## Vision

All Benhaven educators and leaders have the opportunity for continuous learning and feedback, to develop and grow, both individually and collectively, through the educator and leader evaluation and support system so that all Benhaven students experience growth and success.

## Guiding Principles

The transformational design of the leader evaluation and support model is grounded in six guiding principles that use high quality professional learning to advance leader practice, educator practice, and student learning, growth, and achievement.

- **Allow for differentiation of roles** (*for example for leaders: assistant superintendents, director of pupil services, various leaders in central office, principal, assistant principal; or for educators: teachers, counselors, instructional coaches, student support staff*).
- **Simplify and reduce the burden** (*eliminate technical challenges, paperwork, steps*).
- **Focus on things that matter** (*identify high leverage goal focus areas*).
- **Connect to best practices aimed at the development of the whole child** (*including, but not limited to, academic, social, emotional, and physical development*).
- **Focus on leader growth and agency** (*meaningfully engage professionals by focusing on growth and practice in partnership with others aligned to a strategic focus*).
- **Meaningful connections to professional learning** (*provide multiple pathways for participants to improve their own practice in a way that is meaningful and impactful*).
- **Specific, timely, accurate, actionable, and reciprocal feedback.**

## Connecticut Guidelines for Educator and Leader Evaluation and Support 2023 Components: Reimagining Educator and Leader Evaluation and Support

The design of the Connecticut Guidelines for Educator Evaluation and Support 2023 (CT Guidelines 2023) are representative of research-based effective practice and include six elements.

- Standards and criteria
- Goal setting process
- Professional practice and educator growth
- Evaluator/observer/stakeholder feedback and engagement
- Process elements
- Dispute resolution

The combined vision, guiding principles, and overall framework for educators and leaders' evaluation and support describe a systematic process of continuous improvement and professional learning leading to high quality professional practice and improved outcomes for students. While components are similar for educators and leaders, there are components specific to educators and to leaders, resulting in two sections with similar processes within a district's evaluation and support system.

### Standards and Criteria for Leaders

One of the primary goals of the leader evaluation and support system is to ensure the growth and development of their staff so they in turn may develop and enhance personal and professional strengths to meet the needs of all the students they serve. Leader practice discussions are based on a set of national or state performance standards set by professional organizations and mutually agreed upon by the PDEC. The following professional practice standards ground this model's framework. It is recommended that each PDEC create a process to review the standards and ensure a rubric accompanies the standards.

While a rubric serves as support for self-evaluation, dialogue, and feedback, it is recommended that a single point rubric is used to provide focus for high leverage goal(s) setting and professional learning.

## Leader

1. [Professional Standards for School Leaders \(PSEL\)](#)
2. [Learning Forward's Professional Learning Standards \(2022\)](#)

### Professional Learning Standards and Structures

Professional learning is essential to the CT Guidelines 2023 model. [Learning Forward Professional Learning Standards 2022](#), serve as a useful tool to illustrate how professional learning can deepen educator and leader knowledge, promote reflection, and maximize leader impact. As a tool, the professional learning standards help educators and leaders intentionally design learning, address content, and consider how to accomplish the expected learning transformation desired. Together the professional standards for leaders, educators and professional learning serve as the three visions that work together to lay the foundation for meaningful feedback and continuous learning.

### The Continuous Learning Process: Goal Setting, Professional Practice, and Evaluator/Observer/ Stakeholder Feedback and Engagement

The evaluation and support model is designed as a continuous learning process. The goal of the continuous learning process is to provide leaders with continuous learning opportunities for professional growth through self-directed analysis and reflection, planning, implementation, and collaboration. Regular dialogue and feedback, coupled with the opportunity to reflect on and advance practice, drive the continuous learning process. The process provides an opportunity for leaders to address organizational system and structure questions. In this process, the leader serves as the learner who actively engages in and directs their learning and feedback. The evaluator serves as a learning partner who supports the leader through the learning and growth process. Within the process, the leader collaborates and serves as a reflective practitioner to determine mutually agreed upon leader goal(s), professional practice and leader growth, and observation/site visit and feedback focus.

Within the continuous learning process, leaders check in with their evaluator a minimum of three times a year (fall goal setting, midyear check-in, and end-of-year reflection) to provide an opportunity for a reciprocal discussion of what is happening in the school or district, a sharing of evidence of professional learning and impact on growth, and identification of needs and mutually agreed upon next steps. The meetings are approached in a spirit of continuous improvement, reflection, and collaboration. Dialogue is important, however, there must be a balance of written and verbal feedback

provided between check-ins based on observations/site visits, reviews of practice, and artifacts as required by the district plan, which must be provided periodically. Effective feedback is tied to standards and identifies strengths and areas of focus for growth.

At the core, educators and students learn best when educational leaders foster safe, caring, supportive learning communities, and promote rigorous curricula and instructional and assessment systems. This work requires educational leaders to build and strengthen a network of organizational supports — the professional capacity of teachers and staff; the professional community in which they learn and work; family and community engagement; and effective, efficient management and operations of the school/district. In all their work, educational leaders are driven by the district/school's mission, vision, and portrait of a graduate. They are called to act ethically and with professional integrity, and they promote equity and cultural responsiveness. Finally, educational leaders believe their district/schools, educators, and they themselves, can continuously grow. They are tenacious change agents who model transformational leadership (adapted from PSEL Standards).

