 -  **257** of those 353 cases are active on the waiver
 -  There are **96** people waiting or in the process onboarding
 -  **87** of the 440 slots are not yet assigned

Progress

Over the Last Quarter

-  + 12 cases have been assigned to Case Managers
-  + 3 cases active on the waiver
-  + 9 people in the process onboarding
-  An additional 12 people have come off the waitlist

We are working on the new Case Manager interview list with HR and hope to schedule interviews in July.

We continue to work on our process to streamline onboarding and continue to find more ways to get individuals active faster, which will help eliminate the long wait time between the stages of onboarding.

We continue working on ideas for some possible amendments that could be made to the service descriptions. This could attract more providers without waiting for rate increases.
