Introduction

The Council of Chief State School Officers (CCSSO) has utilized the services of WestEd and the Understanding Language Initiative at Stanford University to develop a new set of English Language Proficiency (ELP) Standards. The ELP Standards, developed for K, 1, 2-3, 4-5, 6-8, and 9-12 grades, highlight and amplify the *critical language, knowledge about language, and skills using language* that are in college-and-career-ready standards and that are necessary for English learners (ELs) to be successful in schools.

The Connecticut English Language Proficiency (CELP) Standards are inherently different from other content area standards, in that they describe the language necessary for success in content area courses. Students enter programs at every grade level and there is no necessary connection between their grade level and their English proficiency. The demonstration of grade-level performance may be impacted by degree of English language proficiency. The CELP standards describe the language necessary for students to complete grade-appropriate tasks, while continually developing English proficiency. An individual student's proficiency may vary among the four skill areas of listening, speaking, reading and writing. This document is meant to be used in concert with other content area standards, as it describes the language English learners need to function within those grade level content areas.

The 10 ELP Standards highlight a strategic set of language functions (what students do with language to accomplish content-specific tasks) and language forms (vocabulary, grammar, and discourse specific to a particular content area or discipline) which are needed by ELs as they develop competence in the practices associated with English language arts (ELA) & literacy, mathematics, and science (Bunch, Kiber, & Pimentel, 2013; CCSO, 2012; Lee, Quinn, & Valdez, 2013; Moschkovich, 2012; van Lier & Walqui, 2012). The five ELP levels for each of the ELP Standards address the question, "What might an EL's language use look like at each ELP level as he or she progresses toward independent participation in grade-appropriate activities?"

How to Navigate this Document

The CELP Standards and supporting tools in this document are arranged in layers, with more detail added in each new layer. Use the hyperlinks in the bookmarks to the left of each page to navigate to the level of detail needed. The bookmark feature [in PDFs] and the navigation pane or Document Map [in Word documents] can be activated using the document tool bar. The ELP Standards with correspondences are labeled using the dot notation system (e.g., Standard 3 = ELP.K.3.).

Guiding Principles	The <i>Guiding Principles</i> outline the research base for the CELP Standards.
The 10 CELP Standards	<i>The 10 CELP Standards</i> articulate the language needed for English Learners to successfully participate in any content-area classrooms in grades K-12.
CELP Standards with Proficiency Descriptors by Grade Level	<i>The CELP Standards with Proficiency Descriptors</i> are organized by grade level, so an educator can clearly identify the language expectations for ELs at different proficiency levels. For each CELP standard, proficiency descriptors are articulated for ELs at the five levels of English proficiency. <i>The CELP Standards with Proficiency Descriptors</i> is helpful for planning meaningful, appropriate instruction for ELs, addressing the linguistic needs appropriate to their proficiency levels.
CELP Standards K-12 Progressions with Proficiency Descriptors by Standard	<i>The CELP Standards with K-12 Progressions</i> are structured so that horizontally an educator can clearly see the progression through the language proficiency levels. Vertically, the <i>Progressions</i> include indicators that may appear to be similar or the same from one grade level to the next. This emphasizes that EL students must master these skills, regardless of the grade at which they begin their education as an EL, so that they can advance their English proficiency. The <i>Progressions</i> are another organization of the <i>CELP Standards with Proficiency Descriptors by Grade Level</i> . The content remains unchanged.
K-12 Practice Matrix	The <i>K-12 Practice Matrix</i> provides a quick reference for the correspondences between the CELP Standards and Content area “practices” in English language arts (See note on p. 71), mathematics, science, and social studies (See note on p. 72). This matrix can be helpful in designing instructional resources.

<p>CELP Standards with Correspondences to Content Area Practices and Connecticut Core Standards</p>	<p>The <i>CELP Standards with Correspondences to Content Area Practices and Connecticut Core Standards</i> are organized by grade level and then by standard. For each grade level, there are the 10 CELP Standards with proficiency descriptors, correspondences to content area practices, and correspondences to Connecticut Core Standards for Literacy and Speaking and Listening. For grades 6-12, there is also a separate set of documents for correspondences to Connecticut Core Standards for Literacy in the Content Areas and Speaking and Listening.</p>
<p>CELP Glossary</p>	<p>The <i>CELP Glossary</i> defines terms that appear in the CELP Standards Document.</p>
<p>Linguistic Supports</p>	<p>The <i>Linguistics Supports</i> explain (with hyperlinks) the appropriate linguistic supports for students at different levels of English language proficiency and for particular content areas. The supports are not defined by grade level. Educators can use the resources as a menu of supports to be fitted to particular students, their needs, their grade level, and the applicable supports necessary to complete particular course activities. Particular attention should be paid to the needs of students in particular modalities (speaking, listening, reading, and writing).</p>

Guiding Principles

1. Potential

ELs have the same potential as native speakers of English to engage in cognitively complex tasks. Regardless of ELP level, all ELs need access to challenging, grade-appropriate¹ curriculum, instruction, and assessment and benefit from activities requiring them to create linguistic output (Ellis, 2008a; 2008b). Even though ELs will produce language that includes features that distinguish them from their native-English-speaking peers, “it is possible [for ELs] to achieve the standards for college-and-career readiness” (NGA Center & CCSO, 2010b, p. 1).

2. Funds of Knowledge

ELs’ primary languages and other social, cultural, and linguistic background knowledge and resources (i.e., their “funds of knowledge” [Moll, Amanti, Neff, & Gonzalez, 1992]) are useful tools to help them navigate back and forth among their schools and their communities’ valuable resources as they develop the social, cultural, and linguistic competencies required for effective communication in English. In particular, an awareness of culture should be embedded within curriculum, instruction, and assessment provided to ELs since “the more one knows about the other language and culture, the greater the chances of creating the appropriate cultural interpretation of a written or spoken text” (National Standards in Foreign Language Education Project, 2006, p. 37).