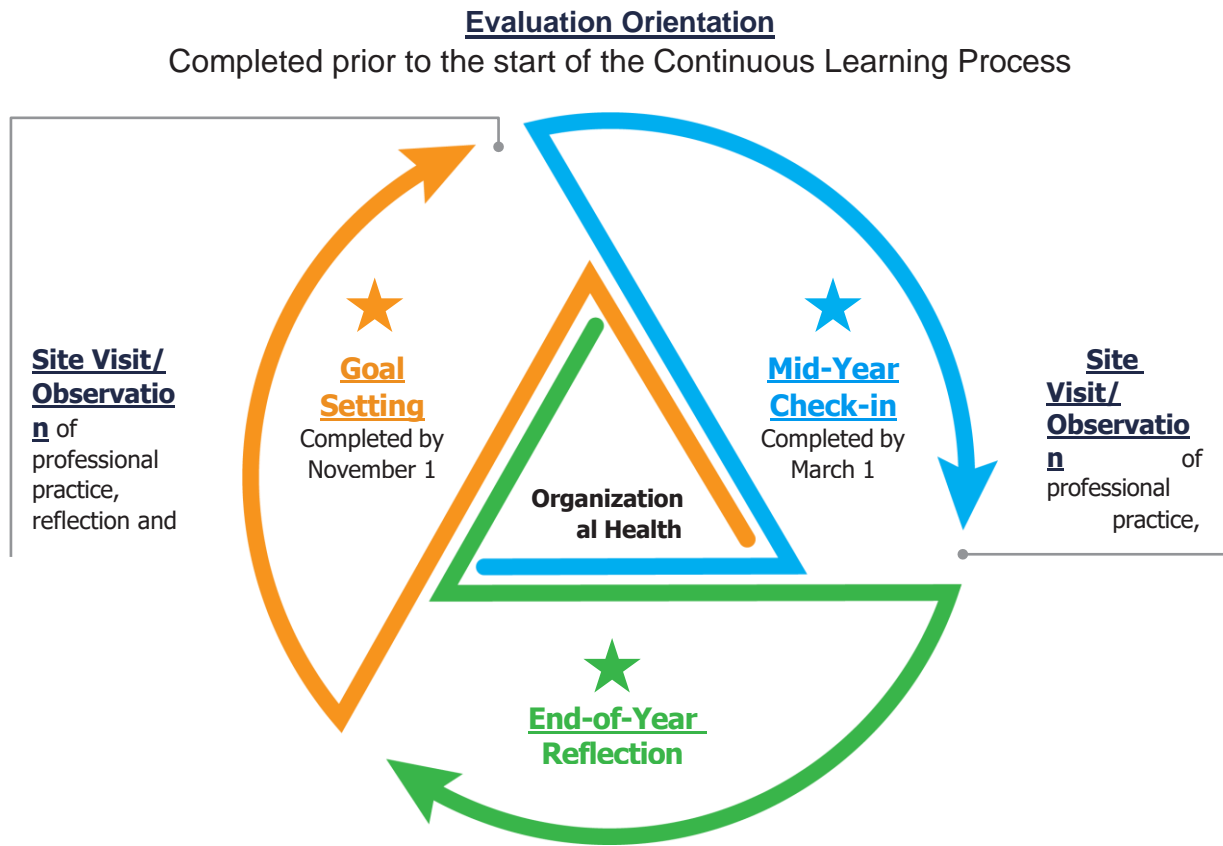

*The graphic below, adapted from Learning Forward's Standards for Professional Learning 2022, shows the relationship between professional learning for leaders, educators, and students.*

Below is a graphic with the associated steps, reflections, and linked resources associated with each step of the process to assist leaders and evaluators through the process. All leaders are assigned a primary evaluator (092 or 093).

Orientation on the leader evaluation and support process shall take place prior to the start of the process, no later than October 15. The orientation shall include:

- High leverage goal setting and professional learning plans
- Use of rubrics and standards
- Observation of practice/site visits
- Tiered supports
- Dispute resolution

Annual training for evaluators as required by C.G.S. 10-151b will include engaging in and providing reciprocal feedback tied to standards and evidence of professional practice.

### **Goal(s) Setting (Completed by November 1)**

Leaders and their evaluators mutually agree upon a high leverage professional practice one-, two-, or three-year goal(s) and develop a plan for professional learning and support that is consistent with their professional status and goals ([see appendix B](#)). Goals should always be connected to standards recommended by the PDEC and approved by the local board of education.

This is a process of feedback, reflection, goal setting, opportunities for professional learning, observations by an evaluator, and collection of multiple measures of leader growth, educator growth, and impact on student learning, growth, and achievement. Within this process, the leader collaborates in a learning partnership with their evaluator. The continuous learning process begins with dialogue around leaders' self-reflection (based on review of evidence and practice) to the identified rubric while collecting and analyzing evidence to identify and support an area for leader practice, educator and student outcomes, and organizational growth.

The leader will:

- Self-assess using the identified rubric.
- Identify a high leverage goal that impacts leadership practice and educator and organizational growth.
- Identify an individual or a collaborative goal.
- Develop a proposed professional learning plan to build knowledge and skill.

The leader shares the above with their evaluator during an initial goal setting conference that consists of dialogue around the proposed goal(s) and professional learning plan. During this conference, reciprocal dialogue between the evaluator and leader takes place to refine the proposed goal and professional learning plan as needed. In partnership, the leader and evaluator come to mutual agreement on the goal(s), multiple measures of evidence, professional learning plan, and support to drive progress toward goal attainment.

### **Midyear Check-in (Completed by March 1):**

The midyear check-in provides an opportunity for the leader to self-reflect and review multiple and varied qualitative and quantitative indicators of evidence of impact on professional leadership practice; organizational growth; educator growth; and impact on student learning, growth, and achievement.

Through reciprocal dialogue, the evaluator provides specific feedback based on evidence, standards, and the leader's goal(s). This is an overview of where the leader is in the process and what steps need to be taken to assist in continuous learning. During this check-in, revisions to the goal or learning plan, direction to tiered support, and next steps are documented.

### **End-of-Year Reflection/Summative Review (Completed by June 30)**

End-of-year reflection provides an opportunity for the leader and evaluator to engage in reciprocal dialogue, similar to the midyear check-in, to discuss progress toward the leader's goal(s); professional learning as it relates to the leader's professional growth and professional practice; and impact on student learning, growth, and achievement as evidenced by multiple and varied qualitative and quantitative indicators of evidence. A written end-of-year summary includes the impact on leader practice and growth; possible next steps for the upcoming year; any concerns with the continuous learning process; new learning; and highlights of impact on educators, students, and school community; and completion of current goal or rationale for continuing the goal the following year. Analysis of evidence from the end-of-year summary is important for the leader's subsequent self-assessment and goal setting revisions or new goal(s).

This summary is based upon the mutually agreed upon goal(s) and identified standards and will make a distinction regarding the leader's successful completion of the professional learning process.

*All forms for documentation are hyperlinked within the graphic of the continuous learning process, with further detail for each step.*

### Professional Practice and Leader Growth

The implementation of the continuous learning process is shared between the leader and evaluator. For the duration of the learning process, leaders pursue learning and attainment of their goal(s), collecting evidence of practice related to their high leverage professional learning goal. Evaluators will provide leaders with feedback from observations of professional practice/site visits and dialogue, ensure timely access to support and collect evidence of leader performance and practice toward goal(s) through multiple sources, including site visits, student and staff feedback, or family engagement ([see appendix B](#)).

### Observation of Professional Practice/Site Visits and Feedback

Observation of professional practice or site visits occur throughout the continuous learning process. The identified high leverage goal(s) provides a focus for strategic evidence collection and feedback. Evaluators provide leaders with feedback based on evidence, standards, and the educator's goal(s); ensure timely access to planned support(s); and collect evidence of leader practice and progress toward goal(s) through multiple sources of evidence including site visits, feedback, written or verbal, that is provided within five school days.

"Feedback is defined as a dynamic, dialogic process that uses evidence to engage a learner, internally or with a learning partner, in constructing knowledge about practice and self. Its primary purpose is learning that guides change" (Killion, 2019).

Quality feedback:

- Is based on multiple and varied quantitative and qualitative indicators of evidence, standards, and goal(s)
- Is personalized
- Is learning-focused or growth-oriented
- Provides questions for reflection to refine or revise strategies
- Expands understanding of one's experiences and their implications for future experiences
- Provides reflective opportunities to rework, refine, and reorder knowledge, attitudes, skills, and/or practices
- Is timely, frequent, and reciprocal

### Definition of Cohorts

##### **Who:**

- New to leadership role (e.g., principal from assistant principal etc.; first three years)
- New to Benhaven (first three years)

##### **What:**

- Three observations of professional practice and/or site visits
- Feedback written and verbal within five school days
- Additional observations of professional agreed practice and/or site visits as mutually agreed upon or deemed necessary

#### **Cohort 2**

##### **What:**

- Two observations of professional practice and/or site visits
- Feedback written and verbal within five school days

## Growth Criteria

Successful completion of the learning process is determined through multiple forms of evidence and reflection that is demonstrated by:

- Reflection supported with evidence of the impact of the leader's new learning on their practice/goal
- The impact the leader's new learning and practice had on the leader's practice, organizational growth, educator growth, and student outcomes.
- Next steps

[See appendix C for further detail.](#)

## Tiered Support and Corrective Support Planning

All leaders require access to high-quality, targeted professional learning support to improve practice over time. Leaders and their evaluators thoughtfully consider and apply three tiers of support, as appropriate, with an evaluation process. All three tiers of support must be implemented prior to the development of a Corrective Support Plan.

