DATA SHARING AGREEMENT**

Between

**State Department of Education
Department of Labor**

And

Department of Labor (“Data Integration Hub”)

WHEREAS, this Data Sharing Agreement (“DSA”) is by and between the Department of Labor (both “Participating Agency” and “Data Integration Hub”) and the State Department of Education (both “Participating Agency” and “Data Recipient”), together referred to as “Party” or “Parties” or “Participating Agencies” and is effective as of the last date of the signature shown below (“Effective Date”);

WHEREAS, the Data Integration Hub is operating as the centralized data matching service for Participating Agencies (as defined in the Enterprise Memorandum of Understanding and its Appendices (“E-MOU”), which is attached hereto and incorporated herein);

WHEREAS, CTDOL is the Connecticut State agency that administers the payment of Unemployment Compensation (UC) benefits and assesses and collects US contributions from employers and maintains wage data on employees hired in approved state businesses;

WHEREAS, to comply with federal requirements on the confidentiality of UC data, CTDOL may only disclose UC data through an agreement and in a manner that conforms to and complies with state and federal laws;

WHEREAS, the CTDOL Commissioner is authorized pursuant to CGS § 4-8 to enter into contractual agreements as may be necessary for the effective discharge of his/her duties;

WHEREAS, the Participating Agencies wish to share data with the Data Integration Hub for data matching services, in accordance with the terms and conditions of this DSA and approved under the terms and conditions of the E-MOU, and share the Resultant Data with the Data Recipient;

WHEREAS, the purpose of the DSA is to enable the audit and evaluation of Federal- or State-supported K-12 and Federal- or State-supported postsecondary education programs (34 C.F.R. §99.3) by linking data for the Preschool Through Twenty and Workforce Information Network (“P20 WIN”) in order to assess the degree to which said education programs are preparing students for post-secondary

education and the workforce and to assess the efficacy of state or federally-funded higher education grant programs;

WHEREAS, the Department of Labor (“DOL”) has access to data matching software which can be utilized to match and link longitudinal data from state agencies from state agencies and other organizations for the purpose of facilitating data requests;

WHEREAS, federal regulations provide that the disclosure of PII from education records to an authorized representative of state educational authorities as permitted herein pursuant to the “Audit or Evaluation Exception” is permissible without prior consent if the disclosure is for the purpose of carrying out an audit or evaluation of Federal- or State-supported education programs or for the enforcement of or compliance with federal legal requirements related to these programs (34 C.F.R. §§99.31(a)(3) and 99.35).

WHEREAS, the Parties wish to participate in the P20 WIN Project entitled: IDEA Part B Indicator 14: Post-School Outcomes (DR-0032)

WHEREAS, the Parties recognize that the sharing of data will be beneficial to the Parties and will best serve the interests of the people of the State of Connecticut. Further, said sharing shall not significantly hinder or delay the processing of UC claims or impede the efficient administration of the unemployment compensation law.

NOW, THEREFORE, the Parties, in consideration of mutual promise and obligations set forth here, the sufficiency of which is hereby acknowledged, and intending to be legally bound, agree as follows:

I. DEFINITIONS

Definitions in the E-MOU are applicable herein. If there is a definition in this document of a word or a term that is also defined in the E-MOU, the definition in the Data Sharing Agreement shall apply and prevail:

Anonymized Data (“Anonymized Data”) refers to Data that cannot be linked back to an individual and, as such, are not useful for monitoring the progress and performance of individuals; however, such Data can be used for other research or training purposes.

Authorized Representative(s) (“Authorized Representative” or “Authorized Representatives”) shall mean any entity or person designated by a state or local educational authority or an agency headed by an official to conduct, with respect to federal or state supported education programs, any audit or evaluation, or any compliance or enforcement activity in connection with federal legal requirements that relate to these programs, as defined by FERPA, 20 U.S.C. §1232g and its implementing regulations in 34 CFR Part 99, to receive and/or match Data, including PII, from a Participating Agency subject to FERPA.

Confidential Information (“Confidential Information”) is any UC information provided by CTDOL which reveals the name or any identifying particular about any individual or any past or present employer or employing unit, or which could foreseeably be combined with other publicly available information to reveal any such particulars pursuant to 20 CFR 603.4. No information obtained from CTDOL is public information. Because information in the system may match information that is available publicly, that does not make it permissible to disclose that such information is also in the CTDOL’s database. For purposes of this DSA, such data would include, but not be limited to, any wage information, the individual’s name, Social Security Number, address, etc., and any employer identifiers, including the employer’s name, address and registration number. In addition, any document or other media produced as a result of the work provided for this DSA that contain or are derived from the UC data provided by CTDOL, including the fact that an individual is filing for UC benefits or that an employer is a covered employer for purposes of the Connecticut Unemployment Compensation Act, that directly or indirectly disclose information about individual claimants or employer.

Data Recipient (“Data Recipient”) means any person, entity or organization that is a party to an approved Data Sharing Agreement that receives Data sets from Participating Agencies for legitimate state purposes.

De-identification of Data or De-Identified Data (“De-identification of Data” or “De-identified Data”) refers to the process of removing or obscuring any PII in a way that minimizes the risk of unintended disclosure of the identity of individuals and information about them. Specific steps and methods used to de-identify information may vary depending on the circumstances, but should be appropriate to protect the confidentiality of the individuals. While it may not be possible to remove the disclosure risk completely, de-identification is considered successful when there is no reasonable basis to believe that the remaining information provided through a single release or through a combination of multiple releases can be used to identify an individual. De-identified Data is the result of the De-identification of Data that has been modified by removing all PII from records to prevent the unintended disclosure of the identity of Individuals and information about them, whether through a single or multiple releases: protects the confidentiality and privacy of individuals when there is no reasonable basis to believe that the remaining information can be used to identify such individuals. PII may include not only direct identifiers such as names, IDs, or social security numbers, but also any other sensitive or non-sensitive information that, alone or combined with other information that is linked or linkable to a specific Individual, would allow identification. Simple removal of direct identifiers from the Data to be released for access to Users beyond those named in the DSA does not constitute adequate de-identification. Properly performed de-identification involves removing or obscuring all identifiable information until all Data that can lead to Individual identification have been expunged or masked.

Resultant Data (“Resultant Data”) is the Data provided by the Participating Agencies and the Data Integration Hub to the Data Recipient pursuant to a Data Sharing Agreement signed by two (2) or more Participating Agencies. Resultant Data includes original Data files received for analysis from Participating Agencies and a crosswalk of unique generic identifiers used to connect the analyzed data

together. It also includes the working documents and derivative tables that are created from this analyzed data before the documents and tables have been reviewed according to the DSA and subsequently approved as appropriately aggregated for access to Users beyond those names in the DSA.

