

Charlene Russell-Tucker

Commissioner of Education

#CTLEARNINGHUB

Hello, I am Charlene Russell-Tucker, your Commissioner of Education in Connecticut.

Welcome to the CT Learning Hub! I am excited to share your destination for universal access to curated tools and resources anytime, anywhere.

The CT Learning Hub puts resources in the hands of CT families, students, and educators.

The hub is a free and interactive web page of digital resources to support online and offline learning.

At the core of the Department's and the State Board of Education's work is a commitment to equity.

Our five-year plan, titled "Ensuring Equity and Excellence for All Connecticut Students," states, "The State Board of Education is committed to ensuring that equitable access and opportunities are at the forefront of our collaborative inquiry and collective responsibility. We are challenging and holding ourselves accountable to secure an excellent education for current and future generations of students in Connecticut."

Together, we will continue to ensure that students make dramatic gains and thrive with high expectations, quality support services, strong leadership, rigorous instruction, and motivated teachers.

This is why the CT Learning Hub was created to accelerate learning through equitable access, anytime, anywhere.