A pattern of persistent lack of growth and reflection or resistance to growth-oriented feedback should lead to advancing levels of support with a defined process for placing a leader on a Corrective Support Plan with indicators of success for transitioning out of it. Evaluators must utilize and document all three tiers of support prior to the development of a Corrective Support Plan. The Corrective Support Plan shall be developed in consultation with the evaluator and leader.

### Tier 1

It is the expectation that all leaders consistently access opportunities for professional growth within their district. Tier 1 supports are broadly accessible professional learning opportunities for all, inclusive of, but not limited to, collegial conversations, school site visits, available district resources (e.g., books, articles, videos, etc.), formal professional learning opportunities developed and designed by school PDEC and other leader supports (e.g., leadership coaching). These resources should be identified through a goal setting process by mutual agreement.

### Tier 2

In addition to Tier 1, Tier 2 supports are more intensive in duration, frequency, and focus (e.g., observation of specific leadership practices, etc.) that can be either suggested by the leader and/or recommended by an evaluator.

### Tier 3

In addition to Tier 1 and Tier 2, Tier 3 supports are responsive to unresolved, previously discussed concerns that are collaboratively discussed and may be assigned by an evaluator. Tier 3 supports have clearly articulated areas of focus, duration of time, and criteria for success, and may include a decision to move to a Corrective Support Plan. Tier 3 supports shall be developed in consultation with the evaluator and leader. The start date and duration of time an educator is receiving this level of support should be clearly documented ([see appendix H](#)).

## Corrective Support Plan

A pattern of persistent lack of growth and reflection or resistance to growth-oriented feedback should lead to advancing levels of support with a defined process for placing a leader on a Corrective Support Plan with indicators of success for transitioning out of it. Evaluators must utilize and document all three tiers of support prior to the development of a Corrective Support Plan. The Corrective Support Plan shall be developed in consultation with the evaluator and leader.

The Corrective Support Plan must contain:

- clear objectives specific to the well documented area of concern;
- resources, support, and interventions to address the area of concern;
- timeframes for implementing the resources, support, and interventions; and
- supportive actions from the evaluator.

At the conclusion of the Corrective Support Plan period, a number of outcomes are possible as determined in consultation with the evaluator and leader.

[See appendix H](#) for a Corrective Support Plan form and example.

## Dispute Resolution

The purpose of the dispute resolution process is to secure at the lowest possible administrative level equitable solutions to disagreements, which from time to time may arise related to the evaluation process. The right of appeal is available to all in the evaluation and support system. As our evaluation and support system is designed to ensure continuous, constructive and cooperative processes among professional educators, educators/leaders and their evaluators are encouraged to resolve disagreements informally.

Ultimately, should a leader disagree with the evaluator's assessment and feedback, the parties are encouraged to discuss these differences and seek common understanding of the issues. As a result of these discussions, the evaluator may choose to adjust the report but is not obligated to do so. The leader being evaluated has the right to provide a statement identifying areas of concern with the goals/ objectives, evaluation period, feedback, and/or professional development plan, which may include the individual professional learning plan or a Corrective Support Plan.

Any such matters will be handled as expeditiously as possible, and in no instance will a decision exceed thirty (30) workdays from the date the leader initiated the dispute resolution process. Confidentiality throughout the resolution process shall be conducted in accordance with the law.

## The Role of the Professional Development and Evaluation Committee (PDEC)

The PDEC serves as the collaborative decision maker using the [consensus protocol](#) to create, revise, and monitor the evaluation and support model, as well as the professional learning plan.

Pursuant to [Connecticut General Statute 10-220a](#) and [Public Act 23-159 Section 11\(b\)\(3\)](#), Benhaven must establish a professional development and evaluation committee to include at least one teacher and one administrator, at least one paraeducator and other personnel as the director deems appropriate. It is vital that individuals selected as delegates for administrators, teachers, paraeducators, and other school personnel are representative of the various classifications within the groups.

The duties of PDECs shall include, but are not limited to,

- participation in the development or adoption of a teacher evaluation and support program for the district, pursuant to section 10-151b;
- the development, evaluation, and annual updating of a comprehensive local professional development plan for certified employees of the district; and
- the development and annual updating of a comprehensive local professional development plan for paraeducators of the district.

The educator and leader evaluation and support program shall be developed with agreement from the PDEC.

## Local and State Reporting

The director shall report:

1. the status of teacher evaluations to the CEO on or before June 1 of each year; and
2. the status of the implementation of the teacher evaluation and support program, including the frequency of evaluations, the number of teachers who have not been evaluated, and other requirements as determined by the Department of Education, to the Commissioner of Education on or before September 15 of each year.

For purposes of this section, the term “teacher” shall include each professional employee of Benhaven, who holds a certificate or permit issued by the State Board of Education.

## Technical Assistance and Professional Learning

The CSDE works closely with schools and districts to learn what support is most needed for effective implementation of the CT Guidelines 2023 framework. To that end, the CSDE continues to develop resources in partnership with the six regional educational service centers, ACES, CES, CREC, EASTCONN, EdAdvance, and LEARN along with CAS and feedback from districts. You are encouraged to reach out for technical assistance and professional support during the transition to this new framework.

## Appendix D: General Glossary – Leader

**consensus protocol:** Consensus decision-making is a creative and dynamic way of reaching agreement in a group. Instead of simply voting for an item and having the majority getting their way, a consensus group is committed to finding solutions that everyone actively supports — or at least can live with.

By definition, in consensus no decision is made against the will of an individual or a minority. If significant concerns remain unresolved, a proposal can be blocked and prevented from going ahead. This means that the whole group has to work hard to find win-win solutions that address everyone’s needs.

From *Consensus decision making*. Seeds for Change. (n.d.).  
<https://www.seedsforchange.org.uk/consensus>

**Corrective Support Plan:** A pattern of persistent lack of growth and reflection or resistance to growth-oriented feedback should lead to advancing levels of support with a defined process for placing an educator on a Corrective Support Plan with indicators of success for transitioning out of it. The Corrective Support Plan shall be developed in consultation with the educator and their exclusive bargaining representative for certified teachers chosen pursuant to C.G.S. §10-153b. Corrective Support Plans

shall include clear objectives specific to the well documented area of concern; resources, support, and interventions to address the area of concern; timeframes for implementing the resources, support, and interventions; supportive actions from the evaluator; and outcomes or further action as determined in consultation with the evaluator, leader, and bargaining unit representative.

**check-ins:** Formal or informal meetings or conferences held in the spirit of collaboration between the leader and evaluator and to engage in reciprocal dialogue regarding what is happening in one’s practice at that moment in time including goal(s), professional learning, multiple and varied forms of quantitative and qualitative evidence, adjustments, and next steps (i.e., classroom/school/building or district). During each school year, a minimum of three check-ins provide an opportunity for discussions to set and adjust goals, celebrate growth and positive impact, identify needs, assess and discuss evidence and learning, and next steps in one’s learning.

**community:** A school community typically refers to the localized group of students, educators, parents, and staff within a specific school, fostering a sense of belonging and shared objectives within that school.