II. RESPONSIBILITIES OF PARTICIPATING AGENCIES

- A. Specific Duties of Participating Agencies When Transmitting Data. Whenever a Participating Agency Transmits data to the Data Integration Hub, the Participating Agency shall do so in compliance with applicable federal and state law and the E-MOU. - B. Compliance with E-MOU. Except to the extent prohibited by applicable federal and state law, Participating Agencies shall comply fully with all provisions of the E-MOU.
- C. Users. A Participating Agency shall require that all of its Users perform Data Transmittal only in accordance with the terms and conditions of the E-MOU and the applicable Specifications, including without limitation those governing the authorization, use, confidentiality, privacy, and security of data.
- D. Agreements with Users. A Participating Agency shall have established written documentation that each of its Users shall, at a minimum: (i) comply with all federal and state laws; (ii) reasonably cooperate with the Operating Group and Data Integration Hub on issues related to the E-MOU; (iii) transmit data only for a permitted purpose; (iv) use and disclose data received from another Participating Agency or User in accordance with the terms and conditions of this DSA; (v) as soon as learning that a Breach or potential Breach has occurred, report such breach to the Operating Group for the Data Governing Board so that the Data Governing Board can proceed according to the terms and conditions of the E-MOU; (vi) refrain from disclosing to any other person any passwords or other security measures issued to the User for the Data Sharing process; and (vii) cooperate with any external audits. Each User shall sign a User Acknowledgement Form, either one developed by the Participating Agency or the Data Integration Hub or the one attached and incorporated herein as Exhibit B. Notwithstanding the foregoing, for Users who are employed by a Participating Agency or who have agreements with a Participating Agency which became effective prior to the Effective Date, compliance with this Section may be satisfied through written policies and procedures that address items (i) through (vi) of this Section so long as the Participating Agency can document that there is a written requirement that the User must comply with the policies and procedures.
- E. Agreements with Vendors. To the extent that a Participating Agency uses vendors, in connection with the Participating Agency's Transmittal of Data, the Participating Agency affirms that it has established agreements with each of its vendors that require the vendor to, at a

minimum: (i) comply with applicable federal and state law; (ii) protect the privacy and security of any data to which it has access; (iii) as soon as reasonably practicable after determining that a breach occurred, report such breach to the Participating Agency; (iv) not re-disclose information without the written consent of the Participating Agency; (v) agree to the same restrictions on the access, use, and disclosure of Data as contained herein; (vi) reasonably cooperate with the other Participating Agencies to the E-MOU on issues related to the E-MOU; (vii) sign a form that meets the requirements of Exhibit B; and (viii) cooperate with any external audits.

F. F. Confidential Information. The Parties agree that, under CGS §31-254 and under Federal law (20 CFR 603), all UC data, in whatever form that is furnished by CTDOL pursuant to this DSA, is, as a matter of law, and shall be treated as CTDOL Confidential Information. Conn. Gen. Stat. §31-254 provides that any public employee who violates any provision of said section shall be fined not more than two hundred dollars (\$200.00) or imprisoned not more than six (6) months or both and shall be dismissed from service. For purposes of this DSA, Confidential Information shall include, but not be limited to:

- Any indication that the name of an employer and any information pertaining to that employer is maintained in the CTDOL database or that a particular employer is covered or not covered by the unemployment insurance (UI) laws;
- Any indication that an individual has earned wages at all, or in a specific quarter;
- The amount of any wages;
- The number of employees an employer has in a particular or for a particular time frame;
- An employer's tax standing – taxable or reimbursing;
- The tax status of an employer (i.e., whether an employer is in good standing or is under investigation in any way);
- An individual employee's name or Social Security Number, or specific wages;
- The name, address or UC registration number of the employer.

G. Compliance with Laws. The Participating Agencies shall fully comply with all applicable federal and state laws.

H. Disclaimers.

1. Reliance on a System. Each Participating Agency acknowledges and agrees that (i) the data provided to the Data Integration Hub is drawn from numerous sources; (ii) the data is specific to the point in time when drawn, and (iii) it can only confirm that, at the time of the data Transmittal, the data is an accurate representation of data contained in, or available through, the Data Integration Hub. Nothing in the DSA shall be deemed to impose responsibility or liability on a Participating Agency related to the clinical accuracy, content or completeness of any data provided pursuant to the Data Integration Hub. Furthermore, Data Recipient may not rely upon the availability of a particular Participating Agency's data.
2. Carrier Lines. The Participating Agency acknowledges that the Transmittal of data between

Participating Agencies, the Data Recipient and the Data Integration Hub is to be provided over various facilities and communications lines, and data shall be transmitted over local exchange and Internet backbone carrier lines and through routers, switches, and other devices (collectively, "carrier lines") owned, maintained, and serviced by third-party carriers, utilities, and Internet service providers, all of which may be beyond the Participating Agency's control. Provided the Participating Agency uses reasonable security measures, no less stringent than those directives, instructions, and specifications contained in the E-MOU, its Specifications, and applicable federal and state law, the Participating Agency assumes no liability for or relating to the integrity, privacy, security, confidentiality, or use of any data while it is transmitted over those carrier lines, which are beyond Participating Agency's control, or any delay, failure, interruption, interception, loss, Transmittal, or corruption of any data or other information attributable to Transmittal over those carrier lines which are beyond Participating Agency's control. The use of the carrier lines is solely at the Participating Agency's risk and is subject to all applicable federal and state law. If a Breach occurs and it is determined that it happened because of a carrier issue, the Participating Agency responsible for the Transmittal of Data is the responsible party for the Breach notification. However, data should be encrypted using current industry standard algorithms agreed on by the parties involved before transmission occurs.

3. Collecting Data. Each Participating Agency has collected the confidential data from Individuals. Accordingly, the Participating Agency is solely responsible for ensuring that all legal requirements have been met to collect data on Individuals whose confidential data are being provided to the Data Integration Hub and the Data Recipient.
4. Data Accuracy. Each Participating Agency will identify and document for the Data Recipient any known limitations or data accuracy issues that have potential to impact the Project described in Exhibit A.

- I. All Participating Agencies and the Data Integration Hub agree that Data will be encrypted at rest and in motion, and any and all backups will be encrypted.

III. RESPONSIBILITIES OF DATA INTEGRATION HUB

Serve as the designated Authorized Representative to receive and match PII from education records under the audit and evaluation pursuant to FERPA 20 U.S.C. §1232g(b)(1)(C), (b)(3) and (b)(5) and 34 C.F.R §§ 99.31(a)(3) and 99.35, or the studies exception in 20 U.S.C. §1232g(b)(1)(F) and 34 C.F.R. § 99.31(a)(6).
- B. For any data sharing, the Data Integration Hub agrees to store and access all data obtained from the providing Participating Agency on secure computers and in secure files to which access is restricted to authorized persons only and in an area that is physically safe from unauthorized persons at all times. All personnel authorized to access data shall be fully trained and advised of the confidential nature of the information and the safeguards required protecting the information and have followed the procedures in section II.D (Agreements with Users).

- C. The Data Integration Hub agrees to monitor all authorized users to ensure such Users observe the confidentiality requirements outlined in the E-MOU.
- D. Users will not store or transmit data on a portable storage device, such as but not limited to, a USB flash drive, cell phone, portable laptop, external hard drive or through unencrypted e-mail with the exception of system backup tapes and files. System backup tapes and files will be encrypted to prevent data loss.
- E. The Data Integration Hub will have policies and procedures regarding data security that protect against violations of federal and state law, when the data is at rest and during transmission. The Participating Agency reserves the right to request the Operating Group to assist in an audit or assessment regarding access to Participating Agency's data therein.
- E. The Data Integration Hub shall comply with the following access and security requirements:
 - 1. Limited Access. The Data Integration Hub will limit access to the Participating Agency's confidential data to staff who have signed the Confidentiality Agreement attached and incorporated herein as Exhibit C and are working on a specific data sharing project with the Participating Agency pursuant to the terms of the E-MOU.
 - 2. Use. The Data Integration Hub shall use the Participating Agency's data solely for the purpose approved by the Participating Agency. The Data Integration Hub shall only disclose the Participating Agency's data to staff with the authority to handle the data in furtherance of the Participating Agency's approved purpose and pursuant to this Data Sharing Agreement ("DSA").
 - 3. Data Deletion. The Data Integration Hub shall retain the Participating Agency's Data used for matching for a period no later than ten (10) business days after the match has been completed pursuant to this DSA and specified in Exhibit A, unless all the Parties agree in writing to extend the retention time. The match has been completed when the Representatives of the Parties (as listed in Section XII herein) have agreed in writing that the match results are optimal.
- F. Anonymization of Data
 - 1. Criteria for Anonymized Data. The Participating Agencies have determined that anonymized data shall remove all personal identifiers which can be used to distinguish or trace an Individual.
 - 2. Cell Suppression Policy. The Data Integration Hub agree that approved projects including data from the Participating Agency in the creation of any dissemination materials (e.g., project updates, tables, reports, presentations) must adhere to the cell size suppression stated herein:
 - a. No cell (e.g., grouping of individuals, patients, students, clients) with less than 20 observations may be displayed.

