Additional information:

UFL Football

Schedule and projected attendance for the 5 UFL games are not available at this time. Attendance at the single game played at Rentschler last year was 5,200, which would not constitute a Major Stadium Event. Games will be played on Friday and Saturday nights on weeks when UCONN is not playing at home.

2. A discrepancy was noted between the number of shade trees appearing on the landscape plans and the number shown in the “Plan List” table on Sheet No. LA-1. Bidders are directed to base pricing on the number and species of trees actually shown on the plan sheets and disregard the numbers in the table.