A district community encompasses a broader scope, involving multiple schools within a school district, and often includes administrators, teachers, students, and families collaborating across various educational schools and programs within that district. The district community addresses overarching educational policies, resource allocation, and coordination among multiple schools and programs to promote consistent and effective education across a larger administrative unit.

**continuous learning process:** The continuous learning process is a cycle of feedback, reflection, goal setting, opportunities for professional learning, feedback from observations (peers or evaluators), and a collection of multiple measures of evidence. There are multiple models of continuous learning including, but not limited to:

- The Supporting Teacher Effectiveness Project (STEP)
- [Massachusetts Department of Elementary and Secondary Education 5-Step Cycle and Model System for Educator Evaluation](#)
- Ohio Department of Education – [Ohio Teacher Evaluation System \(OTES 2.0\) Framework](#)
- [Tennessee Educator Acceleration Model](#)
- Connecticut TEAM Process (CAPA)

**dispute resolution:** A process for resolving disputes in cases where the evaluator and leader being evaluated cannot agree on goals/objectives, the evaluation period, feedback, or the professional learning plan or other outcomes of the evaluation process.

**evidence:** Evidence collected and presented as a part of the evaluation system may include (but is not limited to) artifacts, observations of practice, site visit feedback, and reflections of the leader impact on organizational health, educator growth, and student learning, growth, and achievement as part of the leader feedback process.

**feedback:** “Feedback is defined as a dynamic, dialogic process that uses evidence to engage a learner, internally or with a learning partner, in constructing knowledge about practice and self. Its primary purpose is learning that guides change” (Killion, 2019).

Quality feedback:

- Is based on multiple and varied quantitative and qualitative indicators of evidence, standards, and goal(s)
- Is personalized
- Is learning-focused or growth-oriented
- Provides questions for reflection to refine or revise strategies
- Expands understanding of one’s experiences and their implications for future experiences
- Provides reflective opportunities to rework, refine, and reorder knowledge, attitudes, skills, and/ or practices
- Is timely, frequent, and reciprocal

From Killion, J. (2019). *The feedback process: Transforming Feedback for Professional Learning. Learning Forward.*

**formal observations:** A formal observation is a structured and planned process of watching, assessing, and evaluating a leader’s performance. This typically includes a pre-conference and post-conference and results in a written evaluation within five school days.

**goals and standards:** Should be a high leverage goal based on professional practice standards and consistent with the goals of the district. Clear alignment between district, school, and certified staff goals (departments, grade-level teams, or collaborations) improves the collective effectiveness of practice.

**growth criteria:** Successful completion of the Continuous Improvement Process, supported with evidence that includes the impact the leader’s new learning had on their practice/goal, along with a reflection on challenges and next steps; and the impact the leader’s new learning and practice had on organizational health, educator growth, student learning, growth, and/or achievement, supported by evidence.

**high leverage goals:** High leverage goals are based on professional practice standards and are transferable across roles, disciplines, and positions and aligned to a strategic focus. They address strategies for development of human capital (people), instruction (knowledge and skills), and

organizational management that transcends schools (Grissom, et al., 2021).

**informal observations:** An informal observation is an unplanned visit intended to evaluate educator performance. This typically includes either verbal or written feedback provided to the educator within five school days.

**leader:** A leader is defined as someone in a leadership position who has attained the 092 certification. This may include assistant superintendent, principal, dean of students, assistant/vice principal, pupil services director, department chair. This is not an exhaustive list, rather to illustrate the definition. Superintendents will confirm district leaders with evaluation roles.

**multiple measures:** Can include, but is not limited to, structures and systems to support educator learning and growth, culture and climate changes, student learning, growth, and achievement as mutually agreed upon during the goal-setting process. Additional evidence relative to one or more competencies.

**mutual agreement:** An agreement or condition that is reciprocal or agreed upon by all parties.

**organizational health:** Organizational health in schools and districts means how well the whole school system is functioning. It encompasses various interconnected elements that contribute to a positive and thriving learning environment, including leadership, culture and climate, communication, professional learning, resource management, collaboration and teamwork, student-centered focus, continuous improvement, community engagement, and innovation.

**PDEC (Professional Development and Evaluation Committee):** The Professional Development and Evaluation Committee serves as the collaborative decision maker to create, revise, and monitor the evaluation and support program for the district, as well as the professional learning plan for certified employees of the district.

**professional learning:** Professional learning and growth are centered on accelerating personal and collective learning and closing the knowing-doing gap for leaders and teachers. This includes co-designing interactive, sustained, and customized learning growth opportunities that are grounded in the evidence that is most needed and most effective. See also appendix E, Glossary of Professional Learning Opportunities.

**review of practice:** Reviews of practice are non-classroom observations and may include, but are not limited to, observation of delivery of professional learning, facilitation of meetings, coaching/mentoring other leaders or teachers, review of leader or educator work, or review of other leader artifacts.

**rubric:** A rubric is a systematic and standardized tool, designed as a continuum, and is used to communicate the performance of educators based on specific criteria. It can be used to evaluate a single criterion to emphasize specific expectations and provide targeted feedback for improvement. It can encourage a growth mindset.

**single point competency:** A description of a standard of behavior or performance that is framed only as a single set of desired outcomes rather than laid out across a rating or scale of performance like a more traditional rubric.

**site visits:** A site visit provides an opportunity for observation and dialogue with the leader that may include but is not limited to leader engagement with educators, families or other partners in the work with a focus on the leader's goal.

**student outcomes:** Student outcomes include multiple measures of student learning, growth, and achievement as mutually agreed upon during the goal setting process.

**tiered****support:****Tier 1**

It is the expectation that all leaders consistently access opportunities for professional growth within their district. Tier 1 supports are broadly accessible professional learning opportunities for all, inclusive of, but not limited to, collegial conversations, school site visits, available district resources (e.g., books, articles, videos, etc.), formal professional learning opportunities developed and designed by your district PDEC and other leader supports (e.g., leadership coaching). These resources should be identified through a goal setting process by mutual agreement.

**Tier 2**

In addition to Tier 1, Tier 2 supports are more intensive in duration, frequency, and focus (e.g., observation of specific leadership practices, etc.) that can be either suggested by the leader and/or recommended by an evaluator.

**Tier 3**

Tier 3 supports are responsive to previously discussed concerns and are assigned by an evaluator. Tier 3 supports have a clearly articulated area of focus, duration of time, and criteria for success, and may include a decision to move to a Corrective Support Plan.

## Appendix E: Glossary of Professional Learning Opportunities – Leader

High quality professional learning enhances both leader practice and outcomes for each and every educator and student. High quality professional learning integrates research on effective adult learning and uses interactive, flexible designs to achieve intended outcomes.

**advanced coursework:** Courses offered at a college, university, or other institution, in person or online, which further educator skills and/or provide professional training.

**case study:** A team that engages in a case study using information in a student’s cumulative folder or other documented information with the intention of determining next steps, i.e., IEP review or attendance records.

**coaching:** A process based on trust in which professional colleagues work together to reflect on current practices; expand, refine, and build new skills; share ideas; teach one another; conduct classroom research; or solve problems.

**examination of student work:** Individuals or groups of educators review samples of work from various students. They identify strengths, areas for improvement, and design instructional plans as a result of the examination.