- b. No use of percentages or other mathematical formulas may be used if they result in a cell displaying less than 20 observations.
- c. Individual level records may not be published in any form, electronic or printed.
- d. Reports and analytics must use complementary cell suppression techniques to ensure that cells with fewer than 20 observations cannot be identified by manipulating data in adjacent rows, column or other manipulations of any combination of dissemination materials generated through an approved project. Examples of such data elements include but are not limited to geography, age groupings, race/ethnicity, sex, or birth or death dates.

IV. TRANSFER OF DATA FROM PARTICIPATING AGENCIES AND DATA INTEGRATION HUB TO DATA RECIPIENT

The Participating Agency will submit to the Data Integration Hub, or otherwise permit the Data Integration Hub staff to electronically access, the data associated with approved data sharing or data linking projects as evidenced by the documents attached to this DSA and required pursuant to the E-MOU and its Appendices. Confidential Data will be transferred electronically to the Data Integration Hub and to the Data Recipient only via encrypted files and in accordance with the security requirements outlined in the E-MOU and the State of Connecticut's cybersecurity policies.

V. DATA INTEGRATION HUB'S RIGHTS TO SHARE/RE-DISTRIBUTE THE DATA

Except as expressly provided in this DSA and the E-MOU, the Data Integration Hub shall not distribute any Data submitted by the Participating Agency without the Participating Agency's written approval.

VI. RESPONSIBILITIES OF DATA RECIPIENT

A. Permitted Data Sharing Project: Approved Use and Data Elements

This DSA pertains to the P20 WIN Project entitled: IDEA Part B Indicator 14: Post-School Outcomes (PSO). This P20 WIN Project was approved by all Participating Agency(s) and the Data Recipient on October 20,2021 (Date) and the approved Data Sharing Request Form is attached and incorporated hereto as Exhibit A.

The approved Data Sharing Request Form details the permitted use of the Resultant Data as well as the approved data to be included in the Data Sharing project. This DSA pertains only to the use of data elements identified in Exhibit A, and the Data Recipient has requested or obtained appropriate Institutional Review Board (IRB) request or approval, whichever is available, attached as Exhibit D, if relevant and appropriate.

Furthermore, the Participating Agencies and the Data Recipient will abide by all applicable and specific federal and state law confidentiality and privacy requirements as outlined in Exhibit A.

The Data Recipient shall not use the Resultant Data for any purpose independent of, separate from or not directly connected to the purpose(s) specifically approved by the Participating Agencies(s) in Exhibit A.

B. Data Sovereignty and Accuracy

The Data Recipient acknowledges that it must use the Resultant Data in accordance with the approved Data Sharing Request Form (Exhibit A) and pursuant to the IRB request or approval (Exhibit D), if relevant and appropriate, and that the Data Recipient may only receive and use the Resultant Data for the purposes approved by the Participating Agencies.

The Data is current as of the date and time compiled and can change. The Participating Agencies providing data do not ensure 100% accuracy of all records and fields. Some data fields may contain incorrect or incomplete data. The Data Integration Hub and the Participating Agencies providing the data cannot commit resources to explain or validate complex matching and cross-referencing programs; the Data Integration Hub does provide documentation for each data matching process about the rules used in the match and the match rate. The Data Recipient accepts the quality of the data they receive. Questions by the Data Recipient related to the Resultant Data completeness (i.e. approved data elements in the attached Exhibit A) or matching accuracy shall be in writing and sent to the Operating Group within ten (10) business days of receipt of all data sets. Data that has been manipulated or reprocessed by the Data Recipient is the responsibility of the Data Recipient. The Data Integration Hub cannot commit resources to assist Data Recipient with converting data to another format.

C. Data Transfer

Resultant Data outlined in Exhibit A will be transferred to the Data Recipient through a secure transmission, that meets state and federal laws, such as file transfer protocol provided or approved by the Data Integration Hub. The Data Recipient will be provided secure access to the secure transmission and will be allowed to download the Resultant Data file(s) for a limited period of time after which access to the secure transmission will be removed or the data files will be deleted.

D. Safeguarding Data

1. Security Controls. The Data Recipient shall implement and maintain the data security controls specified in the Data Sharing Request Form (Exhibit A) that has been approved by the Participating Agencies that provided the data.
2. Cell Suppression Policy. The Data Recipient agrees that any use of the data in the creation of any dissemination materials (including but not limited to a manuscript, table, chart, study, report, presentation, etc.) concerning the specified purpose must adhere to the cell size suppression policy as follows:

This policy stipulated that no cell (e.g. grouping of individuals, patients, clients, recipients, etc.) with less than 20 observations may be displayed. This is the most stringent cell size allowable among the Participating Agencies that provided the data for the P20 WIN Project specified in this DSA.

No use of percentages or other mathematical formulas may be used if they result in a cell displaying less than 20 observations.

Individual level records may not be published in any form, electronic or printed.

Reports and analytics must use complementary cell suppression techniques to ensure that cells with fewer than 20 observations cannot be identified by manipulating data in adjacent rows, columns or other manipulations of any combination of dissemination materials generated through this P20 WIN Project. Examples of such data elements include, but are not limited to geography, age groupings, sex, or birth or death rates.

- E. Any person or entity that processes or receives the Resultant Data, and its agents, vendors and independent contractors must be obligated, by written contract, to adhere to the terms of this DSA and agree to follow the data security controls approved in the attached Exhibit A and the E-MOU, prior to being granted access to Resultant Data, and to sign the Confidentiality Agreement, attached as Exhibit C. Furthermore, prior to accessing any Resultant Data, the Data Recipient will notify the Operating Group of the name, position, organization, email address, and telephone number for all individuals who will have access to the Resultant Data pursuant to this DSA and for additions and/or replacements of persons listed above. The Operating Group will share such information and addition/replacements of persons with the Participating Agencies and shall obtain written approval from the Participating Agencies involved in the Data Request that the person(s) (initially and any changes) are approved to have access to the Resultant Data before access to the Resultant Data is provided.

- F. Accountability: Unauthorized Access, Use, or Disclosure

The Data Recipient shall take all steps necessary to prevent any use or disclosure of Resultant Data not authorized by this DSA. The Data Recipient will report any unauthorized access, use or disclosure of the Resultant Data to the Operating Group and to the particular the Participating Agencies from which the data originated as soon as learning or had reasonable belief of the unauthorized access, use, or disclosure. The Data Recipient shall follow the reporting requirements contained in Exhibit A. In the event that the Operating Group determines or has a reasonable belief that the Data Recipient has made or may have made use of or disclosed Resultant Data in a manner that is not authorized by this DSA, the Operating Group may, at its sole discretion, require the Data Recipient to perform one or more of the

following, or such other actions as the Operating Group, in its sole discretion, deems appropriate, including but not limited to:

1. Promptly investigate and report to the Operating Group the Data Recipient's determinations regarding any alleged or actual unauthorized access, use, or disclosure;
2. Immediately cease use of and disallow access to the Resultant Data by all Users;
3. Promptly resolve any issues or problems identified by the investigation;
4. Submit a formal response to an allegation of unauthorized access, use, or disclosure;
5. Submit a corrective action plan with steps designed to prevent any future unauthorized access, use, or disclosures; and
6. Return all data or destroy data it has received under this DSA.

