

State of Connecticut
OFFICE OF POLICY AND MANAGEMENT

REPORT TO THE GENERAL ASSEMBLY

Personal Service Agreements

Fiscal Year 2019

Melissa McCaw
Secretary
Office of Policy and Management
450 Capitol Avenue
Hartford, Connecticut 06106

**STATE OF CONNECTICUT
OFFICE OF POLICY AND MANAGEMENT**

September 30, 2019

The Honorable Joe Aresimowicz
Speaker of the House
Connecticut General Assembly

The Honorable Themis Klarides
House Minority Leader
Connecticut General Assembly

The Honorable Martin Looney
President Pro Tempore
Connecticut General Assembly

The Honorable Len Fasano
Senate Minority Leader
Connecticut General Assembly

This report fulfills the statutory responsibility of the Office of Policy and Management, pursuant to [C.G.S. § 4-212](#) et seq., to report on the Personal Service Agreement contracting activity of State agencies.

The statute generally provides that the Secretary of the Office of Policy and Management shall submit an annual report to the General Assembly summarizing information regarding Personal Service Agreements for the preceding fiscal year.

This report seeks to provide information to state legislators, policymakers, and the public about State agencies' Personal Service Agreement activity for State fiscal year 2019.

We welcome your questions and comments.

A handwritten signature in blue ink, appearing to read "Melissa McCaw".

INTRODUCTION

A. Purpose

This report fulfills the statutory responsibility of the Office of Policy and Management, pursuant to [Connecticut General Statutes \(C.G.S.\) § 4-212](#) et seq., to report on the Personal Service Agreement (PSA) contracting activity of State agencies. This report summarizes information regarding PSAs for State fiscal year (SFY) 2019. Importantly, this reporting period reflects management of PSAs under a prior administration and before the passage of statutory provisions that with the Office of Policy and Management's (OPM) support were included in Sections 103-105 of [Public Act 19-117](#), An act concerning the State Budget for the Biennium Ending June 30, 2021. These changes aimed at improving our state procurement process and outcomes for PSAs will be reflected in a future reporting period.

B. Background

A *Personal Service Agreement* is a written agreement defining the services or end products to be delivered by a personal service contractor to a State Agency. [C.G.S. § 4-212\(3\)](#). A PSA is one of the primary mechanisms used by the State for procurement purposes. Typically, a PSA is used to purchase infrequent and non-routine services or end products, such as consulting services, technical assistance, and training. By law, no State agency may hire a Contractor to deliver such services or end products without first executing a PSA. These requirements do not apply to master contracts for supplies, materials, equipment and contractual services, including IT and telecom, that Department of Administrative Services (DAS) procures on behalf of all executive branch agencies pursuant to [Chapters 58](#) and [61](#) of the Connecticut General Statutes.

[C.G.S. § 4-212](#) defines who is included and who is not included in the term "Personal Service Contractor." Included is "any person, firm or corporation not employed by the State, who is hired by a State Agency for a fee to provide services to the Agency." Not included in the term "Personal Service Contractor" are the following:

- (a) A person, firm or corporation providing contractual services to the State, as defined in [C.G.S. § 4a-50](#);
- (b) certain consultants hired by the DAS, Division of Construction Services, as defined in [C.G.S. § 4b-55](#);
- (c) certain consultants hired by the Department of Transportation, as defined in [C.G.S. § 13b-20b](#);
- (d) agencies of the federal government, State government, or political subdivisions of the State; and
- (e) certain consultants hired by the DAS, Bureau of Enterprise Systems & Technology, as defined in [C.G.S. § 4d-2\(c\)\(5\)](#).