3. Diversity in EL Progress in Acquiring English Language Proficiency

A student’s ability to demonstrate proficiency at a particular ELP level will depend on context, content-area focus, and developmental factors. Thus, a student’s designated ELP level represents a typical current performance level, not a fixed status. An English language proficiency level does not identify a student (e.g., “Level 1 student”), but rather identifies what a student knows and can do at a particular stage of English language development, for example, “a student at Level 1” or “a student whose listening performance is at Level 1.” Progress in acquiring English may vary depending upon program type, age at which entered program, initial English proficiency level, native language literacy, and other factors (Bailey & Heritage, 2010; Byrnes & Canale, 1987; Lowe & Stansfield, 1988). Within these ELP Standards, we assume simultaneous development of language and content-area knowledge, skills, and abilities. ELs do not need to wait until their ELP is sufficiently developed to participate in content area instruction and assessment. “Research has shown that ELs can develop literacy in English even as their oral proficiency in English develops” (Bunch, Kibler, & Pimentel, 2013, p. 15).

4. Scaffolding

ELs at all levels of ELP should be provided with scaffolding in order to reach the next reasonable proficiency level as they develop grade-appropriate language capacities, particularly those that involve content-specific vocabulary and registers. The type and intensity of the scaffolding provided will depend on each student’s ability to undertake the particular task independently while continuing to uphold appropriate complexity for the student.

¹ Grade appropriate is defined by the English language arts, mathematics, and science standards for that grade.

5. Students with Limited or Interrupted Formal Education

Students with limited, interrupted formal education have fewer years of education than their grade level peers. It is recommended that an appropriate plan is in place to accelerate the language and literacy in order to access grade level curriculum. ELs with limited or interrupted formal education must be provided access to targeted supports that allow them to develop foundational literacy skills in an accelerated time frame (DeCapua & Marshall, 2011). Educators can refer to the Common Core State Standards (CCS) for ELA section “Reading: Foundational Skills” (NGA Center & CCSO, 2010) for this purpose.

6. Long Term English Language Learners (LTELLs)

Students whose language proficiency scores have been inconsistent or have plateaued and have been enrolled in the US schools for an extended amount of time (generally more than 6 years) are considered LTELLs. Often these students have higher levels of oral language in English and some content knowledge but they are lacking academic language proficiency in order to meet mastery. Educators should be aware of the different needs of this students and work to develop literacy, English, and content (Menken & Kley, 2009).

7. Special Needs

ELs with disabilities can benefit from English language development services (and it is recommended that language development goals be a part of their Individualized Education Plans [IEPs]). Educators should be aware that these students may take slightly different paths toward English language proficiency.

8. Designated Supports and Accommodations

Based on their individual needs, all ELs, including ELs with disabilities, should be provided designated supports and accommodations for assessments, so that their assessment results are valid and reflect what they know and can do. Educators should be aware that these designated supports and accommodations can be used in classroom instruction and assessment to ensure that students have access to instruction and assessment based on the ELP Standards. When identifying the designated supports and accommodations that should be considered for ELs and ELs with IEPs or 504 plans during classroom instruction and assessment, it is particularly useful to consider EL needs in relation to receptive and productive modalities.

9. Multimedia, Technology, and New Literacies

New understandings around literacy (e.g., visual and digital literacies) have emerged around use of information and communication technologies (International Reading Association, 2009). Relevant, strategic, and appropriate multimedia tools and technology, aligned to the ELP Standards, should be integrated into the design of curriculum, instruction, and assessment for ELs.

Design Features of the Standards

The 10 CELP Standards are designed for collaborative use by English as a second language (ESL)/English language development (ELD) and content area teachers in both English language development and content-area instruction. Explicit recognition that language acquisition takes place across the content areas fosters collaboration among educators and benefits ELs' learning experiences.

At present, second language development is seen largely as the responsibility of the ESL/ELD teacher, while content development as that of the subject area teacher. Given the new [content] standards' explicitness in how language must be used to enact disciplinary knowledge and skills, such a strict division of labor is no longer viable. Content area teachers must understand and leverage the language and literacy practices found in science, mathematics, history/social studies, and the language arts to enhance students' engagement with rich content and fuel their academic performance. ESL/ELD teachers must cultivate a deeper knowledge of the disciplinary language that EL students need, and help their students to grow in using it. Far greater collaboration and sharing of expertise are needed among ESL/ELD teachers and content area teachers at the secondary level. At the elementary level, far greater alignment and integration are needed across ESL/ELD and subject matter learning objectives, curriculum, and lesson plans that teachers in self-contained classrooms prepare and deliver (Understanding Language Initiative, 2012, p. 2).

The levels 1–5 descriptors for each of the 10 CELP Standards describe targets for EL performance by the end of each English language proficiency (ELP) level at a particular point in time. However, students may demonstrate a range of abilities within each ELP level. By describing the end of each ELP level for each ELP Standard, the levels 1–5 descriptors reflect a linear progression across the proficiency levels of an aligned set of knowledge, skills, and abilities. This is done for purposes of presentation and understanding; actual second language acquisition does not necessarily occur in a linear fashion within or across proficiency levels.

An EL at any given point along his or her trajectory of English learning may exhibit some abilities (e.g., speaking skills) at a higher proficiency level, while at the same time exhibiting other abilities (e.g., writing skills) at a lower proficiency level. Additionally, a student may successfully perform a particular skill at a lower proficiency level but need review at the next higher proficiency level when presented with a new or more complex type of text. As a reminder, by definition, EL status is a temporary status. Thus, an English language proficiency level does not identify a student (e.g., “a Level 1 student”), but rather identifies what a student knows and can do at a particular stage of English language development (e.g., “a student at Level 1” or “a student whose listening performance is at Level 1”).

The 10 CELP Standards

For the purposes of clarity, the 10 CELP Standards are organized according to a schema that represents each standard's importance to ELs' participation in the practices called for by college- and-career-ready ELA & Literacy, mathematics, and science standards (G. Bunch, personal communication, August 15, 2013; Bunch, Kibler, & Pimentel, 2013).