The Data Recipient understands that as a result of the Operating Group's determination or reasonable belief that unauthorized access, use, or disclosures have occurred, the Participating Agencies may refuse to release further Data to the Data Recipient for a period of time to be determined by the Participating Agencies.

G. Project Reporting Requirements

1. Pre-Publication Data Review. Data Recipients are required to share P20 WIN Project Data findings with the Operating Group at a minimum of ten (10) business days prior to any release beyond the list of Users identified in Section VI, above. The Operating Group shall secure written confirmation from the Participating Agencies that Data are properly aggregated for release, Data are labeled correctly, that confidential Data are not disclosed, and that Data are consistent with the requirements in Section V.D.2. The Participating Agencies can request prior review of specific dissemination materials (e.g. presentations, publications) from the Data Recipient.
2. Project Acknowledgement. All publicly-released materials resulting from the P20 WIN Project referenced in this DSA shall include the following acknowledgement:

"This work would not be possible without data provided by the P20 WIN participating agencies. The findings do not necessarily reflect the opinions of the State of Connecticut or the organizations and agencies contributing data."

Final Publication. Subsequent to the Pre-Publication Data Review discussed in V.G.1. above, the Data Recipient shall provide the Operating Group with an electronic copy of all published work resulting from the P20 WIN Project associated with this DSA within 30 days of publication.

H. Data Retention and Destruction

The Data Recipient agrees to destroy all Resultant Data and any derived data not submitted as part of the reporting requirements under Section F., by the Project End Date, stated in Section XI

below, in accordance with the methods established by the “Guidance to Render Unsecured Protected Health Information Unusable, Unreadable, or Indecipherable to Unauthorized Individuals,” as established by the United States Department of Health and Human Services (HHS). The Data Recipient may request an extension of the Data Retention Period by submitting a written request that includes a justification to the Operating Group. This extension request must be submitted at least thirty (30) days prior to the P20 WIN Project end date.

When retention of the Resultant Data is no longer justified, the Data Recipient agrees to destroy the Resultant Data and send a completed “Certification of Project Completion and Destruction or Retention of Data” form, which is attached hereto and incorporated herein as Exhibit F, to the P20 WIN Project’s designated person in the Operating Group. The Data Recipient agrees not to retain any Resultant Data, or any parts thereof, or any derivative files that can be used in concert with other information after the aforementioned file(s) and the data are destroyed unless all of the Participating Agencies grant written authorization. The Data Recipient acknowledges that such date for retention of Resultant Data is not contingent upon action by the Data Integration Hub.

VII. MODIFICATION; ASSIGNMENT; ENTIRE AGREEMENT

This DSA may not be modified except by written agreement of the Parties. This DSA may not be assigned or transferred without the Parties’ prior written consent. Subject to the foregoing, this DSA will be binding upon and inure to the benefit of, and be enforceable by, the Parties and their successors and assigns. Notwithstanding anything to the contrary, each Party has the right to disclose the terms and conditions of this DSA to the extent necessary to establish rights or enforce obligations under this DSA.

VIII. NO FURTHER OBLIGATIONS

The Parties do not intend that any agency or partnership relationship be created by this DSA. No Party has any obligation to provide any services using or incorporating the data unless the Participating Agencies agree and approves of this obligation under the terms of the E-MOU. Nothing in this DSA obligates the Participating Agencies to enter into any further agreement or arrangements related to the disclosure of information or data.

IX. COMPLIANCE WITH LAW; APPLICABLE LAW

The Parties agree to comply with all applicable federal and state laws and regulations in connection with this DSA. The Parties agree that this DSA shall be governed by the laws of the State of Connecticut, without application of conflict of laws principles.

X. SOVEREIGN IMMUNITY

XI. TERM

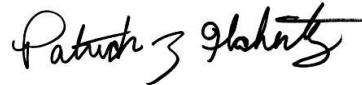

The term of this DSA is from Effective Date to October 25, 2022 (the "Project End Date"). A Party may terminate this DSA upon sixty (60) days' written notice to the other Parties. The terms of this DSA that by their nature are intended to survive termination will survive any such termination as to data provided, and performance of this DSA, prior to the date of termination, including Sections I through VIII.

Ms. Trakas will have access to the aggregated, statewide summary data mandated to be publicly reported to the federal Office of Special Education Programs (OSEP).

2.h Provide full name, organization, email address and project role for all other persons from the Participating Agencies or Contributing Institutions who have been identified as having legitimate interests in the evaluation who need to access raw data, derived data or any data output for this project before the P20 WIN Data Governing Board Participating Agencies involved have approved the data as appropriately aggregated for public release. For these individuals, access to the unit record data is limited. For example, named individuals may a) need access to data to support the data matching process or b) function as a subject matter experts from the Participating Agencies to support the data matching process or authorized requestor's analysis, or c) they may only have access to their own organization's data linked to other non-education records. After each name, please include an explanation as to why these individuals need access to the unit record data. If not already signed, please print and attach a signed Confidentiality Agreement for each individual needing access to the resultant data set. (See Attachment C). Note: Persons who are not government employees or officials may not have access to Pii for DOL UC records.

SECTION 3 –ALIGNMENT OF PURPOSE& SCOPE

3.a Provide a brief summary of the Data Request. Include a description of the categories of data, years or data and cohorts of students – if applicable. Provide enough detail so that the Participating Agencies can understand what they need to provide.

This request seeks the Connecticut Department of Labor (DOL) employment and earnings information for students with disabilities who exited high school during the 2019-2020 school year. This information is sought to improve the number of exited students with disabilities (exiters) for whom the Connecticut State Department of Education (CSDE) can locate and obtain post-school outcome data, increase the level of post-school outcomes data reportable to the Office of Special Education Programs (OSEP), and address the ongoing concern that the state cannot reliably locate students with disabilities that have not enrolled in higher education after exiting high school. All of these purposes are related to the Individuals with Disabilities Education Act (IDEA) Part B Indicator 14: Post-School Outcomes, which is reported by the CSDE to the OSEP in its State Performance Plan (SPP)/Annual Performance Report (APR) by February 1st annually (Authority: 20 U.S.C. 1416(a)(3)(B)).

The initial data request needed for the FFY 2020 SPP/APR, due February 1, 2022, will be the DOL employment and wage data for students who exited high school during the 2019-2020 school year (which includes those who graduated with a regular high school diploma, completed school with some other credential, dropped out, were expected to return but did not return for the current school year, or reached the maximum age of eligibility), who had an individualized education program (IEP) in effect at the time they left school. This cohort of exiters comprises approximately 5,500 students annually.

The CSDE plans to match exiters with the DOL employment and earnings database to retrieve employment and wage data, which will be used to calculate and examine the number and percent of exiters engaged in employment within one year of leaving high school, the level and type of employment, as well as the percent of exiters who are earning a living wage. Data collected from the DOL employment and earnings database will be combined with the National Student Clearinghouse (NSC) college enrollment data and exiter responses from the Connecticut Post-School Outcome Survey (PSOS) to determine state performance on the IDEA Part B Indicator 14 in the three measurement categories. Furthermore, the collected responses from all three sources will be analyzed for representativeness by gender, race/ethnicity, exit type, and disability as compared to the total exiting population of students with disabilities. Exiters who do not graduate with a regular high school diploma are less likely to pursue higher education, so including the DOL employment and wage data, will help Connecticut understand the post-school activities of those types of exiters.