A State Agency wishing to enter into a PSA must adhere to the requirements set forth in the C.G.S. [§ 4-212-219](#) inclusive. [Section 4-217](#) requires OPM to establish standards for State Agencies to follow when entering into a PSA. Pursuant to this statute, the standards must include, but are not limited to the following:

- evaluating the need for a PSA
- developing a Request For Proposals (RFP)

- advertising for Contractors
- evaluating submitted proposals
- selecting a Contractor
- monitoring and evaluating Contractor performance
- documenting the process for selecting and managing Contractors, and;
- carrying out any other aspect of such processes

Also pursuant to [C.G.S. § 4-217](#), each agency must establish written procedures for implementing the standards established by OPM. The written procedures must be submitted to OPM for approval. Upon receiving OPM's approval, an agency may enter into a PSA based on the approved procedures. If OPM disapproves an agency's procedures, OPM must return them to the agency with recommendations for revisions. No State agency may enter into a PSA unless OPM has approved the procedures established by an agency.

In addition, according to [sub-section \(p\) of C.G.S. § 4e-16](#), effective October 1, 2014, State agencies, prior to entering into or renewing any privatization contract, shall evaluate such contract to determine if entering into or renewing such contract is the most cost-effective method of delivering such service. A privatization contract is defined as an agreement with a person or entity to provide services that are substantially similar to and in lieu of services provided, in whole or part, by State employees, with the statutes exempting certain contracts with nonprofit agencies.

State contracting agencies shall, according to [sub-section \(p\)](#), perform such cost effectiveness evaluation in accordance with a manual and template prescribed by OPM. The template and the related policies and procedures can be found on OPM's website at <https://portal.ct.gov/OPM/Fin-General/About/Cost-Benefit-Analysis/Cost-Effectiveness>.

It is important to note that certain proposed privatization contracts will be subject to sub-section (a) of [C.G.S. § 4e-16](#), which indicates that prior to entering into any contract for the privatization of a state service that is not currently privatized, the state contracting agency shall develop a cost-benefit analysis (CBA) in accordance with the provisions of subsection (b) of this section. Such cost-benefit analysis requirement shall not apply to a privatization contract for a service currently provided, in whole or in part, by a non-state entity.

C. Scope and Methodology

This report describes the contracting activities of executive branch agencies with respect to PSAs only. Contracting activities of the legislative and judicial branches of state government are excluded from this report.

PSA data for this report is gathered using Core-CT data and the statewide business intelligence reporting module. State agencies are required to enter their PSAs into Core-CT as a contract or a requisition. Required fields to be entered include, but are not limited to, contract ID, contract type, begin and end dates, contract maximum amount, description of services, contractor name and funding information.

The data presented in this report is only as accurate as the contract data entered by State agencies into Core-CT.

OPM summarizes the information and submits an Annual Report to the General Assembly. The data in this report represents PSAs that were in effect during SFY 2019. PSAs can range from a few months to several years in duration. Importantly, as stated above, this reporting period reflects management of PSAs under a prior administration and before the passage of statutory provisions that with OPM's support were included in Sections 103-105 of [Public Act 19-117](#) to improve our state procurement process and outcomes for PSAs.

The payment amounts presented in this report are payments made by State Agencies to PSA contractors during SFY 2019. The 2019 payment column beginning on page 9 reflects the General Fund payments under the contract, in addition to the amounts included in the Federal and Other Payments columns.

D. Recent PSA Activity

Historically, this report was presented in a format prone to misunderstandings about the dollar value of specific contracts and the prevalence of non-competitive procurements. In order to address past miscommunication and increase transparency, several steps were taken to enhance reporting.

First, the previously highlighted maximum contract amount value is now labeled cumulative total contract amount because it is an estimate of what the contract will cost throughout multiple years. It is also typically not an annualized number but rather reflects the life of a contract over multiple years, including spending that occurred in previous years. This new format includes an additional calculation in order to display the annualized amount of each contract. As well, there is another new column of total payments for the current fiscal year that better represents annual spending for each contract.

Second, in an effort to provide a more accurate overview of competitive contracting across the state, we have added a new category of contracts called exempt. Pursuant to [C.G.S. § 4-214](#), contracts with an annual value of not more than \$20,000 are exempt from OPM approval. Thus, the exempt category applies to all contracts that do not need OPM approval per statute based on the dollar amount of the contract. Exempt also applies to towns and cities who have contracts with state agencies and receive pass-through funds. The previous structure of only competitive and non-competitive did not accurately capture all categories or reflect the nuances of PSA contracting.

