Submitted December 16, 2015

STATE OF CONNECTICUT
OFFICE OF POLICY AND MANAGEMENT

December 16, 2015

The Honorable Brendan Sharkey
Speaker of the House
Connecticut General Assembly

The Honorable Themis Klarides
House Minority Leader
Connecticut General Assembly

The Honorable Martin M. Looney
President Pro Tempore
Connecticut General Assembly

The Honorable Len Fasano
Senate Minority Leader
Connecticut General Assembly

This report fulfills the statutory responsibility of the Office of Policy and Management pursuant to C.G.S. § 4-70b to report on the Purchase of Service (POS) contracting activity of State agencies. In addition, C.G.S. § 4-70b(c) requires that the report include an assessment of the aggregate financial condition of non-profit, community-based health and human service agencies that enter into POS contracts.

This report seeks to provide information to state legislators, policymakers, and the public about state agencies' Purchase of Service activity for State fiscal year 2015 as well as the aggregate financial condition of POS providers for 2014.

We welcome your questions and comments.

INTRODUCTION

A. Purpose

This document summarizes information regarding Purchase of Service (POS) contracting activity of State agencies for State fiscal year 2015. As required by [Section 4-70b\(c\)](#) of Connecticut General Statutes, this report includes an assessment of the aggregate financial condition of non-profit, community-based health and human services agencies that enter into POS contracts.

B. Background

A POS contract is a contract between a State agency and a private provider organization or municipality for the purpose of obtaining direct health and human services for agency clients. The contract generally is not used for the sole purpose of purchasing administrative or clerical services, material goods, training and consulting services. POS contracts cannot be used to contract with individuals.

Using the Office of Policy and Management (OPM) standard contract template, an agency may enter into a POS contract for a single year or for multiple years. It may be either a competitive or non-competitive contract. A contract may cover a number of services and be amended for a variety of reasons during its term.

For fiscal year 2015, there were ten major human service agencies in the current POS system: State Department of Aging, Department of Children and Families, Department of Correction, Department of Developmental Services, Office of Early Childhood Education, Department of Housing, Department of Mental Health and Addiction Services, Department of Public Health, Department of Social Services and Department of Rehabilitation Services

C. Statutes

[C.G.S. 4-70b](#) requires the Secretary of the Office of Policy and Management to “establish uniform policies and procedures for obtaining, managing and evaluating the quality and cost effectiveness of human services purchased from private providers”. Further, the Secretary is required to “ensure all state agencies which purchase human services comply with such policies and procedures” and to report annually to the General Assembly on the state's purchase of service contracting activity.

[C.G.S. 4-230 to 4-236](#) requires a nonprofit organization that expends \$300,000 or more in state funds in its fiscal year to submit to a uniform audit within six months of the close of the fiscal year end. The Office of Policy and Management administers the State Single Audit for municipalities and non-profit entities. Additionally, the Secretary of OPM is required to “adopt regulations establishing uniform standards which prescribe the cost accounting principles to be used in the administration of state financial assistance by the recipients of such assistance”.

An Attorney General’s opinion dated November 9, 2005 stated that there is no legal distinction between a POS contract and a Personal Service Agreement (PSA). It also stated that the statutes that apply to PSAs, [CGS 4-212](#) et seq., also apply to POS contracts. Subsequent to this opinion, OPM implemented a POS request system that requires agencies to submit requests to OPM prior to entering into POS contracts.

D. Recent POS Activity

More than a decade since its inception, the POS project continues to build upon past standardization efforts. Examples of recent efforts include the following:

- In September 2011, Governor Malloy established the Governor’s Cabinet on Nonprofit Health and Human Services to bring together representatives from the executive branch staff, General Assembly, nonprofit providers and labor to address issues that challenge Connecticut’s nonprofit human service delivery system. During FY 2015, the Commission was chaired by Terry Edelstein, Non-Profit Liaison to the Governor, and Peter DeBiasi, President and CEO of the Access Community Action Agency. The Cabinet and its work groups continue to meet regularly. Cabinet recommendations, activities and related information can be found on the [OPM Website](#).
- Monthly, OPM convenes a meeting of the **State’s contract managers** from the major health and human services agencies to discuss and resolve issues of mutual concern.
- A Uniform chart of accounts was adopted in FY 2015 and an electronic workbook created for developing and tracking contract budgets.
- OPM issued a Request for information (RFI) to help determine the best approach and next steps needed to develop a web-based electronic contract management system to facilitate contract development and management for both State agencies and private providers.
- The Central Contracts Unit was created within DMHAS to handle fiscal and administrative management of contracts held by the new departments of Aging, Housing, Early Childhood and Rehabilitative Services
- On an ongoing basis, the Non-Profit Liaison to the Governor and OPM maintain communications with the **Connecticut Nonprofit Human Services Cabinet**, a statewide coalition comprised of 20 nonprofit human service associations and organizations representing approximately 800 providers. The purpose is to promote their members’ understanding of and compliance with the State’s contracting requirements.
- As required, OPM coordinates any updates or revisions of the State’s **standard contract** for POS with the Attorney General’s Office, the six POS agencies, and the Nonprofit Cabinet.
- OPM develops and maintains contracting forms required by State statutes or the Governor’s Executive Orders, including **ethics affidavits** and **nondiscrimination certifications**.

