Dear Mesdames and Messrs.:

Pursuant to Section 3-37(b) of the general statutes, please find attached the monthly report for September 2017, which provides certain information regarding the State's cash position and bonding.

The report for September 2017 shows strong overall cash balances. No temporary transfers from bond proceeds investment accounts have been made since December 2014. As of October 28, 2017, our total available cash equaled \$1.5 billion.

Delays in adopting a budget caused postponements of bond sales to fund capital expenditures. Even with yesterday's enactment of the biennial budget for fiscal years 2018 and 2019, additional time will be required to properly stage and complete General Obligation and transportation bond sales. As a result, temporary transfers between bond proceeds investment accounts and the cash pool may be necessary over the coming months. While we are analyzing the expenditure and revenue timing implications of the new budget, we currently do not anticipate the need for external cash flow borrowing.

As always, our office will keep you updated on developments with our cash flow. In the meantime, should you have any questions, please feel free to call.