1	Construct meaning from oral presentations and literary and informational text through grade-appropriate listening, reading, and viewing
2	Participate in grade-appropriate oral and written exchanges of information, ideas, and analyses, responding to peer, audience, or reader comments and questions
3	Speak and write about grade-appropriate complex literary and informational texts and topics
4	Construct grade-appropriate oral and written claims and support them with reasoning and evidence
5	Conduct research and evaluate and communicate findings to answer questions or solve problems
6	Analyze and critique the arguments of others orally and in writing
7	Adapt language choices to purpose, task, and audience when speaking and writing
8	Determine the meaning of words and phrases in oral presentations and literary and informational text
9	Create clear and coherent grade-appropriate speech and text
10	Make accurate use of standard English to communicate in grade-appropriate speech and writing

Organization of the CELP Standards in Relation to Participation in Content-Area Practices

1	Construct meaning from oral presentations and literary and informational text through grade-appropriate listening, reading, and viewing
2	Participate in grade-appropriate oral and written exchanges of information, ideas, and analyses, responding to peer, audience, or reader comments and questions
3	Speak and write about grade-appropriate complex literary and informational texts and topics
4	Construct grade-appropriate oral and written claims and support them with reasoning and evidence
5	Conduct research and evaluate and communicate findings to answer questions or solve problems
6	Analyze and critique the arguments of others orally and in writing
7	Adapt language choices to purpose, task, and audience when speaking and writing
8	Determine the meaning of words and phrases in oral presentations and literary and informational text
9	Create clear and coherent grade-appropriate speech and text
10	Make accurate use of standard English to communicate in grade-appropriate speech and writing

Standards 1 through 7 involve the language necessary for ELs to engage in the central content-specific practices associated with ELA & Literacy, mathematics, and science. They begin with a focus on extraction of meaning and then progress to engagement in these practices.

Standards 8 through 10 home in on some of the more micro-level linguistic features that are undoubtedly important to focus on, but only in the service of the other seven standards.

The CELP Standards are interrelated and can be used separately or in combination. (In particular, as shown above, Standards 8–10 support the other seven standards.) The standards do not include curriculum statements, nor do they privilege a single approach to the teaching of social and expressive communication or the teaching of grammar; instead, the standards and descriptors for each proficiency level leave room for teachers, curriculum developers, and states to determine how each CELP Standard and descriptor should be reached and what additional topics should be addressed.

Organization of the CELP Standards by Language Domain

The CELP Standards might also be framed in relation to narrower domains of listening, speaking, reading, and writing and also in relation to broader receptive,² productive, and interactive modalities. The interactive modalities category allows for emphasis on the need for ELs to meaningfully engage with their peers during content area instruction. (Standards 9 and 10 address the linguistic structures of English and are framed in relation to the CCS for ELA Language domain.)

Modalities	Domains	Corresponding CELP Standards	
Receptive ³ modalities: This mode refers to the learner as a reader or listener/viewer working with 'text' whose author or deliverer is not present or accessible. It presumes that the interaction is with authentic written or oral documents where language input is meaningful and content laden. The learner brings background knowledge, experience, and appropriate interpretive strategies to the task to promote understanding of language and content in order to develop a personal reaction. (Phillips, 2008, p. 96)	Listening and Reading	1	Construct meaning from oral presentations and literary and informational text through grade-appropriate listening, reading, and viewing
		8	Determine the meaning of words and phrases in oral presentations and literary and informational text
Productive modalities: The mode places the learner as speaker and writer for a 'distant' audience, one with whom interaction is not possible or limited. The communication is set for a specified audience, has purpose, and generally abides by rules of genre or style. It is a planned or formalized speech act or written document, and the learner has an opportunity to draft, get feedback, and revise, before publication or broadcast. (Phillips, 2008, p. 96)	Speaking and Writing	3	Speak and write about grade-appropriate complex literary and informational texts and topics
		4	Construct grade-appropriate oral and written claims and support them with reasoning and evidence
		7	Adapt language choices to purpose, task, and audience when speaking and writing
Interactive modalities: Collaborative use of receptive and productive modalities. This mode refers to the learner as a speaker/listener [and] reader/writer. It requires two-way interactive communication where negotiation of meaning may be observed. The exchange will provide evidence of awareness of the socio-cultural aspects of communication as language proficiency develops. (Phillips, 2008, p. 96)	Listening, Speaking, Reading, and Writing	2	Participate in grade-appropriate oral and written exchanges of information, ideas, and analyses, responding to peer, audience, or reader comments and questions
		5	Conduct research and evaluate and communicate findings to answer questions or solve problems
		6	Analyze and critique the arguments of others orally and in writing

² The terms receptive and productive language functions were used for the ELP standards schema, rather than the newer American Council of Foreign Language Teaching (ACTFL) terms used in Phillips (2008), in keeping with the functional language terms used in the CCSO (2012) ELPD Framework (which employs the earlier ACTFL terminology).

³ The ability to communicate via multiple modes of representation (e.g., non-verbal communication, oral, pictorial, graphic, textual) may be especially important for ELLs with certain types of disabilities. When identifying the access supports and accommodations that should be considered for ELLs and ELLs with IEPs or 504 plans, it is particularly useful to consider ELL needs in relation to broader receptive, productive, and interactive modalities when listening, speaking, reading, or writing are not the explicit focus of the construct(s) being instructed or assessed.

Design Features of the Correspondences with English Language Arts/Literacy Standards, Mathematics Practices, Science Practices, and CT Social Studies Framework Practices

To ensure the CELP standards specify the language that all ELs must acquire in order to successfully engage with college-and-career-ready standards in ELA & Literacy, mathematics, and science, two methods of correspondence mappings have been conducted for these ELP Standards:

1. Correspondences with the CCS for Mathematics and Next Generation Science Standards (NGSS) Practices
Following the guidance found in the *CCSO Framework for English Language Proficiency Development Standards Corresponding to the Common Core State Standards and the Next Generation Science Standards* (the "[CCSO ELPD Framework](#)") (CCSO, 2012), one set of correspondences was created for the language demands associated with the mathematics, science, and ELA practices. The [CCS Standards for Mathematical Practices a.k.a., the Mathematical Practices](#) are the first eight standards for the CCS for Mathematics and the [NGSS Science and Engineering Practices](#) are one of three dimensions in every NGSS standard. A set of ELA "Practices" was created for the CCSO ELPD Framework since the CCS for ELA & Literacy did not include specific practices in their original form. (All three groups of practices are shown in Figure 1 below).
2. Correspondences with the CCS for ELA & Literacy Standards
A second type of correspondence analysis was conducted to show the relationship between the ELP Standards and the language demands found in the CCS for ELA & Literacy.⁴ This second set of correspondences is particularly useful as the ELP Standards and the CCS for ELA & Literacy Standards have a similar internal construction (based on reading, writing, speaking, listening, and language).

What are the practices?

The term *practices* refers to behaviors which developing student practitioners should increasingly use when engaging with the content and growing in content-area maturity and expertise throughout their elementary, middle, and high school years. The term "practices" is used rather than "processes" or "inquiry skills" to emphasize that engaging in [discipline-specific] investigation requires not only skill but also knowledge that is specific to each practice (NRC, 2012, p. 30).

