakeholder Policy and Planning Groups that meet regularly to analyze and evaluate the state of the Connecticut criminal justice system from unique and alternative points of view. Project proposals for the use of JAG funds can, and often do, emanate from the deliberations of these statewide criminal justice policy and planning groups.

B. Public Access to Criminal Justice Public Policy Decision-making

It is also important to note the majority of these statewide criminal justice policy and planning meetings are televised via streaming media and dedicated cable television channels found throughout Connecticut. The Connecticut Network (CT-N) is funded by the Connecticut General Assembly and represents itself as the citizen's source for complete and balanced television and webcast coverage of Connecticut state government and public policy.

"It is the mission of the Connecticut Network to provide Connecticut's citizens with access to unbiased information about state government deliberations and public policy events through noncommercial television coverage and other relevant technologies in order to educate the public and advance the public's understanding of political processes and the development of public policy."

The Connecticut Network (CT-N) web page can be found at this [web address](#).

On March 10, 2020, in response to the global pandemic of COVID 19, Governor Ned Lamont issued Executive Order No. 7, in which he declared a public health emergency and civil preparedness emergency throughout the State of Connecticut, pursuant to Sections 19a-131 a and 28-9 of the Connecticut General Statutes. He has issued numerous Executive Orders, including orders directing individuals to stay at home during the pandemic. Due to this change in circumstances, public meetings are being held on a variety of platforms, including via videoconference and teleconference lines. Best efforts continue to be made by CJPPD and other system stakeholders to make these meetings available to the public and stakeholders utilizing CT-N, Microsoft Teams Live Events, YouTube, the CJPPD website and other such technologies.

C. The Criminal Justice Policy Advisory Commission (CJPAC)

The Criminal Justice Policy Advisory Commission, commonly referred to as CJPAC, is the principle cross-branch, interagency planning group that meets regularly to address strategic planning and policy issues affecting the Connecticut Criminal Justice system. By statute, the CJPAC is chaired by the Undersecretary for Criminal Justice Policy and Planning Division of the Office of Policy and Management.

CJPAC includes the following state and local government agencies and non-profit community-based organizations. Each of the organizations listed below is [hyperlinked](#) to their home page to provide for a

more detailed evaluation and analysis of their core criminal justice functions in Connecticut State government and the non-profit community.

- **[Department of Correction \(DOC\)](#)**
All jails and prisons in Connecticut are operated under authority of DOC.
- **[Judicial Branch Courts \(JUD\)](#)**
All criminal courts in Connecticut are operated under authority of the Judicial Branch.
- **[Judicial Branch Court Support Services Division \(JB CSSD\)](#)**
The Court Support Services Division (CSSD) oversees pretrial services, family services, divorce and domestic violence, probation supervision of adults and juveniles as well as juvenile residential centers including Juvenile Detention. CSSD also administers a network of statewide contracted community providers that deliver treatment and other support services
- **[Department of Mental Health and Addiction Services \(DMHAS\)](#)**
DMHAS is responsible for publicly funded mental health and substance abuse services statewide. DMHAS Forensic Division (DMHAS DFS) funds services and housing for people with mental illness and/or addictions who are justice involved.
- **[Department of Emergency Services and Public Protection \(DESPP\)](#)**
DESPP includes the Division of State Police and serves as the local law enforcement agency for sixty-eight small local government jurisdictions.
- **[Division of Public Defender Services \(DPDS\)](#)**
DPDS provides legal counsel to “indigent” accused adults and juveniles state-wide.
- **[Division of Criminal Justice \(DCJ\) \(Prosecutors\)](#)**
All criminal matters in Connecticut are prosecuted under authority of DCJ.
- **[Connecticut Police Chiefs Association \(CPCA\)](#)**
Represents local government law enforcement perspective of policy reform.
- **[Connecticut Coalition Against Domestic Violence \(CCADV\) \(victim advocacy organization\)](#)**
CCADV is a non-profit organization which advocates for policy reforms to protect victims of domestic violence.
- **[Connecticut Alliance to End Sexual Violence \(CAESV\) \(victim advocacy organization\)](#)**
CAESV is a non-profit organization which advocates for policy reforms to protect victims of sexual violence.
- **[Public Members](#)**

CJPAC has met regularly, virtually every month, since 2006. CPAC’s member list, agendas, meeting minutes, presentations and meeting videos are available at this [web address](#). **Appendix B, Criminal**

Justice Policy Advisory Commission, of this document includes those same items for the 22 month period June 2017 to April 2019.