Indicator 14: Post-School Outcomes: Percent of youth who are no longer in secondary school, had individualized education programs (IEPs) in effect at the time they left school, and were:

1. Enrolled in higher education within one year of leaving high school.
2. Enrolled in higher education or competitively employed within one year of leaving high school.
3. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Indicator 14 Measurement Categories:

- A. Percent enrolled in higher education = $\left[\frac{\text{(\# of youth who are no longer in secondary school and were enrolled in higher education within one year of leaving high school)}}{\text{(\# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school)}} \right] \text{ times } 100.$
- B. Percent enrolled in higher education or competitively employed within one year of leaving high school = $\left[\frac{\text{(\# of youth who are no longer in secondary school and were enrolled in higher education or competitively employed within one year of leaving high school)}}{\text{(\# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school)}} \right] \text{ times } 100.$
- C. Percent enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment = $\left[\frac{\text{(\# of youth who are no longer in secondary school and were enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment)}}{\text{(\# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school)}} \right] \text{ times } 100.$

Due to the cumulative nature of the reporting categories, the aggregated data from each of the three unique data sources will never be reported as its own category. Employment and wage data will always be combined with other statewide data groups (PSOS responses and NSC college enrollment data) for inclusion in measurement B and C above, thereby ensuring the further protection and masking of all PII from all data sources.

Indicator 14 Definitions:

- *Enrolled in higher education* means youth have been enrolled on a full- or part-time basis in a community college (two-year program) or college/university (four or more year program) for at least one complete term, at any time in the year since leaving high school.
- *Competitive employment* means that youth have worked for pay at or above the minimum wage in a setting with others who are nondisabled for a period of 20 hours a week for at least 90 days at any time in the year since leaving high school. This includes military employment.
- *Enrolled in other postsecondary education or training* means youth have been enrolled on a full- or part-time basis for at least 1 complete term at any time in the year since leaving high school in an education or training program (e.g., Job Corps, adult education, workforce development program, vocational technical school which is less than a two-year program).

- *Some other employment* means youth have worked for pay or been self-employed for a period of at least 90 days at any time in the year since leaving high school. This includes working in a family business (e.g., farm, store, fishing, ranching, catering services, etc.).

3.b Clearly state the purpose of this request and describe how the purpose is an audit or evaluation of federal or **state supported education program(s)** (See Audit or Evaluation Exception 20 U.S.C. 1232g(b)(1)(C), (b)(3), and (b)(5) and §§99.31(a)(3) and 99.35).

The purpose of this request is to gain critical DOL employment and wage data, which will be used to evaluate the percent of youth in Connecticut who are no longer in secondary school, had IEPs in effect at the time they left school, and were (1) enrolled in higher education within one year of leaving high school; (2) enrolled in higher education or competitively employed within one year of leaving high school; and (3) enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

This request is informed by the requirements of Part B of the IDEA, the federal law that makes a free appropriate public education available to eligible students with disabilities, age 3 through 21 years of age, and ensures special education and related services to those students. Under the IDEA Part B, each state is required to develop a SPP/APR that evaluates its efforts to implement the purposes and requirements of the IDEA and describe how it will improve its implementation. Within the IDEA Part B SPP/APR, each state must report indicator outcomes against the targets in its SPP/APR to the OSEP by February 1st annually. As part of its accountability framework, called Results Driven Accountability (RDA), the OSEP uses these results and compliance data in making annual determinations to each state on its progress toward meeting the requirements of the IDEA.

3.c Describe the benefit that this audit/evaluation will provide to a local or State Education Authority or Agency (34 **C.F.R. 99.1)** and the state of Connecticut. Note requests that only provide audit or evaluation of non-state Participating Agencies will not be approved.

This data request will help inform the CSDE as to the percent of youth in Connecticut who are no longer in secondary school, had IEPs in effect at the time they left school, and were (1) enrolled in higher education within one year of leaving high school; (2) enrolled in higher education or competitively employed within one year of leaving high school; and (3) enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Currently, the data used by the CSDE come from PSOS exiters responses obtained from students and their families one year after exiting public education. In any given year, the CSDE is typically able to locate and survey only 15-18% of exiters. This response rate does not allow for useful or high-quality data for assessing positive post-school outcomes for students with disabilities. Gaining access to the DOL employment and earnings information on these students should greatly increase the post-school outcome data the CSDE can obtain for each year's cohort and improve the interpretability and usefulness of the data that are federally mandated to be collected, analyzed and reported.

With the inclusion of the DOL employment and wage data in the data collection, the CSDE will be analyzing and reporting high-quality IDEA Part B Indicator 14: Post-School Outcome data, which will assist the CSDE and districts in evaluating the effectiveness of efforts to educate students with disabilities and to prepare students with disabilities for further education, employment, and independent living. Additionally, it will assist the CSDE in developing and providing differentiated monitoring and support to districts, addressed to meet their unique needs and challenges. Furthermore, the extent to which exiters are achieving post-school success and engaging in positive post-school experiences, will guide and improve the provision of transition services for students with disabilities in Connecticut.

3.d Provide a brief description of the method for analysis.

The CSDE will create a file of the students with disabilities who exited high school during the 2019-2020 school year, who had an IEP in effect at the time they left school. In that file the CSDE will include a unique random identifier that will be decoupled from any other state education identifiers, as well as the necessary demographic information for each student required for reporting and the analysis of response representativeness. The CSDE will use this file to mail the PSOS survey; respondents will use the unique random ID to submit their survey responses. The CSDE will submit this file to the NCS in order to obtain college enrollment data. The CSDE will submit this file to the DOL in order to obtain employment and wage data. All data sets will be returned using the unique random identifier. These three data sets will be merged using the unique random identifier, so that each record can be assigned a category of either 1) enrolled in higher education, 2) enrolled in some other postsecondary education or training program, 3) competitively employed, 4) in some other employment, or 5) none of these. These categorical data are the basis of the federal indicator and the data will be reported out by the percentage of exiters in each category, using the beforementioned measurement categories of 1) Higher Ed, 2) Higher Ed or Competitive Employment, and 3) Higher Ed, Competitive Employment, some other Postsecondary Ed or Training Program, or some other employment. The data for employment (competitive or other) will never be reported as a standalone statistic. Descriptive statistics (counts and percentages) will be used to determine state performance on the IDEA Part B Indicator 14 in the three measurement categories above. In addition, representativeness tests comparing the demographic data for all respondents to the total exiting population of students with disabilities will be conducted at the subgroup levels required in federal law (i.e., gender, race/ethnicity, exit type, and disability). This statewide analysis for response representativeness will be conducted and reported using both chi-square and effect size. The representativeness tests are not conducted by employment or enrollment subgroups – only for the overall populations.

3.e Provide a description of the documents or reports that will reference data from this Data Request. For each report indicate the audience for the report and expected indicators or measures to be included in each.

The IDEA Part B Indicator 14: Post-School Outcome data will be reported by the CSDE in its SPP/APR to the OSEP, which must be publicly reported. Indicator 14 data includes number and percent of respondent data (see below), description of data collection methods, and a description of the state's analysis of the data, which must include the extent to which the response data are representative of the demographics of youth who are no longer in secondary school and had IEPs in effect at the time they left school. For more information about the IDEA Part B Indicator 14 data, please visit the most recent SPP/APR submitted by the CSDE to the OSEP, [Connecticut IDEA Part B SPP/APR FFY 2018](#) (see pages 66-69).