The practices identified within the CCS for Mathematics and the NGSS are key parts of the standards themselves.⁵ Because the CCS for ELA & Literacy does not explicitly identify key practices and core ideas in its original form, an analogous set of ELA "Practices" was created for the CCSO ELPD Framework through a close analysis of the priorities contained within the ELA standards themselves (CCSO, 2012, p. 16). Relationships and convergences among the mathematics, science, and ELA practices are shown in Figure 1.

⁴ As noted in the CCS for ELA & Literacy, the K–5 standards focus on reading, writing, speaking, listening, and language across the curriculum, reflecting the fact that most or all of the instruction students in these grades receive comes from one teacher; grades 6–12 are covered in two content area–specific sections, the first for English language arts teachers and the second for teachers of history/social studies, science, and technical subjects.

⁵ States who are applying for flexibility regarding specific requirements of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001, must have ELP Standards that correspond to the state's college-and-career-ready standards.

Cheuk, T. (2013). *Relationships and convergences among the mathematics, science, and ELA practices*. Refined version of diagram created by the Understanding Language Initiative for ELP Standards. Stanford, CA: Stanford University.

Why are no correspondence analyses shown between the CELP Standards and the CCS for Standards for Mathematical Content and the NGSS Core Ideas?

In coordination with the ELPD Framework authors, the WestEd ELP Standards development team followed the ELPD Framework method for ELP Standards-to-Content Standards correspondences. This method is based on an analysis of the language demands found within the mathematics, science, and ELA practices. (See Section 2.3 Standards Match.) The ELPD Framework correspondence approach of focusing on the practices is a useful way to approach ELP Standards correspondences with mathematics [and science] because . . .

The content of mathematics is not as fundamentally different from English language proficiency as much as it is a different granularity. Mathematics content is more interrelated and web-like and less hierarchic and linear than mathematicians used to think. If we think of the Mathematical Practices (MP) [the *Standards for Mathematical Practice*] as the reading and writing (R&W) of mathematics and the content standards (C) as the literature (L) —

MP : C :: R&W : L, or, equivalently, MP : R&W :: C : L

— then it makes more sense to correspond to the *Standards for Mathematical Practice* (R&W) as opposed to the *Standards for Mathematical Content* (C) (P. Daro, personal communication, July 19, 2013).

How do the practices interrelate?

The Understanding Language Initiative Venn diagram shown in Figure 1 (Cheuk, 2013) depicts the relationships and convergences among the *student actions* described by the practices.⁶ For example, the central overlap of the three circles highlights the central role of evidence in the CCS and the NGSS. In comparison, the ELP Standards address the types of *language proficiency* that ELs need as they engage in content-area practices (and, therefore, may show slightly different groupings of practices with each ELP Standard than the groupings shown in Figure 1). “By explicitly calling attention to these practices, state ELP Standards [can be designed to] cultivate higher order thinking skills in ELs and target their ability to comprehend and communicate about complex text” (CCSO, 2012, p. 16).

What is the purpose of the two correspondence matrices shown on pp. 16-17?

The purpose of the K-12 Practices Matrix and the Kindergarten ELA Standards Matrix is to help teachers design lesson plans which leverage the strongest correspondences between the CELP Standards and the CCS and NGSS. However, depending on the instructional activity, and as educators’ familiarity with the standards is built, educators may identify other correspondences that also make sense. The matrices are intended to help educators start with correspondence analyses—they are not an endpoint. The matrices do not contain a fixed set of correspondences.

⁶ See the “Found in” section of Figure 1 for information on the sources for this diagram. Background: The ELA “Practices” in the Venn diagram were originally based on an analysis of the CCS for ELA student capacity portraits (Source 2a). For the purposes of the CELP Standards, the ELA “Practices” shown in the Venn diagram were reframed in relation to the particular ELA “Practices” created for the ELPD Framework (Source 2b).

⁷ While the CCS for mathematics and the NGSS explicitly state key practices and core ideas for their respective discipline, the corresponding features in the ELA charts were identified through a close analysis of the priorities contained within the standards themselves (because the CCS for ELA do not explicitly identify key practices and core ideas) (CCSO, 2012, p. 16).

Use the Kindergarten ELA Standards Matrix to identify a CCS for ELA Standard and its corresponding CELP Standard. Click on the CELP Standard number to go to the standard within this document. The reference codes for ELA Standards are a simplified version of those used in the CCS documents; in particular, the grade level code was deleted since a teacher will be reading the matrix that pertains to her/his grade level.

CELP Standards Glossary of Terms

Academic language- language required for academic work in the domains of speaking, listening, reading and writing, which varies depending on grade level and content

Academic vocabulary- Tier II vocabulary or high frequency polysemous words (words with different meanings in different contexts or content areas, e.g. *root* of a plant, square *root*, *root* of a problem, *root* word) and words widely used in various domains and across content areas; can include domain specific vocabulary (see below)

Acquired- unconsciously learned through access to comprehensible input

Adapt- change according to the audience, purpose, task, and role

Claim- a debatable and defensible statement that is the basis for an argument

Cognate- a word that shares the same origin, root, or base in different languages (family (Eng.); *familia* (Span.); *famile* (Ger.); *famiglia* (Ital.); *família* (Port.); *famile* (Fren.)).

False cognates are words that are commonly thought to be related (have a common origin), but that linguistic examination reveals are unrelated. The words *embarrassed* (self-conscious, humiliated) in English and *embarazada* (pregnant) in Spanish are examples of false cognates.

Collocation- The grouping of two or more words together with a frequency greater than chance and sound “right” to the native speaker. Such terms as “crystal clear,” “middle management,” “nuclear family,” “fast food,” and “cosmetic surgery” are examples of collocated pairs of words.

Content-specific- Specific to a given discipline, content area, domain, or subject area. (Within the literature and among researchers, the term “discipline-specific” is more commonly used.) CCSO (2012) defines it as “the language used, orally or in writing, to communicate ideas, concepts, and information or to engage in activities in particular subject areas (e.g., science)” (p. 107).

Control- As used in the CELP Standards, refers to the degree to which a student may use a particular form with stability and precision. For example, independent control occurs when “In more sophisticated explanations, children have little or no difficulty simultaneously employing many complex and sophisticated linguistic devices [see Linking words], and their explanations require little effort from a listener to understand the steps or process being explained” (Bailey, 2013, p. 13).