D. Criminal Justice Information System (CJIS) Governing Board

The CJIS Governing Board, created by Public Act 99-14, in 1999 was charged with the following: "design and implement a comprehensive, state-wide system to facilitate the immediate, seamless and comprehensive sharing of information between all state agencies, departments, boards and commissions having any cognizance over matters relating to law enforcement and criminal justice, and organized local police departments and law enforcement officials."

Additionally, P.A. 08-01 expanded the membership of the governing board and added provisions for an executive director and staff to fulfill the requirements of the statutory mandates. The new system was established as the Connecticut Information Sharing System (CISS). CISS is the technical capability to be used by agencies with criminal justice responsibilities to improve the sharing of actionable information to those agencies involved in the management of crime data and criminal offenders.

CJIS Governing Board stakeholder agencies include the following State agencies and organizations. Each of the organizations listed below is **hyperlinked** to their home page to provide for a more detailed evaluation and analysis of their core criminal justice functions in Connecticut State government.

- [Department of Emergency Services and Public Protection](#)
- Judicial Branch's [Office of Chief Court Administrator](#)
- Judicial Branch's [Court Support Services Division](#)
- Judicial Branch's [Superior Court Operations](#)
- Division of Criminal Justice, [Office of the Chief State's Attorney](#)
- Division of Public Defender Services, [Office of Chief Public Defender](#)
- [Department of Correction](#)
- [Board of Pardons and Paroles](#)
- [Department of Motor Vehicles](#)
- [Office of Victim Advocate](#)
- Office of Policy and Management, [Criminal Justice Policy and Planning Division](#)
- [Department of Administrative Services](#) IT Services
- [Connecticut Police Chiefs Association](#)

A more complete and comprehensive explanation of the CJIS Governing Board is available at this [web address](#).

E. Connecticut Sentencing Commission

The Connecticut Sentencing Commission has been established by Connecticut General Statutes Sec. 54-300.

The mission of the organization is also articulated within the enabling statute:

“. . .the mission of the commission shall be to review the existing criminal sentencing structure in the state and any proposed changes thereto, including existing statutes, proposed criminal justice legislation and existing and proposed sentencing policies and practices and make recommendations to the Governor, the General Assembly and appropriate criminal justice agencies.”

The Commission is made up of members from the Judicial Branch, Executive Branch criminal justice stakeholder agencies, police chiefs, private sector citizens and includes the Undersecretary of Criminal Justice Policy and Planning Division of the Office of Policy and Management. The complete membership list is available at this [web address](#).

A more complete and comprehensive explanation of the Connecticut Sentencing Commission is available at this [web address](#).

F. Juvenile Justice Policy and Oversight Committee (JJPOC)

The Juvenile Justice Policy and Oversight Committee (JJPOC) was established by Section 79, of Public Act 14-217 "to evaluate policies related to the Juvenile Justice system and the expansion of juvenile jurisdiction to include persons sixteen and seventeen years of age".

The JJPOC has met regularly (every 4-6 weeks), beginning in October of 2014. In addition, the JJPOC includes 4 major working groups encompassing approximately 100 participants across all the major juvenile justice stakeholder agencies and Connecticut child advocacy organizations: 1) Cross Agency Data Sharing Workgroup; 2) Recidivism Reduction Work Group; 3) Incarceration Work Group and 4) Diversion Work Group. The work of the committee is facilitated by its research partner: Tow Youth Justice Institute at the University of New Haven Henry C. Lee College of Criminal Justice and Forensic Sciences.

A more complete and comprehensive explanation of the Juvenile Justice Policy and Oversight Committee (JJPOC), the membership list, agendas, meeting minutes, presentations and meeting videos are available at this [web address](#).

G. Racial Profiling Prohibition Project Advisory Board

The Alvin W. Penn Racial Profiling Prohibition Act (Public Act 99-198) was first enacted in 1999 in the State of Connecticut. The law prohibits any law enforcement agency in the state from stopping, detaining, or searching motorists when the stop is motivated solely by considerations of the race, color, ethnicity, age, gender, or sexual orientation of that individual (Connecticut General Statutes Sections 54-1l and 54-1m).