**job-embedded:** Any activity that is tied in with authentic classroom practice.

May include, but is not limited to:

- Examining student data
- Mentoring
- Book study (see below)
- Co-planning
- Investigating print and online resources
- Self-reflection
- Visitations/observations within a school

**lesson study:** Groups of teachers planning a lesson, observing one present the lesson, and then reflecting on it afterwards.

**mentoring:** A relationship between a less experienced educator and a more experienced mentor, in which the mentor provides guidance and feedback regarding practice.

**peer observation:** An opportunity for teachers to observe each other during classroom instruction. Teachers may want to observe peers to see a new teaching strategy in action, learn a new model of instruction, or analyze classroom processes and procedures.

**personal professional reading:** Individual, self-driven reading and processing of texts in order to improve one’s own teaching practice.

**professional literature study:** Structures and collaborative processes in which individuals or groups of professionals engage in the examination and discussion of a relevant and informative text. The purpose of this study is to promote continuous learning, professional development, and the exchange of ideas and best practices within a specific field or industry. By engaging in a professional book study, individuals can deepen their understanding of key concepts, stay current in their field, and enhance their ability to apply new knowledge to their professional practice. This collaborative and structured approach to learning helps foster a culture of continuous improvement and professional growth within a community of practitioners.

**protocols:** A learning tool that is rule-based. Often implemented to aid in new learning for groups or individuals. May include article discussions, case studies, book reviews, and other procedures used in its workshops and other learning designs.

**web-based learning:** Use of online resources or learning activities to develop new learning or techniques for the classroom.

## Guiding Principles

The transformational design of the educator evaluation and support model is grounded in six guiding principles that use high quality professional learning to advance educator practice and student learning, growth, and achievement.

- **Allow for differentiation of roles** (*for example for leaders: assistant superintendents, director of pupil services, various leaders in central office, principal, assistant principal; or for educators: teachers, counselors, instructional coaches, student support staff*).
- **Simplify and reduce the burden** (*eliminate technical challenges, paperwork, steps*).
- **Focus on things that matter** (*identify high leverage goal focus areas*).
- **Connect to best practices aimed at the development of the whole child** (*including, but not limited to, academic, social, emotional, and physical development*).
- **Focus on educator growth and agency** (*meaningfully engage professionals by focusing on growth and practice in partnership with others aligned to a strategic focus*).
- **Meaningful connections to professional learning** (*provide multiple pathways for participants to improve their own practice in a way that is meaningful and impactful*).
- Specific, timely, accurate, actionable, and reciprocal feedback.

## Connecticut Guidelines for Educator and Leader Evaluation and Support 2023 Components: Reimagining Educator and Leader Evaluation and Support

The design of the Connecticut Guidelines for Educator Evaluation and Support 2023 (CT Guidelines 2023) are representative of research-based effective practice and include six elements.

- Standards and criteria
- Goal setting process
- Professional practice and educator growth
- Evaluator/observer/stakeholder feedback and engagement
- Process elements
- Dispute resolution

The combined vision, guiding principles, and overall framework for educators and leaders' evaluation and support describe a systematic process of continuous improvement and professional learning leading to high quality professional practice and improved learning, growth, and achievement for students. While components are similar for educators and leaders, there are components specific to educators and to leaders, resulting in two sections with similar processes within a district's evaluation and support system.

### Standards and Criteria for Educators

The primary goal of the educator evaluation and support system is to strengthen individual pedagogy and collective practices to increase student learning, growth, and achievement. Educator practice discussions are based on a set of national or state performance standards set by professional organizations and mutually agreed upon by the PDEC. The following professional practice standards ground this model's framework. It is recommended that each PDEC create a process to review the standards and ensure a rubric accompanies the standards. The rubric serves as support for self-evaluation, dialogue, and feedback. While a rubric serves as support for self-evaluation, dialogue, and feedback, it is recommended that a single point rubric is used to provide focus for high leverage goal(s) setting and professional learning.

### Professional Learning Standards and Structures

Professional learning is essential to the CT Guidelines 2023 model. [Learning Forward Professional Learning Standards 2022](#), serve as a tool for how professional learning happens to deepen one's knowledge of their practice to impact student learning, growth, and achievement. As a tool, the professional learning standards help educators and leaders intentionally design learning, address content and consider how to accomplish the expected learning transformation desired. Together the professional standards for educators, leaders and professional learning serve as the three visions that work together to lay the foundation for meaningful feedback in a continuous learning process.

### The Continuous Learning Process: Goal Setting, Professional Practice and Evaluator/Observer/ Stakeholder Feedback and Engagement

The evaluation and support model is designed as a continuous learning process. The goal of the continuous learning process is to provide educators with continuous learning opportunities for professional growth through self-directed analysis and reflection, planning, implementation, and collaboration. Regular dialogue and feedback, coupled with the opportunity to reflect on and advance practice, drive the continuous learning process. In this process, the educator serves as the learner who actively engages in and directs their learning and feedback. The evaluator serves as a learning partner who supports the educator through the learning and growth process. Within the process, the educator collaborates and serves as a reflective practitioner to determine mutually agreed upon educator goals, professional practice and educator growth, and observation and feedback focus.