Discourse- Language used in a particular context, such as the academic discourse of a science classroom compared to the social discourse of the playground. Different types of discourse call for different vocabulary, phrases, structures, and language registers. According to Gee (1999), language is always used from a perspective and always occurs within a context; there is no neutral use of language.

Domain specific vocabulary- Tier III vocabulary or low frequency words that are content specific, critical to understand the concepts of the content

ELPD Framework- The *Framework for English Language Proficiency Development Standards Corresponding to the Common Core State Standards and the Next Generation Science Standards* (CCSO, 2012), which provides guidance to states on how to use the expectations of the Common Core State Standards and the Next Generation Science Standards as tools for the creation and evaluation of CELP standards.

English language proficiency (ELP) - “A socially constructed notion of the ability or capacity of individuals to use language for specific purposes” (CCSO, 2012, p. 107). Also referred to by some as English language development (ELD), ELP embodies the belief that language development is ongoing. Multiple pathways to ELP are possible, but the end goal for students’ progress in acquiring English is to ensure full participation of ELs in school contexts.

English learner (EL) - student who is learning English as an additional language and who has been determined to be limited English proficient (LEP) through a home language survey and standardized language assessment measures; may also be referred to as English language Learner (ELL), non-native speaker (NNS), or Limited English Proficient (LEP)

EP- ELA “Practices,” which describe ways in which developing student practitioners of ELA should increasingly engage with the subject matter as they grow in content-area maturity and expertise throughout their elementary, middle, and high school years. The practices are student actions, not teaching practices. Developed for the ELPD Framework by CCS for ELA writer Susan Pimentel as analogous to the existing mathematics and science & engineering practices, but not found in the original CCS for ELA.

Evidence- Facts, figures, details, quotations, or other sources of data and information that provide support for claims or analyses and that can be evaluated by others. Evidence should appear in a form, and be derived from a source, that is widely accepted as appropriate to a particular discipline, such as details or quotations from a text in the study of literature or experimental results in the study of science. (See [Appendix A of the CCS for ELA & Literacy](#).)

Formulaic expressions- Expressions produced in accordance with a mechanically followed rule or style. In the initial stages of English language acquisition, formulaic expressions are learned as a “chunk” in reference to familiar topics or objects in the immediate environment. Examples of formulaic expressions used during the initial phase of English language acquisition in schools include “go to the bathroom,” “stand in line,” and other habitually-used phrases. These prefabricated units are important because they serve as a bridge to connect vocabulary and grammar. Cowie (1998) argues that formulaic expressions are a crucial step in helping student move towards the acquisitions of idioms and the development of native-like proficiency.

Frequently occurring words and phrases- As used in the CELP Standards, this refers to words and phrases used commonly in the classroom and to everyday language used in schools. It is important to note that this does *not* refer to the [Top 100 High-Frequency Words](#) (e.g., “the,” “a,” “and,” “but”). The term “basic” is not used in the CELP Standards because a term that is basic to one person may not be basic to another; acquisition of specific words and phrases depends on exposure and experiences.

Grade appropriate- As used in the CELP Standards, this refers to level of content and text complexity in relation to CCR standards’ requirements for a particular grade level or grade span. (See [Appendix A of the CCS for ELA & Literacy](#) and [Defining the Core](#).)

Guidance- help or advice provided by teacher to students in terms of how to begin, continue, or conclude a task (See note below)

Idioms- An idiom is an expression that cannot be understood from the meanings of its component words but has a meaning of its own. Usually that meaning is derived from the history of the language and culture in which it is used. Students’ acquisition of idioms progresses from literal meanings to figurative and metaphorical meanings.

- Transparent idioms are expressions in which the literal meaning is clearly linked to the figurative meaning, e.g., *give the green light*, *break the ice*.
- Semi-transparent idioms are expressions in which the link between literal and figurative meaning is less obvious, e.g., *beat a dead horse*, *save one’s breath*.
- Opaque idioms are expressions with an undetectable link between literal and figurative language, e.g., *pull one’s leg*, *kick the bucket*.

Inflectional ending- A short suffix added to the end of a word to alter its meaning. In this document, the term refers to endings such as -s, -es, -ing, and -ed.

Inflectional forms- The forms of a word that include alteration of the word to indicate singular or plural, verb tense, and verb aspect. Inflected or inflectional forms also include irregular verbs (e.g. sing – sang –sung) and irregular plural nouns (e.g. mouse –mice).

Informational text- Text with a primary purpose to inform the reader about the natural or social world (includes explanatory text). See [Appendix A of the CCS ELA & Literacy Standards](#).

Interactive language skills- Skills involved in producing language in spoken or written form during collaborative, interactive activities, including collaborative use of receptive and productive modalities. This modality “refers to the learner as a speaker/listener and as a reader/writer. It requires two-way interactive communication where negotiation of meaning may be observed. The exchange will provide evidence of awareness of the sociocultural aspects of communication as language proficiency develops” (Phillips, 2008, p. 96).

Language forms- Vocabulary, grammar, and features of discourse specific to a particular content area or discipline. This term refers to the surface features of language and how they are arranged according to the grammar of the language. As a means of connecting sound with meaning, it incorporates morphology, syntax, and phonology.

Language functions- What students do with language to accomplish content-specific tasks. As defined by Gibbons (1993), language functions can be used to describe the purposes for which language is used in the classroom. Their use offers a simple and practical way to ensure that content and language are integrated.

Linguistic- relating to language

Linguistic Output- Refers to the production of language. Educators should provide ELs with communicative tasks that require students to create the sustained output necessary for second language development. (See [Principle 7 in Principles of Instructed Second Language Acquisition](#).)

Language proficiency level- level of language in the four language domains—speaking, listening, reading, and writing—as determined by a language proficiency assessment

Linking words (a.k.a. cohesive devices)-Words or phrases that can be used as sentence connectors to develop coherence within a paragraph by linking one idea/argument to another. Examples include *however, in conclusion, basically, as it turns out, at last, eventually, after all, rarely, normally, at first, often, further, and firstly.*

Modalities (modes of communication)-The means or manner by which communication takes place. This document identifies three modalities: receptive, productive, and interactive. The four language domains of reading, writing, listening, and speaking are contained within these three modalities. (See page 9 of the CELP Standards for more information.)

