Area Law Enforcement-

The FBI Criminal Justice Information Services Division is offering **FREE** Basic Fingerprint training at the Milford Police Department's Training Academy from July 23- 25, 2024. All law enforcement personnel are welcome to attend for a basic understanding of fingerprints. It is a three-day (eight hours each day) commitment from 0800-1630.

Please contact Lt. Tom Wardowski via email with your name, email, phone, and agency information via email to sign up by 3pm on July 02, 2024.

Scientific Basics of Fingerprints: Classifying, Recording, and Comparing including the Scientific Basics of Palm Prints – Recording

Description: This course is for individuals interested in obtaining a basic understanding of fingerprints.

- Participants will learn the fingerprint pattern types, classification using the Henry (modified version), National Crime Information Center (NCIC) systems, and AFIS Pattern Classification (APAT) code.
- The course will demonstrate procedures to reach a conclusion of identification or exclusion and will cover recommended techniques to record/collect legible fingerprints and palm prints.
- Course curriculum consists of presentation/workbook, facilitated discussions, and practical hands-on exercises.

Sincerely,

Lt Tom Wardowski