In 2012, the Racial Profiling Prohibition Project Advisory Board was established to advise the Office of Policy and Management (OPM) in adopting the law's standardized methods and guidelines. The Institute for Municipal and Regional Policy (IMRP) at Central Connecticut State University was tasked to help oversee the design, evaluation, and management of the racial profiling study mandated by Public Act No. 12-74 and Public Act No. 13-75, "An Act Concerning Traffic Stop Information." The project staff worked with the state's Criminal Justice Information System (CJIS) to develop a system to collect consistent and universal traffic stop information and submit it to CJIS electronically on a monthly basis.

The Advisory Board is made up of members from Executive Branch criminal justice stakeholder agencies, the Connecticut Department of Motor Vehicles, the Connecticut Department of Transportation, police chiefs, members of the Connecticut General Assembly and human rights and opportunities advocacy organizations - both internal and external to state government. The complete membership list is available at this [web address](#).

A more complete and comprehensive explanation of the Connecticut Racial Profiling Prohibition Project, its annual reports and data repositories is available at this [web address](#).

5. Data Gathering to Support Evidence Based Program Funding

The state of Connecticut has a multitude of existing and proposed processes for gathering data and developing and using evidence-based and evidence-gathering approaches in support of funding decisions.

A. Statutory Foundation for Data Collection and Analysis in Connecticut

The enabling statutes (see Public Act 05-249 and codified in [Sec. 4-68m through 4-68r of the Connecticut General Statutes](#)) for the Criminal Justice Policy and Planning Division provides for comprehensive access to criminal justice system data across the Judicial Branch and key criminal justice stakeholder agencies:

Sec. 68 m (C.G.S)

(e) (1) At the request of the division, the Department of Correction, the Board of Pardons and Paroles, the Department of Mental Health and Addiction Services, the Department of Emergency Services and Public Protection, the Chief Court Administrator, the executive director of the Court Support Services Division of the Judicial Branch, the Chief State's Attorney and the Chief Public Defender shall provide the division with information and data needed by the division to perform its duties under subsection (b) of this section.

(2) The division shall have access to individualized records maintained by the Judicial Branch and the agencies specified in subdivision (1) of this subsection as needed for research purposes. The division, in collaboration with the Judicial Branch and the agencies specified in subdivision (1) of this subsection, shall develop protocols to protect the privacy of such individualized records consistent with state and federal law. The division shall use such individualized records for statistical analyses only and shall not use such records in any other manner that would disclose the identity of individuals to whom the records pertain.

The results of having this kind of comprehensive access to criminal justice system data is clearly demonstrated in the portfolio of research products developed by the **Research Unit** of the Criminal Justice Policy and Planning Division (see next).

B. Criminal Justice Policy and Planning Division Research Unit and Statistical Analysis Center

The Criminal Justice Policy and Planning Division (CJPPD) contains a 3 person Research Unit – led by the director of the state Statistical Analysis Center (SAC). The work of the unit is generally defined by (1) regular (mandated) scheduled reports and (2) special studies and statistical analyses - generally original research - aimed at (1) identifying critical policy and planning issues through the examination of the demographics or criminogenic behaviors or risk factors of a particular cohort of the incarcerated (or paroled, etc.) inmate population or, (2) endeavoring to understand baseline business process flows of the stakeholder agencies within the Connecticut criminal justice system and the impact of those business process flows on the efficient movement of offenders into and out of the system.

The work of the Research unit can be found (or referenced) on the home page of the Criminal Justice Policy and Planning Division at this [web address](#).

Additional geospatial analyses can be found on the [CT Statistical Analyses Center website](#).

Specific links to a representative sample of the Research unit's work can be found in **Appendix C: Criminal Justice Policy and Planning Division Research Unit and Statistical Analysis Center**.

C. Criminal Justice Information System/CISS Development

The Connecticut Criminal Justice Information System (CJIS) was established to design and implement an information technology system to be used by Connecticut Criminal Justice and Law Enforcement Agencies (LEAs) to share Criminal Justice information in a secure environment, thereby enhancing informed decision-making.

As part of the changes put forth by P.A. 08-01 (later codified as CGS 54-142s), the CJIS Governing Board was charged with designing and implementing a comprehensive, State-wide system to facilitate the sharing of information between all Criminal Justice Agencies. A plan for a new information sharing system, the Connecticut Information Sharing System (CISS), was established.

Now operational, the Connecticut Information Sharing System (CISS) is a comprehensive, state-wide criminal justice information technology system that provides the ability to electronically share offender information within Connecticut's criminal justice community. CISS will take data input from criminal justice databases and make it searchable to law enforcement and justice officials with the proper security clearance and credentials. This information includes data capture of offender violations, as well as the retrieval of judicial, criminal offender, and DMV information. Data can be in text, audio, video, and graphical format. Connecticut's criminal justice community consists of eleven criminal justice agencies with over 23,000 staff members and utilizes fifty-two information systems to support its business needs.