Modeled sentences- As used in the CELP Standards, this term refers to the provision of exemplar speech and text to students as part of the instructional process. Examples of modeled sentences in the CELP Standards include sentence frames, sentence stems, and sentence models.

Morphology- the identification of word parts (e.g. roots, affixes, suffixes) and the description and analysis of how words are formed (i.e. –s in English represents plurality, so we know that ‘horses’ means more than one horse)

MP- The CCS for Mathematical Standards for Practice or Mathematical Practices. The practices describe ways in which developing student practitioners of mathematics should increasingly engage with the subject matter as they grow in content-area maturity and expertise throughout their elementary, middle, and high school years. The *Standards for Mathematical Practice* are descendants of the [Adding It Up proficiencies](#) (Kilpatrick, Swafford, & Findell, 2001) and the [NCTM process standards](#) (NCTM, 2000). They also descend from work on [Habits of Mind](#) (Driscoll, 1995) and the national syllabi of Singapore, Japan, and Finland. For more examples of the Mathematical Practices, see <http://www.insidemathematics.org/index.php/common-core-math-intro>.

Native Language (L1, Native/First/Home language) - The language or languages a person acquires first in life; sometimes called a “mother tongue.”

Nonverbal communication- As used in the CELP Standards, this term refers the process of communication through sending and receiving wordless (mostly visual) cues between people. Examples of nonverbal communication in the CELP Standards may include gestures, nods, thumbs up or down, or facial expressions.

Organize- In the CELP Standards, refers to discourse that conveys temporal, causal, categorical, or other logical relationships that are consistent with the author’s apparent purpose in conveying information, narrating a story, making a persuasive argument, or some other emergent discourse form.

Phrase- group of two or more words that express a single idea but do not form a complete sentence

Practice- (For the purposes of the CELP standards) behaviors which developing student practitioners should increasingly use when engaging with the content and growing in content-area maturity and expertise throughout their elementary, middle, and high school years. The term “practices” is used rather than “processes” or “inquiry skills” to emphasize that engaging in [discipline-specific] investigation requires not only skill but also knowledge that is specific to each practice (e.g. Science and engineering practices, Math practices, etc.)

Productive language skills- Skills involved in producing language in spoken or written form. This modality “places the learner as speaker [and/or] writer for a ‘distant’ audience (one with whom interaction is not possible or is limited). The communication is set for a specified audience, has

purpose, and generally abides by rules of genre or style. It is a planned or formalized speech act or written document, and the learner has an opportunity to draft, get feedback, and revise it before publication or broadcast” (Phillips, 2008, p. 96).

Progressions- sequence of learning and teaching expectations across grade levels and proficiency levels

Prompting- using instructions, gestures, models, examples, and cues that lead students to academic responses (See note below)

Receptive language skills- Skills involved in interpreting and comprehending spoken or written language. This modality “refers to the learner as a reader [and/or] listener/viewer working with ‘text’ whose author or deliverer is not present or accessible. It presumes that the interaction is with authentic written or oral documents where language input is meaningful and content laden. The learner brings background knowledge, experience, and appropriate interpretive strategies to the task, to promote understanding of language and content in order to develop a personal reaction” (Phillips, 2008, p. 96).

Recognize- As used in the CELF Standards, this verb refers to instances when a student might recognize the meaning of the words, using verbal communication or non-verbal communication.

Registers- Distinguishable patterns of communication based upon well-established language practices, such as the language used in subject-area classrooms. Registers are a “recognizable kind of language particular to specific functions and situation. A well-known non-academic example is *sports announcer talk*” (Ferguson, 1983, p. 155).

Research projects:

- Short research project: An investigation intended to address a narrowly tailored query in a brief period of time, as in a few class periods or a week of instructional time.
- More sustained research project: An investigation intended to address a relatively expansive query using several sources over an extended period of time, as in a few weeks of instructional time.

Scaffolding- As defined in [Appendix A of the CCS ELA & Literacy Standards](#), this refers to guidance or assistance provided to students by a teacher, another adult, or a more capable peer, enabling the students to perform tasks that they otherwise would not be able to perform alone, with the goal of fostering the students’ capacity to perform the tasks on their own later on. Pedagogically, a scaffold is the support offered to students so that they can successfully engage in activity beyond their current ability to perform independently. Specific scaffolds temporarily support the development of understandings as well as disciplinary (and language) practices. Once the development takes place, the scaffolds are removed and new ones may be erected, if needed, to support new needed developmental work. For more information, see Walqui et al. (2013).

Sentence structures- As used in the CELF Standards and the Proficiency Level Descriptors, language structures include simple, compound, complex sentences, and the range of other language structures.

Simple- As used in the CELF Standards, this generally refers to the grammatical structure of a phrase, sentence, or text relative to its complexity or density. A “simple” sentence may use subject+verb+object construction without any embellishments.

Source- As used in the CELF Standards, this refers to speech or text used largely for informational purposes, as in research.

SP- The NGSS *Science and Engineering Practices*. The practices describe the behaviors that scientists engage in as they investigate and build models and theories about the natural world and the key set of engineering practices that engineers use as they design and build models and systems. The *Science and Engineering Practices* “describe behaviors that scientists engage in as they investigate and build models and theories about the natural world” (NGSS, 2013). As noted in [Appendix F of the NGSS](#) (NGSS Lead States, 2013), chapter three of the [Science Framework for K-12 Science Education](#) (NRC, 2012) provides background on the development of the *Science and Engineering Practices*. For more information and examples, see [Bybee \(2011\)](#).

Supports- (For the purposes of the CELP standards) research-based, linguistic supports for students of various levels of language proficiency (See note below)

Temporal words- time signal words (e.g. then, next, from then on, in the meantime, etc.)

Variety of topics- As used in the CELP Standards this refers to a range of topics that may be either familiar or unfamiliar to the student (i.e., requiring support to build the student’s background knowledge or particular context knowledge).

Visual aids- As used in the CELP Standards, this refers to pictures, realia (objects used in real life), sketches, diagrams, labeled pictures, and picture dictionaries.

Vocabulary- A set of words, phrases, or expressions, within a language, that is familiar to a person. (See the PLDs for specific vocabulary expectations by the end of each ELP level.)

