

CSDE's Partners in Education

"In times of crisis, the strength of your teams is tested. In Connecticut, our effort to support students is grounded in the understanding that together, we will accomplish more. Through our weekly meetings with our educational partners, our agency is ensuring that we consider various perspectives and move forward as one education community. Leading with our learners' best interest in mind will drive our work, our partnership, and ultimately lead to the best outcomes for the great state of Connecticut."

— Commissioner Dr. Miguel A. Cardona