A comprehensive presentation of the benefits of this system is available at this [web address](#).

The development of this project has been supported by a \$60 million investment of State bond funds.

D. Public Act 19-59: An Act Increasing Fairness and Transparency in the Criminal Justice System

A current data development activity in Connecticut, sponsored by Governor Ned Lamont, is centered on the passage of Public Act 19-59: An Act Increasing Fairness and Transparency in the Criminal Justice System.

According to the language of the Public Act, the Division of Criminal Justice (the state's prosecuting attorneys), in consultation with the Judicial Branch, the Department of Correction and the criminal Justice Information System Governing Board, shall collect:

(1) Arrests, including data on citations, summonses, custody arrests, warrants and on-site arrests;

- (2) Arraignments of individuals in custody;
- (3) Continuances;
- (4) Diversionary programs, including data on program applications, program diversions, successful completions by defendants of such programs, failures by defendants to complete such programs and people in diversion on the first of the month;
- (5) Contact between victims and prosecutorial officials, including data on cases involving victims;
- (6) Dispositions, including data on pending cases and cases disposed of;
- (7) Nonjudicial sanctions, including data on nonjudicial sanctions applied, successful completion of nonjudicial sanctions, failure of nonjudicial sanctions and persons on nonjudicial sanction status on the first of the month;
- (8) Plea agreements, including data on total plea agreements, agreements involving probation, agreements involving prison, other agreements and prosecutor's last best offer;
- (9) Cases going to trial, including data on cases added per month, pending trial cases, plea offers accepted by the court per month, plea offers rejected by the court per month, disposition by trial, disposition involving probation, disposition involving prison and other dispositions;
- (10) Demographics, including data on race, sex, ethnicity and age;
- (11) Court fees or fines, including those imposed by the court at the disposition of the defendant's case and any outstanding balance the defendant may have on such fees or fines;
- (12) Restitution amounts ordered pursuant to subsection (c) of 56 section 53a-28 of the general statutes, including any amount collected by the court and any amount paid to a victim; and
- (13) The zip code of the defendant's primary residence.

Per the Public Act, the Office of Policy and Management must make a presentation of their findings to the Connecticut Criminal Justice Commission regarding their findings based upon an analysis of this data.

The complete Public Act language is available at this [web address](#).

E. NCHIP Investment in Critical State Criminal History Repositories

The Office of Policy and Management is also the prime recipient of National Criminal History Improvement Program (NHIP) grant funds from the Department of Justice. This grant funds are being used to both enhance and rebuild the two major criminal history repositories in the Connecticut criminal justice system:

- The **Criminal Motor Vehicle System (CRMVS)** - a statewide Judicial Branch Criminal and Motor Vehicle Court Case Management application.
- The **Computerized Criminal History (CCH)** database system managed by the Department of Emergency Management and Public Protection

Among many NCHIP projects implemented over the years, this funding stream has been used to respond to NCHIP goals and objectives for improving Connecticut's criminal history system, enhancing participation in the Interstate Identification Index (III), interfacing with NICS, implementing a sex offender registry, providing additional offender data involving stalking and child, disabled, or elder

abuse, implementing the National Crime Prevention and Privacy Compact, and enhancing capability to respond to the Brady Act and National Child Protection Act requirements.

Table 2
National Criminal History Improvement Program
(NCHIP)
Awards 2014-2019

Year		NCHIP Award
2014		\$1,931,188.00
2015		\$2,170,386.00
2016		\$2,157,495.00
2017		\$1,606,122.00
2018		\$3,342,734.00
2019		\$2,535,987.00
	Total	\$13,743,912.00

6. How Grants Will Be Used to Improve the Administration of the Criminal Justice System

A. Priority JAG Policy, Planning and Program Areas

The State of Connecticut will utilize Federal JAG grant funds received to analyze, evaluate and/or implement evidenced based programming to address one or more of the following activities relative to improving and enhancing the Connecticut criminal justice system:

- Advise and assist the General Assembly in developing plans, programs for improving the effectiveness of the Connecticut criminal justice system;
- Determine the long-range needs of the Connecticut criminal justice system and recommend policy priorities for the system;
- Identify critical problems in the Connecticut criminal justice system and recommend strategies to solve those problems;
- Determine long-range information needs of the Connecticut criminal justice system and acquire that information;