- Number of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school
- Engagement in Employment and/or Education:
 1. Number of respondent youth enrolled in higher education within one year of leaving high school
 2. Number of respondent youth who were competitively employed within one year of leaving high school (not enrolled in higher education)
 3. Number of respondent youth enrolled in some other postsecondary education or training program within one year of leaving high school (not enrolled in higher education or competitively employment)
 4. Number of respondent youth who are in some other employment within one year of leaving high school (but not enrolled in higher education, some other postsecondary education or training program, or competitively employed)
- Measurement Categories:
 - A. Number and percent of respondent youth enrolled in higher education within one year of leaving high school (1)
 - B. Number and percent of respondent youth enrolled in higher education or competitively employed within one year of leaving high school (1+2)
 - C. Number and percent of respondent youth enrolled in higher education, or in some other postsecondary education or training program, or competitively employed, or in some other employment (1+2+3+4)

3.f In addition to utilizing a minimum cell size as documented by the Data Governance Procedure, identify/describe the statistical methods that will be used to minimize the risk of re-identification of PII for data to be published. Some typical methods are listed below; however, this list is not comprehensive. Options should be used in combination for maximum security. See the [USED Technical Brief 3](#) as a resource.

- Suppression by: cell, row, sampling (present data for a portion of students: e.g. 80%)
- Blurring through: aggregation of groups, rounding, use of ranges, use of top/bottom categories (e.g. 'less than 5%, greater than 95%),
- Perturbation: data swapping, adding noise, use of synthetic data

Reports will use suppression, including complementary suppression of counts and statistics, consistent with the [CSDE Data Suppression Guidelines](#).

SECTION 4 – PROTECTION OF CONFIDENTIALITY

4.a By what date will the datasets and all paper or electronic copies will be destroyed by the requestor?

After the Approved Requestor has received data files and the matrix of generic unique identifiers, the Approved Requestor has 12 months to complete analysis and destroy the data files. Note, that the Data Governing Board may set a shorter or longer time frame before the data files must be destroyed, and this 12 month limitation may be extended with written approval from the Data Governing Board. Requestors need to submit the Query Management Document as a 'continuation' for approval of an extension.

The CSDE will destroy the data file within 12 months from the date of receipt of the matched data file from DOL.

The Participating Agencies and the Data Recipient shall be allowed to provide additional information, and/or address the comments or concerns of the Data Governing Board and resubmit the request.
3. Disapproval: Data Recipient (s) shall receive notification of the decision and the supporting reasons for the decision not to share or match Data based on the given Data Sharing Request Form.

The Participating Agencies' representatives do not have to meet in person and the Participating Agencies' votes may be virtual, including but not limited to telephonic. The Operating Group shall be responsible for notifying the Data Recipient of the applicable decision.

XII. METHODOLOGY

The Participating Agencies in the Data Sharing Request shall, in accordance with the DSA, provide the Data Integration Hub with the requested Data files and will describe the Data flow process in the DSA. Each Participating Agency input file shall contain a generic identifier for each Individual record. The generic unique identifier, used solely for the Data Sharing process using the Data Integration Hub, will bear no resemblance to or contain any part of an individual's identifiable data.

The Operating Group shall coordinate and schedule the Transmission of Data from Participating Agencies with Data that was approved to be a part of the Data request. Each Participating Agency with Data that was approved to be a part of the Data request and who approved the use of their Data will produce the input Data sets required to satisfy the request:

- A. The file used for data matching will be structured so that there is one unique record per Individual represented. Data that may have been pulled from a dimensional data source will be flattened to produce an input file in this format.
- B. Participating Agency shall structure the file with a unique generic ID to each unique record in the file that identifies the Participating Agency which is providing the Data.

Each Participating Agency shall utilize the Specifications under this E-MOU when responding to a P2OWIN Data Sharing Request.

The Participating Agencies may jointly advise the revision of these Specifications, and the Data Governing Board may recommend to the Executive Board the adoption of amendments to, or repeal and replacement of, the Specifications for integrating data for matching services at any time in accordance with Appendix 4 of this E-MOU.

Upon receipt of all required input Data sets, the Data Integration Hub shall utilize data matching software and/or methods approved by the Data Governing Board to integrate the Data sets.

XIII. USE OF DATA

- A. All Parties to this E-MOU, and specifically, the Data Integration Hub, shall only use Data for the authorized Data Sharing Request purpose and no other purpose in accordance with applicable federal and state law, this E-MOU and the Data Sharing Agreement. Each Party shall monitor the use of Data by its Users, employees, vendors and any other person or entity that receives, sends, or has access to Data pursuant to this E-MOU. Nothing in this E-MOU may be construed to allow any Party, person or entity to maintain, use, disclose or share Data in a manner inconsistent with the terms of this E-MOU or its Appendices and applicable federal and state laws and regulations.
- B. The Parties agree that they will comply with any operational measures necessary due to changes in applicable law.
- C. Each Participating Agency agrees that unless permitted or required to share Data by applicable federal and/or state law, it may obtain the appropriate authorization to disclose the Data for the Individual, pursuant to the terms and conditions of this E-MOU and its Appendices. If a signed consent to share the Data is required, the Participating Agency may take steps to obtain the Individual's consent to release the Data. Where the Individual is a minor, the Participating Agency may take steps to obtain the Individual's parent or legal guardian consent. If the Individual has a representative authorized to act on her/his behalf, the Participating Agency may take steps to obtain the Individual's representative consent.
 - 1. Tracking of Authorizations. The Participating Agencies agree to track the expiration and/or revocation of the Individuals consent authorization in compliance with the applicable federal and state laws.
 - 2. Defective authorization. Individuals consent authorization is not valid if the document has any of the following defects: (a) the expiration date has passed or the expiration event is known by the Participating Agency to have occurred; (b) the authorization has not been completely filled out, with respect to a required element by federal and/or state law; (c) the authorization is known by the Participating Agency to have been revoked; (d) the authorization creates a compound authorization or violates the prohibition on conditioning

the provision of services or benefits on conditioning authorizations; (e) any material information in an authorization is known by the Participating Agency to be false.

3. Revocations of authorizations. Individuals may revoke a consent authorization provided under this section at any time for subsequent Data Sharing requests, provided that the revocation is given in writing to the Participating Agency, except to the extent that the Data has already been shared or actions have taken place in reliance on the prior consent authorization. The confidentiality and privacy policies of each Participating Agency shall govern the Individuals revocation of consent authorizations.

XIV. P20 WIN DATA SHARING SYSTEM ACCESS POLICIES

- A. Each Participating Agency acknowledges that Participating Agency access and disclosure policies may differ among them as a result of differing applicable laws and business practices. Each Participating Agency agrees to be responsible for encrypting data in transit and at rest, using current industry standard algorithms agreed on by the Participating Agencies involved and the Data Integration Hub before transmission occurs based on the application of its Participating Agency Access and Disclosure policies to the requested data. Each Participating Agency shall comply with applicable federal and state law, this E-MOU, and all applicable Specifications in Transmittal of Data.
- B. Each Participating Agency agrees to employ an approved credentialing service, through which the Participating Agency, or its designee, uses the Digital Credentials to verify the identity of each User prior to enabling such user to Transmit Data. The “approved credentialing service” must meet state, federal and industry standards. It must also be commonly used, verifiable, and known as being used in existing data exchange systems.

XV. ENTERPRISE SECURITY SPECIFICATIONS

- A. Each Participating Agency agrees:
 1. To implement and maintain a security program that, at a minimum, includes all controls identified in NIST Special Publication 800-171. Furthermore, each Participating Agency shall be responsible for maintaining a secure environment compliant with state policies, standards and guidelines, and other applicable federal and state law that supports the Transmission of Data in compliance with the Specifications.
 2. To comply with additional safeguards recommended by the Data Governing Board and/or required by the Executive Board, including but not limited to encryption of Data in transit and at rest using current industry standard algorithms agreed on by the Parties involved before transmission occurs.
 3. As appropriate under applicable federal and state law, have written privacy and security policies, including Access and Disclosure policies.
 4. To the extent permissible under applicable federal and state law, comply with

Specifications that define expectations with respect to data privacy and security standards in this E-MOU.