- *Academic vocabulary* (see also [Appendix A of the CCS for ELA & Literacy](#), p. 33):
 - General academic words and phrases: Vocabulary common to written texts but not commonly a part of speech; as used in the CELP Standards, analogous to Tier Two words and phrases. Bailey & Heritage (2010) refer to this as “school navigational language.”
 - *Content-specific words and phrases*: Words and phrases appropriate to the topic or specific to a particular field of study. Sometimes referred to as “terms.” (*Terms* are words and phrases that are given specific meanings in specific contexts.) Bailey & Heritage (2010) refer to this as “curriculum content language.” As defined in [Language standard 6](#) of the CCS, this refers to grade-appropriate general academic and domain-specific words and phrases, analogous to Tier Three words. (However, the CELP Standards do not suggest that vocabulary taught to ELLs should be limited to only that defined by the CCS.)
 - [Three Tiers of Vocabulary](#):
 - Tier One: Words acquired through everyday speech, usually learned in the early grades.
 - Tier Two: Academic words that appear across all types of text. These are often precise words that are used by an author in place of common words (e.g., “gallop” instead of “run”). They change meaning with use.
 - Tier Three: Domain-specific words that are specifically tied to content (e.g., “Constitution,” “lava”). These are typically the types of vocabulary words that are included in glossaries, highlighted in textbooks, and addressed by teachers. They are considered difficult words that are important to understanding content.

- *Frequently occurring vocabulary*- This includes common words and phrases, as well as idiomatic expressions and collocations.
- *Social vocabulary/language*- Cummins (2000) refers to this as “surface proficiency” and, in earlier iterations of his work, as Basic Interpersonal Communicative Skills (BICS).
- **Wh- questions**- “Who,” “what,” “where,” “when,” “why,” and “how” questions.

Prompting and supports vs. Guidance and supports- As outlined in the CELF Standards document, English learners at English proficiency levels 1 and 2 across grade levels K-12 receive *prompting* and supports, while English learners at English proficiency level 3 in grade levels K-12 receive *guidance* and supports. The supports referenced in both cases are linguistic supports (See CELF Standards Linguistic Supports document). The principal difference between *prompting* and *guidance* is the amount of support needed to enable students to produce output (speaking or writing) in response to what they have listened to or read. Students at English proficiency levels 1 and 2 require instructions, gestures, models of language, examples of language, and cues to be able to produce their own responses. Responses may be verbal or nonverbal at English proficiency level 1. However, as language develops, English learners still need models, but may not require continual support from the teacher and may only need support to begin, continue, or finish a task. Although prompting is a valuable tool to use for English learners at all English language proficiency levels, it is required for the success of the students at the lower levels of English proficiency in all classrooms and content areas.

Connecticut English Language Proficiency (CELP) Standards--Linguistic Supports

The research-based supports described here are linguistic supports for students of various levels of language proficiency. All English learners need linguistic supports in order to progress in their language proficiency. However, these supports vary by English proficiency level. These supports are to be used within the context of activities aligned with the standards.

Embedded hyperlinks: The links below offer videos, articles, and definitions of terms listed. While some videos may demonstrate the strategy for a particular grade level, the strategies themselves are meant to be used with all grade levels and in all content areas, depending on topic and content being studied.

Disclaimer: *The links below do not reflect an endorsement of any company, institution, or instructional methodology, nor do they reflect an exhaustive list of resources. The links are meant only to provide an example or commonly accepted definition. The State of CT is not responsible for any broken or incorrect links. However, should there be any errors please contact the EL office.*

General Supports for All English Learners:

- Create a shared history through a collection of classroom experiences (e.g. [Language Experience Approach](#) or shared writing) for reference in future lessons
- Be cognizant of your rate of speech and enunciation and use of idioms (see glossary for definition) with students of different levels
- Use visual supports: pictures, illustrations, videos, models, gestures, pointing, [realia](#), graphic organizers (before, during, and after reading or viewing), and acting out/role playing
- Provide explicit academic vocabulary (see glossary) instruction: [word walls](#), [personal dictionaries](#), bilingual dictionaries/[glossaries](#), picture/[video](#) dictionaries, graphic organizers, [word cards with pictures](#), [word sorts](#), etc.
- Encourage the use of a personal wordlist/dictionary
- Make connections to students' [prior experiences](#)
- Build [background knowledge](#)
- Use [scaffolding](#) techniques: [jigsaws](#), [think-alouds](#), graphic organizers, sentence starters/sentence frames (Several examples of sentence frames in [math](#), [science](#), [ELA](#), [social studies/history](#))
- Provide supplementary materials: graphs, models, realia, visuals, [materials](#) (link is a curriculum library of units with materials differentiated for ELs at various levels) at various English levels
- Gain an awareness of the differences and similarities between the [native language and English](#)
- Explicitly teach [grammar rules](#) and structure in context
- Recast errors of form in a gentle way: (e.g. I eated breakfast. Teacher responds, "I ate breakfast, too. I ate toast. What did you eat?")
- Provide frequent and varied opportunities for [student discourse](#): [Think-pair-share](#), partner talk, [cooperative learning](#), [philosophical chairs](#), [Socratic seminar](#), [intentional grouping of students](#), [numbered heads together](#)
- Learn about the [cultures and languages](#) of your students and integrate diverse texts and topics
- Provide content that is diverse and [relevant to students](#) and demonstrates a value for all cultures, languages, and multiple viewpoints
- Post content objectives *and* [language objectives](#)
- Plan/adjust activities and supports that are specific to the language proficiency level of individual students

Linguistic Supports for Level 1 Students:

- Create a shared history through a collection of classroom experiences (e.g. [Language Experience Approach](#) or shared writing) for reference in future lessons
- Use one-step directions, with visual supports and gestures
- Speak slowly, in simple sentences, avoiding idiomatic expressions (see glossary)
- Teach [key survival phrases](#)
- Pair the student with a peer who speaks the same native language, being mindful that different dialects of the same language can cause some confusion
- Allow the use of native language
- Teach explicit [phonemic](#) and [phonological](#) awareness, [concepts of print](#), and letter identification
- Make comparisons between [the native language and English](#)
- Build [background knowledge](#)
- Provide multiple opportunities to repeat and practice language
- Provide multiple and varied opportunities for [practice](#) with [pronunciation](#)
- Use manipulatives, [realia](#), or models
- Provide opportunities for nonverbal responses: pointing, gestures (thumbs up/thumbs down, nodding/shaking head, raising hand, etc.), manipulating objects
- Provide a bilingual or [picture dictionary](#) (depending on student's literacy level in the native language)
- Rely heavily on visual supports: pictures, illustrations, videos, models, gestures, pointing, [realia](#), graphic organizers (before, during, and after reading or viewing), and acting out/role playing
- Provide audio books or books with patterned sentence structure
- Provide texts in native language, if available
- Provide a linguistically supported, shortened, or alternate text
- Provide [sentence starters/sentence frames](#)
- Allow for [dictation](#)
- Provide opportunities to illustrate or draw diagrams and label components
- Provide word/phrase banks paired with visuals and multiple choice options
- Pre-teach key academic and content-specific vocabulary in small amounts, paired with visual supports
- Provide ample wait time/processing time and additional practice for key concepts and skills