- Analyze and assess the cost-effectiveness of the use of state and local funds in the Connecticut criminal justice system;
- Provide for the support of victim advocacy and enhanced victim resources to provide more transparent and understandable information
- Fund, analyze , evaluate and measure the success of community-based services and programs in reducing recidivism in the Connecticut criminal justice system;
- Fund, analyze, evaluate and measure services and programs to build and implement a comprehensive reentry strategy for Connecticut criminal justice system;
- Fund, analyze, evaluate and measure services and programs to address the opioid and heroin addiction epidemic within the Connecticut Criminal Justice system, with a focus on fentanyl detection;
- Fund, analyze, evaluate and measure services and programs in the criminal justice system to address the COVID-19-pandemic, to the extent that there are needs beyond what can be covered by the Coronavirus Emergency Supplemental Funding grant;
- Fund, analyze , evaluate and measure services and programs to ensure community safety and prevent gun violence through the support of multi-jurisdictional Task Forces to ensure community safety and prevent gun violence through enforcement of firearms laws and reduction in trafficking of illegal firearms; support evidence-based gun violence intervention and prevention strategies;
- Fund, analyze, evaluate and measure services and programs to address the National Incident-Based Reporting System (NIBRS) promulgated by the FBI in order to achieve compliance by the nation Year 2020 deadline.

Program Priority #1: Support the Criminal Justice Policy and Planning Division (CJPPD) in continuing to coordinate and lead the development of criminal justice policy and planning in the State of Connecticut.

Objectives

1. Advise and assist the General Assembly in developing plans, programs for improving the effectiveness of the Connecticut criminal justice system;
2. Determine the long-range needs of the Connecticut criminal justice system and recommend policy priorities for the system;
3. Identify critical problems in the Connecticut criminal justice system and recommend strategies to solve those problems;
4. Determine long-range information needs of the Connecticut criminal justice system and acquire that information;
5. Analyze and assess the cost-effectiveness of the use of state and local funds in the Connecticut criminal justice system;

Priority #2: Developing and Implementing programs that provide assistance to victims of crimes

1. provide for the support of victim advocacy and enhanced victim resources to provide more transparent and understandable information on the following issues: the criminal justice process; victimization; victims' legal rights and protections; crisis intervention; emotional support to victims; safety planning; helping victims submit comments to courts and parole

boards; helping victims find shelter and transportation; providing referrals for other services for victims; crime prevention.

2. provide for the capability to establish and maintain accountability for participants in the criminal justice system as it relates to evidence collection and analysis.

Priority #3: Fund, analyze, evaluate and measure services and programs to address the opioid and heroin addiction epidemic within the Connecticut Criminal Justice system, with a focus on fentanyl detection;

BJA Area of Emphasis: Fentanyl Detection

Objectives

1. Collaborate with the Department of Mental Health and Addiction Services to provide technical assistance to implement OJP promising practices for fentanyl detection;
2. Collaborate with local police agencies to improve awareness and engage in statewide initiatives to provide access and resources for in-state training for local law enforcement response to the heroin and opioid epidemic, particularly relating to fentanyl detection.
3. Collaborate with the Office of the Chief Medical Examiner to continue tracking and understanding fentanyl data, particularly with regard to how that data can inform criminal justice system responses;

Priority #4: Fund, analyze, evaluate and measure services and programs to build and implement a comprehensive reentry strategy for Connecticut criminal justice system;

BJA Area of Emphasis: Reduce Violent Crime Objectives

1. Support initiatives to reduce recidivism and provide low-risk offenders with opportunities to be productive members of society;
2. Assess and evaluate a statewide, multiagency system that assesses the risk and needs of each offender, targets those needs through provision of evidence based programs and interventions, then employs management and supervision techniques in accordance with identified risks requirements of offenders.
3. Identify and address barriers to the successful transition of offenders from incarceration to the community, including but not limited to barriers relating to housing, education, and employment;
4. Encourage and provide facilitation for Connecticut criminal justice stakeholder agencies and community partners to work collaboratively to ensure that offenders in the criminal justice system successfully reintegrate into their home communities.

