

# State of Connecticut

DENISE L. NAPPIER  
TREASURER

June 1, 2012

Hartford

Joint Committee on Finance, Revenue and Bonding:

The Honorable Eileen M. Daily, Senate Chair  
The Honorable Patricia M. Widlitz, House Chair  
The Honorable Andrew W. Roraback, Senate Ranking Member  
The Honorable Sean J. Williams, House Ranking Member

Appropriations Committee:

The Honorable Toni Nathaniel Harp, Senate Chair  
The Honorable Toni E. Walker, House Chair  
The Honorable Robert J. Kane, Senate Ranking Member  
The Honorable Craig A. Miner, House Ranking Member

Legislative Office Building  
Hartford, CT 06106

Dear Mesdames and Messrs.:

Pursuant to C.G.S. Section 3-37(b), please find attached the monthly report for the period ending April 28, 2012, which provides certain information regarding the State's cash position and bonding.

As I have previously discussed in these monthly reports on cash and debt, the common cash pool represents the cash resources on hand on a daily basis to fund State operations. Total available cash also includes bond funds and other balances which can be made available to the common cash pool through temporary transfers in accordance with the State's long-standing and sanctioned practice for managing fluctuations in the flow of cash to and from separate funds. The transfers are a prudent and cost-effective method for accommodating the timing mismatches in revenues and expenditures.

The report for April reflects an adequate overall cash balance. During the month of April, bond proceeds were temporarily transferred to and from the common cash pool. An additional transfer to the common cash pool was made earlier today.

June 1, 2012

Page Two

~~~~~

Throughout Fiscal Year 2012, total available cash has remained adequate, but the common cash pool balance has fallen substantially during the year and when compared to Fiscal Year 2011, thereby requiring the temporary transfers discussed above. The enclosed chart sets forth the actual week-ending balances (without transfers) for the common cash pool for Fiscal Years 2011 and 2012. As you can see, the common cash pool is trending downward over time and the need for temporary transfers or other resources is growing.

Several factors have had the most impact on the State's cash position. These include the \$200 million budget deficit for Fiscal Year 2012, the accumulated unfunded GAAP deficit (which stands in excess of \$1 billion), and the absence of a Budget Reserve Fund. Taken together, this means that the common cash pool must rely on other resources even with a balanced General Fund budget. Certainly, Governor Malloy's plan to fund the accumulated GAAP deficit over 15 years starting in 2014 will have a positive impact on our cash position; however, a plan to more rapidly fund the GAAP deficit or rebuild reserves is strongly advised as a potential cost-effective approach to managing these needs during periods of fiscal stress and uncertainty, and avoid further pressure on the State's cash flow.

Looking forward to Fiscal Year 2013, we expect to manage the State's cash needs throughout the year by use of the State's total available cash. A note of caution, however, is warranted. As mentioned earlier, there has been a significant decline in the common cash pool. The balance stood at \$121 million as of May 26, 2012; at the same point last year, it stood at \$895 million. This decline could trigger periods of cash flow pressure, which would require more extensive transfers to the common cash pool and possibly the need for external funding sources (e.g., short-term options include temporary notes, or a line of credit; longer-term options include issuance of bonds to more rapidly fund the GAAP deficit). The situation is highly dependent on possible changes in forecasts in revenues and expenditures over the remaining weeks of this fiscal year and all of next fiscal year.

I will keep you updated as the fiscal year develops. In the meantime, should you have any questions, please feel free to call on me.

Sincerely,

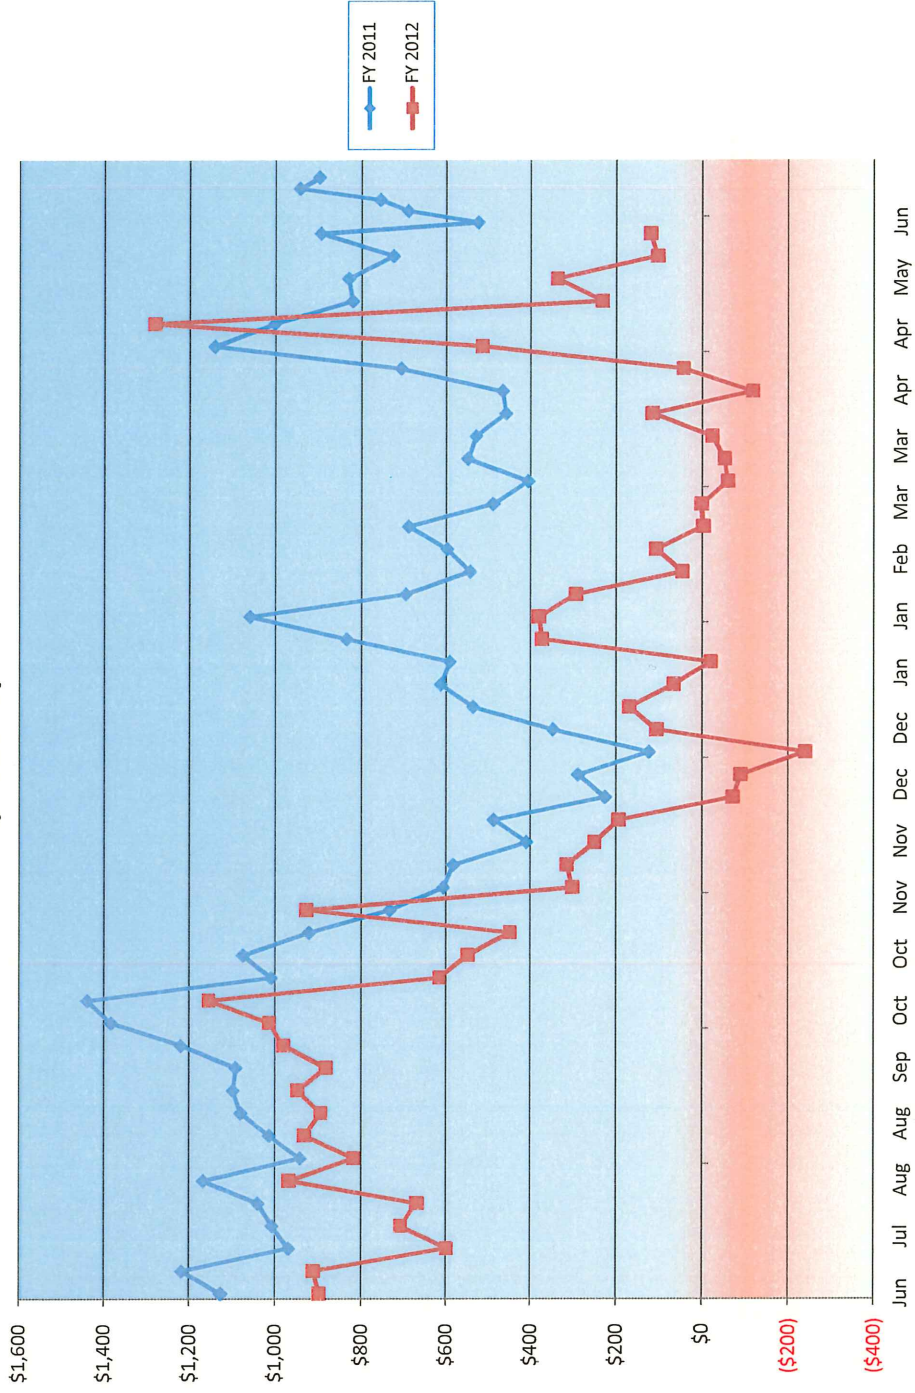

Denise L. Nappier  
State Treasurer
