

Autism Waiver Services

ASDAC Report

September 2025

Current Waitlist: 2447

This is up 70 individuals from last quarter

FACTS

262 cases are currently active on the waiver

Recent Case Manager audit shows an average of **31** cases on each caseload

We are in the process of cleaning up the caseloads and resolving some systematic issues

We have current vacancies for Case Managers and Case Manager Supervisor

BRAINSTORMING IDEAS for OUTREACH to PROVIDERS

- Develop a presentation with information regarding "Becoming an Autism Services Provider"
- Share it to DSS website and forward it to regional Community Collaboratives

Continue to streamline the process to move people onto the Waiver

We're making progress toward a quicker process of getting individuals onto the waiver and to receiving needed services. We have a dedicated person reaching out to the next group coming up on the list to share resources and information and collecting necessary documents earlier so that they are ready to go when their name comes up

BRAINSTORMING IDEAS for OUTREACH to INDIVIDUAL HIRE EMPLOYEES

- Post flyers at local college/universities with facts about the job and available training
- Send out a memo through the GTI portal letting current employees with low hours know there are more opportunities available

**We are still working on
and growing our
Improvement
Plan**
