# Requesting a Waiver of CT Approved K-3 Reading Curriculum Models or Programs

P.A. 23-167 mandates that each local and regional board of education implement an approved comprehensive reading curriculum model or program for grades K-3.

C.G.S. Sec 10-14hh, however, provides that local and regional boards of education may request a waiver to implement a reading curriculum model or program other than one of the approved comprehensive reading curriculum models or programs.

Legislation further provides that the Commissioner of Education, in consultation with the director of the Center for Literacy Research and Reading Success, shall grant such waiver if the Commissioner determines that the local or regional board of education requesting a waiver has demonstrated that such other reading curriculum or model is:

- evidenced-based and scientifically based, and
- focused on competency in the following areas of reading: oral language, phonemic awareness, phonics, fluency, vocabulary, rapid automatic name or letter name fluency and reading comprehension.

# General Overview of Waiver Review Process

# Waiver Review Tool

## Sources used to develop the Waiver Tool

### Users of Waiver Tool:

- PCG Review Team

### Purpose of Waiver Tool

- Capture research-based evidence
- Document the findings
- Identify the areas in which legislative requirements are met or not met
- Provide the CT Department of Education a summary review of the waiver to support decisions made by the CT Department of Education

## Sources used to develop the Waiver Tool

- [Senate Bill No. 1202 Right to Read](#)
- [2022 Guidelines for Open Review Period for Grades Pre-Kindergarten the Three Reading curricula and/or Programs](#)
- [Waiver Application Guidance](#)

<p>Sec. 10-14u. (a) (3): "Scientifically-based reading research and instruction" means (A) a comprehensive program or a collection of instructional practices that is based on reliable, valid evidence showing that when such programs or practices are used, students can be expected to achieve satisfactory reading progress, and (B) the integration of instructional strategies for continuously assessing, evaluating and communicating the student's reading progress and needs in order to design and implement ongoing interventions so that students of all ages and proficiency levels can read and comprehend text and apply higher level thinking skills. Such comprehensive program or collection of practices includes, but is not limited to, instruction in the following areas of reading: Oral language, phonemic awareness, phonics, fluency, vocabulary, rapid automatic name or letter name fluency and reading comprehension (<a href="https://www.cga.ct.gov/current/pub/chap_163c.htm">https://www.cga.ct.gov/current/pub/chap_163c.htm</a>).</p>

# Section 1 Comprehensive Program or Collection of Instructional Programs

## Section 1: Evidenced-based and Scientifically-based [C.G.S. Sec. 10-4ii(1)]

Senate Bill No. 1202, page 622: "Scientifically-based reading research and instruction" means (A) a comprehensive program or a collection of instructional practices that is based on reliable, valid evidence showing that when such programs or practices are used, students can be expected to achieve satisfactory reading progress (<https://www.cga.ct.gov/2021/ACT/PA/PDF/2021PA-00002-R00SB-01202SS1-PA.PDF>).

A. Comprehensive program or collection of instructional practices

# Comprehensive Program

**1A: Complete this section for the comprehensive program.**

Did the district provide reliable and valid evidence showing that the program will support students in achieving satisfactory reading progress (e.g., copies of or links to studies that were scientifically conducted: replicated, peer reviewed, and independent)?

Any scientific based study that the district provided to support evidence-based practices. Studies should be replicated by other studies, peer reviewed and done independently of the company that produced the program.

# Collection of Instructional Practices

**1B: Complete this section for collections of instructional practices ("program" or "component").**

Did the district submit a scope and sequence or other document demonstrating how the collection is coordinated (same terminology, same procedures, explicit transfer of skills from one component to another) to become a comprehensive program?

Select Yes or No. ▼

Did the district provide reliable and valid evidence showing that the collection will support students in achieving satisfactory reading progress (e.g., copies of or links to studies that were scientifically conducted: replicated, peer reviewed, and independent)?

Select Yes or No. ▼

Demonstration of cohesion between the different practices.

- scope and sequences
  - learning trajectories
  - example lesson plans
- Showing ...

... the attempt made by the district shows

- use of same terminology and procedures
- explicit transfer of skills from one component to another

Any scientific based study that the district provided to support evidence-based practices. Studies should be replicated by other studies, peer reviewed and done independently of the company that produced the program.

# Comprehensive Program vs. Collection of Practices

## Scientifically based reading research and instruction means:

1. Comprehensive program or collection of practices based on reliable, valid evidence
  - Should show students can be expected to achieve satisfactory progress when programs/practices are use
2. Integration of instructional strategies
  - For continuously assessing, evaluating, and communicating reading progress and needs
  - To design and implement ongoing interventions
3. Instruction in the following areas:
  - Phonemic Awareness
  - Phonics
  - Fluency
  - Oral Language
  - Vocabulary
  - Rapid Automatic Name or Letter Name Fluency
  - Text Reading Comprehension

## For districts that chose to submit a collection of practices, reviewers look for:

1. Did the district submit a scope and sequence (or other) demonstrating how the collection is coordinated to become a comprehensive program?
  - Scope and sequence, learning trajectory, sample lesson plans, etc.
  - Demonstrate cohesion between the programs/practices
  - Adjustments to coordinate the programs (procedures, terminology, explicit transfer of skills, especially foundational skills that are reinforced in the comprehension components)
2. Did the district provide reliable and valid evidence showing that the collection will support students in achieving satisfactory reading progress
  - Copies or links to studies
  - Scientifically conducted, replicated, peer reviewed, and independent
  - Case studies, local data, and company produced studies are supplemental but do not meet the criteria of being scientifically conducted

# Section 2: Explicit, Systematic, Sequential, and Cumulative Instruction

**Section 2:** All components of reading use explicit, systematic, sequential, and cumulative instruction.

- Focused competency in areas of reading [C.G.S. Sec. 10-14ii(2)]: Students are introduced to a new skill before being asked to perform it.
- Sequential instruction in areas of reading [C.G.S. Sec. 10-14ii]: There is a detailed scope and sequence including a list of specific skills taught, a sequence for teaching the skills over the course of the year, and a timeline showing when the skills are taught (e.g., by week, month, or unit).
- Systematic and cumulative instruction in all areas of reading [C.G.S. Sec. 10-14ii]: The structured lesson format includes a plan, procedure, or routine that is carried through the sequence of teaching skills.