Priority #5: Fund, analyze, evaluate and measure the success of institutional and community-based services and programs in reducing recidivism in the Connecticut criminal justice system;

Objectives

1. Support initiatives to reduce recidivism and provide low-risk offenders with opportunities to be productive members of society;
2. Expand interventions and treatment options for women offenders held in jail and prison facilities as well as women offenders in a community-based corrections program. Reduce risk of recidivism through evidence-based protocols and practices ;

3. Assess and evaluate programs that are tailored specifically to the individual, or cohorts with a similar criminogenic profile, that comprehensively addresses their recidivism risk factors,

Priority #6: Fund, analyze, evaluate and measure services and programs through the support of approximately 100 local police agencies and 2 to 3 multi-jurisdictional Task Forces to ensure community safety, to target sources of controlled and illegal substances and to prevent gun violence through enforcement of firearms laws and reduction in trafficking of illegal firearms; support evidence-based gun violence intervention and prevention strategies;

BJA Area of Emphasis: Reducing Violent Crime

BJA Area of Emphasis: Officer Safety and Wellness

Objectives

1. Continue to use the JAG Variable Pass-through (VPT) and “Less than 10K” allocations to fund local police agency initiatives designed to ensure community safety, prevent gun violence
2. Fund the ongoing DESPP-led Statewide Narcotics Task Force; facilitate the provision of local officer stipends to sustain local police department participation;
3. (Within available funding) Fund one or more multi-jurisdictional Task Forces who are engaged in activities designed to ensure community safety and prevent gun violence;

Priority #7: Fund, analyze, evaluate and measure services and programs to address the National Incident-Based Reporting System (NIBRS) promulgated by the FBI in order to achieve compliance by the Year 2021 deadline.

Objectives

1. Collaborate with the Crimes Analysis unit at the Department of Emergency Services and Public Protection to facilitate and ensure their crime data repository is National Incident-Based Reporting System (NIBRS) compliant by the Federal mandated deadline of 2021;
2. Identify and collaborate with non-NIBRS compliant local police departments to facilitate and ensure their crime data reporting and local crime data repositories are National Incident-Based Reporting System (NIBRS) compliant by the Federal mandated deadline of 2021;

Appendix A

Monthly Indicators Report

OPM - Criminal Justice Policy & Planning Division Monthly Indicators Report

Highlights

- On April 1, Connecticut's correction population (jail and prison) was 11,854, a level last seen in 1993.
- Between the beginnings of March and April, the number of people in Connecticut's jails and prisons fell 4.5% the largest monthly percent drop on record. In absolute terms, the 557-person decrease, from 12,411 to 11,854, was the second-largest monthly decrease on record.
- Statewide arrests in March 2020 were 11 percent lower than March 2019 (chart 5). The drop in March 2020 contrasts with the first two months of the year, when arrests essentially matched the first two months of 2019. The factors causing the drop in arrests, which are the criminal justice system's primary external driver of growth, is an issue warranting further analysis as more data become available.
- March's pretrial admissions to the DOC (741) were the lowest on record. By contrast, the 2019 average monthly pretrial admission (1,200) was 62 percent higher. Pretrial admissions typically comprise approximately three-quarters of DOC admissions. Admissions for the other three admission categories also dropped significantly in March (see Table 2a).
- Between February and March, the number of discretionary releases from prison increased 72 percent, from 303 to 522, as human resources were diverted to prepare for the release of approved, suitable, discretionary populations prior to the end of their term of incarceration (see Chart 2a).

Prison Population Forecast

This is the first Monthly Indicators Report to analyze data obtained following Governor Lamont's March 10 emergency declarations regarding the COVID-19 pandemic. The public-health emergency has required the criminal justice system to: adapt to ever-changing circumstances, address challenges around the clock, and prepare for countless contingencies. In March, thanks to exhaustive work and collaboration among practitioners and community partners, the criminal justice system maintained essential operations during the disruption cause by the public-health emergency.

With less than a month of data to analyze following the emergency declarations, we are reluctant to note beginnings of trends or offer hypotheses about the impact of societal factors on the criminal justice system. We do observe several phenomena, which are noted under Highlights and Chart 2a.

