An email will be sent to authorized users when the EEDC application is open for entry.)	September 15

Note: All districts, including single school districts, must submit Part A and Part B regardless of whether the data for Part A is the same or similar to Part B, in order to fulfill the requirements of the EEDC.

Data Protection

The same stringent security protocols employed by the CSDE to protect student data will also be applied to protect the educator evaluation data. It is important to note that Section 13 of Public Act 13-122 protects educator evaluation data at the CSDE from being accessed through the Freedom of Information Act. Finally, when reporting these data, the CSDE will implement appropriate data suppression practices and other steps to eliminate the likelihood that an individual educator's rating can be identified.
