ENFIELD HIGH SCHOOL

Northern Connecticut comprehensive public school that supports a diverse crowd with career and technical education and serves over a thousand students from the community and Hartford

TEACHING CTE FROM HOME

We're going to have to ask you to work from home for the last quarter

And you teach a hands-on career and technical course that involves getting students ready to work in a commercial kitchen

Oh yeah, and not all your students have resources or equipment at home to cook

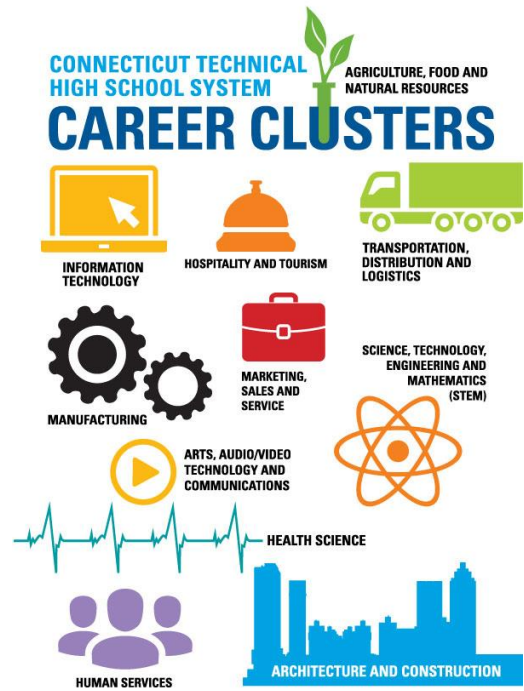

WHAT??NO!!

How can this work?

Cook from home with limited resources and equipment

How could I get them the experience of a commercial kitchen?