- B. The Data Integration Hub agrees:
 - 1. To implement and maintain a security program that, at a minimum, includes all controls identified in NIST Special Publication 800-171.
 - 2. That each Participating Agency shall, through its agents, employees, and independent contractors have the ability to audit the processes at the Data Integration Hub related to this E-MOU for Data security purposes: to clarify, the Participating Agency has the ability to monitor the access to and use of the Data Integration Hub, but not the records or the Data being provided
 - 3. That all Data from each Participating Agency, in the possession of the Data Integration Hub, shall be encrypted at rest (storage) and in motion (Transmittal) including all Participating Agency Data sent to the Data Recipient.
 - 4. To develop procedures to notify Participating Agencies when a breach or suspected breach of the Data Integration Hub has occurred.

- C. In accordance with applicable federal and state law, each Party shall be responsible for procuring and assuring that its User(s) have or have access to equipment and software necessary to fulfill its responsibilities under this E-MOU.

- D. Security Standards for Transmission of Data and for Data at Rest. The Transmission of Data shall be encrypted to appropriate framework, using current industry standard algorithms agreed on by the Parties involved. Electronic signatures shall be used in the Data Transmission and Data at rest to identify the source and destination.

- E. Exception Process. A Participating Agency which does not fully meet the standards set forth in this Section XV may submit a proposed plan to share Data to the Data Governing Board during the process of coming into full compliance with the stated requirements.

- F. Applicability of Privacy and Security Regulations. To maintain the privacy, confidentiality, and security of the Data, and in determining Data security (including but not limited to where the Data shall be maintained and who has access to the Data), each Party shall comply with applicable federal and state law and this E-MOU and the data privacy and security standards.

- G. Safeguards. Each Party shall use reasonable and appropriate administrative, physical and technical safeguards in conformity with NIST SP 800-171 requirements.

- H. Breach Notification. If a breach occurs while the Data is in the possession of a Party, such Party shall comply with the applicable federal and state law requirements regarding reporting of a breach or a potential breach, including but not limited to the Attorney General's Data Security

Department, C.G.S. § 36a-701b, that affect Data covered under a Data Sharing Agreement (DSA) and comply with the requirements contained in Appendix 2 hereto.

- I. Conflict of Obligations. This Section shall not be deemed to supersede a Participating Agency's obligations (if any) under relevant security incident, breach notification or confidentiality provisions of applicable federal and law.
- J. Conflict of Compliance. Compliance with this Section shall not relieve any Party of any security incident or breach reporting requirements under applicable federal and state law including, but not limited to, those related to Individuals.

XVI. ONBOARDING NEW PARTICIPATING AGENCIES, AND SUSPENSION AND REINSTATEMENT OF PARTICIPATING AGENCIES

Onboarding of new entities for data sharing and suspending and reinstating Participating Agencies shall be in accordance with Appendix 1.

XVII. AUDITS

The Operating Group will facilitate any required confidentiality, privacy or security audits related to the P20 WIN Data Sharing process that are requested by any of the Participating Agencies. To perform this duty, the Operating Group shall:

- A. Facilitate any Participating Agency to audit or assess the Data Integration Hub's data sharing confidentiality, privacy or security protocols and practices to ensure compliance with applicable laws and this E-MOU.
- B. Ensure maintenance of logs to track a) Data files received; b) matches conducted; c) Data files maintained; and d) the output files sent to approved Data Recipient(s). Logged information shall specifically document when Data was transferred, who received and sent Data, Data Elements involved, Data Sharing Request to which the Transferred Data pertain, dates of Data destruction and other relevant information.
- C. Regularly monitor Users at the Data Integration Hub with access to Data to determine whether the job responsibilities of those persons continue to require access to Participating Agencies' Data. The Data Integration Hub shall immediately facilitate the removal of access for any person who is determined to no longer require such access.

XVIII. MISCELLANEOUS PROVISIONS

- A. Amendments. An amendment of the E-MOU and its Appendices and the DSA and its

Exhibits may be recommended by the Data Governing Board to the Executive Board in accordance with Appendix 3 and Appendix 4. To be considered, all members of the Executive Board must be present (including telephonically or virtually) for the vote. Revisions to this E-MOU must be approved by the Executive Board by a unanimous vote of the Executive Board. After such vote, if a member participated by telephonically or virtually, the Operating Group shall follow up with such member and capture their vote for inclusion. A formal written amendment shall memorialize the approved revisions to this E-MOU, and shall not be effective until executed by all Parties to the E-MOU.

- B. Term and Termination. The term of this E-MOU is for a period of three (3) years. This E-MOU shall remain in full force and effect for the entire term of the E-MOU period stated herein, unless terminated by any Participating Agency on behalf of itself as a Party to the E-MOU with thirty (30) days written notice to the Operating Group. If this E-MOU is found by a court or tribunal of competent jurisdiction to be in conflict with any federal or state laws or with any rule, regulation, or guideline, it shall be null and void to the extent of such conflict. Notwithstanding this termination provision, if any Party to this E-MOU is found to have breached the confidentiality provisions contained herein, the remaining Parties may immediately terminate their participation without notice.

APPENDIX 1

Procedures for Adding a New Participating Agency, Suspending a Participating Agency and Reinstating of a Participating Agency

1. Adding A New Participating Agency

When an Applicant requests to join this E-MOU, the request shall be directed by the Executive Board to the Data Governing Board. The Data Governing Board will meet to review the Applicant's request within thirty (30) business days of submission. The Data Governing Board's review will focus on the authority of the Applicant to access and share the data and potential security, privacy, confidentiality or conflict of interest concerns that might be raised if the Applicant participates in the Data Sharing process. If security or conflict of interest concerns are identified, the initial request will be returned to the Applicant and the Applicant will be asked to explain how there are no security or conflict of interest concerns. If confidentiality or privacy concerns are identified, the initial request will be forwarded to the Operating Group, for review and decision. The Operating Group will review and respond to the Applicant's request within ten (10) business days of receipt from the Data Governing Board.

If no concerns are identified (including the Data Governing Board being satisfied that the Applicant understands the policies and procedures set forth in the E-MOU), and the decision by the Data Governing Board is to recommend adding the Applicant as a Participating Agency, the recommendation will be sent to the Executive Board for a decision. If the Executive Board, by a unanimous vote, accepts the recommendation of the Data Governing Board, the Applicant will be considered a Participating Agency. The E-MOU will be amended to add the Applicant as a Participating Agency and all Parties shall sign the revised E-MOU.

2. Suspension of a Participating Agency

A. Voluntarily by the Participating Agency

1. **Service Level Interruptions.** Participating Agencies or the Data Integration Hub may experience temporary service level interruptions from time to time. These service level interruptions may be planned or unplanned. A service level interruption may result in a Participating Agency or the Data Integration Hub having to temporarily cease Data Sharing with other Participating Agencies. To ensure that all Participating Agencies are aware of service level interruptions, the Participating Agency experiencing the service level interruption agrees to notify the Data Governing Board of the interruption prior to the interruption, if planned, or as soon as reasonably practicable after the interruption begins, if unplanned. The Data Governing Board shall simultaneously notify all other Participating Agencies, as well as members of the Executive Board, of the interruption. The Participating Agency agrees to be responsible for taking all technical actions necessary to resolve a service level interruption. During a service level interruption, the Participating Agency agrees to continue to comply with the terms and conditions of the E-MOU.

2. **Voluntary Suspension.** If a Participating Agency decides that it requires a temporary suspension of its responsibility for complying with the terms of the E-MOU, it agrees to provide written notice to the Data Governing Board of its need for a temporary voluntary suspension at least twenty-four (24) hours prior to commencing its voluntary suspension. The written notice shall specify the reason(s) for, the commencement date of, and the duration of the voluntary suspension. The Data Governing Board shall simultaneously notify all other Participating Agencies, as well as members of the Executive Board of the voluntary suspension.