E. Scope and Methodology

This report describes the contracting activities of executive branch agencies with respect to Purchase of Service contracts for SFY2015. Activities of the legislative and judicial branches of state government are excluded from this report.

The data represented in this report is captured from Core-CT, the statewide financial system. Agencies are required to enter POS contracts into the procurement contracts module within Core-CT. The data presented in this report is only as accurate as the data entered by State agencies into Core-CT. Core-CT Structured Query Reports (SQR) are utilized to extract the contract data for this report.

OPM summarizes the information obtained from Core-CT and submits an annual report to the General Assembly. The data in this report represents POS contracts that were in effect during SFY2015. POS contracts can range from a few months to several years in duration. Accordingly, the total dollar amount of a POS contract may represent several years of activity. Also, many POS contracts overlap during a fiscal year. For example, if a POS contract ends December 31st and a new contract starts with the same provider on January 1st, then two contracts (and two contract amounts) would be included in this report. Due to these factors, this report represents several years of POS contracting activity, not just annual activity.

The payment amounts presented in this report are payments made by State agencies to Purchase of Service contractors during SFY2015. Please note that annual payment amounts are often substantially less than the total contract amounts. This is due to the fact that the annual contract amounts represent more than one year of contracting activity while the payment amounts represent activity for one year. For this reason, the annual payment amounts are a better gauge of annual contracting activity.

F. Aggregate Financial Condition of Non-Profit Providers of POS Services

As indicated, [C.G.S. 4-70b\(c\)](#) requires the Secretary of OPM to provide an assessment of the financial condition of non-profit POS providers. For this report, OPM used the framework developed by the Commission on Non-Profit Health and Human Services in 2011 in their review of the financial condition of these providers. The commission took a sample of 101 of 490 health and human services providers that were required to conduct an audit for fiscal year 2009 due to having expended \$100,000 or over in State funds for the fiscal year. The work group then proceeded to use information from these audits to calculate various financial ratios specific to non-profits to test the financial fitness of the sample group. The group was also broken down by those with annual revenues less than \$300,000, those between \$300,000 and \$2 million and those with revenues over \$2 million annually.

In seeking to replicate this work for this report, OPM reviewed the fiscal year 2010 and 2011 audits conducted for the aforementioned 101 non-profits. Based on changes in the state law regarding the threshold for when an audit must be conducted and organizational changes among non-profits, only 86 of the 101 providers had audits done for both fiscal year 2010 and 2011. The ratios calculated for 2009, 2010 and 2011 for these 86 providers are in the table included below. Ratios for fiscal years 2012, 2013 and 2014 reflect the 83 providers from the original 101 for which audits were available.

In addition to developing the financial ratios, the commission sought to outline some standard measurements against which these ratios could be compared in assessing the financial condition of agencies. These measurements are included with the ratios included in the table. The financial ratios included in the table are:

Defensive Interval: This is a measure of liquidity in which cash and other readily available funds are divided by average monthly expenses, which indicates how many months of expenses could be funded by an entity's liquid assets if no additional funding was received.

Operating Reserves Ratio: This measure compares the amount of reserves (available net assets) a non-profit has compared to its annual expenses, and helps indicate the ability of a provider to deal with unforeseen circumstances.

Savings Indicator: This measure compares annual operating surpluses or losses against annual expenses. A positive ratio would indicate some level of increase in savings.

Debt Ratio: This measure compares total debt to total assets. The higher the percentage of debt, the less financial flexibility an entity has.

Current Ratio: This is another liquidity measure in which current (i.e. more liquid) assets are compared to current (i.e. more immediate) liabilities.

The method of calculating each of these ratios along with a measure of what might be considered a substandard ratio is included in the table.

* The designation of substandard ratios were developed by the Private Provider Cost Increases, Financial Condition & Sources of Revenue Work Group of the Commission on Non-Profit Health and Human Services based on their review of the literature. The exception is the Savings Indicator standard, which is based on work done by the Boston Foundation.
