

STATE OF CONNECTICUT
LONG TERM CARE PLANNING COMMITTEE

December 31, 2025

The Honorable Jan Hochadel, Senate Chair
The Honorable Jane M. Garibay, House Chair
Aging Committee
State Capitol Building, Room 011
Hartford, CT 06106

The Honorable Matthew L. Lesser, Senate Chair
The Honorable Jillian Gilchrest, House Chair
Human Services Committee
Legislative Office Building, Room 2000
Hartford, CT 06106

Dear Committee Chairs:

As required by Section 17b-337(d) of the Connecticut General Statutes, enclosed please find the Long-Term Care Planning Committee's annual report on the number of persons receiving long-term services and supports in the community and the number of persons receiving long-term services and supports in institutions.

If you have any questions on the report, please call me at the Office of Policy and Management at 860-418-6442.

Sincerely,

Melissa Morton

Melissa Morton
Chair, Long-Term Care Planning Committee

CT Rebalancing: Medicaid Long-Term Care Clients and Expenditures

SFY 2025

Clients

- From SFY 2024 to SFY 2025, the percentage of individuals receiving Medicaid long-term care services in the community versus an institution slightly increased. Seventy-one percent (71%) of Medicaid clients (a monthly average of 33,930) were served in the community and twenty-nine percent (29%) of Medicaid clients (a monthly average of 14,113) received care in an institution.
- Since SFY 2003, the proportion of Medicaid clients receiving care in the community has increased by 54%: from 46% in SFY 2003 to 71% in SFY 2025.

PROPORTION OF CONNECTICUT MEDICAID LONG-TERM CARE CLIENTS OVER TIME

CT Rebalancing: Non-Medicaid Long-Term Care Clients

SFY 2025

State-Funded Connecticut Home Care Program for Elders¹

In addition to Medicaid-funded long-term services and supports, the State of Connecticut operates a state-funded Connecticut Home Care Program for Elders (CHCPE). The state-funded program allows those who qualify for nursing facility level of care, but whose income and/or assets exceed Medicaid levels, to receive home care services in their home rather than a nursing facility.

- In SFY 2025, on average, the state-funded CHCPE provided home care services to an estimated 1,764 clients per month.
- In SFY 2025, the total annual expenditures for the state-funded CHCPE were \$45,634,881.

Estimated Number of Non-Medicaid Nursing Facility Occupants²

- From 2004 to 2025 the total number of licensed nursing facility beds declined by 26% (from 29,801 to 22,173).
- As of September 30, 2025, nursing facilities in Connecticut had an average occupancy rate of 89% (of the 22,173 available nursing facility beds in Connecticut, 19,729 were occupied)³.
- During SFY 2025, an estimated monthly average of 13,262⁴ beds were occupied by Medicaid clients and 6,467 beds were occupied by non-Medicaid clients.

Nursing Facility Occupancy Data 2024 – 2025	
22,173	Total nursing facility beds in Connecticut on 9/30/25 ⁵
89%	Average occupancy rate on 9/30/25
19,729	Number of occupied beds on 9/30/25
13,262	Estimated average monthly number of Medicaid clients in a nursing facility in SFY 2025
6,467	Estimated average monthly number of non-Medicaid clients in a nursing facility in SFY 2025
67%	Estimated percentage of occupied nursing facility beds funded by Medicaid in SFY 2025.

¹ Data from Department of Social Services CHCPE monthly reports as submitted to OPM.

² Unless otherwise noted, all data in this section is from the *OPM Annual Nursing Facility Census, 2025*.

³ This number potentially signals an industry recovery since the waning of the COVID-19 pandemic. In 2021, the average occupancy rate was 78%. Pre-pandemic, the average occupancy rate was 88%.

⁴ Data from OPM 2025 Medicaid rebalancing LTC client calculation spreadsheet.

⁵ Does not include Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IIDs) and chronic disease hospitals.