Lastly, included in the summary charts are comparisons in aggregate and by agency for competitive contracting. Historical numbers reflect the new category changes to help highlight the actual changes in competitive contracting.

E. Future Activities

New legislation effective July 1st, 2019, set in motion steps to increase transparency and competition in PSA and POS contracting. This includes the collection and dissemination of three-year forward looking procurement plans for all PSA solicitations, as well as posting all sole-source waivers on the State Contracting Portal with justifications. Furthermore, OPM is establishing new expectations across agencies that more prominently support the necessity to decrease the number of non-competitive solicitations to improve cost-effectiveness and ensure outcomes-oriented contract selections. Going

forward, OPM will be requiring additional information to justify requests for waivers of the bidding process for PSAs. Waivers will not be granted without adequate justification and substantiation, and where cost-effective, competitive bidding will be utilized more than it has been historically. OPM has accountability to the taxpayers and we are making efforts to achieve the most cost-effective means of contracting.

All data highlighted in this report reflects the results of processes in place prior to the new administration. Signs of early momentum in reducing non-competitive procurements are already evident. In 2019, the total non-competitive solicitations have decreased as compared to the prior year from 47% to 46%. In terms of annual procurement expenditures, the total share of competitive contract payments increased from 56% to 57%. It is important to note these competition numbers do not reflect the much larger share of DAS Master Contracts that approximately 90% of the time go through a competitive bidding process.

Through increased transparency and engagement with agencies, OPM aims to make additional progress in reducing non-competitive procurements where it proves cost-effective and can ensure desirable outcomes in the coming years. This may include the development of new procurement processes that streamline the RFP process, introduce more extensive results-driven contracting, and encourage agency contract prioritization. OPM views these changes as critical in ensuring accountability to the taxpayers of Connecticut and achieving projected budget savings in future fiscal years.

F. Inquiries

¹ Agencies such as Department of Energy and Environmental Protection, Department of Public Health and the Department of Education rely heavily on a variety of federal and other funding sources for the majority of their contracts. The federal government will pre-select the vendors in some cases. In other cases, the work required is highly specialized with limited technical expertise available in Connecticut for this type of work. In addition, many contracts are with national organizations who work in collaboration with all the New England States to provide for comprehensive regional data results. For Department of Children and Families and Department of Mental Health and Addiction Services they contract with very specialized and unique services for their clients.

² Exempt contracts are no more than \$20,000, contracts with cities and towns for pass through funds and political subdivisions.

₁ The other fund column can include non-federal grants, pass through state grants, bond funds and restricted state grants.

₂ The total contract payments is the sum of the general, federal and other fund payments made throughout the year.

₃ The calculated annual contract amount is created by using the cumulative total contract amount divided by the number of years the contract is listed for.

₄ The cumulative total contract amount is an estimate of what the contract will cost throughout multiple years.

₁ The competitive column includes: Competitive Solicitations which are listed as Y; Non-Competitive Solicitations which are listed as N; Contracts under \$20,000 with or contracts to towns, cities and political subdivisions of the State are listed as E.

₂ The other fund column can include non-federal grants, pass through state grants, bond funds and restricted state grants.

₃ The total contract payments is the sum of the general, federal and other fund payments made throughout the year.

₄ The calculated annual contract amount is created by using the cumulative total contract amount divided by the number of years the contract is listed for.

₅ Although a contract may have expired before FY 19, contracts can be written as an invoice to pay. This means as long as the services were conducted during the timeframe of the contract, the State needs the invoice before they can pay.

₆ The cumulative total contract amount is an estimate of what the contract will cost throughout multiple years.

Agency	Number of Contracts	General Fund	Federal Fund	Other Fund ₁	Total Payments ₂
Department of Administrative Services	97	\$ 630,443	\$ -	\$ 64,614,970	\$ 65,245,413