B. INVOLUNTARILY – WITH CAUSE

When a complaint, report, or other information indicates that a suspension may be warranted, the Data Governing Board may initiate an investigation of complaint, report, or other information. The Data Governing Board shall immediately notify the Party(ies) in question of the investigation.

When the complaint, report, or other information indicates that a suspension must be implemented immediately and, in the judgment of the Data Governing Board, it is not practical to delay the suspension while the Executive Board is convened, the Data Governing Board shall immediately:

- a. Notify the Executive Board of the recommendation and request that the Executive Board take all actions necessary to carry out the suspension, including, but not limited to, suspension of the Participating Agency's access to Data Sharing service;
- b. Call a special meeting of the Executive Board to evaluate the recommendation of suspension; and
- c. If the Executive Board agrees with the recommendation, notify the suspended Participating Agency of the suspension.

The Data Governing Board shall meet as soon as practicable, but no later than five (5) business days after the receipt of the complaint by the Data Governing Board, to evaluate the suspension action by the Executive Board. The suspension shall remain in effect until the Data Governing Board meets to evaluate the suspension and makes a recommendation to the Executive Board to affirm, modify, or terminate the suspension.

If a member of the Data Governing Board is the designee of the Participating Agency identified by the complaint, the designee will recuse herself/himself from the investigation of the complaint.

If a complaint has not been resolved by the Data Governing Board within thirty (30) days after it was first received (or such longer period as agreed to in writing by the Participating Agency who is a party to the complaint), then the complaint shall be escalated to the Executive Board for resolution. If the Executive Board (if a member of the Executive Board is

the designee of the Participating Agency identified by the complaint, the designee will recuse herself/himself from the discussion and vote) cannot decide unanimously on a resolution of the complaint, then the complaint is dismissed with no action taken against the Participating Agency.

If, through the investigation, the Data Governing Board recommends that a Participating Agency is (i) creating an immediate threat, or (ii) will cause irreparable harm to another party, including but not limited to, another Participating Agency, a User, or an individual whose data are shared pursuant to this E-MOU, the Data Governing Board may recommend to the Executive Board to suspend a Participating Agency and that such suspension be tailored to address the threat posed by the Participating Agency. If the Executive Board concurs in the recommendation, the Executive Board shall order the Data Governing Board to take all technical actions necessary to carry out the suspension including, but not limited to, suspension of the Participating Agency's access to the Data Sharing services. As soon as reasonably practicable after suspending a Participating Agency, but in no case longer than twelve (12) business hours, the Data Governing Board shall provide the suspended Participating Agency with a written summary of the reasons for the suspension and notify all other Participating Agencies of the suspension.

The suspended Participating Agency agrees to provide the Data Governing Board with a written plan of correction to the suspension within ten (10) business days of being notified of the suspension.

Any objection shall specify the reason that the Participating Agency feels the suspension is inappropriate. The plan of correction shall describe the action that the Participating Agency is taking to address, mitigate and remediate the issue(s) that caused the Data Governing Board to recommend that a suspension was appropriate and include a timeframe for such actions. The Data Governing Board shall meet and review a suspended Participating Agency's plan of correction or objection within ten (10) business days of receipt from the Participating Agency; determine whether to recommend to the Executive Board to accept or reject the plan of correction or affirm the suspension; and communicate such decision to the Executive Board who will act on such recommendation and provide its decision to the suspended Participating Agency and the Data Governing Board.

If the Data Governing Board rejects the plan of correction, it shall work in good faith with the suspended Participating Agency to develop a mutually acceptable plan of correction. If the Data Governing Board and the suspended Participating Agency cannot reach agreement on the content of the plan of correction or on the reasons supporting the suspension it, the Data Governing Board may submit the Dispute to the Executive Board or make a recommendation to terminate the Participating Agency.

Any suspensions imposed shall remain in effect until the Participating Agency is reinstated or terminated in accordance with this E-MOU. A Participating Agency shall be suspended by

the Data Governing Board before the Participating Agency can recommend termination of the Participating Agency.

3. Reinstatement

A. After Voluntary Suspension by a Participating Agency

The Participating Agency's notification of a voluntary suspension shall state the commencement date and the duration of the suspension. That Participating Agency may extend the duration of the voluntary suspension should it be necessary as determined by the Participating Agency.

Either on the date indicated by the Participating Agency in the suspension or extension request or at an earlier time if requested by the Participating Agency, the Executive Board shall instruct the Data Governing Board to take all actions necessary to reinstate the Participating Agency's ability to participate in the data sharing service included, but not limited to, the reinstatement of the Participating Agency's access to the Data Sharing services.

B. After Suspension with Cause

When a Participating Agency's ability to participate in the data sharing services has been suspended by the Data Governing Board with cause, the Participating Agency agrees to provide evidence to the Data Governing Board of the Participating Agency's fulfillment of the obligations of its plan of correction. The Data Governing Board shall review such evidence at its next regularly scheduled meeting following receipt from the Participating Agency.

If the Data Governing Board is not satisfied that the Participating Agency has met its obligations under its plan of correction, the Data Governing Board shall inform the Participating Agency of the deficiencies within five (5) business days of reaching that decision. The Participating Agency will have the ability to submit additional evidence that addresses such deficiencies.

When the Data Governing Board is satisfied that the evidence presented indicates that the Participating Agency has fulfilled its obligations under the plan of correction, it shall recommend that the Executive Board instruct the Data Governing Board to take all actions necessary to reinstate the Participating Agency's ability to participate in the data sharing services including, but not limited to the reinstatement of the Participating Agency's access to the Data Sharing services. Such action should be completed as soon as possible but not later than three (3) business days after reaching that decision. The Executive Board shall inform all Participating Agencies of such reinstatement forthwith.

Multiple suspensions with cause may result in a permanent suspension.

2. Disposition of Breach Alerts and Notifications

A. Review of the Breach by the Data Governing Board

The Data Governing Board shall facilitate a meeting upon receipt of the actual or potential Breach alert or Notification for the purpose of reviewing the Notification and determining the following:

B. Voluntary Suspension of Termination by the Participating Agency

The Operating Group for the Executive Board's Chairperson shall notify members of the Data Governing Board and all Party(ies) of such suspension and maintain a log of all such suspensions.

C. Determination of Breach Resolution

Once complete information about the Breach becomes available, the Data Governing Board shall meet to determine whether the actions taken by the Party(ies) involved in the actual or potential Breach are sufficient to mitigate the actual or potential Breach and prevent a similar Breach from occurring in the future. Once the Data Governing Board is satisfied that the Party(ies) has taken all appropriate measures, the Data Governing Board shall deem the actual or potential Breach resolved and will so advise the Executive Board of such recommendation.

- 1) This resolution will be communicated to all Party(ies) (by communicating with the appropriate DSG representative) involved in the actual or potential Breach and those Party(ies) that ceased Data Sharing with the Participating Agencies involved in the Breach.
- 2) Lessons learned on the root cause of the actual or potential Breach will be communicated to all Party(ies), including those not involved in the actual or potential Breach, to prevent a recurrence of the event in the future.

At the conclusion of the response period established during the evaluation of the proposed change, the Executive Board shall evaluate whether to approve the Process Change, if an E-MOU change will be required, and a proposed timeline for implementation. Revisions to the E-MOU mandated by approved Process Changes will be performed in accordance with Appendix 3 of this E-MOU.

2) Compliance Changes

Depending on the responses from the Party(ies), the Executive Board may provide input to all Party(ies) on the impact of the Compliance Change and the recommended timeline for implementation.