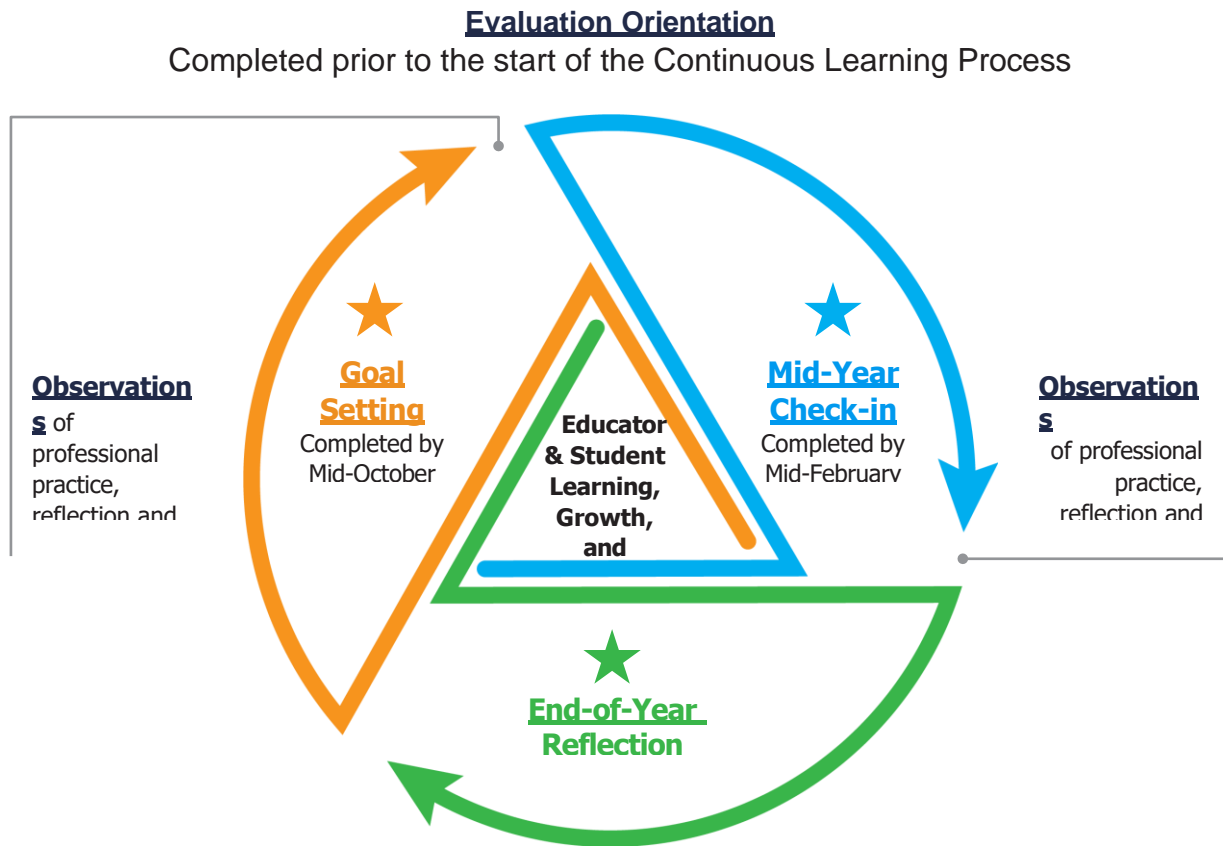

During each school year, a minimum of three check-ins provide an opportunity for a reciprocal discussion of what is happening in the classroom or school, a sharing of evidence of professional learning and impact on growth, and identification of needs and mutually agreed upon next steps. The meetings are approached in a spirit of continuous improvement, reflection, and collaboration. Dialogue is important, however, there must be a balance of written and verbal feedback provided between check-ins based on observations and reviews of practice as required by the district plan.

*The graphic below, adapted from Learning Forward's Standards for Professional Learning 2022, shows the relationship between professional learning for leaders, educators and students.*

Below is a graphic with the associated steps, reflections, and linked resources associated with each step of the process to assist educators and evaluators through the process. All educators are assigned a primary evaluator (092) who has completed comprehensive orientation on this model and relevant rubrics.

- Review professional learning, evidence, and impact on educator practice, student learning, growth, and achievement

### Mid-Year Conference

- Discuss evidence, reflection, and feedback from evaluator
- Adjust and revise as needed

## End-of-Year Reflection

Completed by June 1

### End-of-Year Reflection and Feedback Process

- Self-reflection: Review and discuss professional learning, evidence of impact on practice, student learning, growth and achievement

### End-of-Year Conference/ Summative Feedback and Growth Criteria

- Evaluator provides written summative feedback and guides next steps
- Annual Summary sign-off

Orientation on the educator evaluation and support process shall take place prior to the start of the process, no later than October 15. The orientation shall include:

- High leverage goal setting and professional learning plans
- Use of rubrics and standards
- Observation of practice/Review of practice
- Tiered supports
- Dispute resolution

Annual training for evaluators as required by C.G.S. 10-151b will include engaging in and providing reciprocal feedback tied to standards and evidence of professional practice.

### **Goal(s) Setting (Completed by mid-October)**

The initial goal setting meeting includes a dialogue between the educator and their evaluator around the educator's initial self-reflection, which is based on a review of evidence and an analysis of their own practice to identify and support an area for educator practice and growth, and student learning, growth, and achievement. The educator and evaluator come to mutual agreement on high leverage professional practice one-, two- or three-year goal(s), multiple measures of evidence (at least two measures), professional learning plan, and support that is consistent with their professional status and goals to drive progress toward goal attainment ([see appendix K](#)).

For beginning educators in the Teacher Education and Mentoring (TEAM) Program, consideration for alignment between professional learning and their TEAM modules would enhance their learning and practice.

### **Midyear Check-in (Completed by mid-February):**

The midyear check-in consists of reciprocal dialogue between the educator and evaluator and includes an educator self-reflection on their progress toward their goal(s) so far. The reflection shall include an analysis of the impact of their learning on their practice, student learning, growth and achievement and the school community.

- Educators self-reflect and review multiple and varied qualitative and quantitative indicators of evidence of impact on educator's growth, professional practice, and impact on student learning, growth, and achievement with their evaluator.
- The evaluator provides specific, standards-based feedback related to the educator's goal. Observation feedback and evidence aligned to the single point rubric.
- The midyear conversation is a crucial progress check-in. The midyear check-in provides an opportunity to discuss evidence, learning, and next steps. It is at this point that revisions to the educator's goal(s) may be considered based on multiple measures of evidence.

### **End-of-Year Reflection/Summative Review (Completed by June 1)**

End-of-year reflection provides an opportunity for the educator and evaluator to engage in reciprocal dialogue, similar to the midyear check-in, to discuss progress toward the educator's goal(s); professional learning as it relates to the educator's professional growth and professional practice; and impact on student learning, growth, and achievement as evidenced by multiple and varied qualitative and quantitative indicators of evidence. A written end-of-year summary includes the impact of new learning on educator practice and growth, impact on student learning, growth and achievement, school community, strengths and concerns, and possible next steps for the upcoming year. Analysis of evidence from the end-of-year summary is important for the educator's subsequent self-assessment and goal setting revisions or new goal.

The evaluator provides a concise summary based upon evidence related to the mutually agreed upon educator goal(s) and identified standards and will make a distinction regarding the educator's successful completion of the professional learning process.

*All forms for documentation are hyperlinked within the graphic of the continuous learning process with*

*further detail for each step.*

## Professional Practice and Educator Growth

The implementation of the continuous learning process is shared between the educator and evaluator. For the duration of the learning process, educators pursue learning and attainment of their goal(s), collecting evidence of practice related to their high leverage professional learning goal. Evaluators will provide educators with feedback from observation and dialogue, ensure timely access to supports, and collect evidence of educator performance and practice toward goal(s) through multiple sources, which include observation and may include student, staff, or family feedback ([see appendix J](#)).

## Observation of Professional Practice and Feedback

Observations occur throughout the continuous learning process. The identified high leverage goal(s) provides a focus for strategic evidence collection and feedback. Evaluators provide educators with specific feedback based on evidence, standards, and the educator's goal; ensure timely access to planned support(s); and continue to collect evidence of educator practice and progress toward goal(s) through multiple sources of evidence, including observation. Feedback, written or verbal, is provided within five school days.

"Feedback is defined as a dynamic, dialogic process that uses evidence to engage a learner, internally or with a learning partner, in constructing knowledge about practice and self. Its primary purpose is learning that guides change" (Killion, 2019).

Quality feedback:

- Is based on multiple and varied quantitative and qualitative indicators of evidence, standards, and goal(s)
- Is personalized
- Is learning-focused or growth-oriented
- Provides questions for reflection to refine or revise strategies
- Expands understanding of one's experiences and their implications for future experiences
- Provides reflective opportunities to rework, refine, and reorder knowledge, attitudes, skills, and/ or practices
- Is timely, frequent and reciprocal

## Definition of Cohorts

### Cohort 1

#### Who:

- New to profession (first four years)
- New to Benhaven (first two years)

#### What:

- Three observations of Professional Practice (minimum 30 minutes in length) with pre and post meetings
  - One observation of professional practice may be substituted for a review of practice
- Verbal and written feedback within five school days
- Additional observations of professional practice as mutually agreed upon or deemed necessary

### Cohort 2

#### Who:

- Educators who have successfully completed Cohort 1 at Benhaven

#### What:

- Two reviews of practice with one being Observations of Professional Practice (minimum 20 minutes in length) with post meetings.
  - One observation of professional practice may be substituted for a review of practice
- Verbal and written feedback within five school days
- Additional observations of professional practice as mutually agreed upon or deemed necessary

## Growth Criteria

An educator is determined to have successfully completed the learning process by demonstrating:

- Reflection supported with evidence of the impact of the educators' new learning on their practice/goal.
- The impact the educators' new learning and practice had on student learning, growth, and/or achievement, supported by evidence.
- Next steps.