Linguistic Supports for Level 2 Students:

- Create a shared history through a collection of classroom experiences (e.g. [Language Experience Approach](#) or shared writing) for reference in future lessons
- Use visuals or [realia](#), to support multi-step directions
- Teach explicit phonemic and phonetic awareness
- Reinforce [concepts of print](#) and letter identification (reteach, as necessary)
- Make comparisons between English and the native language
- Build background knowledge
- Explain idiomatic phrases (see glossary), [collocations](#), and homonyms
- Provide multiple opportunities to repeat, practice, and revise language orally and in writing
- Provide multiple and varied opportunities for practice with pronunciation
- Provide a bilingual or [picture dictionary](#) (depending on student's literacy level in the native language)
- Use visual supports: pictures, illustrations, videos, models, gestures, pointing, [realia](#), graphic organizers (before, during, and after reading or viewing), and acting out/role playing
- Use manipulatives, realia, or models
- Pre-teach all academic and content-specific vocabulary in small amounts, paired with visual supports
- Teach [word families](#)
- Teach [cognates](#) (see glossary)
- Provide multiple opportunities to practice Tier I, Tier II and Tier III vocabulary
- Provide a grade/content appropriate linguistically supported, shortened, native language, or alternate text
- Provide audio books, if available
- Provide word/phrase banks
- Provide shortened assignments with concise instructions, focused on key concepts with differentiated products/processes
- Use [scaffolding](#) techniques: [jigsaws](#), [think-alouds](#), graphic organizers, sentence starters/sentence frames
- Provide sentence starters/sentence frames and models (story/paragraph frames) for writing and speaking (Several examples of sentence frames in [math](#), [science](#), [ELA](#), [social studies/history](#))
- Allow drawing and/or use of native language for pre-writing
- Explicitly teach language patterns (form), structure, and grammar (function)
- Provide ample wait time/processing time and additional practice for key concepts and skills
- Provide frequent and varied opportunities for [student discourse](#): [Think-pair-share](#), partner talk, [cooperative learning](#), [philosophical chairs](#), [Socratic seminar](#), [intentional grouping of students](#), [numbered heads together](#)
- Allow for errors such as invented spelling, mispronunciation, or errors in [syntax](#)

Linguistic Supports for Level 3 Students:

- Create a shared history through a collection of classroom experiences (e.g. [Language Experience Approach](#) or shared writing) for reference in future lessons
- Reinforce phonemic and phonetic awareness (and reteach, as necessary)
- Make comparisons between English and the native language
- Build background knowledge
- Explain idiomatic phrases (see glossary), collocations, and homonyms
- Provide multiple opportunities to practice and revise language orally and in writing
- Provide multiple and varied opportunities for practice with more complex pronunciation (e.g. multisyllabic words)
- Provide multiple opportunities to develop fluency in speaking, reading aloud, and writing
- Provide a bilingual or picture dictionary or glossary (depending on student's literacy level in the native language)
- Use visual supports: pictures, illustrations, videos, models, gestures, pointing, [realia](#), graphic organizers (before, during, and after reading or viewing), and acting out/role playing
- Use manipulatives or models
- Pre-teach academic and content-specific vocabulary, focusing on a few key words at a time
- Reinforce word families
- Teach [cognates](#), [prefixes](#), [suffixes](#), and root words
- Provide multiple opportunities to practice vocabulary
- Provide a linguistically supported text or alternate text
- Provide texts in native language, if available
- Provide audio books, if necessary
- Use [scaffolding](#) techniques: [jigsaws](#), [think-alouds](#), graphic organizers, sentence starters/sentence frames (Several examples of sentence frames in [math](#), [science](#), [ELA](#), [social studies/history](#))
- Provide sentence starters/sentence frames and models for writing and speaking, including transitional words and phrases
- Explicitly teach language patterns, structure, and grammar
- Explicitly teach the writing process
- Explicitly teach [register](#)—a variety of language used for a particular purpose in a particular setting (i.e. teach students the difference between formal academic and informal social language and when to use them)
- Provide ample wait time/processing time
- Provide frequent and varied opportunities for [student discourse](#): [Think-pair-share](#), partner talk, [cooperative learning](#), [philosophical chairs](#), [Socratic seminar](#), [intentional grouping of students](#), [numbered heads together](#)

Linguistic Supports for Level 4 & 5 Students:

- Create a shared history through a collection of classroom experiences (e.g. [Language Experience Approach](#) or shared writing) for reference in future lessons
- Provide frequent and varied opportunities for [student discourse](#): [Think-pair-share](#), partner talk, [cooperative learning](#), [philosophical chairs](#), [Socratic seminar](#), [intentional grouping of students](#), [numbered heads together](#)
- Provide ample opportunities to practice all modalities—speaking, listening, reading, and writing
- Provide targeted mini-lessons on editing, grammar, syntax, word choice, pronunciation, etc.
- Continue to develop background knowledge
- Encourage the use of a personal word list/dictionary
- Reinforce the use and understanding of idioms, cognates, prefixes, suffixes, and root words (reteach, as necessary)
- Use visual supports, especially graphic organizers, as needed
- Provide ample opportunities to practice the use of different registers
- Explicitly teach more complex grammatical structures
- Provide multiple opportunities to analyze language use (register, tone, dialect, and voice, etc.)
- Provide multiple opportunities for self-assessment and self-monitoring
- Teach content-specific literacy practices (e.g. corroboration and sourcing in history, constructing/deconstructing rhetorical frameworks in reading and writing, reading proofs in mathematics, etc.)
