STATE OF CONNECTICUT
DEPARTMENT OF EDUCATION

TO: Superintendent of Schools

FROM: Ajit Gopalakrishnan, Chief Performance Officer

DATE: November 30, 2020

SUBJECT: 2021-22 Administration of the Connecticut SAT School Day

In school year 2021-22, the administration of the Connecticut SAT School Day will transition from a paper-and-pencil test to a fully digital administration. In preparation for this change, please note the following important implementation and administration details:

- The test will be administered on **March 23-25 & 29-30, 2022**, with make-ups scheduled for **April 26-28, 2022**. If necessary, schools can use all of these available days to administer the test digitally.

- All tests will be delivered using the Cambium Assessment Incorporated (formerly American Institutes for Research) test delivery system and supporting tools. Schools will be required to install the College Board Secure Browser in order to deliver the assessment.

- All students in a school will be required to test digitally except for a small number of students who may be approved for a paper-pencil accommodation.

- All students must complete all sections of the test in one day unless a student has been approved for accommodations that extend testing time beyond one day.

More specific details regarding the digital transition will be made available as the 2021-22 administration approaches. We hope that this advance notification of 2021-22 test dates supports local calendar planning. Please direct any questions regarding the Connecticut SAT School Day to Michelle Rosado at michelle.rosado@ct.gov.