[\(See appendix K\)](#)

## Tiered Support

All educators require access to high-quality, targeted professional learning support to improve practice over time. Educators and their evaluators thoughtfully consider and apply three tiers of support, as appropriate, within an evaluation process. All three tiers of support must be implemented prior to the development of a corrective plan.

A pattern of persistent lack of growth and reflection or resistance to growth-oriented feedback should lead to advancing levels of support with a defined process for placing an educator on a Corrective Support Plan with indicators of success for transitioning out of it. Evaluators must utilize and document all three tiers of support prior to the development of a Corrective Support Plan. The Corrective Support Plan shall be developed in consultation with the evaluator, educator, and their exclusive bargaining representative if applicable.

### Tier 1

It is the expectation that all educators consistently access opportunities for professional growth within their district. Tier 1 supports are broadly accessible professional learning opportunities for all, inclusive of, but not limited to, collegial professional conversations, classroom visits, available district resources (e.g., books, articles, videos etc.), formal professional learning opportunities developed and designed by district PDEC, and other general support for all educators (e.g., instructional coaching). These resources should be identified through a goal setting process by mutual agreement.

### Tier 2

In addition to Tier 1, Tier 2 supports are more intensive in duration, frequency, and focus (e.g., engaging in a professional learning opportunity, observation of specific classroom practices, etc.) that can be either suggested by the educator and/or recommended by an evaluator.

### Tier 3

In addition to Tier 1 and Tier 2, Tier 3 supports are responsive to unresolved, previously discussed concerns and are developed in collaboration with the educator and may be assigned by the evaluator. Tier 3 supports have clearly articulated areas of focus, duration of time, and criteria for success, and may include a decision to move to a Corrective Support Plan. Tier 3 supports shall be developed in consultation with the evaluator and educator. The start date and duration of time an educator is receiving this level of support should be clearly documented.

## Corrective Support Plan

A pattern of persistent lack of growth and reflection or resistance to growth-oriented feedback should lead to advancing levels of support with a defined process for placing an educator on a Corrective Support Plan with indicators of success for transitioning out of it. Evaluators must utilize and document all three tiers of support prior to the development of a Corrective Support Plan. The Corrective Support Plan shall be developed in consultation with the educator.

The Corrective Support Plan is separate from the normal educator growth model and must contain:

- clear objectives specific to the well documented area of concern;
- resources, support, and interventions to address the area of concern;
- well defined timeframes for implementing the resources, support, and interventions; and
- supportive actions from the evaluator.

At the conclusion of the Corrective Support Plan period, a number of outcomes are possible as determined in consultation with the evaluator, educator, and bargaining unit representative.

[See appendix P](#) for a Corrective Support Plan form and example.

## Dispute Resolution

The purpose of the dispute resolution process is to secure at the lowest possible administrative level equitable solutions to disagreements, which from time to time may arise related to the evaluation process. The right of appeal is available to all in the evaluation and support system. As our evaluation and support system is designed to ensure continuous, constructive, and cooperative processes among professional educators, educators/leaders and their evaluators are encouraged to resolve disagreements informally.

Ultimately, should an educator disagree with the evaluator's assessment and feedback, the parties are encouraged to discuss these differences and seek common understanding of the issues. As a result of these discussions, the evaluator may choose to adjust the report but is not obligated to do so. The educator being evaluated has the right to provide a statement identifying areas of concern with the goals/objectives, evaluation period, feedback, and/or professional development plan, which may include the individual professional learning plan or a Corrective Support Plan.

Any such matters will be handled as expeditiously as possible, and in no instance will a decision exceed 30 workdays from the date the educator initiated the dispute resolution process. Confidentiality through- out the resolution process shall be conducted in accordance with the law.

## The Role of the Professional Development and Evaluation Committee (PDEC)

The PDEC serves as the collaborative decision maker using the consensus protocol to create, revise, and monitor the evaluation and support model, as well as the professional learning plan.

Pursuant to [Connecticut General Statute 10-220a](#) and [Public Act 23-159 Section 11 \(b\) \(3\)](#), Benhaven must establish a professional development and evaluation committee (PDEC) to include at least one teacher and one administrator, at least one paraeducator and other personnel as the director deems appropriate. It is vital that individuals selected as delegates for administrators, teachers, and other school personnel are representative of the various classifications within the groups (see examples below).

The duties of PDECs shall include, but are not limited to:

- participation in the development or adoption of a teacher evaluation and support program for the district, pursuant to section 10-151b;
- the development, evaluation, and annual updating of a comprehensive local professional development plan for certified employees of the district; and
- the development and annual updating of a comprehensive local professional development plan for paraeducators of the district.

The educator and leader evaluation and support program shall be developed with the PDEC.

## Local and State Reporting

The director shall report:

1. the status of teacher evaluations to the CEO on or before June 1 of each year; and
2. the status of the implementation of the teacher evaluation and support program, including the frequency of evaluations, the number of teachers who have not been evaluated, and other requirements as determined by the Department of Education, to the Commissioner of Education on or before September 15 of each year.

For purposes of this section, the term “teacher” shall include each professional employee at Benhaven, below the rank of superintendent, who holds a certificate or permit issued by the State Board of Education.

## Technical Assistance and Professional Learning

The CSDE works closely with schools and districts to learn what support is most needed for effective implementation of the CT Guidelines 2023 framework. To that end, the CSDE continues to develop resources in partnership with the six regional educational service centers, ACES, CES, CREC, EASTCONN, EdAdvance, and LEARN along with CAS and feedback from districts. You are encouraged to reach out for technical assistance and professional support during the transition to this new framework.

## Appendix L: General Glossary – Educator

**consensus protocol:** Consensus decision-making is a creative and dynamic way of reaching agreement in a group. Instead of simply voting for an item and having the majority getting their way, a consensus group is committed to finding solutions that everyone actively supports — or at least can live with.

By definition, in consensus no decision is made against the will of an individual or a minority. If significant concerns remain unresolved, a proposal can be blocked and prevented from going ahead. This means that the whole group has to work hard to find win-win solutions that address everyone’s needs.

From *Consensus decision making*. Seeds for Change. (n.d.).

<https://www.seedsforchange.org.uk/consensus>

**continuous learning process:** The continuous learning process is a cycle of feedback, reflection, goal setting, opportunities for professional learning, feedback from observations (peers or evaluators), and a collection of multiple measures of evidence. There are multiple models of continuous learning including, but not limited to:

- The Supporting Teacher Effectiveness Project (STEP)
- [Massachusetts Department of Elementary and Secondary Education 5-Step Cycle and Model System for Educator Evaluation](#)
- Ohio Department of Education - [Ohio Teacher Evaluation System \(OTES 2.0\) Framework](#)
- [Tennessee Educator Acceleration Model](#)
- Connecticut TEAM Model (CAPA)

**Corrective Support Plan:** A pattern of persistent lack of growth and reflection or resistance to growth-oriented feedback should lead to advancing levels of support with a defined process for placing an educator on a Corrective Support Plan with indicators of success for transitioning out of it. The Corrective Support Plan shall be developed in consultation with the educator and their exclusive bargaining representative for certified teachers chosen pursuant to C.G.S. §10-153b. Corrective Support Plans shall include clear objectives specific to the well documented area of concern; resources, support, and interventions to address the area of concern; timeframes for implementing the resources, support, and interventions; and supportive actions from the evaluator.

