PERKINS V GRANT GENERAL QUESTIONS

How is the distribution of funds to each secondary eligible recipient (district) or postsecondary eligible recipient (community college) determined?

Secondary eligible recipients' formula: Thirty percent (30%) the number of 5 to 17 year-olds who reside in the district and seventy percent (70%) the number of 5 to 17 year-olds in families below the poverty line, based on data collected under the Elementary and Secondary Education Act (ESEA).

Postsecondary eligible recipients' formula: The number of individuals receiving Federal Pell grants.

Why does the length of time it takes to receive funds vary from year to year?

Several factors affect grant approvals including:

- The date Federal Perkins funds become available to the Connecticut State Department of Education (CSDE).
- Date final eligible recipient allocations are determined.
- Submission of incomplete eligible recipient grant materials.
- Timeliness of eligible recipient's responses to Career and Technical Education (CTE) Consultants' comments, clarifying questions, and recommendations.

How long does an eligible recipient have to expend their Perkins V grant?

Eligible recipients have until June 30 of the grant year to expend or encumber Perkins V funds. Liquidation of all grant funds shall be by August 31 of the grant year.