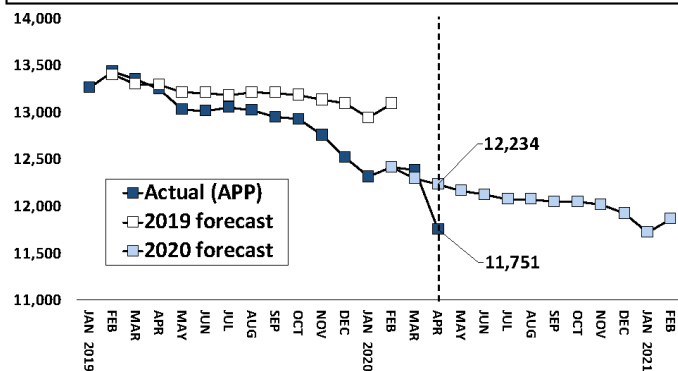

Numerous factors, namely the sharp decrease in admissions and the increased use of discretionary release, drove to the record monthly percent drop in the correction population. After the significant changes in March, it is not surprising that the forecasted correction population, published in in January, is 483 people above the actual population.

Avg. Daily Count (ADC) for 1st week of month

Chart 1 – Actual prison population against the OPM forecasts
 January 1, 2019 through February 1, 2021

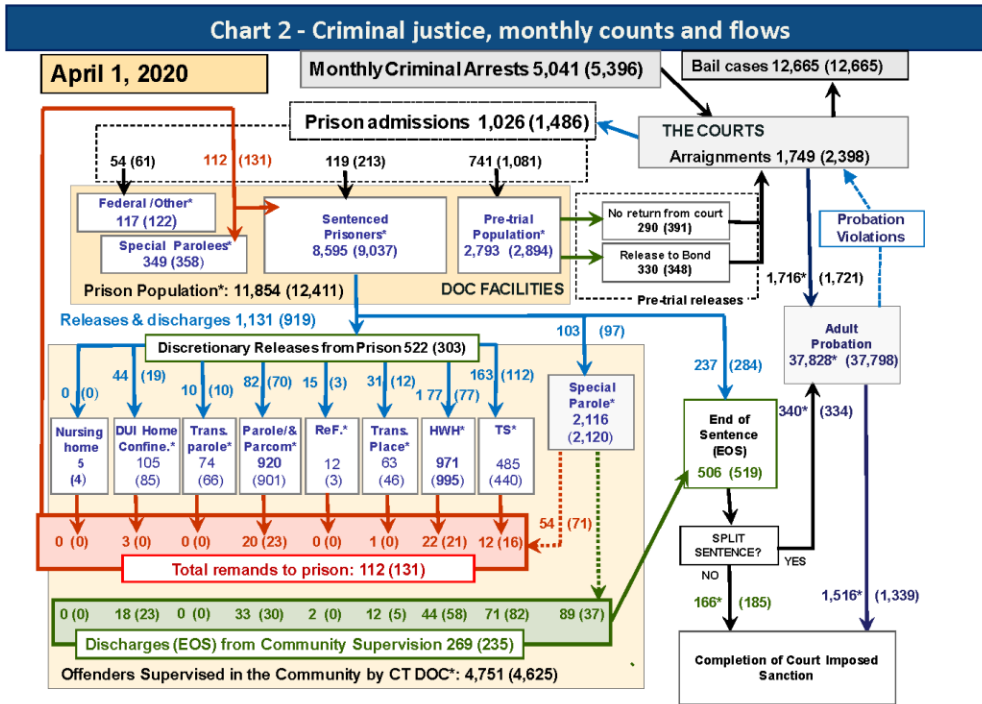

Chart 2 contains monthly operations data for March 2020 and daily counts reported on April 1, 2020. Asterisks (*) indicate the daily count on April 1st. Figures for last month are enclosed by parentheses. Sources: Arrests – CRMVS, Court and probation data - CSSD, all other data - CT DOC.

In March, more sentenced inmates (522) were released prior to the end of their sentence through discretionary release than during any month since August 2017, when the sentenced population was 20 percent higher than today.

Every month, between 600 and 900 sentenced inmates (excluding special parolees) leave prison. On average, a little more than half are released, using one of the statutory release mechanisms shown on Chart 2, before completing the full term of their sentence. In March, however, the ratio rose to nearly seven out of 10 transition plans, using approved home plans, halfway houses. These efforts resulted in the most discretionary

people released from correction facilities to the community without supervision. (The DOC is legally required to release inmates from its custody at the conclusion of their court-stipulated sentence.)

A tertiary effect of DOC's shifting of human resources, in partnership with its criminal justice and community partners, to focus on transition planning is the bed space created inside its system. The additional space is helping the department respond to the impact of the public-health emergency inside its facilities.

Appendix B

Criminal Justice Policy Advisory Commission

The Criminal Justice Policy Advisory Commission, commonly referred to as CJAC was established under [Public Act 06-193](#). It was formerly the Prison and Jail Overcrowding Commission.