**check-ins:** Formal or informal meetings or conferences held in the spirit of collaboration between the leader and evaluator and to engage in reciprocal dialogue regarding what is happening in one’s practice at that moment in time including goal(s), professional learning, multiple and varied forms of quantitative and qualitative evidence, adjustments, and next steps (i.e., classroom/school/building or district). During each school year, a minimum of three check-ins provide an opportunity for discussions to set and adjust goals, celebrate growth and positive impact, identify needs, assess and discuss evidence of learning, and next steps in one’s learning.

**community:** A school community typically refers to the localized group of students, educators, parents, and staff within a specific school, fostering a sense of belonging and shared objectives within that school.

A district community encompasses a broader scope, involving multiple schools within a school district, and often includes administrators, teachers, students, and families collaborating across various educational schools and programs within that district. The district community addresses overarching educational policies, resource allocation, and coordination among multiple schools and programs to promote consistent and effective education across a larger administrative unit.

**dispute resolution:** A process for resolving disputes in cases where the evaluator and educator being evaluated cannot agree on goals/objectives, the evaluation period, feedback, or the professional learning plan or other outcomes of the evaluation process.

**evidence:** Evidence collected and presented as a part of the evaluation system may include (but is not limited to) artifacts, observations of practice, student feedback, and reflections of the educator on student learning, growth, and achievement as part of the educator feedback process.

**feedback:** “Feedback is defined as a dynamic, dialogic process that uses evidence to engage a learner, internally or with a learning partner, in constructing knowledge about practice and self. Its primary purpose is learning that guides change” (Killion, 2019).

Quality Feedback:

- Is based on multiple and varied quantitative and qualitative indicators of evidence, standards, and goal(s)
- Is personalized
- Is learning-focused or growth-oriented
- Provides questions for reflection to refine or revise strategies
- Expands understanding of one’s experiences and their implications for future experiences
- Provides reflective opportunities to rework, refine, and reorder knowledge, attitudes, skills, and/or practices
- Is timely, frequent, and reciprocal

From Killion, J. (2019). *The feedback process: Transforming Feedback for Professional Learning*. Learning Forward.

**formal observations:** A formal observation is a structured and planned process of watching, assessing, and evaluating an educator’s performance. This typically includes a pre-conference and post-conference and results in a written evaluation within five school days.

**goals and standards:** Goals and standards should be based on an evidence based, high leverage strategy or practice aligned with professional practice standards and consistent with the goals of the district. Clear alignment between district, school, and certified staff goals (departments, grade-level teams, or collaborations) improves the collective effectiveness of professional practice.

**growth criteria:** Successful completion of the Continuous Learning Process, supported with evidence that includes the impact the educators’ new learning had on their practice/goal, along with a reflection on challenges and next steps, and the impact the educators’ new learning and practice had on student learning, growth, and or achievement, supported by evidence.

**high leverage goal:** High leverage goals are based on professional practice standards and are transferable across roles, disciplines, and positions and aligned to a strategic focus (i.e., a portrait of a graduate). They address strategies for developing conceptual understanding and have a high standard deviation effect size (Hattie 2009).

**informal observations:** An informal observation is an unplanned visit intended to evaluate educator performance. This typically includes either verbal or written feedback provided to the educator within five school days.

**leader:** A leader is defined as someone in a leadership position who has attained the 092 certification. This may include superintendent, principal, dean of students, assistant/vice principal, pupil services director, department chair. This is not an exhaustive list, rather to illustrate the definition. Superintendents will confirm district leaders with evaluation roles.

**multiple measures:** Can include, but is not limited to, student learning, educator learning, cultural changes, growth, and achievement as mutually agreed upon during the goal-setting process and may include additional evidence relative to one or more competencies.

**mutual agreement:** An agreement or condition that is reciprocal or agreed upon by all parties.

**organizational health:** Organizational health in schools and districts means how well the whole school system is functioning. It encompasses various interconnected elements that contribute to a positive and thriving learning environment, including leadership, culture and climate, communication, professional learning, resource management, collaboration and teamwork, student-centered focus, continuous improvement, community engagement, and innovation.

**PDEC (Professional Development and Evaluation Committee):** The Professional Development and Evaluation Committee serves as the collaborative decision maker to create, revise, and monitor the evaluation and support program for the district, as well as the professional learning plan for certified employees of the district.

**professional learning:** Professional learning and growth are centered around accelerating personal and collective learning and closing the knowing-doing gap for leaders and educators. This includes co-designing interactive, sustained, and customized learning growth opportunities that are grounded in the evidence that is most needed and most effective. See also [appendix M, Glossary of Professional Learning Opportunities](#).

**review of practice:** Reviews of practice are non-classroom observations and may include, but are not limited to, observation of delivery of professional learning, data team meetings, observations of coaching/mentoring sessions, review of educator work and student work, or review of other educators' artifacts.

**rubric:** A rubric is a systematic and standardized tool, designed as a continuum, and is used to communicate the performance of educators based on specific criteria. It can be used to evaluate a single criterion to emphasize specific expectations and provide targeted feedback for improvement. It can encourage a growth mindset.

**single point competency:** A description of a standard of behavior or performance that represents the enduring understanding of content and skill from a specific domain that is framed only as a single set of desired outcomes rather than laid out across a rating or scale of performance.

**student outcomes:** Student outcomes include multiple measures of student learning, growth, and achievement as mutually agreed upon during the goal setting process.

**tiered support:**

**Tier 1**

It is the expectation that all educators consistently access opportunities for professional growth within their district. Tier 1 supports are broadly accessible professional learning opportunities for all, inclusive of, but not limited to, collegial professional conversations, classroom visits, available district resources (e.g., books, articles, videos etc.), formal professional learning opportunities developed and designed by your district PDEC, and other general support for all educators (e.g., instructional coaching). These resources should be identified through a goal setting process by mutual agreement.

**Tier 2**

In addition to Tier 1, Tier 2 supports are more intensive in duration, frequency and focus (e.g., attending a workshop, observation of specific classroom practices, etc.) that can be either suggested by the educator and/or recommended by an evaluator.

**Tier 3**

Tier 3 supports are responsive to previously discussed concerns and are assigned by an evaluator. Tier 3 supports have a clearly articulated area of focus, duration of time, and criteria for success, and may include a decision to move to a Corrective Support Plan.

## Appendix M: Glossary of Professional Learning Opportunities – Educator

High quality professional learning enhances both educator practice and outcomes for each and every student. High quality professional learning integrates research on effective adult learning and uses interactive, flexible designs to achieve intended outcomes.

**advanced coursework:** Courses offered at a college, university, or other institution, in person or online, which further educator skills and/or provide professional training.

**case study:** A team that engages in a case study using information in a student’s cumulative folder or other documented information with the intention of determining next steps, i.e., IEP review or attendance records.

**coaching:** A process based on trust in which professional colleagues work together to reflect on current practices; expand, refine, and build new skills; share ideas; teach one another; conduct classroom research; or solve problems.