CJPAC is chaired by the OPM Undersecretary for the Criminal Justice Policy and Planning Division (CJPPD). The current Undersecretary is [Marc Pelka, marc.pelka@ct.gov](#); (860) 418-6394.

The meeting schedule for Criminal Justice Policy Advisory Commission can be found on this [web page](#):

Meetings held during the last year (April 2019 to April 2020) are also presented in the table below, which includes links to videos of each meeting that were broadcast on the Connecticut Network (CT-N) and are made available for broader viewing to the general public through cable television public access channels.

April 30, 2020	CJPAC Video (MP4 file works best using Internet Explorer > Windows Media Player) - April 2020 Agenda/ Minutes <i>Undersecretary Marc Pelka and Kyle Baudoin - Lead Planning Analyst-Criminal Justice Policy and Planning Division, Office of Policy and Management</i> Trends Presentation and Monthly Indicators Report
Mar. 26, 2020	Meeting cancelled Agenda/ Minutes
Feb. 27, 2020	<i>Charlene Russell-Tucker - Deputy Commissioner of Connecticut State Department of Education and Ajit Gopalakrishnan - Chief Performance Officer of Connecticut State Department of Education</i> Presentation on the 2018-2019 Report of Student Discipline in Connecticut Public Schools Agenda / Minutes

Appendix C

Criminal Justice Policy and Planning Division Research Unit and Statistical Analysis Center

The **Research, Analysis & Evaluation Unit** produces research and analysis on a range of criminal justice issues in Connecticut. In addition to its regularly scheduled publications, the Unit also publishes studies on special topics for executive branch criminal justice agencies. The unit has three staff members, and the Director is also the CT Statistical Analysis Center SAC director. Examples of the unit's work, which directly influence the policy and planning decisions of CPAC and its stakeholder agencies, are listed below.

Regularly Scheduled Publications

1. **Monthly Indicators Report:** The Monthly Indicators Report collects and publishes data from a variety of state criminal justice agencies. The primary goals of the Report are to monitor trends in prison admissions and releases and to provide policy makers and the public with a current look at the state's prison system and its prisoners. The Monthly is required by [Public Act 05-249](#). Twelve years of Monthly Indicator Reports are available at this web page address:
 - <https://portal.ct.gov/OPM/CJ-About/CJ-SAC/SAC-Sites/Monthly-Indicators/Monthly-Indicators-2019>
2. **Annual Correctional Population Forecast:** The State of Connecticut Annual Correctional Population Forecast Report is published in response to the statutory requirements outlined in [Public Act 05-249](#) that created the Criminal Justice Policy and Planning Division (CJPPD) within the Office of Policy and Management (OPM) and tasked the Division with developing annual population projections for Connecticut's correctional system for planning purposes. Twelve years of Monthly Indicator Reports are available at this web page address:
 - <https://portal.ct.gov/OPM/CJ-About/CJ-SAC/SAC-Sites/Population-Forecast/Population-Forecast>
3. **Annual Connecticut Recidivism Study:** The State of Connecticut Annual Recidivism Study is generated by the Criminal Justice Policy and Planning Division of the Office of Policy and Management (OPM). Seven years of completed recidivism studies are available at this web page address:
 - <https://portal.ct.gov/OPM/CJ-About/CJ-SAC/SAC-Sites/Recidivism-Study/Recidivism-Study>
4. **Risk Reduction Earned Credit Report:** The Risk Reduction Earned Credit (RREC) Report collects and publishes data from a variety of state criminal justice agencies. The primary goals of the Report are to monitor trends in the RREC Program and provide policy makers and the public with a current look at the state's RREC Program and its participants. The Risk Reduction Earned Credit Report is published by the Connecticut Department of Corrections and Connecticut Office of Policy and Management and is required by Public Act No 15-216. Thirty months of data are available at:
 - <https://portal.ct.gov/OPM/CJ-About/CJ-SAC/SAC-Sites/RREC-2019>

Appendix D

The Connecticut Opioid Crisis

Responding to Opioid and Heroin Epidemic

Connecticut data systems indicate 917 people died of drug overdose in 2016, a 27% increase over the 2015 figure. Detailed analysis indicates 52% of 2016 overdose victims been admitted to the DOC prison system and assigned a DOC inmate number; overdoses are probably the single most common cause of death among prisoners within 60 days of release from prison.

Detailed Data:
