## **Professional Educator Growth and Evaluation Plan**

The following document provides information relative to the policies and procedures associated with the revised educator evaluation program for the Bethany Public School District. Procedures have been designed through the collective efforts of the Bethany Professional Development and Evaluation Committee (PDEC), which includes educators, related service professionals, curriculum specialists, union representation, school administrators, and central office staff. The committee was charged with developing a professional growth and evaluation plan for Bethany educators. The committee gathered feedback from educators district-wide and designed recommendations for the policies and procedures associated with educator effectiveness and performance evaluation.

**Statement of Compliance:** In compliance with Title VI, Title IX, Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, the Bethany Public School District does not discriminate on the basis of race, religion, color, national origin, sex, sexual orientation, marital or civil union status, age, disability, pregnancy, gender identity or expression, or any other basis prohibited by state or federal law, whether by students, Board employees, or third parties subject to the control of the Board. The Board's prohibition of discrimination of harassment expressly extends to its services, equal opportunity employment, educational programs, academic, nonacademic and extracurricular activities, including athletics. Inquiries regarding the Bethany Public School District's nondiscrimination policies should contact that Superintendent of Schools, Bethany Public School District, 44 Peck Road, Bethany, CT, 06524, (203) 393-1170.

### **Bethany Public School District**

In 2016-2017 the Bethany Public School District (BPSD) partnered with ReVision Learning to develop and articulate the *Professional Educator Growth and Evaluation Plan*. Throughout the 2016-2017 school year, the Professional Development and Evaluation Committee (PDEC), in consultation with ReVision Learning, worked to revise and evolve the District's *Professional Educator Growth and Evaluation Plan*. Special thanks and recognition to all who supported the development, implementation, and revision of this plan.

#### I. Introduction

### A. Vision and Purpose of the Professional Educator Growth and Evaluation Process

Research findings are unequivocal about the connection between teacher quality and student learning. Over two decades of research has proven that no single school-based factor contributes more to the success of the students than high quality teachers.

It is the vision of the Bethany professionals that the Educator supervision and evaluation plan be viewed as a collaborative process to ensure that all students have competent, highly effective teachers to deliver instruction. Bethany is committed to providing an evaluation and support structure that builds human capacity and challenges all Educators to be reflective practitioners that aspire to reach excellence. The Bethany Public School District (BPSD) is committed to an Educator professional growth model that is designed to improve student learning and staff effectiveness through the ongoing development of Bethany's professional staff.

The Bethany Public School Professional Educator Growth and Evaluation Plan, herein referred to as the "Plan," was developed to empower professional staff to work collaboratively toward continuous improvement of student learning. The Plan provides a shared definition of effective instructional practices, while serving as a tool for reflection, offering opportunities for ongoing professional conversations on multiple focus areas. Within each focus area are specific indicators that articulate a continuum of performance levels from ineffective to exceptional practices.

The Bethany professionals chose to align the supervision and evaluation process to the *CT Common Core of Teaching, Bethany Board of Education Goals, Bethany Community School Goals,* the PEAC guidelines, our core beliefs and practices, as well as a significant body of research. The Plan is holistic and comprehensive in its design, satisfying the guidelines for Educator evaluation set forth by the Connecticut State Department of Education while also contributing to the improvement of individual and collective practice among professionals, and providing support for a full range of professional performance needs.

#### B. Goals of the Professional Educator Growth and Evaluation Process

To achieve Bethany's vision of implementing a collaborative and reflective Educator supervision and evaluation process that ensures every student is taught by a competent, highly qualified Educator, the goals of this Educator growth plan are to design an evaluation system that clearly defines excellent practice, provides Educators with accurate, useful information about their strengths and areas for development, and provides meaningful opportunities for professional learning and growth.

To achieve our goals, this evaluation system will:

- Ensure the learning and growth of all professionals and students.
- Guarantee the continuation of Bethany's collaborative model, including Professional Learning Communities (PLC), grade level data teams, and common planning time that allow for continued reflection, collaboration and communication around student growth and student learning.
- Provide meaningful professional learning experiences that impact instructional practice.
- Pledge to provide ongoing opportunities for professional sharing and feedback in support of continuous learning.
- Provide a structure that allows Educators to document and share evidence of best practice.
- Ensure that evaluations are fair, reliable, valid, holistic, and an accurate representation of teachers' practice.
- Differentiate experiences for Educators across a continuum of professional performance needs.

#### C. District Mission Framework

#### Mission, Beliefs, Commitments, and Core Values

At the heart of our *Bethany 2020 – Ascent to Excellence Strategic Plan*, lies the district's mission, beliefs and commitments. These core values guide our decision-making and affirm our belief that developing each Educator and all students, so that they can achieve to their greatest potential, is a shared responsibility.

#### **Mission Statement**

In the Bethany Public School District, we believe our mission is to challenge and inspire every student to become a lifelong learner and a resilient, independent, literate, caring, creative, responsible world citizen.

### **Our Beliefs and Commitments**

#### We believe that ...

Educating children is our first priority.

Education is a community-wide responsibility and requires the active engagement of all stakeholders.

The individual worth of each child must be celebrated.

Every student can learn and deserves an equal opportunity to learn.

Every student has special gifts and talents to be discovered and nurtured.

Positive attitude and effort lead to accomplishment.

Physical activity, the arts, and play are essential elements of a comprehensive education.

Education must focus on active learning, using critical thinking and problem-solving skills.

#### We are committed to ...

Empowering students to become resourceful learners who can apply their knowledge.

Challenging each student to reach his/her full potential.

Respecting individual and community values.

Integrating twenty-first century technology throughout our school.

Investing in our professional staff to enhance instruction.

Developing and retaining exemplary teachers.

Providing a safe, secure and positive environment.

Managing our financial resources efficiently and effectively.

Advancing the Bethany Public School District together as a community.

#### D. Bethany 2020 – Ascent to Excellence Strategic Plan

- 1. We will maximize each student's potential through a rich and challenging curriculum and a broad range of programs.
- 2. We will provide proactive, coordinated academic, social, and emotional support for every student.
- 3. We will cultivate responsibility, respect, and resilience in our students, and will promote citizenship in the school, the community, and the world.
- 4. We will encourage and enhance collaborative relationships with parents and with the broader community.
- 5. We will ensure that the staff and students are fluent in the integrated use of technology in the service of learning.
- 6. We will be responsible stewards of Bethany's school resources.
- 7. We will provide a safe and secure learning environment.
- 8. We will invest in the continual development of our staff.

#### E. Theory of Action

*IF* students are provided access to highly effective teachers who also develop caring responsive relationships, *AND IF* the culture of continuous, collaborative professional growth is used to support high expectations for student learning and improved instruction, *THEN* we will meet the needs of all learners and students will achieve at high levels.

# F. Connecting Professional Educator Growth and Evaluation Process to the Bethany Vision, Mission, Instructional Model, Achievement Goals, and Theory of Action

As evidenced by our mission, vision, beliefs and commitments, BPSD recognizes that the education of each child and the development and growth of each staff member is not only a priority but a shared responsibility. The tenets that support the Plan are grounded in our strong belief that Educator and student success is contingent upon our commitment to work as a professional learning community. The Plan will assure the attainment of both the vision and mission of our learning community.

Strengthening individual and collective Educator practices with the goal of developing students' critical thinking and increasing student achievement warrants having an instructional framework as the cornerstone of our work. We acknowledge that in order for students to achieve at their highest level, we need effective Educators in every classroom delivering high quality instruction at all times. The Bethany Community School's Balanced Instructional Model (Appendix A) is comprehensive, implemented school-wide, and focuses on purposeful planning, effective instructional practices, active student engagement, and thoughtful reflection resulting in improved student achievement. This instructional model is supported and tightly aligned to the Connecticut Common Core Standards (CCCS), Connecticut Common Core of Teaching (CCT) (Appendix B), Bethany Public School District's

Curriculum, and both formative and summative assessments. Our instructional model allows us to share a common understanding of effective instructional practices and identifies where these practices fall along a continuum - from exceptional to ineffective practice.

While our Plan is an important structure for the realization of our district vision and mission, it also plays a critical role in our district/school improvement plans. Our continuous improvement plans address how we will obtain our district goals, and cannot be accomplished without high quality instruction taking place in every classroom. Therefore, our plan addresses the alignment of developing professional goals around instructional practices that directly support district/school goals.

Furthermore, the district's Theory of Action serves as a concrete representation of our vision and strategy for improvement. The Bethany Public School District's Theory of Action explicitly connects the learning and development of our professional Educators to the learning and development of their students in the classroom, whereby we believe that if all students are provided access to highly effective Educators and we promote a culture of continuous, collaborative professional growth that supports high expectations for student learning and improved instruction, then we will meet the needs of our students and they will achieve at high levels.

#### II. Elements of the Professional Educator Growth and Evaluation Process

#### A. Educator Evaluation Plan Overview

Figure 1 below represents an outline of the overall Professional Educator Growth and Evaluation process.

**Figure 1: Evaluation Process Timeline** 

The Plan is driven by the implementation of the Connecticut Common Core of Teaching (CCT) Standards. These standards support a common understanding of effective teaching and learning across four domains.

#### Domains:

- Classroom Environment, Student Engagement and Commitment to Learning;
- Planning for Active Learning;
- Instruction for Active Learning; and
- Professional Responsibilities and Teacher Leadership.

Within each domain are specific indicators that break down expected Educator practices and resulting student behaviors across four levels of performance and practice:

- Level 1 Below Standard Practice
- Level 2 Developing Practice
- Level 3 Effective Practice
- Level 4 Exemplary Practice

The Connecticut Common Core of Teaching (CCT) Rubric for Effective Teaching 2014 (Appendix B), is the core document within the evaluation system and is used to help provide the context through which an Educator's performance can be directly measured. The indicators of teaching practice outlined in the CCT Rubric (Figure 2) represent the values and beliefs about teaching and learning of the educational community. Evaluation of Educator performance will be measured through evidence collected relative to the performances identified in the CCT Rubric, and Educator growth across performance levels will be supported and ultimately expected in each given school year.

Figure 2. Connecticut Common Core of Teaching Rubric for Effective Teaching 2014

### **CCT Rubric for Effective Teaching 2014 – AT A GLANCE**

### **Evidence Generally Collected Through** In-Class Observations

#### Domain Classroom Environment, Student Engagement and Commitment to Learning<sup>2</sup>

Teachers promote student engagement, independence and interdependence in learning and facilitate a positive learning community by:

- 1a. Creating a positive learning environment that is responsive to and respectful of the learning needs of all students.
- **1b.** Promoting developmentally appropriate standards of behavior that support a productive learning environment for all students.
- **1c.** Maximizing instructional time by effectively managing routines and transitions.

#### **Domain** Instruction for Active Learning

- Teachers implement instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:
- 3a. Implementing instructional content for learning.
- **3b.** Leading students to construct meaning and apply new learning through the use of a variety of differentiated and evidence-based
- **3c.** Assessing student learning, providing feedback to students and adjusting instruction.

### Evidence Generally Collected Through Non-Classroom/Reviews of Practice

#### **Domain Planning for Active Learning**

- Teachers plan instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:
- 2a. Planning of instructional content that is aligned with standards, builds on students' prior knowledge and provides for appropriate level of challenge for all students.
- 2b. Planning instruction to cognitively engage students in the
- **2c.** Selecting appropriate assessment strategies to monitor student progress.

#### **Domain Professional Responsibilities and** Teacher Leadership

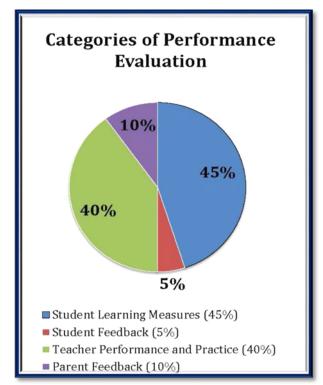

Teachers maximize support for student learning by developing and demonstrating professionalism, collaboration and leadership by:

- 4a. Engaging in continuous professional learning to impact instruction and student learning.
- **4b.** Collaborating to develop and sustain a professional learning environment to support student learning.
- 4c. Working with colleagues, students and families to develop and sustain a positive school climate that supports student learning.

Parent feedback (10%) will also be collected on Educator performance and will, in combination with Educator performance ratings (40%), constitute 50% of an Educator's overall performance rating. This 50% (40% + 10%) is an Educator's "Practice Rating."

Measurement of the outcomes for students is defined as an "Outcome Rating" and will be measured based on results associated with student achievement on a combination of local and regional assessments (45%), and student feedback (5%). These two categories of performance evaluation will constitute the remaining 50% (45% + 5%) of an Educator's' overall rating (see Figure 3). Processes and information relative to measurement of performance in these four main categories of performance evaluation have been outlined in the sections that follow in Figure 3.

**Figure 3: Categories of Performance Evaluation** 

### **B.** Components of Performance Evaluation

#### Category 1: Educator Performance and Practice (40%)

Forty percent (40%) of an Educator's evaluation shall be based on data collection from three modalities: observations, review of artifacts, and collegial dialogue, which are completed by an Evaluator throughout the school year. In this section, a full description of the modalities used by Evaluators has been outlined (see Three Modalities to Review Performance and Practice Figure 4, page 14). This data collection is consistently applied, but allows for levels of differentiation specific to the Educator.

**Figure 1: Evaluation Process Timeline** 

#### **Educator Self-Assessment**

Effective Educators are continuous, self-reflective learners. Each year, Educators will self-assess using the *CCT Rubric* and set professional learning goals. Educators will collect and reflect with their Evaluator on documentation and artifacts relative to effective practices and resulting student outcomes.

- **Step 1:** At the beginning of the school year, each Educator will review all twelve *CCT* Indicators and reflect on their practice (Electronic Survey within Talent Management System).
- **Step 2:** Based on the self-assessment, the Educator will write one or two Professional Learning Goals (PLG) along with an action plan to support the attainment of the goal(s). The goals should be directly linked to instructional strategies that will support student outcomes.
- **Step 3:** The Educator and Evaluator will review the PLG and determine supportive structures for ongoing collaborative analysis of Educator performance and practice and resulting student behaviors.

#### Student Data Review and Collaborative Goal Setting

The goal setting process is an essential and required step in any evaluation process. The initial goal setting conference should be completed by October 2nd. During this time, the Educator will review multiple sources of student performance data to determine students' learning needs and connect those needs with school-wide goals. The Educator will develop his/her professional growth goal and plan in accordance with the previous year's evaluation report, including the Educator's self-assessment. If mutually agreed upon, Educators may develop a comprehensive multi-year professional growth plan. The Evaluator will provide materials and resources as appropriate to help the Educator develop yearly and multi-year goals as well as aligning his or her ongoing analysis of professional growth. All goals for the school year should be submitted in the Educator's electronic evaluation file and, as needed, a final *Collaborative Goal Setting Conference* should be completed by October 30th of the school year.

To support Educators at various stages and levels of practice, Non-Tenured and Tenured Educators follow a slightly different track. While all elements of the Educator Evaluation Plan remain consistent for all Educators, additional support for Non-Tenured Educators and for Tenured Educators who have previously been rated as "Below Standard" or "Developing" is made available. This additional supplemental support allows for ongoing, targeted development through routine interactions between Evaluator and Educator. Tables 1 and 2 provide a detailed outline of the steps taken by Evaluators from the goal setting process through to the End-of-Year Conferences for Tenured and Non-Tenured Educators.

**Table 1: Evaluation Cycle for Non-Tenured Educators**

#### Three Modalities to Review Performance and Practice

Forty percent (40%) of an Educator's evaluation shall be based on data collection from three modalities of reviewing performance and practice. Similar to how an Educator in a classroom assesses student performance against a set of standards, an Evaluator must organize his/her review of an Educator's performance and practice to include the collection of evidence through: **observation of practice, review of artifacts** that reflect practice, and **collegial dialogue** to assist in determining current levels of understanding and need related to each standard (Figure 4). The standards, established through the *CCT*, will be used as the guide for the collection of evidence to support all three modalities and the corresponding feedback to support Educator growth.

Figure 4: Three Modalities to Review Performance and Practice

#### **Observations**

Observations will be used to collect evidence of the quality of Educator practice. For those domains for which direct observation is impossible, or would not provide reliable evidence, additional evidence will be collected by both the Educator and the Evaluator. Assertions about Educator performance (by an Evaluator) in this category, will be made based on observations across multiple settings and a careful review of all evidence with particular attention to patterns in Educator practice and student behavior.

Observations can include both announced and unannounced visits to the classroom. If appropriate, observations will be preceded by a pre-observation conference and followed by a post-observation conference. Formal written feedback will be provided within five school days of an observation. A post-observation conference will be scheduled, if appropriate.

Other Observations of Performance and Practice (Review of Practice): Based on the Educator's self-assessment and a collaborative discussion with the Evaluator, all observations will align to the Educator's role within the school. Additionally, observations can and will take place in multiple settings to support performance and practice across all indicators of the CCT.

These additional settings can include but are not limited to:

- Observations of Data Team meetings.
- Observations of case reviews.
- Observations of coaching/mentoring other Educators.
- Collaboration with colleagues.
- Observations of crisis response.
- Consultations with parents.
- Other facilitated meetings (504/PPT's).
- Professional development presentations.
- Collaborative curriculum writing sessions.

Evaluators will honor Educators' requests for additional observations (up to two additional announced observations and up to two additional unannounced observations) to address areas of concerns from a previous observation. The Evaluator may choose to complete additional observations as well.

#### **Artifact Review**

Artifactual evidence is an essential component to the evaluation process. It allows Educators to showcase their strengths and successes in a variety of areas. Integrating multiple measures and authentic examples into the evaluation process will allow for maximum self-evaluation and Educator growth.

Artifacts will vary depending on content area, grade, and Educator. Some items may be applicable to more than one domain, and some items may be more appropriate for one grade level or subject than another. Examples include, but are not limited to the following:

#### Required:

- Self-evaluation documents.
- Student Learning Objective (SLO) assessment data (benchmarks, standardized, summative, formative, rubrics).
- Student Outcome Portfolios.

#### Suggested:

- Classroom design/seating arrangements.
- Copy of syllabus/classroom expectations or classroom contract.
- Examples of positive learning environment in action (procedures, photos, videos).
- Photographs of displays used for instruction (bulletin boards, anchor charts, posters).
- Examples of parent communication (newsletters, parent communication logs).
- Strategies for instruction.
- Plan book (lesson plans, unit plans, mini-lessons).
- Gradebook.
- Common Planning Time, Interdisciplinary Teams, or Data Team meeting minutes/notes.
- Differentiated instruction (intervention logs, intervention data, student groupings).
- Projects/Activities.
- Re-teaching/reinforcement opportunities.
- Enrichment activities.
- Workshop model/centers/stations.
- Student Performance data in graph format.
- Examples of performance tasks.
- Exit slips.
- Student work samples with copies of Educator feedback.
- Anecdotal notes on student progress, school improvement, or professional growth.
- Contributions to school community.
- Attendance at school and student functions.
- Evidence of Collaboration/Co-planning/Co-teaching.
- Interaction with students' families/community during and outside of school.
- Participation in school activities/clubs/committees.
- Participation in professional development opportunities (internal and external).

- Examples of stakeholder feedback.
- Participation in intervention/referral process (SAT, PPT, 504).
- Video clips.
- Educator websites.
- Blog.
- Action Research.
- Online sites/programs.

#### Recommendations

- Evidence collection should be an on-going process to supplement observations and collegial dialogue between an Educator and his/her Evaluator throughout the year.
- The Educator should remove any identifying information from student work samples for student data privacy purposes.
- Evidence should be clearly organized to indicate which of the four domains of the CCT
  the artifact represents. This may be done in a digital or hard copy format. This
  information can be discussed at the Mid-Year and shared at the End-of-Year
  Conference.

The **Artifactual Evidence Form** must be brought to the End-of-Year Conference with domain, indicator, and evidence description completed.

#### **Collegial Conversation**

As has already been described, the Educator and Evaluator are positioned to engage in multiple formal conferences and conversations throughout the year (Initial Data Reviews, Goal Setting Conference, Mid-Year Conference, and End-of-Year Conference). Each of these conferences offer a rich opportunity for discussion about practice that, when well-designed, provides a collaborative exchange about current levels of practice, strengths and areas of development that are necessary, and examples of next steps that can be taken to support an Educator in their efforts to improve their levels of performance and practice.

The above outlined structures and practice applies to Educators across all roles and responsibilities (e.g., school psychologist, guidance counselors, and speech and language pathologists, among others) however, evidence is collected to support growth in alignment with *The Connecticut Common Core of Teaching (CCT) Rubric for Effective Service Delivery 2015* (Appendix C). Educators in areas covered by a service delivery model will follow the same timelines as classroom Educators. These support specialists may develop growth and indicators based on his/her role in the district.

### Category 2: Parent Feedback (10%)

Ten percent (10%) of an Educator's evaluation shall be based on parent feedback. Bethany will use whole school parent survey data from the spring of the previous school year to support goal setting during the beginning of the year. Surveys used to capture student feedback are anonymous and demonstrate fairness, reliability, validity and usefulness. Each year, new data will be collected and analyzed to support the establishment of school-wide goals to support improved practice. Parent feedback will be aggregated and reviewed school-wide in the spring to determine the degree to which the school has collectively met the targets set at the beginning of the year.

The process for goal setting based on survey data will include the following steps:

- **Step 1**: The District/School Improvement Team reviews data from the survey administered to parents in the spring of the previous school year with staff in the beginning of the school year and determine a school wide focus area and targets for the current school year.
- **Step 2**: Educators incorporate identified strategies into their daily practice and classroom routines throughout the school year.
- **Step 3**: Evaluators review progress towards school-wide goals with Educators at Mid-Year Conferences.
- **Step 4**: Surveys are re-administered to parents in the spring.
- **Step 5**: The District/School Improvement Team examines survey results, identify the growth made toward targets set, and determine the level of performance to be assigned to all staff as outlined in a four-point matrix.

Table 3: Parent Feedback

| Below Standard Practice | Developing<br>Practice | Effective<br>Practice | Exemplary<br>Practice |
|-------------------------|------------------------|-----------------------|-----------------------|
| Level 1                 | Level 2                | Level 3               | Level 4               |
| Did Not Meet Goal       | Partially Met Goal     | Met Goal              | Exceeded Goal         |

Each year, PDEC will seek input from faculty, parents, and students to review and refine the surveys, as needed (Appendix D).

#### Category 3: Student Feedback (5%)

Five percent (5%) of an Educator's evaluation shall be based on student feedback that will be collected utilizing district-generated surveys.

Similar to the Parent Feedback process, Bethany will use whole school student survey data from the spring of the previous school year to support goal setting during the beginning of the year. Surveys used to capture student feedback are anonymous and demonstrate fairness, reliability, validity and usefulness. Each year, new data will be collected and analyzed to support the establishment of school-wide goals to support improved practice. Student feedback will be aggregated and reviewed school-wide in the spring to determine the degree to which the school has collectively met the targets set at the beginning of the year.

The process for goal setting based on survey data will include the following steps:

- **Step 1**: The District/School Improvement Team reviews data from survey administered to students in the spring of the previous school year with staff and determines a school-wide focus area and targets for the current school year.
- **Step 2**: Educators incorporate identified strategies into their daily practice and classroom routines throughout the school year.
- **Step 3**: Evaluators review progress towards school-wide goals with Educators at Mid-Year Conferences.
- **Step 4**: Surveys are re-administered to students in spring.
- **Step 5**: The District/School Improvement Team examines survey results, identify the growth made toward targets set, and determine the level of performance to be assigned to all staff as outlined in a four-point matrix.

**Table 4: Student Feedback** 

| Below Standard Practice | Developing<br>Practice | Effective<br>Practice | Exemplary<br>Practice |
|-------------------------|------------------------|-----------------------|-----------------------|
| Level 1                 | Level 2                | Level 3               | Level 4               |
| Did Not Meet Goal       | Partially Met Goal     | Met Goal              | Exceeded Goal         |

Each year, PDEC will seek input from faculty, parents, and students to review and refine the surveys, as needed (Appendix D).

#### Category 4: Student Learning Measures (45%)

Forty-five percent (45%) of an Educator's evaluation shall be based on attainment of goals for student growth, using multiple indicators of academic growth and development to measure those goals. Improving student performance is the single most important job of our nation's public schools. Rigorous Student Learning Objectives (SLO) and corresponding Indicators of Academic Growth and Development (IAGD) help Educators and administrators challenge students at the highest possible levels and ensure focus and targeted practice toward their success.

The practice of setting student growth objectives places emphasis on using assessment results to guide instruction. Research has found that Educators who set high quality objectives often realize greater improvement in student performance than those who do not.

#### Establishing quality SLO/IAGD helps:

- Increase collegial discussions toward student growth and learning.
- Increase Educators' capacity to engage in the evaluation and creation of assessments.
- Increase knowledge and understanding of curricular standards.
- Cultivate deeper understanding of students' academic strengths and weaknesses.
- Design more effective instructional practice.
- Support understanding of how to monitor and adjust instruction effectively to meet students' needs.
- Generate more intentional professional learning opportunities before, during and after the school year.

Included in the analysis of student outcomes is a clear through line to the on-going data cycle and analysis completed by all Educators in Bethany. Most Educators follow a formal Data Team cycle that informs the progress monitoring required to support student growth. Those Educators who do not follow a formal Data Team cycle are still required to monitor their student progress, especially related to their students' progress towards the stated SLO. Throughout the year, Educators will reflect during the Data Team process and complete a *Student Outcome Portfolio*. This portfolio will act as an IAGD in that Educators and Evaluators will work during each collaborative conference (i.e., Goal Setting, Mid-Year, and End-of-Year) to review the connections between specific Educator actions and student outcomes expected in the SLO. This portfolio will include the primary data and information at the end of the year to support a more productive, relevant review of student learning.

Collaborative Goal Completion of Initial Setting Conference **Benchmark** Educator Educator reviews Educator writes • Evaluator and completes relevant their SLOs/IAGDs student data Educator meet to benchmarks to through Data based on determine final assess student Team (where benchmarking SLOs and IAGDs. learning needs and appropriate) to and/or initial focus areas. assist in student data articulation of review. Data Team cycle.

Figure 4: Procedures for Establishing and Monitoring SLOs/IAGDs

#### **Completion of Initial Benchmark and Initial Student Data Review**

At the beginning of the year, the Educator (where applicable) will administer all relevant benchmarks to support the initial review of student data. This analysis will allow the Educator to establish SLOs/IAGDs that directly align to the needs of his/her students.

#### **Collaborative Goal Setting Conference (By October 30)**

Each Educator, through a mutual agreement with his/her Evaluator, will select one to two goals for student growth. The final decision on the number of goals selected will take into account the role and responsibilities of the Educator, and the Educator's experience and history of performance. Time will be allotted before the conference to review student data to inform Educator goals. In order to ensure no SLO/IAGD is determined by a single, isolated test score, but instead determined through the comparison of data across assessments and administered over time, Bethany Public Schools has designed the following structure:

For each goal, the Educator, through mutual agreement with his/her Evaluator, will select at least three, but not more than five Indicators of Academic Growth and Development (IAGDs) to include both standardized and non-standardized measures.

#### Each SLO/IAGD will:

- Take into account the academic track record and overall needs and strengths of the students, using baseline data when available.
- Address the most important purposes of an Educator's assignment.
- Be aligned with school, district, or state student achievement objectives.
- Include a set of articulated action steps to meet each SLO. Action steps should reflect practice related to each domain within the CCT.
- One half (22.5%) of the IAGDs shall not be determined by a single isolated test score.

At least one IAGD for any SLO must be based on, when available, a standardized measure. Criteria for standardized measures includes:

- Administered and scored in a consistent manner.
- Aligned to a set of academic standards.
- Broadly administered (regional or national).
- Administered between one and three times a year.

At least one IAGD will be based on a non-standardized measure.

Possible assessments in Bethany include but are not limited to:

- Curriculum-Based/Non-Standardized Assessments Examples include Phonological Awareness Test, Phonics Core Survey, Fundations End of Unit Assessments, Progress Monitoring, Spelling Inventory and Fountas and Pinnell.
- Standardized Assessments Examples include STAR, STAR Early Literacy Assessments, Smarter Balanced.
- Math Assessments Examples include Regional End-of-Year Assessment, STAR, and End-of- Unit Assessments, Math Expressions Quizzes and Exit Slips.
- Writing Assessments Examples include Writing Samples with Rubrics.

Within the process, the following are descriptions of selecting indicators of academic growth and development:

- Fair to students The indicator of academic growth and development is used in such a way as to provide students an opportunity to show that they have met or are making progress in meeting the learning objective. The use of the indicator of academic growth and development is as free as possible from bias and stereotype.
- Fair to Educators The use of an indicator of academic growth and development is fair
  when an Educator has the professional resources and opportunity to show that
  his/her students have made growth and when the indicator is appropriate to the
  Educator's content, assignment, and class composition.
- Reliable Use of the indicator is consistent among those using the indicators and over time.
- Valid The indicator measures what it is intended to measure.
- Useful The indicator may be used to provide the Educator with meaningful feedback about student knowledge, skills, perspective, and classroom experience that may be used to enhance student learning and provide opportunities for Educator professional growth and development.

#### **Data Team Cycle and Progress Monitoring**

Bethany Public Schools engages in professional learning focused on the implementation of Data Teams at all grade levels. Additional structures are being considered to support special area and support service Educators in on-going collaborative analysis of SLOs/IADGs. The **Data Driven Decision Making** process (see Appendix E) used during data teams is the backbone to the on-going development of the **Student Outcome Portfolio**. At the end of each data cycle, and as a result of his/her participation in the data team process, the Educator will have had a chance to reflect on his/her specific impact on the progress being identified through the Data Team.

#### **Student Outcome Portfolio**

The focus of the **Student Outcome Portfolio** is on refining our understanding of Educator impact on student performance through a routine, consistent, rigorous, and targeted analysis of student achievement in our classrooms. The Data Team cycle is the platform for our review of our students' progress. During Data Team meetings, Educators will document what they have learned about teaching and learning in their classroom as it relates to their SLOs performance. Three core components make up the **Student Outcome Portfolio**: High-Effect Instructional Strategies, Effectiveness of Instructional Practice, and Student Outcomes. A **Student Outcome Portfolio** needs to accompany at least one SLO as an IAGD.

#### Component #1: High-Effect Instructional Strategies (Related to PLG)

During each instructional cycle, and based on the data team analysis that allows us to monitor our students' progress, Educators will discuss the instructional strategies they have employed that have directly led to student achievement. This is considered Step 4 in the Bethany Data Team process. To support alignment and shared understanding of these instructional strategies, resources have been provided in the following forms:

The Educator provides a reflective response to:

As a PLC, what did I commit to in this cycle?

- Marzano's Instructional Strategies
- High Effect Indicators
- <u>Unwrapped Standards</u> from Wiki-teacher K-12 ELA and Math
- Hattie Instructional Strategies

#### **Component #2: Effectiveness of Instructional Practice**

The Educator provides a reflective response to:

What did I find worked in this cycle?
What did I find was not working in this cycle?
What adjustments did I make?

Each Data Team meeting also offers an opportunity for an Educator to self-assess on their own practice and its impact on student achievement. This is considered Step 5 of the Bethany Data Team process.

#### **Component #3: Student Outcomes (Brief Explanation of the Component)**

As a result of the Data Team cycle, the Educator should have a direct understanding of whether or not they have met the cycle goals and have determined next steps. This is where the Educator has the opportunity to make the final powerful link between their actions and the outcomes within the cycle, thereby, directly monitoring the progress of students towards the overall goals.

The Educator provides a reflective response to:

Was the goal met?
If so, why? If not, why not?
What action will I take for my students
who still struggle?

#### Portfolio Review

During each opportunity for review between the Evaluator and Educator (i.e., Collaborative Goal Setting Conference, Mid-Year Conference, End-of-Year Conference), the **Student Outcome Portfolio** is measured against the following four elements to support the overall measurement of the SLO:

- The level of reflective practice (connections to CCT D4).
- Connections between practice and targeted strategy(ies) (connections to CCT D1 and CCT D3).
- The level of monitoring and adjusting (connections to CCT D2 and CCT D3).
- The level of new professional learning identified (connections to CCT D2 and CCT D4).

The Evaluator and the Educator can leverage the answers to the reflective questions for each component (High-Effect Instructional Strategies, Effectiveness of Instructional Practice, and Student Outcomes) in order to collaboratively monitor progress towards the end-of-year objectives. To support this analysis, an assessment rubric has been established for each of the elements to be measured.

**Table 5: Student Outcome Portfolio Rubric** 

| Student Outcome   | Below Standard<br>Practice  | Developing<br>Practice  | Effective<br>Practice   | Exemplary<br>Practice   |
|---|---|---|---|---|
| Portfolio Elements  | Level 1   | Level 2   | Level 3   | Level 4   |
|   | Did Not Meet Goal   | Partially Met Goal  | Met Goal  | Exceeded Goal   |
| Reflective Practice  Portfolio outlines evidence of reflective practice connecting leadership practice to Educator practice and student outcomes.  Suggested: 50% | Portfolio outlines evidence of reflective practice connecting leadership practice to Educator practice and student outcomes.  In relationship to student performance and/or Educator practice is not evident and, therefore, there is limited connection between Educator practice and student outcomes.  In relationship to student performance and/or Educator practice is evident but there remain limited connections made between practice and student outcomes.  Suggested: 50% |   | Reflective practice in relationship to student performance and Educator practice is clearly made, areas for improvement have been identified and action to improve professional practice is outlined. | Uses ongoing reflection to initiate professional dialogue with colleagues to improve individual and collective practices based on student performance data. |
| Effective Monitoring and Proper Adjustments  Portfolio outlines evidence of effective monitoring and proper adjustments  Suggested: 30%                           | Has not<br>demonstrated how<br>he/she monitored<br>individual Educator<br>practice based on<br>student data.  | Demonstrates how<br>he/she monitors<br>and makes efforts<br>to improve Educator<br>individual practice<br>based on student<br>data. | Demonstrates how<br>he/she monitors<br>and makes<br>adjustments that<br>improve Educator<br>individual practice<br>based on student<br>data.  | Makes adjustments<br>that improve<br>individual Educator<br>practice based on<br>student data and<br>supports collective<br>efficacy of others.             |
| Evidence of New Learning  Portfolio outlines evidence of new learning for administrator  Suggested: 20%   | Has not provided evidence of new learning to support the impact on student performance and/or Educator practice.  | Demonstrates evidence of new learning but still does not connect to the impact on student performance and/or Educator practice.     | Demonstrates evidence of new learning that directly connects to the impact on student performance and/or Educator practice.   | Uses new learning to promote and support the collective impact on student performance and/or Educator practice.   |

#### Mid-Year Check-In Conference (By February 15)

Evaluators and Educators will review progress toward the goals/objectives at least once during the school year, which is to be considered the midpoint of the school year, using available information, such as agreed-upon indicators. Both the Educator and the Evaluator will provide some evidence at the Mid-Year Conference:

- Examples of Educators' evidence could be student work, samples of rubrics, plans, assessment questions, and pre- and post-assessment data.
- Examples of Evaluator evidence can include observation notes/forms.

This review may result in revisions to the strategies or the approach being used and/or Educators and Evaluators may mutually agree on a mid-year adjustment of student learning goals to accommodate changes (e.g., student populations, assignment).

#### **End-of-Year Summative Review Conference (By June 10)**

The Educator shall collect evidence of student progress toward meeting the student learning goals/objectives. This evidence will be produced by using the multiple indicators selected to align with each student learning objective. The evidence will be submitted to the Evaluator, and the Educator and Evaluator will discuss the extent to which the students met the learning goals/objectives. Evidence for the End-of-Year Conference includes the following:

- End-of-Year Self-Evaluation Form.
- End-of-Year Student Performance Data (Data Teams).
- Artifacts from Educator and Evaluator.
- Proposed needs for the following year (material support, building support, professional development).

Following the conference, the Evaluator will rate the extent of Educator progress toward meeting the student learning goals/objectives, based on criteria for four levels of performance. Final student outcomes data from the Data Team will be used to measure the attainment of the stated IAGDs (see Table 5).

**Table 5: SLO/IAGD Goal Attainment** 

| Exemplary<br>Practice   | Effective<br>Practice   | Developing<br>Practice  | Below Standard<br>Practice   |
|---|---|---|--|
| Level 4   | Level 3   | Level 2   | Level 1  |
| Exceeded Goal   | Met Goal  | Partially Met Goal  | Did Not Meet Goal  |
| At least 90% of the targeted percentage of students in the IAGD met or exceeded the goal. | 70-89% of the targeted percentage of students in the IAGD met or exceeded the goal. | 60-69% of the targeted percentage of students in the IAGD met or exceeded the goal. | Less than 60% of the targeted percentage of students in the IAGD met or exceeded the goal. |

An example SLO and IAGD is provided in Table 6. This example reflects the basic elements of the SLO/IAGD, however, Educators and Evaluators should refer to the Form in for all necessary information.

#### Table 6: Bethany SLO and IAGD - EXAMPLE

#### **Sample SLO and IAGDs**

#### **Pre-Analysis Statement**

After reviewing the Phonological Awareness Test as well as the Phonics Core Survey Parts A-E, I determined that I had one student who already demonstrated mastery of these skills (scored above 80%), four students who demonstrated some understanding of these skills (scored between 50% and 79%) and five students who demonstrated minimal understanding of these skills (all scored below 50% on Phonics Core Survey or Phonological Awareness Test).

#### **Student Learning Objective #1**

(22.5%)

Students will show growth in grade level phonic skills.

#### Based on this data, I have decided to set the following growth targets for my students:

IAGD #1: (5.6%

My one student who has mastered the end-of-year Kindergarten benchmarks (10% of students) will demonstrate mastery of the following <u>First Grade</u> skills: read words with consonant blends and short vowels as well as words with digraphs, 'tch' trigraph and short vowels as evidenced by their performance on the Phonics Core Survey (F and G).

IAGD #2: (5.6%)

My four students who have some understanding of phonological awareness and phonics skills as well as three of my students who demonstrated minimal understanding (70% of students) will demonstrate mastery of the <u>end-of-year Kindergarten benchmarks</u> as evidenced by their performance on the Phonological Awareness Test as well as the Phonics Core Survey (A-E).

IAGD #3: (5.6%)

My two students who have demonstrated minimal understanding of phonological awareness and phonics skills (20% of students) will demonstrate <u>mastery of phonological awareness skills</u> as evidenced by their performance on the Phonological Awareness Test as well demonstrate <u>mastery of letter and sound identification</u> as evidenced by their performance on their Phonics Core Survey (A-D).

IAGD #4: (5.6%)

All students will show continuous progress in conjunction with stated IAGD as evidenced by teacher reflection in the <u>Student Outcome Portfolio</u>.

Action Plan: (An Action Plan describes the methods/instructional strategies to achieve IAGDs and meet SLOs.)

- 1. Use the data team process to monitor student outcomes.
- 2. Match effective instructional strategies to student needs (i.e., differentiated small group instruction, explicit and targeted skill instruction, goal setting and student feedback).
- 3. Consult with Literacy Coach and/or Reading Consultant on an ongoing basis.

Percentages reported above in the sample SLO, reflect the selection of two SLO even though only one is provided in the example. If one SLO is selected the value will equal 45%.

#### C. Aggregate and Summative Scoring

An Educator's summative rating will include a combination of the performance ratings associated with the four categories of the evaluation model. Evidence relative to an *Educator's performance and practice* will be combined with scores related to an Educator's efforts associated with *parent feedback* goals to determine an overall *Practice Rating*. Performance relative to *student learning measures* (designed at the beginning of the year through SLOs) will be combined with *student feedback scores* to determine an overall *Outcomes Rating*. The *Practice Rating* and the *Outcomes Rating* will be combined to give a *Summative Rating*.

#### **Determining Summative Rating**

**Step 1**: Calculate Educator performance level score on the *CCT Rubric*.

Table 7: CCT Rubric Performance and Practice Scoring

| Domain                             | Score | Weighting   | Points<br>(Score x Weighting) |
|------------------------------------|-------|-------------|-------------------------------|
| 1. Classroom Environment           |       | 25%         |                               |
| 2. Planning for Active Learning    |       | 25%         |                               |
| 3. Instruction for Active Learning |       | 40%         |                               |
| 4. Professional Responsibilities   |       | 10%         |                               |
|                                    |       | Total Score |                               |

Table 8: CCT Rubric Performance and Practice Scoring - EXAMPLE

| Domain                             | Score | Weighting   | Points<br>(Score x Weighting) |
|------------------------------------|-------|-------------|-------------------------------|
| 1. Classroom Environment           | 2     | 25%         | 0.5                           |
| 2. Planning for Active Learning    | 3     | 25%         | 0.75                          |
| 3. Instruction for Active Learning | 3     | 40%         | 1.2                           |
| 4. Professional Responsibilities   | 3     | 10%         | 0.3                           |
|                                    |       | Total Score | 2.75                          |

### **Step 2:** Determine Final Practice Rating

**Table 9: Calculating the Practice Rating** 

| Components   | Score | Weighting   | Points<br>(Score x Weighting) |
|--|-------|-------------|-------------------------------|
| Educator Performance, Practice and Professional Growth Standards Score |       | 40          |                               |
| Parent Feedback  |       | 10          |                               |
|  |       | Total Score |                               |

Table 10: Calculating the Practice Rating – **EXAMPLE** 

| Components   | Score | Weighting    | Points<br>(Score x Weighting) |
|--|-------|--------------|-------------------------------|
| Educator Performance, Practice and Professional Growth Standards Score | 2.75  | 40           | 110                           |
| Parent Feedback  | 2     | 10           | 20                            |
|  |       | Total Score  | 130                           |
|  |       | Rating Scale | Level 3 Effective             |

**Step 3**: Determine the Performance Level for the Practice Rating by using the rating table below.

**Table 11: Practice Rating Table** 

| Point Range                             | Performance Level Rating |  |  |
|---|--------------------------|--|--|
| 175-200                                 | Level 4 (Exemplary)      |  |  |
| 127-174                                 | Level 3 (Effective)      |  |  |
| 81-126                                  | Level 2 (Developing)     |  |  |
| 50-80                                   | Level 1 (Below Standard) |  |  |
| Final Educator Performance and Practice |                          |  |  |

**Step 4:** Determine the final Outcomes Rating.

**Table 12: Calculating the Outcomes Rating** 

| Component                             | Score | Weighting   | Points (Score x Weighting) |
|---------------------------------------|-------|-------------|----------------------------|
| Student growth and development (SLOs) |       | 45          |                            |
| Student Feedback                      |       | 5           |                            |
|                                       |       | Total Score |                            |

Table 13: Calculating the Outcomes Rating – **EXAMPLE** 

| Commonant                             | Coore | VA/aishtin s | Points              |
|---------------------------------------|-------|--------------|---------------------|
| Component                             | Score | Weighting    | (Score x Weighting) |
| Student growth and development (SLOs) | 3     | 45           | 135                 |
| Student Feedback                      | 3     | 5            | 15                  |
|                                       |       | Total Score  | 150                 |
|                                       |       | Rating Scale | Level 3 Effective   |

**Step 5:** Determine the Performance Level for the Outcomes Rating by using the rating table below.

**Table 14: Outcomes Rating Table** 

| Point Range                             | Performance Level Rating |  |  |
|---|--------------------------|--|--|
| 175-200                                 | Level 4 (Exemplary)      |  |  |
| 127-174                                 | Level 3 (Effective)      |  |  |
| 81-126                                  | Level 2 (Developing)     |  |  |
| 50-80                                   | Level 1 (Below Standard) |  |  |
| Final Educator Performance and Practice |                          |  |  |

**Step 6**: Using the Summative Performance Rating Matrix in Table 15 below, determine the final performance rating for an Educator based on his/her combined scores. To use the table, identify the Educator's rating for each category and follow the respective column and row to the center of the table. The point of intersection indicates the Summative Rating. Note: The Matrix below uses the state performance level language as outlined in the PEAC Guidelines.

**Table 15: Summative Performance Rating Matrix** 

|                 | Summative Performance Rating Matrix |                               |                  |                  |                 |  |  |
|-----------------|-------------------------------------|-------------------------------|------------------|------------------|-----------------|--|--|
|                 | Practice Rating                     |                               |                  |                  |                 |  |  |
|                 |                                     | Exemplary                     | Effective        | Developing       | Below Standard  |  |  |
|                 |                                     | (175-200 points)              | (127-174 points) | (81-126 points)  | (50-80 points)  |  |  |
|                 | Exemplary                           | Exemplary                     | Exemplary        | Effective        | Gather Further  |  |  |
| Outcomes Rating | (175-200 points)                    | (175-200 points)              | (175-200 points) | (127-174 points) | Information     |  |  |
|                 | Effective                           | Exemplary                     | Effective        | Effective        | Developing      |  |  |
|                 | (127-174 points)                    | (175-200 points)              | (127-174 points) | (127-174 points) | (81-126 points) |  |  |
|                 | Developing                          | Effective                     | Effective        | Developing       | Developing      |  |  |
|                 | (81-126 points)                     | (127-174 points)              | (127-174 points) | (81-126 points)  | (81-126 points) |  |  |
|                 | Below Standard                      | Gathor Further                | Developing       | Developing       | Below Standard  |  |  |
|                 | (50-80 points)                      | Gather Further<br>Information | (81-126 points)  | (81-126 points)  | (50-80 points)  |  |  |

#### **Data Management System**

ReView Talent Feedback System is the district's web-based performance management software. All forms associated with the Bethany Professional Educator Growth and Evaluation Plan will be accessed electronically by Educators and Evaluators via the district's website under Faculty Resources.

#### III. Orientation to the Educator Evaluation Process

The district will present an overview of the Plan as part of convocation on the first day of the 2017 – 2018 school year. Throughout the school year, some faculty meeting time will be devoted to components of the plan's process and procedures. Annual orientations will occur no later than October 30. Overview of the Plan will be part of each new Educator orientation and ongoing support program offered by the district.

#### **Evaluator Norming/Calibration Training**

Annually, Evaluators will engage in professional learning opportunities, including online options and collaborative sessions that will develop their skills in effective observation, providing meaningful and useful feedback, and engaging in productive professional conversations with Educators. BPSD will regularly provide opportunities for Evaluators to demonstrate calibration and proficiency through professional development.

### IV. Developing and Supporting Educators through Professional Learning

The goal of professional learning opportunities in Bethany is to support reflective practice. In Bethany all Educators must be models of ongoing learning. As a result, Bethany believes that professional learning that improves the learning of all students:

- Organizes adults into professional learning communities whose goals are aligned to school and district strategic plans and provides Educators with the knowledge and skills to collaborate.
- Requires skillful school and district leaders who guide continuous instructional improvement.
- Requires resources such as survey data, evaluation data, etc. to support Educator learning and collaboration.
- Uses disaggregated student data to determine adult learning priorities, monitor progress and help sustain continuous improvement data.
- Prepares Educators to apply research to decision making, uses learning strategies appropriate to the intended goal and applies knowledge about human learning and change.
- Prepares Educators to understand and appreciate all students, create safe, orderly and supportive learning environments, and hold high expectations for their academic achievement.
- Deepens Educators' content knowledge, provides them with research-based instructional strategies to assist students in meeting rigorous academic standards, and prepares them to use various types of classroom assessments appropriately.
- Provides Educators with knowledge and skills to involve families and other stakeholders appropriately.

Prior to the beginning of the 2017-2018 school year, the PDEC will meet to organize a formal plan for professional learning to be instituted for all staff during the 2017 - 2018 school year. Data from the previous year will be considered alongside strategic initiatives to determine the needs for all professionals. Planning will determine the professional learning needs and the corresponding venues for:

- Professional learning for which all staff will participate.
- Sub-group needs and corresponding professional learning.
- Targeted training required to support individuals.

Resources will then be determined to support all three tiers of professional learning in alignment with the 2017 - 2018 BPSD Annual Budget.

#### **Career Development and Professional Growth**

The Bethany Public School District will provide opportunities for Educator career development and professional growth based on the results of the evaluation. Educators with an evaluation of Effective or Exemplary will be able to participate in opportunities to further their professional growth, including attending state and national conferences and other professional learning opportunities.

For Educators rated Exemplary, the following career development and professional growth opportunities would be available: observation of peers; mentoring/coaching to early career Educators or Educators new to Bethany, participating in development of administrator improvement and remediation plans for peers whose performance is developing or below standard; leading professional learning communities for their peers; and, targeted professional development based on areas of need.

#### **Evaluation – Informed Professional Learning**

Bethany Public Schools has established a system upon which its highest performing Educators (those Educators who consistently demonstrate Exemplary Summative Ratings) are provided opportunities for professional learning that replaces the standard protocols for professional learning outlined in the *Bethany Public Schools Professional Educator Growth and Evaluation Plan*. Through their professional growth planning, Educators can control their own professional development after receiving feedback and guidance from their direct Evaluator.

Professional growth options include, but are not limited to the following:

 <u>Peer Coaching</u> – The Peer Coaching option includes the participation of two or more Educators to practice peer support through a collegial approach to the observation and review of learning situations in the classroom. This option requires participation in a training component designed to assist in observation, feedback, and communications techniques.

- <u>Independent Project</u> This option allows for the Educator to enrich his/her knowledge of instructional practices or related areas through an examination of professional literature, participation in professional organizations, participation in action research, attendance at seminars, workshops or related professional activities.
- <u>Portfolio</u> This option allows Educators the opportunity to develop a portfolio that focuses on a portion of one of the following.
  - o Bethany Public Schools Teaching and Learning Framework.
  - o Connecticut's Common Core of Teaching.
  - o Connecticut Common Core State Standards.
- Other Educators are encouraged to creatively explore and design options which improve effectiveness, encourage professional growth and positively impact student learning. Creative options are developed in collaboration with the Evaluator and other district colleagues.

#### V. Effectiveness and Ineffectiveness of Summative Ratings

An effective educator is one who obtains and maintains a final summative rating of three or above. A novice educator shall generally be deemed effective if said educator receives at least two sequential proficient ratings, one of which must be earned in the fourth year of a novice educator's career. An educator receiving a summative rating of one or two will enter the Educator Assistance Process (EAP). Failing to successfully complete the EAP will result in an educator being defined as ineffective according to state guidelines.

#### VI. Educator Assistance Process

BPSD expects that Educators will demonstrate "Effective Practice" or higher. In the event that an Educator establishes a pattern of "Developing" or "Below Standard" Practice, the Educator will receive focused supervision, support and development. The Assistance Plan Process should be collaborative and include the Educator, the Evaluator and other staff directly involved with the support process. The purpose of this Assistance Plan is to provide the Educator with the opportunity and the assistance to improve practice and performance.

A structured Educator Assistance Plan:

- clearly identifies the area(s) of concern;
- clearly expresses the Evaluator's expectations for improved performance;
- outlines a plan for improvement which identifies appropriate resources and helps to assist the Educator to improve practice and performance;
- provides a monitoring system which includes a specific minimum number of observations and conferences;
- provides a reasonable and specific time period in which improvement will be made and a review completed.

#### **Tenured Educators**

- If rated a 1 (Below Standard) at Summative Conference, Tenured Educators will be deemed Ineffective and placed on the Intensive Support Plan for the following school year and
  - if the Tenured Educator has not progressed from the 1 rating after that year they will remain on intensive support for a second year. If at the end of the second year the Educator is still rated a 1 they may be recommended for termination. If they are rated a 2 they have one year to advance to a rating of 3.
  - if that Educator has shown growth to be rated a 3 or 4 at the end of the first year of intensive support they will be moved off the Educator Assistance Plan.
- 2. If rated a 2 at Summative Conference, Tenured Educators will be deemed Ineffective and placed on the Structured Support Plan for the following year and
  - if the Tenured Educator remains at a 2 after the structured support year that Educator will be moved to the Intensive Support Plan for the following year. After the year on intensive support that Educator must show growth to level 3 or 4 or they may be recommended for termination.
  - if the Tenured Educator has shown growth to a rating of 3 or 4 after the structured support year they will be moved off the Educator Assistance Plan.
  - if the Tenured Educator is rated 1 at the end of the structured support year that Educator will be placed on intensive support to demonstrate growth. If growth is less than a level 3 by the end of the year the Educator may be recommended for termination.

#### **Non-Tenured Educators**

- 1. Non-Tenured Educators must meet a rating of 3 or 4 for at least two years (one of those being the year of tenure recommendation) in order to be recommended for tenure.
- 2. Non-Tenured Educators that are rated 2 at Summative Conference will be placed on the Structured Support Plan for the following year.
- 3. Non-Tenured Educators rated a 1 at any time may be placed on the Intensive Support Plan from the district or may be recommended for termination.

- 4. At the end of the period specified in the Assistance Plan the Evaluator will provide the Educator with a formal written assessment, which contains:
  - a record of the support which has been provided;
  - a record of the observations/data and/or conferences conducted held to monitor performance;
  - an assessment of performance in the area(s) of concern or deficiency as of the date of the report;
  - a statement about areas of concern or deficiency that have been resolved.
- 5. If the final Summative Rating is a 1 or 2, a recommendation for further administrative action which, depending upon the seriousness of the concerns or deficiencies shall include, as appropriate, one of the following:
  - an extension of the terms and limits of the Assistance Plan;
  - revision of the Assistance Plan to include other suggestions for improvement and additional help and an extension of the time limits;
  - Educator moves from structured to intensive support; or
  - other administrative actions up to and including recommendation for termination of employment.
- 6. If the final Summative Rating is a 3 or 4 the Educator will be removed from the Assistance Plan.
  - A copy of any written report will be given to the Educator, one will be kept by
    the Evaluator and one will be forwarded to Central Office for inclusion in the
    personnel file. The Educator has the right to review the written report before
    it is filed and may submit written comments to be filed alongside the Form.
    The Educator may have bargaining unit representation at all conferences if
    desired and requested. The Superintendent may assign other Evaluators to
    assist in this process.

#### **Structured Support Plan**

**Purpose**: To provide assistance to an Educator.

Participant: An Educator who has been rated Developing.

#### Process:

- 1. Evaluator and Educator meet to define specific areas for improvement. Reasons are provided in writing on the Assistance Plan referral and Action Plan Forms.
- 2. Educator may select a tenured Peer Educator in good standing to assist with following the plan.

- 3. Evaluator and Educator develop a plan using the Support Action Plan Form which, if followed, will probably lead to improvement in areas identified. The plan must include specific areas of improvement, the support assistance that the school system will provide the level of improvement required and method of assessment. The plan will be reviewed with the Peer Educator, if applicable, and opportunity will be given for input.
- 4. The Educator, Evaluator, and any Peer Educator or requested advocates will have a progress monitoring meeting a minimum of once within sixty days of the initial meeting and a minimum of once within sixty days of the Mid-Year Check-In.
- 5. The Evaluator, Educator and Peer Educator, if applicable, will review progress at the Mid-Year Conference.
- 6. If an Educator successfully completes the Structured Support Plan it will be documented on the Support Plan Summary Form at either the Mid-Year or End-of-Year conference.
- 7. If concerns are not resolved, a participant has the right to appeal their concerns to through the Dispute Resolution Process.
- 8. The Peer Educator may be present at any meetings at the Educator's request.
- 9. Evidence regarding progress on the Assistance Plan will be collected by the Educator and the Evaluator.

The Structured Support plan consists of:

- Three Announced Classroom Observations during the year.
- Three Unannounced Classroom Observations during the year.

#### **Intensive Support Plan**

**Purpose**: To provide intensive assistance and support to an Educator.

**Participant**: An Educator who has been rated Ineffective.

#### Process:

- 1. Evaluator and Educator meet to define specific areas for improvement within the same timeframe as the initial Goal Setting Conference for all Educators. Reasons are provided in writing on the Referral and Action Plan Forms.
- 2. The Educator and Evaluator will select a tenured Peer Educator in good standing (rated 3 or 4) to assist with following the plan.
- 3. Evaluator and Peer Educator develop an Assistance Plan which, if followed, will probably lead to improvement in areas identified. The plan must include specific areas of improvement, the support assistance that the school system will provide the level of improvement required and method of assessment. The plan will be reviewed with the Peer Educator and opportunity will be given for input by the Peer Educator.
- 4. The Educator, Evaluator, Peer Educator and any requested advocates per the plan will meet every thirty days for ongoing progress monitoring of the support plans effectiveness.

- 5. The Evaluator, Educator and Peer Educator will review progress at the Mid-Year Conference.
- 6. If an Educator successfully completes the Intensive Assistance Plan it will be documented on the Support Plan Summary Form at the End-of-Year Conference.
- 7. If concerns are not resolved, a participant has the right to appeal their concerns through the Dispute Resolution Process.
- 8. The selected Peer Educator should be present at all meetings with the Educator and Evaluator.
- 9. Evidence regarding progress on the plan will be collected by the Educator and the Evaluator.

The Intensive Support Plan consists of a minimum of:

- Three Announced Classroom Observations during the year.
- Three Unannounced Classroom Observations during the year.

The Educator on intensive review may also request a third-party validator to observe and review evidence. The Educator shall be given release time with their Peer Educator to plan and implement strategies for improvement. The Educator shall be provided targeted professional development in accordance with the plan. The identified Peer Educator shall be present during all meetings with the Evaluator. An Educator may appeal for a change in a Peer Educator if a conflict arises.

#### **Dispute Resolution Process**

It is hoped that conflicts can be avoided through thoughtful planning, open communication and calibrated training. On occasion, however, conflicts may arise. In that event, the right of appeal is inherent in the evaluation process and is available to every participant at any point in the process. The appeal procedure is designed to facilitate the resolution of disputes generated by the evaluation process, such as where an Evaluator and Educator cannot agree on objectives/goals, the evaluation period, feedback on performance and practice, or final Summative Rating. The success of the Educator evaluation process is based upon cooperation and mutual respect of both the Educator and Evaluator. Resolutions must be topic specific and timely.

Starting in the 2017 - 2018 school year, a panel composed of the Superintendent, teacher union president and a neutral third party shall resolve disputes where the Evaluator and Educator cannot agree on objectives/goals, the evaluation period, feedback on performance and practice, or final Summative Rating. The district may choose alternatives such as a district panel of equal management and union members, the district professional development committee, or a pre-approved outside expert so long as the Superintendent and teacher union president agree to such alternative at the start of the school year. Should the process established not result in resolution of a given issue, the determination regarding that issue will be made by the Superintendent.

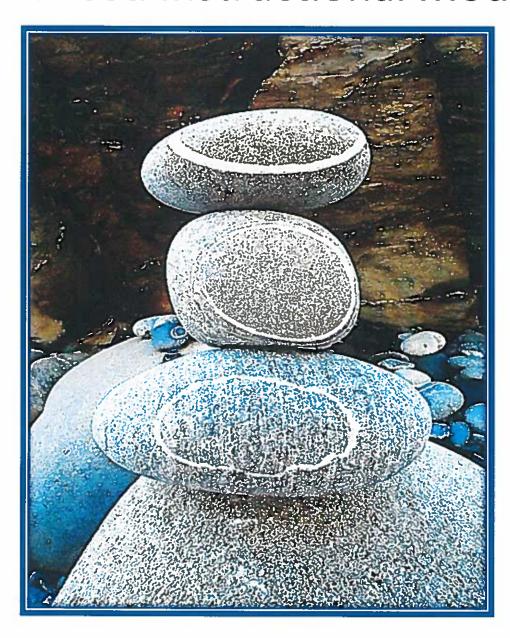

## VII. Appendix

# **APPENDIX A**

Bethany Public School District
Professional Educator Growth and Evaluation Plan

# **Bethany Community School**

# **Balanced Instructional Model**

## Goal

To develop a comprehensive instructional model, implemented schoolwide, to improve teaching and learning across all content areas. The model focuses on intentional planning, effective instruction, active student engagement, best practices, and thoughtful reflections resulting in improved student achievement.

## **Purpose**

This instructional model combines best teaching practices using a workshop approach. It offers structure and consistency schoolwide, which helps with planning, lesson delivery, management, and instructional decision-making for successful outcomes.

A balanced approach is supported by and tightly aligned to the Connecticut Common Core Standards (CCCS), Common Core of Teaching (CCT), Bethany Public School District Curriculum, and both formative and summative assessments.

## **Routines and Procedures**

Establishing routines and procedures for managing independent reading and writing are critical for success. Routines and procedures should be modeled during a mini lesson, practiced by students during independent reading/writing time, and revisited throughout the school year. Anchor charts displayed throughout the classroom will support routines and procedures to help maintain a productive and balanced literacy block.

## Components

#### **Learning Target**

- Creates a purpose and interest for students to learn something new
- Informs students about what they will learn
- Explains how students will be expected to demonstrate understanding
- Expressed in student-friendly language (I Can statements)

### Whole Group Explicit Instruction

Reading - During whole group explicit reading instruction, the teacher chooses either an <u>interactive read aloud</u>, <u>shared reading</u>, <u>OR</u> a <u>reading mini-lesson</u> presented in the "gathering area."

Writing - During whole group explicit writing instruction, the teacher chooses either an investigative model writing, shared writing, OR a writing mini-lesson presented in the "gathering area."

#### Interactive Read Aloud

- Limited to 10-15 minutes
- The teacher reads aloud in order to model and demonstrate the orchestration of strategies that characterize proficient reading
- Employ close reading strategies and questioning techniques to study and understand text
- Develops vocabulary and understanding of story structure
- Students receive instruction to help them talk about books (Accountable Talk) either with the group or with a partner (Turn and Talk)
- Includes books with a range of levels, genres, and authors

## **Investigative Model Writing**

- Limited to 10-15 minutes
- The teacher shares model writing pieces (mentor texts, student writing samples, anchor sets) in order to model and demonstrate the characteristics of proficient writing
- Employs close reading strategies to discuss techniques used by the writer
- Develops an understanding of the structure and craft of writing
- Students receive instruction to help them talk about writing (Accountable Talk) either with the group or with a partner (Turn and Talk)
- Includes pieces with a range of levels, genres, and authors

### Shared Reading/Writing

- Limited to 10-15 minutes
- An opportunity for the teacher to read the same text with students (all eyes on a shared text)
- Teacher facilitates the composition of a common writing piece based on a shared experience of the class (book review, class trip, current topic of study)
- Students actively participate in discussion and process
- Effective for the demonstration of a particular skill/strategy (concepts of print, word solving strategies, fluency, extracting sources of information, word choice, sentence structure, and organization)
- Shared reading/writing texts are revisited over a few days or during independent reading/writing time with each day exploring a different focus

#### Mini Lesson

- A short (10 15 minute) lesson that focuses on a specific skill, strategy or procedure
- Connect with what was learned in previous lesson "Yesterday, we \_\_\_\_\_. Today we will learn \_\_\_\_ because \_\_\_."
- The learning target (what we want the students to learn) is clearly communicated and posted—refer to the "I Can" Statements
- Create Anchor Charts that can be referred to often by students to foster independence and self-regulation
- Gradual release of responsibility model:

1DO -Teacher models skill, strategy, or procedure - "Watch what I do..."; "Notice..."

<u>WE DO</u> - Students practice the learning target (skill, strategy, or procedure) with teacher support - Teacher clarifies misunderstandings or reinforces what is done correctly "I like the way that..." or "I noticed that you..."

YOU DO IT TOGETHER -Students have 1 - 2 mins to turn and share their thinking about the learning target with their partners

<u>YOU DO IT ALONE</u> - During independent work time, students apply and practice the skill, strategy, or procedure independently - "Now, it's time for you to try..."

### Independent Practice and Small Group Instruction

This is the longest part of the instructional model. The purpose is to practice a skill or strategy aligned to the learning target. During Independent Work, the teacher confers individually, takes small groups based on similar needs, and assesses student learning. These groups may consist of differentiated guided reading, guided writing, and strategy groups. They offer opportunities for repeated practice and progress monitoring. Teachers coach students through challenges and provide enrichment.

### Independent Reading/Writing

Typically, independent reading/writing time is 20 – 40 minutes and the goal is to build stamina.

Classroom
management is
essential and
has to be
established for
successful
student
experiences.

#### Students

- Can read/write independently, work collaboratively in small groups (book clubs, partner work, peer conferencing etc.), or work on a project that focuses on the concept
- Select appropriate text, genre, level with teacher guidance
- Complete journal entries and/or written responses as assigned by teacher

#### Teacher

- Confer learn about what strategies the student is currently using and determine what is still needed. Choose a compliment that reinforces a strength and decide on the "next step". Support the student in practicing it. Remind your student of your expectations on this "next step" as he/she continues to work
- Assess to determine next instructional step(s)
- Differentiate through small group instruction

## **Small Group Instruction**

## **Guided Reading/Writing Groups**

- Approximately 15 minutes but no more than 20 minutes of explicit instruction for each group
- Generally a homogeneous group, reading/writing on the same level of difficulty and are flexible by nature
- Teacher chooses text/piece that is at the students' instructional level
- Teacher gives a quick introduction of the text and presents a strategic skill or strategy learning target that she/he wants the children to remember to use
- Teacher observes students reading/writing and coaches them and provides targeted feedback
- Students instructed to practice the skill/strategy when they return to desks

## Skill/Strategy Lesson

- Approximately 10 minutes
- During a skill/strategy lesson, the teacher pulls a small group who need similar coaching or support
- The students may or may not be reading on the same level
- Learning target is communicated
- Gradual release of responsibility model teacher models and students practice with support

#### Closure

- 5 10 minutes
- Time is used to share ways in which students incorporated the day's learning target into their work or students can summarize what they learned
- Teacher might retell a conference or ask a student to share their work
- Provide a nugget to think about for next class
- Assign homework (if applicable)

## **Word Work**

- A 15 20 minute mini lesson that focuses on topics such as phonics, grammar, spelling, roots and prefixes, word analysis, and vocabulary development
- Lesson targets come from student writing samples or <u>Fundations</u> scope and sequence
- The goal is for students to transfer skills into their reading and writing
- Practice is provided during independent time either alone or within a group as part of a center activity

## Introduction

# Introduction to The CCT Rubric for Effective Teaching 2014

The Connecticut Common Core of Teaching (CCT) - Foundational Skills (1999), revised and adopted by the State Board of Education in February 2010, establishes a vision for teaching and learning in Connecticut Public Schools. State law and regulations link the CCT to various professional requirements that span a teacher's career, including preparation, induction and teacher evaluation and support. These teaching standards identify the foundational skills and competencies that pertain to all teachers, regardless of the subject matter, field or age group they teach. The standards articulate the knowledge, skills and qualities that Connecticut teachers need to prepare students to meet 21st-century challenges to succeed in college, career and life. The philosophy behind the CCT is that teaching requires more than simply demonstrating a certain set of technical skills. These competencies have long been established as the standards expected of all Connecticut teachers.

## **Training and Proficiency**

Accurate and reliable evaluation of the competencies and indicators outlined with the *CCT Rubric for Effective Teaching 2014* can only be achieved through careful, rigorous training and demonstrated proficiency that build on the experience base and professional judgment of the educators who use this instrument. The *CCT Rubric for Effective Teaching 2014* should never be used without the grounding provided by experience and training. As part of the CSDE-sponsored training, evaluators will be provided sample performances and artifacts, as well as decision rules to guide their ratings. The *CCT Rubric for Effective Teaching 2014* is not a checklist with predetermined points. Rather, it is a tool that is combined with training to ensure consistency and reliability of the collection of evidence and the evaluative decisions. The *CCT Rubric for Effective Teaching 2014* represents the criteria in which evaluators will be trained to describe the level of performance observed.

## **Calibration**

To ensure consistent and fair evaluations across different observers, settings and teachers, observers need to regularly calibrate their judgments against those of their colleagues. Engaging in ongoing calibration activities conducted around a common understanding of good teaching will help to establish inter-rater reliability and ensure fair and consistent evaluations. Calibration activities offer the opportunity to participate in rich discussion and reflection through which to deepen understanding of the CCT Rubric for Effective Teaching 2014 and ensure that the observers can accurately measure educator practice against the indicators within the classroom observation tool.

## Introduction

### **Observation Process**

The CCT Rubric for Effective Teaching 2014 will be used by trained and proficient evaluators to observe a teacher. Each teacher shall be observed at a minimum as stated in the Connecticut Guidelines for Educator Evaluation. In order to capture an authentic view of practice and to promote a culture of openness and comfort with frequent observations and feedback, it is recommended that evaluators use a combination of announced and unannounced observations. All observations should be followed by feedback, either verbal (e.g., a post conference, comments about professional meetings/presentations, etc.) or written (e.g., via email, comprehensive write-up, etc.) or both, within days of an observation. Specific, actionable feedback is also used to identify teacher development needs and tailor support to those needs. Further guidance on the observation protocol is provided in the Connecticut Guidelines for Educator Evaluation or in the System for Educator Evaluation and Development (SEED) state model http://www.connecticutseed.org

Evidence can be gathered from formal in-class observations, informal classroom observations or non-classroom observations/review of practice. Although the Guidelines for Educator Evaluation do not specifically define these types of observations and districts may define them as part of their district evaluation and support plans, the state model SEED provides the following definitions:

Formal In-Class Observations: last at least 30 minutes and are followed by a post-observation conference, which includes timely written and verbal feedback.

Informal In-class Observations: last at least 10 minutes and are followed by written and/or verbal feedback.

Non-classroom Observations/Reviews of Practice: include but are not limited to: observation of data team meetings, observations of coaching/ mentoring other teachers, review of lesson plans or other teaching artifacts.

The following protocol may be used for conducting a formal in-class observation that requires a pre- and post-conference:

A. Pre-Conference:

Before the observation, the evaluator will review planning documentation and other relevant and supporting artifacts provided by the teacher in order to understand the context for instruction. including but not limited to: the learning objectives, curricular standards alignment, differentiation of instruction for particular students, assessments used before or during instruction, resources and materials.

B. Observation:

Observers will collect evidence mostly for Domains 1 and 3 during the in-class observation.

C. Post-Conference:

The post-observation conference gives the teacher the opportunity to reflect on and discuss the less on/ practice observed, progress of students, adjustments made during the lesson, further supporting artifacts as well as describe the impact on future instruction and student learning.

D. Analysis:

The evaluator analyzes the evidence gathered in the observation and the pre- and post-conferences and identifies the applicable performance descriptors contained in the CCT Rubric for Effective Teaching 2014.

E. Ratings/Feedback: Based on the training guidelines for the CCT Rubric for Effective Teaching 2014, the evaluator will tag evidence to the appropriate indicator within the domains and provide feedback to the teacher. While it is **not** a requirement for any single observation, evaluators may rate the indicators.

# Comparison of the CT Common Core of Teaching and the CCT Rubric for Effective Teaching 2014

The *Common Core of Teaching (CCT) Rubric for Effective Teaching 2014* is completely aligned with the CCT. The *CCT Rubric for Effective Teaching 2014* will be used to evaluate a teacher's performance and practice, which accounts for 40 percent of a teacher's annual summative rating, as required in the Connecticut Guidelines for Educator Evaluation and the state model, the System for Educator Evaluation and Development (SEED).

Because teaching is a complex, integrated activity, the domain indicators from the original CCT have been consolidated and reorganized in this rubric for the purpose of describing essential and critical aspects of a teacher's practice. For the purpose of the rubric, the domains have also been renumbered. **The four domains and 12 indicators** (three per domain) identify the essential aspects of a teacher's performance and practice:

| CT Common Core of Teaching Standards |   | CCT Rubrio | for Effective Teaching 2014   | Generally<br>Observed                                 |
|--------------------------------------|---|------------|---|---|
| Domain 1                             | Content and Essential Skills which includes <i>The Common Core State</i> Standards <sup>1</sup> and Connecticut Content Standards |            | Demonstrated at the pre-service level as a pre-requisite to certification and embedded within the rubric. |   |
| Domain 2                             | Classroom Environment, Student Engagement and Commitment to Learning  | Domain 1   | Classroom Environment, Student Engagement and Commitment to Learning                                      | In-Class<br>Observations                              |
| Domain 3                             | Planning for Active Learning  | Domain 2   | Planning for Active Learning  | Non-classroom<br>observations/<br>reviews of practice |
| Domain 4                             | Instruction for Active Learning   | Domain 3   | Instruction for Active Learning   | In-Class<br>Observations                              |
| Domain 5                             | Assessment for Learning   |            | Now integrated throughout the other domains   |   |
| Domain 6                             | Professional Responsibilities and Teacher Leadership  | Domain 4   | Professional Responsibilities and<br>Teacher Leadership   | Non-classroom<br>observations/<br>reviews of practice |

1 Text in RED throughout the document reflects Common Core State Standards

Connecticut State Department Of Education

HOTLINE 860-713-6868

# **CCT Rubric for Effective Teaching 2014 – AT A GLANCE**

# Evidence Generally Collected Through In-Class Observations

# **Domain** Classroom Environment, Student Engagement and Commitment to Learning<sup>2</sup>

Teachers promote student engagement, independence and interdependence in learning and facilitate a positive learning community by:

- **1a.** Creating a positive learning environment that is responsive to and respectful of the learning needs of all students.
- **1b.** Promoting developmentally appropriate standards of behavior that support a productive learning environment for all students.
- **1c.** Maximizing instructional time by effectively managing routines and transitions.

#### **Domain** Instruction for Active Learning

- Teachers implement instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:
- **3a.** Implementing instructional content for learning.
- **3b.** Leading students to construct meaning and apply new learning through the use of a variety of differentiated and evidence-based learning strategies.
- **3c.** Assessing student learning, providing feedback to students and adjusting instruction.

# Evidence Generally Collected Through Non-Classroom/Reviews of Practice

#### **Domain Planning for Active Learning**

- Teachers plan instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:
- **2a.** Planning of instructional content that is aligned with standards, builds on students' prior knowledge and provides for appropriate level of challenge for all students.
- **2b.** Planning instruction to cognitively engage students in the content.
- **2c.** Selecting appropriate assessment strategies to monitor student progress.

# Domain Professional Responsibilities and Teacher Leadership

Teachers maximize support for student learning by developing and demonstrating professionalism, collaboration and leadership by:

- **4a.** Engaging in continuous professional learning to impact instruction and student learning.
- **4b.** Collaborating to develop and sustain a professional learning environment to support student learning.
- **4c.** Working with colleagues, students and families to develop and sustain a positive school climate that supports student learning.

# 1: Classroom Environment, Student Engagement and Commitment to Learning

Teachers promote **student engagement, independence** and **interdependence** in learning and facilitate a positive learning community by:

Indicator 1a | Creating a positive learning environment that is responsive to and respectful of the learning needs of all students.<sup>2</sup>

|  | <b>Below Standard</b>   | Developing  | Proficient   | Exemplary  |
|--|---|---|--|--|
| Attributes   |   |   |  | In addition to the characteristics of <b>Proficient</b> , including one or more of the following:  |
| Rapport and positive social interactions           | Interactions between teacher and students are negative or disrespectful and/or the teacher does not promote positive social interactions among students.                                | Interactions between teacher and students are generally positive and respectful and/ or the teacher inconsistently makes attempts to promote positive social interactions among students. | Interactions between teacher and students are consistently positive and respectful and the teacher regularly promotes positive social interactions among students. | There is no disrespectful behavior between students and/or when necessary, students appropriately correct one another.                                     |
| Respect for student diversity <sup>3</sup>         | Does not establish a learning environment that is respectful of students' cultural, social and/or developmental differences and/or the teacher does not address disrespectful behavior. | Establishes a learning environment that is inconsistently respectful of students' cultural, social and/ or developmental differences.   | Maintains a learning environment that is consistently respectful of all students' cultural, social and/ or developmental differences.                              | Acknowledges and incorporates students' cultural, social and developmental diversity to enrich learning opportunities.                                     |
| Environment supportive of intellectual risk-taking | Creates a learning environment that discourages students from taking intellectual risks.  | Creates a learning environment in which some students are willing to take intellectual risks.   | Creates a learning environment in which most students are willing to take intellectual risks.  | Students are willing to take intellectual risks and are encouraged to respectfully question or challenge ideas presented by the teacher or other students. |
| High expectations for student learning             | Establishes low expectations for student learning.  | Establishes expectations for learning for some, but not all students; <b>OR</b> is inconsistent in communicating high expectations for student learning.                                  | Establishes and consistently reinforces high expectations for learning for all students.   | Creates opportunities for students to set high goals and take responsibility for their own learning.   |

<sup>&</sup>lt;sup>2</sup> Learning needs of all students: Includes understanding typical and atypical growth and development of PK-12 students, including characteristics and performance of students with disabilities, gifted/talented students, and English language learners. Teachers take into account the impact of race, ethnicity, culture, language, socioeconomics and environment on the learning needs of students.

<sup>4</sup> **Student diversity:** Recognizing individual differences including, but not limited to race, ethnicity, gender, sexual orientation, socioeconomic status, age, physical abilities, intellectual abilities, religious beliefs, political beliefs, or other ideologies.

HOTLINE 860-713-6868

# 1: Classroom Environment, Student Engagement and Commitment to Learning

Teachers promote **student engagement, independence** and **interdependence** in learning and facilitate a positive learning community by:

Indicator 1b

Promoting developmentally appropriate standards of behavior that support a productive learning environment for all students.

|  | <b>Below Standard</b>   | Developing  | Proficient  | Exemplary   |
|--|---|---|---|---|
| Attributes   |   |   |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:  |
| Communicating, reinforcing and maintaining appropriate standards of behavior | Demonstrates little or no evidence that standards of behavior have been established; and/or minimally enforces expectations (e.g., rules and consequences) resulting in interference with student learning. | Establishes standards of behavior but inconsistently enforces expectations resulting in some interference with student learning.  | Establishes high standards of behavior, which are consistently reinforced resulting in little or no interference with student learning.   | Student behavior is completely appropriate.  OR  Teacher seamlessly responds to misbehavior without any loss of instructional time.   |
| Promoting social competence <sup>4</sup> and responsible behavior            | Provides little to no instruction and/or opportunities for students to develop social skills and responsible behavior.  | Inconsistently teaches, models, and/or reinforces social skills; does not routinely provide students with opportunities to self-regulate and take responsibility for their actions. | When necessary, explicitly teaches, models, and/or positively reinforces social skills; routinely builds students' capacity to self-regulate and take responsibility for their actions. | Students take an active role in maintaining high standards of behaviors.  OR  Students are encouraged to independently use proactive strategies <sup>5</sup> and social skills and take responsibility for their actions. |

<sup>5</sup> Proactive strategies: Include self-regulation strategies, problem-solving strategies, conflict-resolution processes, interpersonal communication and responsible decision-making.

Connecticut State Department Of Education

HOTLINE 860 - 713 - 6868

<sup>4</sup> **Social competence:** Exhibiting self-awareness, self-management, social awareness and social skills at appropriate times and with sufficient frequency to be effective in the situation (Boyatzis, Goleman, & Rhee, 2000).

# 1: Classroom Environment, Student Engagement and Commitment to Learning

Teachers promote student engagement, independence and interdependence in learning and facilitate a positive learning community by:

Indicator 1c Maximizing instructional time by effectively managing routines and transitions.

|   | <b>Below Standard</b>  | Developing   | Proficient  | Exemplary   |
|---|--|--|---|---|
| Attributes  |  |  |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:                    |
| Routines and transitions appropriate to needs of students | Does not establish or ineffectively establishes routines and transitions, resulting in significant loss of instructional time. | Inconsistently establishes routines and transitions, resulting in some loss of instructional time. | Establishes routines and transitions resulting in maximized instructional time. | Teacher encourages and/or provides opportunities for students to independently facilitate routines and transitions. |

<sup>6</sup> Routines and transitions: Routines are non-instructional organizational activities such as taking attendance or distributing materials in preparation for instruction. Transitions are non-instructional activities such as moving from one classroom activity, grouping, task or context to another.

## 2: Planning for Active Learning

Teachers plan instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:

Indicator  ${f 2a}$ 

Planning of instructional content that is aligned with standards, builds on students' prior knowledge and provides for appropriate level of challenge<sup>7</sup> for all students.

|  | <b>Below Standard</b>   | Developing   | Proficient  | Exemplary   |
|--|---|--|---|---|
| Attributes   |   |  |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:                                    |
| Content of lesson plan <sup>8</sup> is aligned with standards  | Plans content that is misaligned with or does not address the Common Core State Standards and/or other appropriate Connecticut content standards. <sup>9</sup>    | Plans content that partially addresses Common Core State Standards and/or other appropriate Connecticut content standards.                             | Plans content that directly addresses Common Core State Standards and/or other appropriate Connecticut content standards.   | Plans for anticipation of misconceptions, ambiguities or challenges and considers multiple ways of how to address these in advance. |
| Content of lesson appropriate to sequence of lessons and appropriate level of challenge                  | Does not appropriately sequence content of the lesson plan.   | Partially aligns content of<br>the lesson plan within the<br>sequence of lessons; and<br>inconsistently supports an<br>appropriate level of challenge. | Aligns content of the lesson plan within the sequence of lessons; and supports an appropriate level of challenge.   | Plans to challenges students to extend their learning to make interdisciplinary connections.  |
| Use of data to determine students' prior knowledge and differentiation based on students' learning needs | Uses general curriculum goals to plan common instruction and learning tasks without consideration of data, students' prior knowledge or different learning needs. | Uses appropriate, whole class data to plan instruction with limited attention to prior knowledge and/or skills of individual students.                 | Uses multiple sources of appropriate data to determine individual students' prior knowledge and skills to plan targeted, purposeful instruction that advances the learning of students. | Plans for students to identify their own learning needs based on their own individual data.   |
| Literacy strategies <sup>10</sup>  | Plans instruction that includes<br>few opportunities for students<br>to develop literacy skills or<br>academic vocabulary.  | Plans instruction that includes some opportunities for students to develop literacy skills or academic vocabulary in isolation.                        | Plans instruction that integrates literacy strategies and academic vocabulary.  | Designs opportunities to allow students to independently select literacy strategies that support their learning for the task.       |

#### Text in RED reflects Common Core State Standards connections.

<sup>7</sup> Level of challenge: The range of challenge in which a learner can progress because the task is neither too hard nor too easy. Bloom's Taxonomy - provides a way to organize thinking skills into six levels, from the most basic to the more complex levels of thinking to facilitate complex reasoning. Webb's Depth of Knowledge (DOK) a scale of cognitive demand identified as four distinct levels (1.basic recall of facts, concepts, information, or procedures; 2. skills and concepts such as the use of information (graphs) or requires two or more steps with decision points along the way; 3. strategic thinking that requires reasoning and is abstract and complex; and 4. extended thinking such as an investigation or application to real work). Hess's Cognitive Rigor Matrix - aligns Bloom's Taxonomy levels and Webb's Depth-of-Knowledge levels.

<sup>8</sup> **Lesson plan:** a purposeful planned learning experience.

<sup>&</sup>lt;sup>9</sup> Connecticut content standards: Standards developed for all content areas including Early Learning and Development Standards (ELDS) for early childhood educators.

<sup>10</sup> Literacy strategies: Literacy is the ability to convey meaning and understand meaning in a variety of text forms (e.g., print, media, music, art, movement). Literacy strategies include communicating through language (reading/writing, listening/speaking); using the academic vocabulary of the discipline; interpreting meaning within the discipline; and communicating through the discipline. Research shows that teacher integration of effective discipline-specific literacy strategies results in improved student learning.

# 2: Planning for Active Learning

Teachers plan instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:

Indicator 2b | Planning instruction to cognitively engage students in the content.

|  | <b>Below Standard</b>  | Developing   | Proficient  | Exemplary  |
|--|--|--|---|--|
| Attributes   |  |  |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:                         |
| Strategies, tasks and questions cognitively engage students  | Plans instructional tasks<br>that limit opportunities for<br>students' cognitive<br>engagement.                | Plans primarily teacher-<br>directed instructional<br>strategies, tasks and<br>questions that provide some<br>opportunities for students'<br>cognitive engagement. | Plans instructional strategies, tasks and questions that promote student cognitive engagement through problem-solving, critical or creative thinking, discourse <sup>11</sup> or inquiry-based learning <sup>12</sup> and / or application to other situations. | Plans to release responsibility to the students to apply and/ or extend learning beyond the learning expectation.        |
| Instructional resources <sup>13</sup> and flexible groupings <sup>14</sup> support cognitive engagement and new learning | Selects or designs resources and/or groupings that do not cognitively engage students or support new learning. | Selects or designs resources and/or groupings that minimally engage students cognitively and minimally support new learning.                                       | Selects or designs resources and/or flexible groupings that cognitively engage students in real world, global and/or career connections that support new learning.  | Selects or designs resources for interdisciplinary connections that cognitively engage students and extend new learning. |

#### Text in RED reflects Common Core State Standards connections.

- 11 Discourse: Is defined as the purposeful interaction between teachers and students and students and students, in which ideas and multiple perspectives are represented, communicated and challenged, with the goal of creating greater meaning or understanding. Discourse can be oral dialogue (conversation), written dialogue (reaction, thoughts, feedback), visual dialogue (charts, graphs, paintings or images that represent student and teacher thinking/reasoning): or dialogue through technological or digital resources.
- 12 *Inquiry-based learning*: Occurs when students generate knowledge and meaning from their experiences and work collectively or individually to study a problem or answer a question. Work is often structured around projects that require students to engage in the solution of a particular community-based, school-based or regional or global problem which has relevance to their world. The teacher's role in inquiry-based learning is one of facilitator or resource rather than dispenser of knowledge.
- 13 *Instructional resources:* Includes, but are not limited to available: textbooks, books, supplementary reading and information resources, periodicals, newspapers, charts, programs, online and electronic resources and subscription databases, e-books, computer software, kits, games, transparencies, pictures, posters, art prints, study prints, sculptures, models, maps, globes, motion pictures, audio and video recordings, DVDs, software, streaming media, multimedia, dramatic productions, performances, concerts, written and performed music, bibliographies and lists of references issued by professional personnel, speakers (human resources) and all other instructional resources needed for educational purposes.
- 14 Flexible groupings: Groupings of students that are changeable based on the purpose of the instructional activity and on changes in the instructional needs of individual students over time.

Connecticut State Department Of Education

HOTLINE 860-713-6868

## 2: Planning for Active Learning

Teachers plan instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:

Indicator 2C Selecting appropriate assessment strategies<sup>15</sup> to monitor student progress.

|  | <b>Below Standard</b>   | Developing  | Proficient   | Exemplary   |
|--|---|---|--|---|
| Attributes                             |   |   |  | In addition to the characteristics of <b>Proficient</b> , including one or more of the following:                     |
| Criteria for student success           | Does not plan criteria for student success; and/or does not plan opportunities for students to self-assess. | Plans general criteria for student success; and/or plans some opportunities for students to self-assess.  | Plans specific criteria for student success; and plans opportunities for students to self-assess using the criteria.                                     | Plans to include students in developing criteria for monitoring their own success.                                    |
| Ongoing assessment of student learning | Plans assessment strategies that are limited or not aligned to intended instructional outcomes.             | Plans assessment strategies that are partially aligned to intended instructional outcomes <b>OR</b> strategies that elicit only minimal evidence of student learning. | Plans assessment strategies to elicit specific evidence of student learning of intended instructional outcomes at critical points throughout the lesson. | Plans strategies to engage students in using assessment criteria to self-monitor and reflect upon their own progress. |

- 1. **Formative assessment** is a part of the instructional process, used by teachers and students during instruction that provides feedback to adjust ongoing teaching and learning to improve students' achievement of intended instructional outcomes (FAST SCASS, October 2006).
- 2. **Summative assessments** are used to evaluate student learning at the end of an instructional period. Summative assessment helps determine to what extent the instructional and learning goals have been met.

Connecticut State Department Of Education

<sup>15</sup> **Assessment strategies** are used to evaluate student learning during and after instruction.

## 3: Instruction for Active Learning

Teachers implement instruction to **engage students in rigorous and relevant learning** and to **promote their curiosity about the world at large** by:

Indicator 3a | Implementing instructional content<sup>16</sup> for learning.

|  | Below Standard   | Developing   | Proficient  | Exemplary   |
|--|--|--|---|---|
| Attributes                                 |  |  |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:                            |
| Instructional purpose                      | Does not clearly communicate learning expectations to students.  | Communicates learning expectations to students and sets a general purpose for instruction, which may require further clarification.                | Clearly communicates learning expectations to students and sets a specific purpose for instruction and helps students to see how the learning is aligned with Common Core State Standards and/or other appropriate Connecticut content standards. | Students are encouraged to explain how the learning is situated within the broader learning context/curriculum.             |
| Content accuracy                           | Makes multiple content errors.   | Makes minor content errors.  | Makes no content errors.  | Invites students to explain the content to their classmates.  |
| Content progression and level of challenge | Presents instructional content that lacks a logical progression; and/or level of challenge is at an inappropriate level to advance student learning. | Presents instructional content in a generally logical progression and/or at a somewhat appropriate level of challenge to advance student learning. | Clearly presents instructional content in a logical and purposeful progression and at an appropriate level of challenge to advance learning of all students.  | Challenges students to extend<br>their learning beyond the<br>lesson expectations and make<br>cross-curricular connections. |
| Literacy strategies <sup>17</sup>          | Presents instruction with few opportunities for students to develop literacy skills and/or academic vocabulary.                                      | Presents instruction with some opportunities for students to develop literacy skills and/or academic vocabulary.                                   | Presents instruction that consistently integrates multiple literacy strategies and explicit instruction in academic vocabulary.   | Provides opportunities for students to independently select literacy strategies that support their learning.                |

#### Text in RED reflects Common Core State Standards connections.

- 16 **Content:** Discipline-specific knowledge, skills and deep understandings as described by relevant state and national professional standards.
- 17 *Literacy strategies:* To convey meaning and understand meaning in a variety of text forms (e.g., print, media, music, art, movement). Literacy strategies include communicating through language (reading/writing, listening/speaking); using the academic vocabulary of the discipline; interpreting meaning within the discipline; and communicating through the discipline. Research shows that teacher integration of effective discipline-specific literacy strategies results in student learning.

## 3: Instruction for Active Learning

Teachers implement instruction to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:

Indicator 3b

Leading students to construct meaning and apply new learning through the use of a variety of differentiated and evidence-based learning strategies.

|  | <b>Below Standard</b>  | Developing  | Proficient  | Exemplary  |
|--|--|---|---|--|
| Attributes   |  |   |   | In addition to the characteristics of <b>Proficient</b> , including one or more of the following:  |
| Strategies, tasks and questions                              | Includes tasks that do not lead students to construct new and meaningful learning and that focus primarily on low cognitive demand or recall of information. | Includes a combination of tasks and questions in an attempt to lead students to construct new learning, but are of low cognitive demand and/or recall of information with some opportunities for problem-solving, critical thinking and/or purposeful discourse or inquiry. | Employs differentiated strategies, tasks and questions that cognitively engage students in constructing new and meaningful learning through appropriately integrated recall, problemsolving, critical and creative thinking, purposeful discourse and/or inquiry. At times, students take the lead and develop their own questions and problemsolving strategies. | Includes opportunities for students to work collaboratively to generate their own questions and problem-solving strategies, synthesize and communicate information.                              |
| Instructional resources <sup>18</sup> and flexible groupings | Uses resources and/or groupings that do not cognitively engage students or support new learning.   | Uses resources and/or groupings that minimally engage students cognitively and support new learning.  | Uses resources and flexible groupings that cognitively engage students in demonstrating new learning in multiple ways, including application of new learning to make interdisciplinary, real world, career or global connections.   | Promotes student owner-<br>ship, self-direction and choice<br>of resources and/or flexible<br>groupings to develop their<br>learning.  |
| Student responsibility and independence                      | Implements instruction that is primarily teacher-directed, providing little or no opportunities for students to develop independence as learners.            | Implements instruction that is mostly teacher directed, but provides some opportunities for students to develop independence as learners and share responsibility for the learning process.   | Implements instruction that provides multiple opportunities for students to develop independence as learners and share responsibility for the learning process.   | Implements instruction that supports and challenges students to identify various ways to approach learning tasks that will be effective for them as individuals and will result in quality work. |

#### Text in RED reflects Common Core State Standards connections.

18 *Instructional resources:* Includes, but are not limited to textbooks, books, supplementary reading and information resources, periodicals, newspapers, charts, programs, online and electronic resources and subscription databases, e-books, computer software, kits, games, transparencies, pictures, posters, art prints, study prints, sculptures, models, maps, globes, motion pictures, audio and video recordings, DVDs, software, streaming media, multimedia, dramatic productions, performances, concerts, written and performed music, bibliographies and lists of references issued by professional personnel, speakers (human resources) and all other instructional resources needed for educational purposes.

# 3: Instruction for Active Learning

Teachers implement instruction to **engage students in rigorous and relevant learning** and to **promote their curiosity about the world at large by:**Indicator 3C | Assessing student learning, providing feedback to students and adjusting instruction.

|  | <b>Below Standard</b>  | Developing  | Proficient   | Exemplary  |
|--|--|---|--|--|
| Attributes                                 |  |   |  | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:                         |
| Criteria for student success               | Does not communicate criteria for success and/or opportunities for students to self-assess are rare.   | Communicates general criteria for success and provides limited opportunities for students to self-assess.               | Communicates specific criteria for success and provides multiple opportunities for students to self-assess.  | Integrates student input in generating specific criteria for assignments.  |
| Ongoing assessment of student learning     | Assesses student learning with focus limited to task completion and/or compliance rather than student achievement of lesson purpose/objective. | Assesses student learning with focus on whole-class progress toward achievement of the intended instructional outcomes. | Assesses student learning with focus on eliciting evidence of learning at critical points in the lesson in order to monitor individual and group progress toward achievement of the intended instructional outcomes. | Promotes students' independent monitoring and self-assess, helping themselves or their peers to improve their learning.  |
| Feedback <sup>19</sup> to students         | Provides no meaningful feedback or feedback lacks specificity and/or is inaccurate.  | Provides feedback that partially guides students toward the intended instructional outcomes.                            | Provides individualized, descriptive feedback that is accurate, actionable and helps students advance their learning.  | Encourages peer feedback that is specific and focuses on advancing student learning.                                     |
| Instructional<br>Adjustments <sup>20</sup> | Makes no attempts to adjust instruction.   | Makes some attempts to adjust instruction that is primarily in response to whole-group performance.                     | Adjusts instruction as necessary in response to individual and group performance.  | Students identify ways to adjust instruction that will be effective for them as individuals and results in quality work. |

<sup>19</sup> **Feedback:** Effective feedback provided by the teacher is descriptive and immediate and helps students improve their performance by telling them what they are doing right and provides meaningful, appropriate and specific suggestions to help students to improve their performance.

20 *Instructional adjustment:* Based on the monitoring of student understanding, teachers make purposeful decisions on changes that need to be made in order to help students achieve learning expectations.

HOTLINE 860-713-6868

# 4: Professional Responsibilities and Teacher Leadership

Teachers maximize support for student learning by developing and demonstrating professionalism, collaboration and leadership by: Engaging in continuous professional learning to impact instruction and student learning.

|   | <b>Below Standard</b>   | Developing  | Proficient   | Exemplary   |
|---|---|---|--|---|
| Attributes  |   |   |  | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:  |
| Teacher self-evaluation/<br>reflection and<br>impact on student<br>learning | Insufficiently reflects on/<br>analyzes practice and impact<br>on student learning. | Self-evaluates and reflects<br>on practice and impact on<br>student learning, but makes<br>limited efforts to improve<br>individual practice. | Self-evaluates and reflects<br>on individual practice and<br>impact on student learning,<br>identifies areas for improve-<br>ment, and takes action to<br>improve professional practice. | Uses ongoing self-evaluation and reflection to initiate professional dialogue with colleagues to improve collective practices to address learning, school and professional needs. |
| Response to feedback  | Unwillingly accepts feedback and recommendations for improving practice.            | Reluctantly accepts<br>feedback and<br>recommendations for<br>improving practice, but changes<br>in practice are limited.                     | Willingly accepts feedback and makes changes in practice based on feedback.  | Proactively seeks feedback in order to improve a range of professional practices.   |
| Professional learning   | Attends required professional learning opportunities but resists participating.     | Participates in professional learning when asked but makes minimal contributions.   | Participates actively in required professional learning and seeks out opportunities within and beyond the school to strengthen skills and apply new learning to practice.                | Takes a lead in and/or initiates opportunities for professional learning with colleagues.   |

# 4: Professional Responsibilities and Teacher Leadership

Teachers maximize support for student learning by **developing** and **demonstrating professionalism**, **collaboration and leadership** by: Collaborating to develop and sustain a professional learning environment to support student learning.

|   | <b>Below Standard</b>  | Developing   | Proficient  | Exemplary   |
|---|--|--|---|---|
| Attributes  |  |  |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:  |
| Collaboration with colleagues                     | Attends required meetings to review data but does not use data to adjust instructional practices.  | Participates minimally with colleagues to analyze data and uses results to make minor adjustments to instructional practices.    | Collaborates with colleagues on an ongoing basis to synthesize and analyze data and adjusts subsequent instruction to improve student learning. | Supports and assists colleagues in gathering, synthesizing and evaluating data to adapt planning and instructional practices that support professional growth and student learning. |
| Contribution to professional learning environment | Disregards ethical codes of conduct and professional standards.  | Acts in accordance with ethical codes of conduct and professional standards.   | Supports colleagues in exploring and making ethical decisions and adhering to professional standards.   | Collaborates with colleagues to deepen the learning community's awareness of the moral and ethical demands of professional practice.  |
| Ethical use of technology                         | Disregards established rules<br>and policies in accessing and<br>using information and<br>technology in a safe, legal<br>and ethical manner. | Adheres to established rules and policies in accessing and using information and technology in a safe, legal and ethical manner. | Models safe, legal and ethical use of information and technology and takes steps to prevent the misuse of information and technology.           | Advocates for and promotes the safe, legal and ethical use of information and technology throughout the school community.   |

# 4: Professional Responsibilities and Teacher Leadership

Teachers maximize support for student learning by **developing** and **demonstrating professionalism**, **collaboration and leadership** by:

Indicator 4C

Working with colleagues, students and families to develop and sustain a positive school climate that supports student learning.

|  | <b>Below Standard</b>   | Developing  | Proficient  | Exemplary  |
|--|---|---|---|--|
| Attributes   |   |   |   | In addition to the characteristics of <b>Proficient,</b> including one or more of the following:   |
| Positive school climate                            | Does not contribute to a positive school climate.   | Participates in schoolwide efforts to develop a positive school climate but makes minimal contributions.  | Engages with colleagues, students and families in developing and sustaining a positive school climate.  | Leads efforts within and outside the school to improve and strengthen the school climate.  |
| Family and community engagement                    | Limits communication with families about student academic or behavioral performance to required reports and conferences.  | Communicates with families about student academic or behavioral performance through required reports and conferences; and makes some attempts to build relationships through additional communications. | Communicates frequently and proactively with families about learning expectations and student academic or behavioral performance; and develops positive relationships with families to promote student success. | Supports colleagues in developing effective ways to communicate with families and engage them in opportunities to support their child's learning; and seeks input from families and communities to support student growth and development. |
| Culturally responsive communications <sup>21</sup> | Sometimes demonstrates lack of respect for cultural differences when communicating with students and families <b>OR</b> demonstrates bias and/or negativity in the community. | Generally communicates with families and the community in a culturally-responsive manner.   | Consistently communicates with families and the community in a culturally-responsive manner.  | Leads efforts to enhance culturally-responsive communications with families and the community.   |

<sup>21</sup> *Culturally-responsive communications:* Using the cultural knowledge, prior experiences and performance styles of diverse students to make learning more appropriate and effective for students and to build bridges of meaningfulness between home and school experiences.

# **Equal Opportunity/Affirmative Action Policy**

The Connecticut State Department of Education is committed to a policy of equal opportunity/ affirmative action for all qualified persons. The Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race, color, religious creed, sex, age, national origin, ancestry, marital status, sexual orientation, gender identity or expression, disability (including, but not limited to, mental retardation, past or present history of mental disability, physical disability or learning disability), genetic information, or any other basis prohibited by Connecticut state and/or federal nondiscrimination laws. The Department of Education does not unlawfully discriminate in employment and licensing against qualified persons with a prior criminal conviction. Inquiries regarding the Department of Education's nondiscrimination policies should be directed to Levy Gillespie, Equal Employment Opportunity Director/American with Disabilities Act Coordinator, Title IX /ADA/Section 504 Coordinator, State of Connecticut Department of Education, 25 Industrial Park Road, Middletown, CT 06457 860-807-2071.

Department of Communication Disorders Southern Connecticut State University Assistant Professor The Connecticut State Department of Education (CSDE) recognizes the challenges faced by districts in the evaluation of educators who teach in non-tested grades and subjects. A group of these individuals is referred to as student and educator support specialists (SESS). Support specialists or service providers are those individuals who, by the nature of their job description, do not have traditional classroom assignments but serve a "caseload" of students, staff or families. In addition, they often are not directly responsible for content instruction nor do state standardized assessments directly measure their impact on students.

The CSDE, in partnership with SESS representatives from around the state, developed the *CCT Rubric for Effective Service Delivery 2014* for use with support specialists. This rubric was purposefully developed as a companion to the *CCT Rubric for Effective Teaching 2014* and parallels its structure and format to illustrate the common characteristics of effective practice across a variety of educators in the service of learners.

In spring 2015, phase 1 of a validation study of the CCT Rubric for Effective Service Delivery began with an extended group of field practitioners. This work resulted in an improved version of the rubric to embrace a wider range of service provider roles and responsibilities with greater attention to both student and adult learners. As with any tool for the observation of educator performance and practice, the CCT Rubric for Effective Service Delivery 2015 is offered as an option for use as part of a district's evaluation and support plan and can be considered by the established district Professional Development and Evaluation Committee (PDEC). Specifically, school psychologists, speech and language pathologists, school social workers and school counselors may find this adapted rubric to most closely represent a progression of their practice; however, this most recent version has considered other educators in a school that may have unique assignments and responsibilities (e.g., boardcertified behavior analyst (BCBA), home school family liaison, instructional coach, transition coordinator, etc.).

#### Introduction

#### **Training and Proficiency**

The CCT Rubric for Effective Service Delivery 2015 may be used by trained and proficient evaluators to observe a support specialist. Accurate and reliable evaluation of the domains, indicators and attributes can only be achieved through careful, rigorous training and demonstrated proficiency that build on the experience base and professional judgment of the educators who use this instrument. As part of the CSDE-sponsored training, evaluators will be provided sample performances and artifacts as well as a supplemental handbook to guide their ratings.

IMPORTANT! The CCT Rubric for Effective Service Delivery 2015 is not a checklist with predetermined points. Rather, it is a tool that, when combined with training to ensure consistency and reliability of the collection of evidence, can lead to high quality feedback and inform professional learning opportunities to advance professional practice.

#### Calibration

To ensure consistent and fair evaluations across different observers, settings and educators, observers need to regularly calibrate their judgments against those of their colleagues. Engaging in ongoing calibration activities conducted around a common understanding of good teaching or service delivery will help to establish inter-rater reliability and ensure fair and consistent evaluations. Calibration activities offer the opportunity to participate in rich discussion and reflection through which to deepen understanding of the *CCT Rubric for Effective Service Delivery 2015* and ensure that observers can accurately measure educator practice against the indicators within the observation tool.

#### **Observation Process**

The *CCT Rubric for Effective Service Delivery 2015* can be used by trained and proficient evaluators to observe SESS practices. Each educator shall be observed, at a minimum, as stated in the Connecticut Guidelines for Educator Evaluation. In order to promote an authentic view of practice and to promote a culture of openness and comfort with frequent observations and feedback, it is recommended that evaluators use a combination of announced and unannounced observations. All observations should be followed by feedback, either verbal (e.g., a post-conference, comments about professional meetings/presentations, etc.) or written (e.g., via e-mail, comprehensive write-up or both), within days of an observation. Specific, actionable feedback is also used to identify professional learning needs and tailor support to address those needs.

Evidence can be gathered from formal observations, informal observations and non-classroom observations/reviews of practice. As part of the initial goal-setting conference for SESS providers, it will be important to discuss with an evaluator the various learning environments where opportunities for observation can occur. Although the Connecticut Guidelines for Educator Evaluation do not specifically define these types of observations, the state model known as the System for Educator Evaluation and Development (SEED), provides the following definitions:

**Formal In-Class/Learning Environment Observations:** At least 30 minutes followed by a post-observation conference, which includes timely written and verbal feedback.

**Informal In-class/Learning Environment Observations:** At least 10 minutes followed by written or verbal feedback.

Non-classroom Observations/Reviews of Practice: Include, but are not limited to, observation of data team meetings or team meetings focused on individual students or groups of students, observations of early intervention team meetings, observations of individual or small group instruction with a student outside the classroom, collaborative work with staff in and out of the classroom, provision of training and technical assistance with staff or families, and leading schoolwide initiatives directly related to the support specialist's area of expertise.

#### Introduction

The following protocol may be used for conducting a formal in-class/learning environment observation that requires a pre- and post-conference:

A. Pre-Conference:

Before the observation, the evaluator will review planning documentation and other relevant artifacts provided by the service provider in order to understand the context for the work to be observed, including the objectives for the activity; the service to be delivered; how effectiveness of the activity will be assessed before, during and after; what materials and resources will be used.

**B.** Observation:

Evaluators will collect evidence mostly for Domains 1 and 3 during the in-class observation.

**C. Post-Conference:** 

The post-observation conference gives the service provider the opportunity to reflect on and discuss the practice observed, progress of the recipients of the service, adjustments made during service delivery, further supporting artifacts as well as describe the impact on future services and supports.

D. Analysis:

The evaluator analyzes the evidence gathered during the observation and the pre- and post-conferences and identifies the applicable performance descriptors contained in the *CCT Rubric for Effective Service Delivery 2015*.

E. Ratings/Feedback:

Based on the training guidelines for the CCT Rubric for Effective Service Delivery 2015, the evaluator will tag evidence to the appropriate indicator within the domains of the rubric and provide feedback to the service provider. Although each attribute within an indicator may not be applicable to the service provider's role or the specific learning environment where the observation is taking place, a trained evaluator should be able to collect evidence for most attributes within each indicator during an academic year.

## Comparison of the CT Common Core of Teaching and the CCT Rubric for Effective Service Delivery 2015

The Common Core of Teaching (CCT) Rubric for Effective Service Delivery 2015 is completely aligned with the CCT. The CCT Rubric for Effective Service Delivery 2015 will be used to evaluate a service provider's performance and practice, which accounts for 40 percent of his or her annual summative rating, as required in the Connecticut Guidelines for Educator Evaluation and represented within the state model, the System for Educator Evaluation and Development (SEED).

Because service delivery is a complex, integrated activity, the domain indicators from the CCT Foundational Skills (2010) have been consolidated and reorganized in this rubric for the purpose of describing essential and critical aspects of practice. For the purpose of the rubric, the domains have also been renumbered. **The four domains and 12 indicators** (three per domain) identify the essential aspects of a service provider's performance and practice.

| CT Common Core of Teaching Standards |   |  | CCT Rubric for Effective Service Delivery 2015 |   | Generally<br>Observed                                 |
|--------------------------------------|---|--|--|---|---|
| Domain 1                             | Content and Essential Skills, which includes<br>The CT Core Standards and other CT content<br>standards | Demonstrated at the pre-service level as a pre-requisite to certification and embedded within the rubric |  | rubric  |   |
| Domain 2                             | Classroom Environment, Student<br>Engagement and Commitment to Learning                                 |  | Domain 1                                       | Learning Environment, Engagement and Commitment to Learning | In-class/Learning<br>Environment<br>Observations      |
| Domain 3                             | Planning for Active Learning  |  | Domain 2                                       | Planning for Active Learning                                | Non-classroom<br>Observations/<br>Reviews of Practice |
| Domain 4                             | Instruction for Active Learning   |  | Domain 3                                       | Service Delivery  | In-class/Learning<br>Environment<br>Observations      |
| Domain 5                             | Assessment for Learning   |  |  | Now integrated throughout the other domains                 |   |
| Domain 6                             | Professional Responsibilities and Teacher Leadership  |  | Domain 4                                       | Professional Responsibilities and Leadership                | Non-classroom<br>Observations/<br>Reviews of Practice |

## **CCT Rubric for Effective Service Delivery 2015 — At a Glance**

| Evidence Generally Collected Through Observations  | Evidence Generally Collected Through Non-classroom/Reviews of Practice   |
|--|--|

## Domain 1: Learning Environment, Engagement and Commitment to Learning

Service providers promote student/adult learner engagement, independence and interdependence in learning and facilitate a positive learning community by:

INDICATOR 1a: Promoting a positive learning environment that is respectful and equitable.¹

|            |   | BELOW STANDARD   | DEVELOPING   | PROFICIENT   | EXEMPLARY All characteristics of Proficient, plus one or more of the following:  |  |  |
|------------|---|--|--|--|--|--|--|
| ATTRIBUTES | Rapport and positive social interactions                    | Interactions with learners are negative or disrespectful or the provider does not promote positive social interactions among learners. | Interactions between service provider and learners are generally positive and respectful. The provider inconsistently attempts to promote positive social interactions among learners. | Interactions between service provider and learners are consistently positive and respectful. The provider consistently promotes positive social interactions among learners. | Fosters an environment where learners proactively demonstrate positive social interactions and conflict-resolution skills.       |  |  |
|            | Respect<br>for learner<br>diversity <sup>2</sup>            | Establishes and maintains a learning environment that disregards learners' cultural, social or developmental differences.              | Establishes and maintains a learning environment that is inconsistently respectful of learners' cultural, social or developmental differences.   | Establishes and maintains a learning environment that is consistently respectful of learners' cultural, social or developmental differences.                                 | Recognizes and incorporates learners' cultural, social and developmental diversity as an asset to enrich learning opportunities. |  |  |
|            | Environment<br>supportive of<br>intellectual<br>risk-taking | Creates or promotes a learning environment that discourages learners to take intellectual risks.                                       | Creates or promotes a learning environment that encourages some but not all learners to take intellectual risks.   | Consistently creates or promotes a learning environment that encourages learners to take intellectual risks.   | Creates an environment where learners are encouraged to take risks by respectfully questioning or challenging ideas presented.   |  |  |
|            | High<br>expectations<br>for learning                        | Establishes and communicates few or unrealistic expectations for learners.   | Establishes and communicates realistic expectations for some, but not all learners.  | Establishes and communicates high but realistic expectations for all learners.   | Creates opportunities for learners to set their own goals and take responsibility for their own growth and development.          |  |  |

- A respectful and equitable learning environment supports whole-child development and the understanding that educators must continuously work to ensure not only that educational learning environments are inclusive and respectful of all students but they also offer opportunities for equitable access, survivability, outputs and outcomes. Branson, C. & Gross, S. (Eds.). (2014). Handbook of Ethical Educational Leadership. New York: Routledge.
- Respect for learner diversity means recognizing individual differences, including but not limited to race, ethnicity, gender, sexual orientation, socioeconomic status, age, physical abilities, intellectual abilities, religious beliefs, political beliefs, or other ideologies.

## Domain 1: Learning Environment, Engagement and Commitment to Learning

Service providers promote student/adult learner engagement, independence and interdependence in learning and facilitate a positive learning community by:

<u>INDICATOR 1b</u>: Promoting developmentally appropriate standards of social and behavioral functioning that support a productive learning environment.

|          |   | BELOW STANDARD  | DEVELOPING   | PROFICIENT   | EXEMPLARY All characteristics of Proficient, plus one or more of the following:   |
|----------|---|---|--|--|---|
| UTES     | Communicating<br>and reinforcing<br>appropriate<br>standards of<br>behavior | Minimally communicates and/<br>or reinforces appropriate<br>standards of behavior resulting<br>in interference with learning.   | Inconsistently communicates or reinforces appropriate standards of behavior resulting in some interference with learning.  | Communicates and reinforces appropriate standards of behavior that support a productive learning environment.  | Creates opportunities for learners to take responsibility for their own behavior or seamlessly responds to misbehavior. |
| ATTRIBUT | Promoting social<br>and emotional<br>competence <sup>3</sup>                | Minimally attentive to teaching, modeling or reinforcing social skills and provides little to no opportunity for learners to self-regulate and take responsibility for their actions. | Inconsistently teaches, models, or reinforces social skills and limits opportunities to build learners' capacity to self-regulate and take responsibility for their actions. | Consistently teaches, models, or positively reinforces social skills and builds learners' capacity to self-regulate and take responsibility for their actions. | Encourages learners to independently apply proactive strategies <sup>4</sup> and take responsibility for their actions. |

Social competence is exhibiting self-awareness, self-management, social awareness and social skills at appropriate times and with sufficient frequency to be effective in the situation (Boyatzis, Goleman, and Rhee, 2000).

<sup>4.</sup> Proactive strategies include self-regulation strategies, problem-solving strategies, conflict resolution processes, interpersonal communication and responsible decision-making.

## Domain 1: Learning Environment, Engagement and Commitment to Learning

Service providers promote student/adult learner engagement, independence and interdependence in learning and facilitate a positive learning community by:

INDICATOR 1c: Maximizing service delivery by effectively managing routines and transition 5

|            | INDICATOR 1c: Maximizing service delivery by effectively managing routines and transition.5 |   |  |  |  |  |
|------------|---|---|--|--|--|--|
|            |   | BELOW STANDARD  | DEVELOPING   | PROFICIENT   | EXEMPLARY All characteristics of Proficient, plus one or more of the following:  |  |
| ATTRIBUTES | Routines<br>and transitions<br>appropriate<br>to needs of<br>learners                       | Implements and manages routines and transitions resulting in significant loss of service delivery time. | Implements and manages routines and transitions resulting in some loss of service delivery time. | Implements and manages effective routines and transitions that maximize service delivery time. | Encourages or provides opportunities for learners to demonstrate or independently facilitate routines and transitions. |  |

### **Domain 2: Planning for Active Learning**

Service providers design<sup>6</sup> academic, social/behavioral, therapeutic, crisis or consultative plans<sup>7</sup> to engage student/adult learners in rigorous and relevant learning and to promote their curiosity about the world at large by:

INDICATOR 2a: Developing plans aligned with standards that build on learners' knowledge and skills and provide an appropriate level of challenge.

| IN         | INDICATOR 2a: Developing plans aligned with standards that build on learners' knowledge and skills and provide an appropriate level of challenge. |   |   |   |   |  |
|------------|---|---|---|---|---|--|
|            |   | BELOW STANDARD  | DEVELOPING  | PROFICIENT  | EXEMPLARY All characteristics of Proficient, plus one or more of the following:   |  |
| ATTRIBUTES | Standards<br>alignment  | Designs plans that are misaligned with relevant Connecticut content standards or discipline-specific state and national guidelines. | Designs plans that partially align with relevant Connecticut content standards, or discipline-specific state and national guidelines. | Designs plans that directly align with relevant Connecticut content standards or discipline-specific state and national guidelines.                       | Designs plans that enable learners to integrate relevant Connecticut content standards and discipline-specific state and national guidelines into their work. |  |
|            | Evidence-based practice   | Designs plans that are not evidence based.  | Designs plans that are partially evidence based.  | Designs plans using evidence-<br>based practice.  | Designs plans that challenge learners to apply learning to new situations.  |  |
|            | Use of data<br>to determine<br>learner needs<br>and level of<br>challenge   | Designs plans without consideration of learner data.  | Designs plans using limited sources of data to address learner needs and to support an appropriate level of challenge.                | Designs targeted and purposeful plans using multiple sources of data <sup>9</sup> to address learner needs and support an appropriate level of challenge. | Proactive in obtaining, analyzing and using data to guide collaborative planning.   |  |
|            | Targeted<br>and specific<br>objectives for<br>learners  | Develops objectives that are not targeted or specific to the needs of learners.   | Develops objectives that are targeted or specific to the needs of some, but not the majority of, learners.                            | Develops objectives that are targeted and specific to the needs of all learners.  | Plans include opportunities for learners to develop their own objectives.   |  |

- Depending upon the role of the service provider, the action verb could be design, collaborate, inform or consult.
- 7. Academic, behavioral, therapeutic, crisis or consultative plans may be developed for and directed to whole group, small group and or individual learners.
- 8. Connecticut content standards are standards developed for all content areas including Common Core State Standards (CCSS) inclusive of College and Career Ready Anchor Standards and Early Learning and Development Standards (ELDS).
- Multiple sources of data may include existing data or data to be collected (progress monitoring).
   Data may be formal (standardized tests) or informal (survey responses, interviews, anecdotal records, grades) and may be formative or summative.

### **Domain 2: Planning for Active Learning**

Service providers design academic, social/behavioral, therapeutic, crisis or consultative plans to engage student/adult learners in rigorous and relevant learning and to promote their curiosity about the world at large by: INDICATOR 2b: Developing plans to actively engage learners in service delivery. **EXEMPLARY DEVELOPING BELOW STANDARD PROFICIENT** All characteristics of Proficient. plus one or more of the following: Strategies. Selects or designs plans that are Selects or designs plans that Selects or designs plans Selects or designs plans that tasks and service provider-directed and are primarily service providerthat include strategies, tasks allow learners to apply or questions provide limited opportunities for directed and offer some and questions that promote extend learning to the school active learner engagement. opportunities for active learner opportunities for active learner setting and larger world. engagement. engagement. <sup>10.</sup> Resources include, but are not limited to, available textbooks, supplementary reading and information resources, periodicals, newspapers, charts, programs, online and electronic resources and subscription databases, e-books, computer software kits, games, pictures, posters, artistic prints, study prints, sculptures, models, maps, motion pictures, audio and video recordings, DVDs, streaming media, multimedia, dramatic productions, performances, concerts, written and

performed music, bibliographies and lists of references issued by professional personnel, speakers (human resources) and all other instructional resources needed for educational purposes.

<sup>11.</sup> Flexible groupings are groupings of learners that are changeable based on the purpose of the service delivery and on changes in the needs of individual learners over time.

## **Domain 2: Planning for Active Learning**

Service providers design academic, social/behavioral, therapeutic, crisis or consultative plans to engage student/adult learners in rigorous and relevant learning and to promote their curiosity about the world at large by:

|            | INDICATOR 2c: Selecting appropriate assessment strategies <sup>12</sup> to identify and plan learning targets. |   |   |   |   |  |
|------------|--|---|---|---|---|--|
|            | _  | BELOW STANDARD  | DEVELOPING  | PROFICIENT  | EXEMPLARY All characteristics of Proficient, plus one or more of the following:   |  |
|            | Selection of assessments and interpretation of results   | Does not use knowledge of learners' abilities, developmental level, cultural, linguistic or experiential background to select and interpret assessment information. | Uses limited knowledge of learners' abilities, developmental level, cultural, linguistic or experiential background to select and interpret assessment information. | Uses knowledge of learners' abilities, developmental level, cultural, linguistic or experiential background to select and interpret assessment information. | Conducts information sessions with colleagues to enhance understanding of the assessment selection process, information obtained and development of learning plans. |  |
| ATTRIBUTES | Criteria for learner success   | Does not identify appropriate criteria for assessing learner success.   | Identifies general criteria for assessing learner success.  | Identifies objective and measurable criteria for assessing learner success.   | Integrates learner input into the plan for assessing learner success.   |  |
| , i        | Ongoing<br>assessment<br>of learning   | Does not plan for use of assessment strategies or methods to monitor or adjust service delivery.  | Plans for use of assessment strategies or methods that provide limited opportunities to monitor or adjust service delivery.   | Plans for use of assessment strategies or methods at critical points to effectively monitor or adjust service delivery.                                     | Plans to engage learners in using assessment criteria to self-monitor and reflect on learning.  |  |

<sup>12.</sup> Assessment strategies are used to evaluate learners before, during and after service delivery. Entry assessments are often diagnostic and used to determine eligibility for services. Formative assessment is part of the process used by service providers during service delivery, which provides feedback to monitor and adjust ongoing services. Summative assessments are used to evaluate learners at the end of a service delivery plan to determine learner success.

## **Domain 3: Service Delivery**

Service providers implement academic, social/behavioral, therapeutic, crisis or consultative plans to engage student/adult learners in rigorous and relevant learning and to promote their curiosity about the world at large by:

INDICATOR 3a: Implementing service delivery<sup>13</sup> for learning.

|            | indicator 3a. implementing service delivery for learning. |   |   |   |  |  |  |
|------------|---|---|---|---|--|--|--|
|            |   | BELOW STANDARD  | DEVELOPING  | PROFICIENT  | EXEMPLARY All characteristics of Proficient, plus one or more of the following:  |  |  |
| ATTRIBUTES | Purpose<br>of service<br>delivery                         | Does not communicate academic or social/behavioral expectations for service delivery. | Communicates academic or social/behavioral expectations for service delivery in a way that results in the need for further clarification. | Clearly communicates academic or social/behavioral expectations for service delivery and aligns the purpose of service delivery with relevant Connecticut content standards or discipline-specific state and national guidelines. | Provides opportunities for learners to communicate how academic or social/behavioral expectations can apply to other situations.   |  |  |
|            | Precision<br>of service<br>delivery                       | Delivery of services is inconsistent with planning.                                   | Delivery of services is consistent with some but not all services as planned.   | Delivery of services is consistent with planning and demonstrates flexibility and sensitivity for the majority of learners.   | Delivery of services demonstrates flexibility and sensitivity for all learners.  |  |  |
|            | Progression<br>of service<br>delivery                     | Delivers services in an illogical progression.  | Generally delivers services in a logical and purposeful progression.  | Delivers services in a logical and purposeful progression.  | Challenges all learners to take responsibility and extend their own learning.  |  |  |
|            | Level of challenge  | Delivers services that are at an inappropriate level of challenge for learners.       | Delivers services at an appropriate level of challenge for some, but not all, learners.   | Delivers services at an appropriate level of challenge for the majority of learners.  | Provides opportunities for all learners to extend learning beyond expectations, make cross-curricular connections or generalize behavior to multiple situations, as appropriate. |  |  |

<sup>13.</sup> Service delivery is derived from a framework of principles and best practices used to guide the design and implementation of service as described by state and national professional standards.

## **Domain 3: Service Delivery**

Service providers implement academic, social/behavioral, therapeutic, crisis or consultative plans to engage student/adult learners in rigorous and relevant learning and to promote their curiosity about the world at large by:

<u>INDICATOR 3b</u>: Leading student/adult learners to construct meaning and apply new learning through the use of a variety of differentiated and evidence-based learning strategies.

|            | a variety of differentiated and evidence-based learning strategies. |  |  |   |   |  |
|------------|---|--|--|---|---|--|
|            |   | BELOW STANDARD   | DEVELOPING   | PROFICIENT  | EXEMPLARY All characteristics of Proficient, plus one or more of the following:   |  |
|            | Strategies,<br>tasks and<br>questions                               | Uses tasks and questions that do not engage learners in purposeful learning.   | Uses tasks or questions to actively engage some, but not all, learners in constructing new learning.   | Uses differentiated strategies, tasks, and questions to actively engage the majority of learners in constructing new and meaningful learning through integrated discipline-specific tools that promote problemsolving, critical and creative thinking, purposeful discourse or inquiry. | Includes opportunities for all learners to work collaboratively, when appropriate, or to generate their own questions or problemsolving strategies, synthesize and communicate information. |  |
| ATTRIBUTES | Resources<br>and flexible<br>groupings and<br>new learning          | Uses available resources or groupings that do not actively engage learners and support new learning.   | Uses available resources or groupings that actively engage some, but not all, learners and support some new learning.  | Uses multiple resources or flexible groupings to actively engage the majority of learners in demonstrating new learning in a variety of ways.   | Promotes learner ownership, self-direction, and choice of available resources or flexible groupings.  |  |
|            | Learner<br>responsibility<br>and<br>independence                    | Implements service delivery that is primarily provider-directed, and provides little or no opportunities for learners to develop independence. | Implements service delivery that is mostly provider directed and provides some opportunities for learners to develop independence and share responsibility for the learning. | Implements service delivery that provides multiple opportunities for learners to develop independence and take responsibility for the learning.   | Supports and challenges learners to identify ways to approach learning that will be effective for them as individuals.  |  |

### **Domain 3: Service Delivery**

Service providers implement academic, social/behavioral, therapeutic, crisis or consultative plans to engage student/adult learners in rigorous and relevant learning and to promote their curiosity about the world at large by:

INDICATOR 3c: Assessing learning, providing feedback<sup>14</sup> and adjusting service delivery.

|            | INDICATOR 3c: Assessing learning, providing feedback¹⁴ and adjusting service delivery. |   |   |   |   |  |  |
|------------|--|---|---|---|---|--|--|
|            |  | BELOW STANDARD  | DEVELOPING  | PROFICIENT  | EXEMPLARY All characteristics of Proficient, plus one or more of the following:   |  |  |
|            | Criteria<br>for learner<br>success   | Does not communicate criteria for academic or social/behavioral success.  | Communicates general criteria for academic or social/behavioral success.  | Communicates or models specific criteria for academic or social/behavioral success.   | Integrates learner input in identifying criteria for individualized academic or social/behavioral success.                |  |  |
| ATTRIBUTES | Ongoing<br>assessment<br>of learning   | Uses assessment strategies or methods that are not relevant to academic or social/behavioral outcomes.                                    | Uses assessment strategies or methods that are partially aligned to intended academic or social/ behavioral outcomes. | Uses a variety of assessment strategies or methods that elicit specific evidence of intended academic or social/behavioral outcomes at critical points throughout service delivery. | Provides opportunities for learners to identify strengths, needs, and help themselves or their peers to improve learning. |  |  |
|            | Feedback<br>to learner   | Provides no meaningful feedback or feedback is inaccurate and does not support improvement toward academic or social/behavioral outcomes. | Provides general feedback that partially supports improvement toward academic or social/ behavioral outcomes.         | Provides specific, timely, accurate and actionable feedback that supports the improvement and advancement of academic or social/behavioral outcomes.                                | Encourages self-reflection or peer feedback that is specific and focused on advancing learning.                           |  |  |
|            | Adjustments<br>to service<br>delivery <sup>15</sup>                                    | Adjustments to service delivery are not responsive to learner performance or engagement in tasks.   | Adjustments to service delivery are responsive to some, but not all, learners' performance or engagement in tasks.    | Adjustments to service delivery are responsive to learner performance or engagement in tasks.   | Engages learners in identifying ways to adjust their academic or social/behavioral plan.                                  |  |  |

- 14. Effective feedback is descriptive and immediate and helps learners to improve their performance by telling them what they are doing well while providing meaningful, appropriate and specific suggestions for improvement, as appropriate.
- 15. Adjustments to service delivery are based on information gained from progress monitoring. Service providers make purposeful decisions about changes necessary to help learners achieve service delivery outcomes.

## **Domain 4: Professional Responsibilities and Leadership**

Service providers maximize support for learning by developing and demonstrating professionalism, collaboration and leadership by:

INDICATOR 4a: Engaging in continuous professional learning to enhance service delivery and improve student//adult learning.

|            |                                    | BELOW STANDARD   | DEVELOPING  | PROFICIENT  | EXEMPLARY  All characteristics of Proficient, plus one or more of the following:  |
|------------|------------------------------------|--|---|---|---|
|            | Self-<br>evaluation/<br>reflection | Does not self-evaluate/reflect on how practice affects learning.                     | Self-evaluates/reflects on practice and impact on learning, but takes limited or ineffective action to improve individual practice. | Self-evaluates/reflects on indi-<br>vidual practice and the impact<br>on learning; identifies areas for<br>improvement and takes effective<br>action to improve professional<br>practice. | Uses ongoing self-evaluation/<br>reflection to initiate professional<br>dialogue with colleagues to<br>improve collective practices to<br>address learning, school and<br>professional needs. |
| ATTRIBUTES | Response<br>to feedback            | Does not accept feedback and recommendations or make changes for improving practice. | Accepts feedback and recommendations but changes in practice are limited or ineffective.  | Willingly accepts feedback and recommendations and makes effective changes in practice.   | Proactively seeks feedback in order to improve in a range of professional practices.  |
| A.         | Professional<br>learning           | Does not actively participate in professional learning opportunities.                | Participates in required professional learning opportunities but makes minimal contributions.                                       | Participates actively in required professional learning and seeks opportunities within and beyond the school to strengthen skills and apply new learning to practice.                     | Takes a lead in or initiates opportunities for professional learning with colleagues, families or community.  |

## **Domain 4: Professional Responsibilities and Leadership**

|            | INDICATOR                           | BELOW STANDARD   | DEVELOPING   | PROFICIENT  | EXEMPLARY  All characteristics of Proficient, plus one or more of the following:  |
|------------|-------------------------------------|--|--|---|---|
|            | Collaboration<br>with<br>colleagues | Attends required meetings but does not use outcomes of discussions to adjust service delivery.                                   | Participates in required meetings and uses some outcomes of discussions to adjust service delivery.                              | Collaborates with colleagues regularly to synthesize and analyze data and adjust practice accordingly.  | Supports and assists colleagues in gathering, synthesizing and evaluating data to adapt practices to support professional growth and development. |
| ATTRIBUTES | Ethical<br>conduct                  | Does not act in accordance with ethical codes of conduct and professional standards.   | Acts in accordance with ethical codes of conduct and professional standards.   | Acts in accordance with and supports colleagues in adhering to ethical codes of conduct and professional standards.   | Collaborates with colleagues to deepen the learning community's awareness of the moral and ethical demands of professional practice.              |
| A          | Maintenance<br>of records           | Records are incomplete, or confidential information is stored in an unsecured location.  | Records are complete but may contain some inaccuracies. Confidential information is stored in a secured location.                | Records are complete, organized and accurate. Confidential information is stored in a secured location.   | Supports and assists colleagues, in the larger school community, in maintaining accurate and secure records.                                      |
|            | Ethical use of technology           | Disregards established rules and policies in accessing and using information and technology in a safe, legal and ethical manner. | Adheres to established rules and policies in accessing and using information and technology in a safe, legal and ethical manner. | Adheres to established rules and policies in accessing and using information and technology in a safe, legal and ethical manner, and takes steps to prevent the misuse of information and technology. | Advocates for and promotes the safe, legal and ethical use of information and technology throughout the school community.                         |

### **Domain 4: Professional Responsibilities and Leadership**

PROFESSIONAL ADMINISTRATOR
GROWTH AND EVALUATION PLAN

The following document provides information relative to the policies and procedures associated with the revised Administrator Evaluation

Program for the Bethany Public School District. Procedures have been designed through the collective efforts of the Bethany Professional Development and Evaluation Committee which includes educators, related service professionals, curriculum specialists, union representation, school administrators, and central office staff. The Committee was charged with developing a Professional Growth and Evaluation Plan for Bethany administrators. The Committee gathered feedback from educator's district-wide and designed recommendations for the policies and procedures associated with leader effectiveness and performance evaluation.

**Statement of Compliance:** In compliance with Title VI, Title IX, Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, the Bethany Public School District does not discriminate on the basis of race, religion, color, national origin, sex, sexual orientation, marital or civil union status, age, disability, pregnancy, gender identity or expression, or any other basis prohibited by state or federal law, whether by students, Board employees, or third parties subject to the control of the Board. The Board's prohibition of discrimination of harassment expressly extends to its services, equal opportunity employment, educational programs, academic, nonacademic and extracurricular activities, including athletics. Inquiries regarding the Bethany Public School District's nondiscrimination policies should contact that Superintendent of Schools, Bethany Public School District, 44 Peck Road, Bethany, CT, 06524, (203) 393-1170.

# **Bethany Public School District**

In 2016-2017 the Bethany Public School District (BPSD) partnered with ReVision Learning to develop and articulate the *Professional Administrator Growth and Evaluation Plan*. Throughout the 2016-2017 school year, the Professional Development and Evaluation Committee (PDEC), in consultation with ReVision Learning, worked to revise and evolve the District's *Professional Administrator Growth and Evaluation Plan*. Special thanks and recognition to all who supported the development, implementation, and revision of this plan.

# I. Introduction

# A. Vision and Purpose of the Professional Administrator Growth and Evaluation Process

Research findings are unequivocal about the connection between teacher and leader quality and student learning. Over two decades of research has proven that no single school-based factor contributes more to the success of the students than high-quality teachers. Second only to the impact of teachers, leaders that support quality environments for learning have a profound impact on our students.

It is the vision of the Bethany professionals that the educator supervision and evaluation plan be viewed as a collaborative process to ensure that all students have competent, highly effective teachers to deliver instruction and leaders to support that instruction. Bethany is committed to providing an evaluation and support structure that builds human capacity and challenges all educators to be reflective practitioners that aspire to reach excellence. BPSD is committed to an educator professional growth model that is designed to improve student learning and staff effectiveness through the ongoing development of Bethany's professional staff.

The Bethany Public School Professional Administrator Growth and Evaluation Plan, herein referred to as the "Plan," was developed to empower professional staff to work collaboratively toward continuous improvement of student learning. The Plan provides a shared definition of effective instructional and leadership practices, while serving as a tool for reflection, offering opportunities for ongoing professional conversations on multiple focus areas. Within each focus area are specific indicators that articulate a continuum of performance levels from ineffective to exceptional practices.

The Bethany professionals chose to align the supervision and evaluation process to the *Connecticut Common Core of Teaching, Connecticut's Common Core of Leading, The Connecticut Leader Evaluation and Support Rubric 2015, Bethany Board of Education Goals, Bethany Community School Goals and PEAC Guidelines,* our core beliefs and practices, as well as a significant body of research. The *Plan* is holistic and comprehensive in its design, satisfying the guidelines for educator evaluation set forth by the Connecticut State Department of Education while also contributing to the improvement of individual and collective practice among professionals, and providing support for a full range of professional performance needs.

## B. Goals of the Professional Administrator Growth and Evaluation Process

To achieve Bethany's vision of implementing a collaborative and reflective educator supervision and evaluation process that ensures every student is taught by a competent, highly qualified educator, and the district is run by highly effective leaders, the goals of this *Plan* are to design an evaluation system that clearly defines excellent practice, provides educators with accurate, useful information about their strengths and areas for development, and provides meaningful opportunities for professional learning and growth.

To achieve our goals, this evaluation system will:

- Ensure the learning and growth of all professionals and students.
- Guarantee the continuation of Bethany's collaborative model, including Professional Learning Communities (PLC), grade level Data Teams, and common planning time that allow for continued reflection, collaboration and communication around student growth and student learning.
- Provide meaningful professional learning experiences that impact instructional practice.
- Pledge to provide ongoing opportunities for professional sharing and feedback in support of continuous learning.
- Provide a structure that allows educators to document and share evidence of best practice.
- Ensure that evaluations are fair, reliable, valid, holistic, and an accurate representation of educators' practice.
- Differentiate experiences for educators across a continuum of professional performance needs.

#### C. District Mission Framework

# Mission, Beliefs, Commitments, and Core Values

At the heart of our *Bethany 2020 – Ascent to Excellence Strategic Plan*, lies the district's mission, beliefs and commitments. These core values guide our decision-making and affirm our belief that developing each educator and all students, so that they can achieve to their greatest potential, is a shared responsibility.

## **Mission Statement**

In the Bethany Public School District, we believe our mission is to challenge and inspire every student to become a lifelong learner and a resilient, independent, literate, caring, creative, responsible world citizen.

# **Our Beliefs and Commitments**

#### We believe that ...

Educating children is our first priority.

Education is a community-wide responsibility and requires the active engagement of all stakeholders.

The individual worth of each child must be celebrated.

Every student can learn and deserves an equal opportunity to learn.

Every student has special gifts and talents to be discovered and nurtured.

Positive attitude and effort lead to accomplishment.

Physical activity, the arts, and play are essential elements of a comprehensive education.

Education must focus on active learning, using critical thinking and problem-solving skills.

#### We are committed to ...

Empowering students to become resourceful learners who can apply their knowledge.

Challenging each student to reach his/her full potential.

Respecting individual and community values.

Integrating twenty-first-century technology throughout our school.

Investing in our professional staff to enhance instruction.

Developing and retaining exemplary teachers.

Providing a safe, secure and positive environment.

Managing our financial resources efficiently and effectively.

Advancing the Bethany Public School District together as a community.

# D. Bethany 2020 – Ascent to Excellence Strategic Plan

- 1. We will maximize each student's potential through a rich and challenging curriculum and a broad range of programs.
- 2. We will provide proactive, coordinated academic, social, and emotional support for every student.
- 3. We will cultivate responsibility, respect, and resilience in our students, and will promote citizenship in the school, the community, and the world.
- 4. We will encourage and enhance collaborative relationships with parents and with the broader community.
- 5. We will ensure that the staff and students are fluent in the integrated use of technology in the service of learning.
- 6. We will be responsible stewards of Bethany's school resources.
- 7. We will provide a safe and secure learning environment.
- 8. We will invest in the continual development of our staff.

# E. Theory of Action

*IF* students are provided access to highly effective teachers who also develop caring responsive relationships, *AND IF* the culture of continuous, collaborative professional growth is used to support high expectations for student learning and improved instruction, *THEN* we will meet the needs of all learners and students will achieve at high levels.

# F. Connecting Professional Administrator Growth and Evaluation Process to the Bethany Vision, Mission, Instructional Model, Achievement Goals, and Theory of Action

As evidenced by our mission, vision, beliefs and commitments, BPSD recognizes that the education of each child and the development and growth of each staff member is not only a priority but a shared responsibility. The tenets that support the *Plan* are grounded in our strong belief that educator and student success is contingent upon our commitment to work as a professional learning community. The *Plan* will assure the attainment of both the vision and mission of our learning community.

Strengthening individual and collective educator practices with the goal of developing students' critical thinking and increasing student achievement warrants having an instructional framework as the cornerstone of our work. We acknowledge that in order for students to achieve at their highest level, we need effective educators in every classroom delivering high-quality instruction at all times. Additionally, we acknowledge that leaders responsible for providing supervision and support to our teachers must meet high standards of leadership practice, especially related to their role as instructional leaders. The Bethany Community School's Balanced Instructional Model is comprehensive, implemented school-wide, and focuses on purposeful planning, effective instructional practices, active student engagement, and thoughtful reflection resulting in improved student achievement. This instructional model is supported and tightly aligned to the *Connecticut Common Core Standards* (CCCS), *Common Core of Teaching* (CCT), Bethany Public School District's

Curriculum, and both formative and summative assessments. Our instructional model allows us to share a common understanding of effective instructional practices and identifies where these practices fall along a continuum - from exceptional to ineffective practice.

While our *Plan* is an important structure for the realization of our district vision and mission, it also plays a critical role in our district/school improvement plans. Our continuous improvement plans address how we will obtain our district goals, and cannot be accomplished without high-quality instruction taking place in every classroom. Therefore, our plan addresses the alignment of developing professional goals around instructional practices that directly support district/school goals.

Furthermore, the district's Theory of Action serves as a concrete representation of our vision and strategy for improvement. The Bethany Public School District's Theory of Action explicitly connects the learning and development of our professional educators to the learning and development of their students in the classroom, whereby we believe that if all students are provided access to highly effective educators and our leaders promote a culture of continuous, collaborative professional growth that supports high expectations for student learning and improved instruction, then we will meet the needs of our students and they will achieve at high levels.

# II. Elements of the Professional Growth and Evaluation Process for Administrators

#### A. Administrator Evaluation Plan Overview

Figure 1 below represents an outline of the overall Professional Administrator Growth and Evaluation process.

**Figure 1: Evaluation Process Timeline** 

The *Plan* is driven by the implementation of the *Connecticut's Common Core of Leading* (CCL). These standards support a common understanding of effective leadership practice across four domains as outlined in *The Connecticut Leader Evaluation and Support Rubric 2015* (Appendix A).

#### Domains:

- Instructional Leadership,
- Talent Management,
- Organizational Systems, and
- Culture and Climate.

Within each domain are specific indicators that break down expected teacher practices and resulting student behaviors across four levels of performance and practice:

- Level 1 Below Standard Practice
- Level 2 Developing Practice
- Level 3 Effective Practice
- Level 4 Exemplary Practice

The Connecticut's Common Core of Leading (CCL) is the framework upon which the Connecticut State Department of Education formulated the CT Leader Evaluation and Support Rubric, herein referred to as "the Rubric." The Rubric is the core document within this evaluation system and is used to help provide the context through which a leader's performance can be directly measured. The indicators of leadership practice outlined in the Rubric (see Figure 2) represent the values and beliefs of leadership of the educational community. Evaluation of educator performance will be measured through evidence collected relative to the performances identified in the Rubric, and educator growth across performance levels will be supported and ultimately expected in each given school year.

Figure 2. Connecticut Leader Evaluation and Support Rubric

# Connecticut Leader Evaluation and Support Rubric 2015 — At a Glance

#### Domain 1: Instructional Leadership

Domain 2: Talent Management

Education leaders ensure the success and achievement of all students by developing a shared vision, mission and goals focused on high expectations for all students, and by monitoring and continuously improving curriculum, instruction and assessment.

- 1.1 Shared Vision, Mission and Goals Leaders collaboratively develop, implement and sustain the vision, mission and goals to support high expectations for all students and staff.
- 1.2 Curriculum, Instruction and Assessment Leaders develop a shared understanding of standards-based best practices in curriculum, instruction and assessment.
- 1.3 Continuous Improvement Leaders use assessments, data systems and accountability strategies to monitor and evaluate progress and close achievement gaps.

Education leaders ensure the success and achievement of all students by implementing practices to recruit, select, support and retain highly qualified staff, and by demonstrating a commitment to high-quality systems for professional learning.

- 2.1 Recruitment, Selection and Retention Recruits, selects, supports and retains effective educators needed to implement the school or district's vision, mission and goals.
- 2.2 Professional Learning Establishes a collaborative professional learning system that is grounded in a vision of high-quality instruction and continuous improvement through the use of data to advance the school or district's vision, mission and goals.
- 2.3 Observation and Performance Evaluation Ensures high-quality, standards-based instruction by building the capacity of educators to lead and improve teaching and learning.

## Domain 3: Organizational Systems

Domain 4: Culture and Climate

Education leaders ensure the success and achievement of all students by managing organizational systems and resources for a safe, high-performing learning environment.

- 3.1 Operational Management Strategically aligns organizational systems and resources to support student achievement and school improvement.
- 3.2 **Resource Management** Establishes a system for fiscal, educational and technology resources that operate in support of teaching and learning.

Education leaders ensure the success and achievement of all students by collaborating with families and other stakeholders to respond to diverse community needs and interests, by promoting a positive culture and climate, and by modeling ethical behavior and integrity.

- 4.1 Family, Community and Stakeholder Engagement Uses professional influence to promote the growth of all students by actively engaging and collaborating with families, community partners and other stakeholders to support the vision, mission and goals of the school and district.
- 4.2 School Culture and Climate Establishes a positive climate for student achievement, as well as high expectations for adult and student conduct.
- 4.3 Equitable and Ethical Practice Maintains a focus on ethical decisions, cultural competencies, social justice and inclusive practice for all members of the school/district community.

**Stakeholder Feedback** (10%) will also be collected on educator performance and will, in combination with **Administrator Performance and Practice Ratings** (40%), constitute 50% of a leader's overall performance rating. This 50% (40% + 10%) is a leader's "**Practice Rating**."

Measurement of the **Student Learning Outcomes** for students is defined as an "Outcome Rating" and will be measured based on results associated with student achievement on a combination of local and regional assessments (45%), and **Teacher Effectiveness** (5%). These two categories of performance evaluation will constitute the remaining 50% (45% + 5%) of an educator's overall rating (see Figure 3). Processes and information relative to measurement of performance in these four main categories of performance evaluation have been outlined in the sections that follow (see Figure 3).

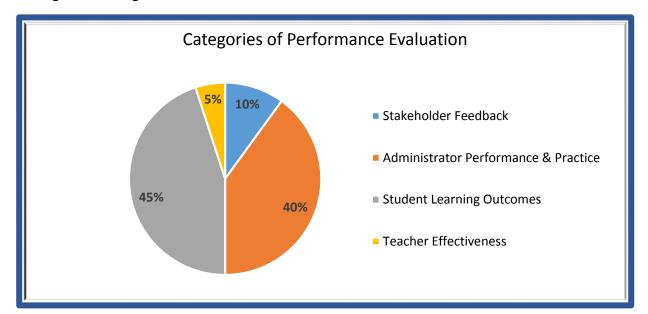

Figure 3: Categories of Performance Evaluation

# **B.** Components of Performance Evaluation

# Category 1: Administrator Performance and Practice (40%)

Forty percent (40%) of an Administrator's evaluation shall be based on ratings of Administrator performance and practice by the District Superintendent or her/his designee(s). For the purpose of this section, the word "Administrator" will constitute those individuals in positions requiring an administrative certification (092) including Principals, Director of Curriculum and Director of Special Services.

Forty percent (40%) of an Administrator's evaluation shall be based on observation and evidence collection related to leadership practice and performance as articulated in the *Connecticut's Common Core of Leading*. Additional, review of artifacts including professional development plans, educator feedback, Administrator reflections as well as planning documents, school improvement plans, and evidences of educator development and evidences of professional relationships will also be considered in measuring Administrator performance and practice. Table 1 provides an overview of the core actions to be taken by Administrators and their Evaluator throughout the year.

**Table 1: Evaluation Cycle for Administrators**

<sup>\*</sup>Forms will be revised periodically to reflect revisions approved by the Bethany Professional Development and Evaluation Committee.

<sup>\*\*</sup>Dates determined by the school calendar.

#### **Documentation Review**

All Administrators will have the opportunity to collect information relative to their practice that can be shared with an Evaluator in support of their overall evaluation and across all domains of *Connecticut's Common Core of Leading*. Artifacts are submitted as evidence of Administrator effectiveness in terms of the leadership standards. For each document uploaded, Administrators will be able to indicate which Domain(s)/Indicator(s) the artifact supports. Table 2 provides a list of documents and processes that can be used to support meaningful dialogue relative to evidence and artifacts.

**Table 2: Examples of Artifact Documents**

# **Leadership Performance Rubric**

Bethany Public Schools has, through a committee process including input from all administrative level staff in the district, reviewed and analyzed various leadership rubrics to determine the best leadership framework for analysis of administrative performance and practice. The Committee has selected the *Connecticut's Common Core of Leading*. The 2015 version of *The Connecticut Leader Evaluation and Support Rubric* will be used as the primary tool. Appendix A shows the full *Rubric* to be used for all procedures associated with the forty percent (40%) Administrator performance and practice. Bethany Public Schools will use the following structure to weigh the four Performance Expectations of *the Rubric*.

Table 3: CCL Rubric Performance and Practice Scoring

| Domain                      | Score | Weighting   | Points<br>(Score x Weighting) |
|-----------------------------|-------|-------------|-------------------------------|
| 1. Instructional Leadership |       | 50%         |                               |
| 2. Talent Management        |       | 20%         |                               |
| 3. Organizational Systems   |       | 20%         |                               |
| 4. Culture and Climate      |       | 10%         |                               |
|                             |       | Total Score |                               |

Table 4: CCL Rubric Performance and Practice Scoring - EXAMPLE

| Domain                      | Score | Weighting   | Points<br>(Score x Weighting) |
|-----------------------------|-------|-------------|-------------------------------|
| 1. Instructional Leadership | 2     | 50%         | 1.0                           |
| 2. Talent Management        | 2     | 20%         | 0.4                           |
| 3. Organizational Systems   | 3     | 20%         | 0.6                           |
| 4. Culture and Climate      | 3     | 10%         | 0.3                           |
|                             |       | Total Score | 2.3                           |

# **Leadership Practice Summative Rating**

Summative Ratings are based on the preponderance of evidence for each performance expectation in *the Rubric*. Evaluators collect written evidence about and observe the Administrator's leadership practice across the four performance expectations described in *the Rubric* and as specified in the preceding tables. Specific attention is paid to leadership performance areas identified as needing development.

Once the evidence has been reviewed and an Administrator's final score has been determined based on the weighting of each Performance Expectation, the Evaluator records a final rating.

**Table 5: Performance and Practice Rating** 

| Exemplary<br>Practice | Proficient<br>Practice | Developing<br>Practice | Below Standard<br>Practice |
|-----------------------|------------------------|------------------------|----------------------------|
| 3.51 – 4.0            | 2.5 – 3.5              | 1.5 – 2.49             | 1 – 1.49                   |
|                       |                        | Total Score            | 2.3                        |
|                       |                        | Rating                 | Developing                 |

# Category 2: Stakeholder Feedback (10%)

Ten percent (10%) of an Administrator's Summative Rating shall be based on feedback from stakeholders on areas of Administrator and/or school practice as described in the *Connecticut Leadership Standards*. For school-based Administrators, stakeholders solicited for feedback must include educators and parents, but may include other stakeholders (other staff, community members, students, etc.). More than half of the rating of an Administrator on **Stakeholder Feedback** must be based on an assessment of improvement over time. To ensure a proper baseline has been established prior to assessing improvement over time, Bethany will begin to apply an analysis of Administrator improvement to assessment of performance relative to **Stakeholder Feedback** in year two which will allow for a clear understanding of growth. Bethany will set both common targets of improvement and performance for all Administrators as well as, where necessary, set specific targets for individual Administrators.

Bethany Public Schools has selected to use district created stakeholder surveys to cull important leadership goals and establish targets for improvement in which district and school leadership can apply in practice and which evaluators can assess leadership performance. Appendix B provides examples of survey questions from the selected Bethany Public School survey samples.

Figure 4: Stakeholder Feedback Process (10%) Establish Baselines Evaluate Administrator Performance Use previous data Establish target(s) Administer survey Determine level of collected or for individual (Spring) to provide performance of establish new performance or administrator (enddata in support of baselines for overall school achievement of of-year summative). selected surveys. performance. target.

The Administrator will articulate targets associated with data collected by stakeholders. When applicable, the Administrator will make specifics connections between the Student Learning Objectives (SLO) being set and the targets and associated actions in response to **Stakeholder Feedback**. Assessment of performance in **Stakeholder Feedback** will be based on review of survey data as it related to targets established during the Goal Setting Conference. An example of a Stakeholder Feedback Goal is provided in Figure 4.

Figure 4: Stakeholder Feedback Goal - EXAMPLE

Target is to increase *positive* response to Parent Communication questions on Survey from 45% rating to 55% rating at Agree or Strongly Agree.

The Administrator and Evaluator examine the survey results, identify the growth made toward targets set, and determine the level of performance to be assigned as outlined in the four-point matrix in Table 6.

**Table 6: Stakeholder Feedback Goal Rating** 

| Below Standard<br>Practice | Developing<br>Practice | Effective<br>Practice | Exemplary<br>Practice |
|----------------------------|------------------------|-----------------------|-----------------------|
| Level 1                    | Level 2                | Level 3               | Level 4               |
| Did Not Meet Goal          | Partially Met Goal     | Met Goal              | Exceeded Goal         |

# Category 3: Student Learning Measures (45%)

Forty-five percent (45%) of an Administrator's evaluation shall be based on attainment of goals for student growth, using multiple indicators of academic growth and development to measure those goals. Improving student performance is the single most important job of our nation's public schools. Rigorous Student Learning Objectives (SLO) and corresponding Indicators of Academic Growth and Development (IAGD) help educators and Administrators challenge students at the highest possible levels and ensure focus and targeted practice toward their success.

The practice of setting student growth objectives places emphasis on using assessment results to guide instruction. Research has found that educators who set high-quality objectives often realize greater improvement in student performance than those who do not.

# Establishing quality SLO/IAGD helps:

- Increase collegial discussions toward student growth and learning.
- Increase Administrator's capacity to engage in the evaluation of assessments administered in their school setting.
- Increase knowledge and understanding of curricular standards.
- Cultivate deeper understanding of students' academic strengths and weaknesses.
- Design more effective instructional practice.
- Support understanding of how to coach an educator to monitor and adjust instruction effectively to meet students' needs.
- Generate more intentional professional learning opportunities before, during and after the school year.

Included in the analysis of student outcomes is a clear through line to the on-going data cycle and analysis completed by all educators in Bethany. Administrators are responsible for monitoring the formal Data Team cycle, informing the progress monitoring required to support student growth throughout the school. Throughout the year, Administrators will reflect on progress related to Data Team analysis of student achievement and complete a **Student Outcome Portfolio**. This Portfolio will act as an IAGD in that Administrators and Evaluators will work during each collaborative conference (i.e., Goal Setting, Mid-Year and End-of-Year) to review the connections between specific educator actions, how they are supporting those actions as an Administrator, and student outcomes expected in the SLO.

Initial Student Data Collaborative Goals Review **Setting Meeting**  Administrator reviews Administrator writes Evaluator and student data to assist in their SLOs/IAGDs based Administrator meet to determine final SLOs articulation of on benchmarking SLOs/IAGDs. and IAGDs. and/or initial student data review. Mid-Year Review of Student Remaining Data Team Cycle Evaluator and Evaluator and Administrator participates Administrator review Administrator review in school Data Team cycle student performance student performance up to monitor progress. across the year and through the mid-year and analyze specific leader analyze specific leader actions that supported actions that supported student/educator growth. student/teacher growth.

Figure 5: Procedures for Establishing and Monitoring SLOs/IAGDs

## **Initial Benchmark and Initial Student Data Review**

At the beginning of the year, the Administrator will complete an initial review of student data. This analysis will allow the Administrator to establish SLO/IAGD that directly align to the needs of students.

# **Collaborative Goal Setting Conference (by October 30)**

Each Administrator, through a monitoring of the submitted teacher SLOs, analysis of baseline data and established benchmarks and/or baseline data and, in mutual agreement with his/her Evaluator, will select two goals for student growth. Time will be allotted before the conference to review student data to inform Administrator goals. For each goal, the Administrator, through mutual agreement with his/her Evaluator, will select at least three but not more than five Indicators of Academic Growth and Development (IAGD).

In order to ensure no SLO/IAGD is determined by a single, isolated test score, but instead determined through the comparison of data across assessments and administered over time, Bethany Public Schools has designed the following structure:

For each goal, the Administrator, through mutual agreement with his/her Evaluator, will select at least three, but not more than five Indicators of Academic Growth and Development (IAGDs) to include both standardized and non-standardized measures.

# Each SLO/IAGD will:

- Take into account the academic track record and overall needs and strengths of the students, using baseline data when available.
- Address the most important purposes of an Administrator's assignment.
- Be aligned with school, district, or state student achievement objectives.
- Include a set of articulated action steps to meet each SLO. Action steps should reflect practice related to each domain within the *CCL*.

At least one IAGD for any SLO must be based on, when available, a standardized measure. Criteria for standardized measures includes:

- Administered and scored in a consistent manner.
- Aligned to a set of academic standards.
- Broadly administered (regional, statewide, or national).
- Administered between one and three times a year.

At least one IAGD will be based on a non-standardized measure.

Possible assessments in Bethany include but are not limited to:

- <u>Curriculum-Based/Non-Standardized Assessments</u> Examples include Phonological Awareness Test, Phonics Core Survey, Fundations End-of-Unit Assessments, Progress Monitoring, Spelling Inventory, and Fountas and Pinnell.
- <u>Standardized Assessments</u> Examples include STAR, STAR Early Literacy Assessments, and Smarter Balanced.
- <u>Math Assessments</u> Examples include Regional End-of-Year Assessment, STAR, and End-of-Unit Assessments, Math Expressions Quizzes and Exit Slips.
- Writing Assessments Examples include Writing Samples with Rubrics.

Within the process, the following are descriptions of selecting IAGDs:

- <u>Fair to students</u> The indicator is used in such a way as to provide students an opportunity to show that they have met or are making progress in meeting the learning objective. The use of the indicator is as free as possible from bias and stereotype.
- <u>Fair to Educators</u> The use of an indicator is fair when an educator has the professional resources and opportunity to show that his/her students have made growth and when the indicator is appropriate to the educator's content, assignment, and class composition.
- Reliable Use of the indicator is consistent among those using the indicators and over time.
- Valid The indicator measures what it is intended to measure.
- <u>Useful</u> The indicator may be used to provide the educator with meaningful feedback about student knowledge, skills, perspective, and classroom experience that may be used to enhance student learning and provide opportunities for educator professional growth and development.

# **Data Team Cycle and Progress Monitoring**

Bethany Public Schools engages in professional learning focused on the implementation of Data Teams at all grade levels. The **Data Driven Decision Making** process used during Data Teams is the backbone to the on-going development of the **Student Outcome Portfolio**. At the end of each data cycle, an Administrator should be identifying, in conjunction with his/her school based Data Team, the results associated with students' achievement across all assessments but especially in relation to his/her own SLOs. At least three times throughout the year, the Administrator will reflect on his/her specific impact on the progress being identified through the Data Team.

#### **Student Outcome Portfolio**

The focus of the **Student Outcome Portfolio** is on refining our understanding of an Administrator's impact on student performance through a routine, consistent, rigorous, and targeted analysis of student achievement in our classrooms. The Data Team cycle is the platform for our review of our students' progress. Following Data Team meetings, Administrators will document what they have learned about the effect of their leadership on teaching and learning in the school as it relates to their SLOs. Three core components make up the **Student Outcome Portfolio**: **High-Effect Leadership Strategies**, **Effectiveness of Leadership Practice**, and **Student Outcomes**. A **Student Outcome Portfolio** needs to accompany at least one SLO as an IAGD.

# Component #1: High-Effect Leadership Strategies (Related to PLG)

During each instructional cycle, and based on the Data Team analysis that allows us to monitor our students' progress, educators will routinely discuss the instructional strategies they have employed that have directly led to student achievement. This is considered Step 4 in the Bethany Data Team process. Administrators, through their school Data Team will routinely examine the results associated

The Administrator provides a reflective response to:

What did I commit to in this cycle to ensure my educators are effectively reflecting on student outcomes?

with student achievement and educator reflective practice documented during this step of the grade level Data Teams. Three times throughout the year, Administrators will meet with their school Data Team to examine school-wide results for key areas of student learning. An Administrator's reflection in this section of **Student Outcome Portfolio** will center on the leadership practice in which they have engaged to ensure an environment of reflective practice among educators. Beyond scheduling of Data Teams, what high effect leadership strategies have been employed to ensure educators are effectively reflecting on student outcomes?

# **Component #2: Effectiveness of Leadership Practice**

The Administrator provides a reflective response to:

What did I find worked in this cycle?

What did I find was not working in this cycle?

What adjustments did I make?

Each Data Team meeting also offers an opportunity for an Administrator to self-assess on their own practice and its impact on student achievement. This is considered Step 5 of the Bethany Data Team process. During this step in the **Student Outcome Portfolio**, Administrators reflect on what has been effective about their leadership practice and what adjustments they have made.

# Component #3: Student Outcomes (Brief Explanation of the Component)

As a result of the Data Team cycle, the educator should have a direct understanding of whether or not they have met the cycle goals and have determined next steps. This is where the educator has the opportunity to make the final powerful link between their actions and the outcomes within the cycle, thereby, directly monitoring the progress of students towards the overall goals.

The Administrator provides a reflective response to:

Was the goal met?

If so, why? If not, why not?

What action will I take for my students who will struggle?

#### **Portfolio Review**

During each opportunity for review between the Evaluator and Administrator (i.e., Collaborative Goal Setting Conference, Mid-Year Conference, End-of-Year Conference), the **Student Outcome Portfolio** is measured against the following four elements to support the overall measurement of the SLO:

- The level of reflective practice (connections to the Rubric 1.3).
- Connections between practice and targeted strategies (connections to *the Rubric* 1.2, 1.3 and 2.2).
- The level of monitoring and adjusting (connections to *the Rubric* 1.3).
- The level of new professional learning identified (connections to the Rubric 2.2).

The Evaluator and the Administrator can leverage the answers to the reflective questions for each component (High-Effect Leadership Strategies, Effectiveness of Leadership Practice, and Student Outcomes) in order to collaboratively monitor progress towards the end-of-year objectives. To support this analysis, an assessment rubric has been established for each of the elements to be measured.

**Table 7: Student Outcome Portfolio Rubric** 

| Student Outcome   | Below Standard<br>Practice  | Developing<br>Practice  | Effective<br>Practice   | Exemplary<br>Practice   |
|---|---|---|---|---|
| Portfolio Elements  | Level 1   | Level 2   | Level 3   | Level 4   |
|   | Did Not Meet Goal   | Partially Met Goal  | Met Goal  | Exceeded Goal   |
| Reflective Practice  Portfolio outlines evidence of reflective practice connecting leadership practice to educator practice and student outcomes.  Suggested: 50% | Reflective practice in relation to student performance and/or educator practice is not evident and, therefore, there is limited connection between educator practice and student performance. | Reflective practice in relation to student performance and/or educator practice is evident but there remain limited connections made between practice and student outcomes. | Reflective practice in relation to student performance and educator practice is clearly made, areas for improvement have been identified and action to improve professional practice is outlined. | Uses ongoing reflection to initiate professional dialogue with colleagues to improve individual and collective practices based on student performance data. |
| Effective Monitoring and Proper Adjustments  Portfolio outlines evidence of effective monitoring and proper adjustments  Suggested: 30%                           | Has not demonstrated how he/she monitored individual teacher practice based on student data.  | Demonstrates how<br>he/she monitors<br>and makes efforts to<br>improve educator<br>individual practice<br>based on student<br>data.   | Demonstrates how he/she monitors and makes adjustments that improve educator individual practice based on student data.   | Makes adjustments<br>that improve<br>individual educator<br>practice based on<br>student data and<br>supports collective<br>efficacy of others.             |
| Evidence of New Learning  Portfolio outlines evidence of new learning for Administrator  Suggested: 20%   | Has not provided evidence of new learning to support the impact on student performance and/or educator practice.  | Demonstrates evidence of new learning but still does not connect to the impact on student performance and/or educator practice.   | Demonstrates evidence of new learning that directly connects to the impact on student performance and/or educator practice.   | Uses new learning to promote and support the collective impact on student performance and/or educator practice.   |

# Mid-Year Conference (by February 15)

Evaluators and Administrators will review progress toward the goals/objectives at least once during the school year, which is to be considered the midpoint of the school year, using available information, such as agreed-upon indicators. Both the Administrator and the Evaluator will provide some evidence at the Mid-Year Conference:

- Examples of Administrators' evidence could be student work, samples of rubrics, plans, assessment questions, and pre- and post-assessment data.
- Examples of Evaluator evidence can include observation notes/forms.

This review may result in revisions to the strategies or the approach being used and/or Administrators and Evaluators may mutually agree on a mid-year adjustment of student learning goals to accommodate changes (e.g., student populations, assignment).

# **End-of-Year Summative Conference (by June 30)**

The Administrator shall collect evidence of student progress toward meeting the student learning objectives/indicators. This evidence will be produced by using the multiple indicators selected to align with each student learning objective/indicators. The evidence will be submitted to the Evaluator, and the Administrator and Evaluator will discuss the extent to which the students met the learning goals/objectives. Evidence for the End-of-Year Summative Conference includes the following:

- End-of-Year Self-Evaluation.
- End-of-Year Student Performance Data (Data Teams).
- Artifacts from Administrator and Evaluator.
- Proposed needs for the following year (material support, building support, professional development).

Following the conference, the Evaluator will rate the extent of the Administrator's progress toward meeting the student learning goals/objectives, based on criteria for four levels of performance. Final student outcome data from the Data Team will be used to measure the attainment of the stated IAGDs (see Table 5).

**Table 8: SLO/IAGD Goal Attainment** 

| Exemplary<br>Practice   | Effective<br>Practice   | Developing<br>Practice  | Below Standard<br>Practice   |
|---|---|---|--|
| Level 4   | Level 3   | Level 2   | Level 1  |
| Exceeded Goal   | Met Goal  | Partially Met Goal  | Did Not Meet Goal  |
| At least 90% of the targeted percentage of students in the IAGD met or exceeded the goal. | 70-89% of the targeted percentage of students in the IAGD met or exceeded the goal. | 60-69% of the targeted percentage of students in the IAGD met or exceeded the goal. | Less than 60% of the targeted percentage of students in the IAGD met or exceeded the goal. |

# Category 4: Teacher Effectiveness (5%)

Five percent (5%) of an Administrator's Summative Rating shall be based on educator effectiveness outcomes.

- Improving the percentage (or meeting a target of a high percentage) of educators who meet the Student Learning Objectives (SLOs) outlined in their performance evaluations.
- Improvement of overall educator effectiveness scores (after a baseline has been established).
- Number of educators participating in career development programs offered by the district.

For Central Office Staff, measures may focus on a subset of educators, grade level, or subjects consistent with the job responsibilities of the Administrator being evaluated.

Bethany Public Schools believes that educator effectiveness is based on not only performance outcomes as defined in SLOs but also in the ability of leadership to promote new and continuous learning toward educator growth and development. Furthermore, creating sustainability for the district through participation in career development pathways provides an important context to the influence of leadership on educator practice. Therefore, the weighting of **Teacher Effectiveness** will be examined in the following manner:

Table 9: Teacher Effectiveness - Year 1

| Teacher Effectiveness Component | Weighting |
|---------------------------------|-----------|
| SLO's                           | 100%      |
| Practice Ratings                | 0%        |
| Career Development              | 0%        |

Table 10: Teacher Effectiveness - Year 2 and Beyond

| Teacher Effectiveness Component | Weighting |
|---------------------------------|-----------|
| SLO's                           | 50%       |
| Practice Ratings                | 25%       |
| Career Development              | 25%       |

An Evaluators assessment of these areas is based on the following:

**Table 11: Teacher Effectiveness Goal Attainment** 

| SLO's  |   |   |  |  |
|--|---|---|--|--|
| Exemplary<br>Practice  | Effective<br>Practice   | Developing<br>Practice  | Below Standard<br>Practice   |  |
| Level 4  | Level 3   | Level 2   | Level 1  |  |
| 81-100% of educators are rated Effective or Exemplary on the student growth portion of their evaluation. | 61-80% of educators are rated Effective or Exemplary on the student growth portion of their evaluation. | 41-60% of educators are rated Effective or Exemplary on the student growth portion of their evaluation. | 0-40% of educators are rated Effective or Exemplary on the student growth portion of their evaluation. |  |

| Practice Ratings         |                         |                         |   |  |
|--------------------------|-------------------------|-------------------------|---|--|
| Exemplary                | Effective               | Developing              | Below Standard  |  |
| Practice                 | Practice                | Practice                | Practice  |  |
| Level 4                  | Level 3                 | Level 2                 | Level 1   |  |
| 81-100% of educators     | 61-80% of educators     | 41-60% of educators     | 0-40% of educators have increased Practice Ratings by one performance level within school year. |  |
| have increased Practice  | have increased Practice | have increased Practice |   |  |
| Ratings by one           | Ratings by one          | Ratings by one          |   |  |
| performance level within | performance level       | performance level       |   |  |
| school year.             | within school year.     | within school year.     |   |  |

| Career Development  |   |  |   |  |
|---|---|--|---|--|
| Exemplary<br>Practice   | Effective<br>Practice   | Developing<br>Practice   | Below Standard<br>Practice  |  |
| Level 4   | Level 3   | Level 2  | Level 1   |  |
| Increases in educators participating in Career Development Opportunities. | Increases in educators participating in Career Development Opportunities. | Increase in educators participating in Career Development Opportunities. | No increase in educators participating in Career Development Opportunities. |  |

Specific structures for review of performance on these important Year Two **Teacher Effectiveness** components will be reviewed throughout the 2017 - 2018 school year in order to establish fair and appropriate system of analysis of Administrator performance. In Year One, only SLO performance will constitute the 5% for **Teacher Effectiveness**.

**Table 12: Calculating Teacher Effectiveness** 

| Teacher Effectiveness Component | Score | Weighting | Points<br>(Score x Weighting) |
|---------------------------------|-------|-----------|-------------------------------|
| SLO's                           |       | 50%       |                               |
| Practice Ratings                |       | 25%       |                               |
| Career Development              |       | 25%       |                               |
| Total Score                     |       |           |                               |

Table 13: Calculating Teacher Effectiveness - **EXAMPLE** 

| Teacher Effectiveness Component | Score | Weighting    | Points<br>(Score x Weight) |
|---------------------------------|-------|--------------|----------------------------|
| SLO's                           | 2     | 50%          | 1                          |
| Practice Ratings                | 2     | 25%          | 0.5                        |
| Career Development              | 2     | 25%          | 0.5                        |
|                                 |       | Total Score  | 2                          |
|                                 |       | Rating Scale | Developing                 |

# C. Aggregate and Summative Scoring

An Administrator's **Summative Rating** will include a combination of the performance ratings associated with the four categories of the evaluation model. Evidence relative to an Administrator's **Performance and Practice** will be combined with scores related to an Administrator's efforts associated with **Stakeholder Feedback** goals to determine an overall **Practice Rating**. Performance relative to **Student Learning Measures** (designed at the beginning of the year through SLOs) will be combined with **Teacher Effectiveness** scores to determine an overall **Outcomes Rating**. The **Practice Rating** and the **Outcomes Rating** will be combined to give a **Summative Rating**.

# **Determining Summative Rating**

**Step 1**: Calculate Administrator performance level score on *the Rubric*.

**Table 14: Performance and Practice Scoring** 

| Domain                      | Score | Weighting | Points<br>(Score x Weighting) |
|-----------------------------|-------|-----------|-------------------------------|
| 1. Instructional Leadership |       | 50%       |                               |
| 2. Talent Management        |       | 20%       |                               |
| 3. Organizational Systems   |       | 20%       |                               |
| 4. Culture and Climate      |       | 10%       |                               |
| Total Score                 |       |           |                               |

**Table 15: Performance and Practice Scoring - EXAMPLE** 

| Domain                      | Score | Weighting   | Points<br>(Score x Weighting) |
|-----------------------------|-------|-------------|-------------------------------|
| 1. Instructional Leadership | 2     | 50%         | 1.06                          |
| 2. Talent Management        | 2     | 20%         | 0.4                           |
| 3. Organizational Systems   | 3     | 20%         | 0.6                           |
| 4. Culture and Climate      | 3     | 10%         | 0.3                           |
|                             |       | Total Score | 2.3                           |

# **Step 2**: Determine final **Practice Rating**.

**Table 16: Calculating the Practice Rating** 

| Components   | Score | Weighting          | Points<br>(Score x Weighting) |
|--|-------|--------------------|-------------------------------|
| Educator Performance, Practice and Professional Growth Standards Score |       | 40                 |                               |
| Stakeholder Feedback   |       | 10                 |                               |
|  |       | <b>Total Score</b> |                               |

Table 17: Calculating the Practice Rating - **EXAMPLE** 

| Components   | Score | Weighting   | Points<br>(Score x Weighting) |
|--|-------|-------------|-------------------------------|
| Educator Performance, Practice and Professional Growth Standards Score | 2.3   | 40          | 92                            |
| Stakeholder Feedback   | 2     | 10          | 20                            |
|  |       | Total Score | 112                           |

**Step 3**: Determine the Performance Level for the **Practice Rating** by using the rating table below.

**Table 18: Practice Rating Table** 

| Point Range                                  | Performance Level Rating |  |  |
|--|--------------------------|--|--|
| 175-200                                      | Level 4 (Exemplary)      |  |  |
| 127-174                                      | Level 3 (Effective)      |  |  |
| 81-126                                       | Level 2 (Developing)     |  |  |
| 50-80  | Level 1 (Below Standard) |  |  |
| Final Administrator Performance and Practice | Level 2 (Developing)     |  |  |

# **Step 4**: Determine the final **Outcomes Rating**.

**Table 19: Calculating the Outcomes Rating** 

| Components                            | Score | Weighting | Points<br>(Score x Weighting) |
|---------------------------------------|-------|-----------|-------------------------------|
| Student Growth and Development (SLOs) |       | 45        |                               |
| Teacher Effectiveness                 |       | 5         |                               |
| Total Score                           |       |           |                               |

Table 20: Calculating the Outcomes Rating - **EXAMPLE** 

| Components                            | Score | Weighting | Points<br>(Score x Weighting) |
|---------------------------------------|-------|-----------|-------------------------------|
| Student Growth and Development (SLOs) | 3     | 45        | 135                           |
| Teacher Effectiveness                 | 3     | 5         | 15                            |
| Total Score                           |       |           | 150                           |

**Step 5**: Determine the Performance Level for the **Outcomes Rating** by using the rating table below.

**Table 21: Outcomes Rating Table** 

| Point Range                             | Performance Level Rating |  |
|---|--------------------------|--|
| 175-200                                 | Level 4 (Exemplary)      |  |
| 127-174                                 | Level 3 (Effective)      |  |
| 81-126                                  | Level 2 (Developing)     |  |
| 50-80                                   | Level 1 (Below Standard) |  |
| Final Educator Performance and Practice | Level 3 (Effective)      |  |

#### D. Summative Performance Rating Matrix

**Step 6**: Using the Summative Performance Rating Matrix using Table 21 below, determine the final Performance Rating for an Administrator based on his or her combined scores. To use the table, identify the Administrator's rating for each category and follow the respective column and row to the center of the table. The point of intersection indicates the **Summative Rating**. Note: The matrix below uses the state performance level language as outlined in the PEAC Guidelines.

**Table 22: Summative Performance Rating Matrix** 

|          | Summative Performance Rating Matrix |                               |                  |                  |                 |  |  |
|----------|-------------------------------------|-------------------------------|------------------|------------------|-----------------|--|--|
|          | Practice Rating                     |                               |                  |                  |                 |  |  |
|          |                                     | Exemplary                     | Effective        | Developing       | Below Standard  |  |  |
|          |                                     | (175-200 points)              | (127-174 points) | (81-126 points)  | (50-80 points)  |  |  |
|          | Exemplary                           | Exemplary                     | Exemplary        | Effective        | Gather Further  |  |  |
| Rating   | (175-200 points)                    | (175-200 points)              | (175-200 points) | (127-174 points) | Information     |  |  |
| Ra       | Effective                           | Exemplary                     | Effective        | Effective        | Developing      |  |  |
| Outcomes | (127-174 points)                    | (175-200 points)              | (127-174 points) | (127-174 points) | (81-126 points) |  |  |
| Out      | Developing                          | Effective                     | Effective        | Developing       | Developing      |  |  |
|          | (81-126 points)                     | (127-174 points)              | (127-174 points) | (81-126 points)  | (81-126 points) |  |  |
|          | Below Standard                      | Cathor Eurthon                | Developing       | Developing       | Below Standard  |  |  |
|          | (50-80 points)                      | Gather Further<br>Information | (81-126 points)  | (81-126 points)  | (50-80 points)  |  |  |

#### E. Data Management System

ReView Talent Feedback System is the district's web-based performance management software. All forms associated with the *Bethany Professional Administrator Growth and Evaluation Plan* will be accessed electronically by Administrators and Evaluators via the district's website under Faculty Resources.

### **III.** Orientation to the Administrator Evaluation Process

The district will present an overview of the *Plan* as part of the first day of the 2017 – 2018 Summer Leadership Retreat. Throughout the school year, some leadership meeting time will be devoted to components of the *Plan's* process and procedures. Annual orientations will occur no later than October 30. Overview of the *Plan* will be part of each new Administrator orientation and ongoing support program offered by the district.

#### **Evaluator Norming/Calibration Training**

Annually, Administrators will engage in professional learning opportunities, including online options and collaborative sessions that will develop their skills in effective observation, providing meaningful and useful feedback, and engaging in productive professional conversations with educators. BPSD will regularly provide opportunities for Administrators to demonstrate calibration and proficiency through professional development.

### IV. Developing and Supporting Administrators through Professional Learning

The goal of professional learning opportunities in Bethany is to support reflective practice. In Bethany, all Administrators must be models of ongoing learning. As a result, Bethany believes that professional learning that improves the learning of all students:

- Organizes adults into professional learning communities whose goals are aligned to school and district strategic plans and provides educators with the knowledge and skills to collaborate.
- Requires skillful school and district leaders who guide continuous instructional improvement.
- Requires resources such as survey data, evaluation data, etc. to support educator learning and collaboration.
- Uses disaggregated student data to determine adult learning priorities, monitor progress and help sustain continuous improvement data.
- Prepares educators to apply research to decision making, uses learning strategies appropriate
  to the intended goal and applies knowledge about human learning and change.
- Prepares educators to understand and appreciate all students, create safe, orderly and supportive learning environments, and hold high expectations for their academic achievement.
- Deepens educators' content knowledge, provides them with research-based instructional strategies to assist students in meeting rigorous academic standards, and prepares them to use various types of classroom assessments appropriately.
- Provides educators with knowledge and skills to involve families and other stakeholders appropriately.

Prior to the beginning of the 2017 - 2018 school year, the PDEC will meet to organize a formal plan for professional learning to be instituted for all staff during the 2017 - 2018 school year. Data from the previous year will be considered alongside strategic initiatives to determine the needs for all professionals. Planning will determine the professional learning needs and the corresponding venues for:

- Professional learning for which all staff will participate.
- Sub-group needs and corresponding professional learning.
- Targeted training required to support individuals.

Resources will then be determined to support all three tiers of professional learning in alignment with the 2017 - 2018 BPSD Annual Budget.

### V. Effectiveness and Ineffectiveness of Summative Ratings

An effective Administrator is one who obtains and maintains a final summative rating of three or above. A novice Administrator shall generally be deemed effective if said Administrator receives at least two sequential proficient ratings, one of which must be earned in the fourth year of a novice Administrator's career. An Administrator receiving a summative rating of one or two will enter the Administrator Assistance Process. Failing to successfully complete the AAP will result in an Administrator being defined as ineffective according to state guidelines.

#### VI. Administrator Assistance Process

#### **Individual Administrator Improvement and Remediation Plans**

Bethany Public Schools will create plans of individual improvement and/or remediation for Administrators whose performance level is ineffective: **Developing** or **Below Standard**. These plans will be collaboratively developed with the Administrator. The plan must:

- identify resources, support and other strategies to be provided to the Administrator to address documented deficiencies,
- indicate a timeline for implementing such resources, support or other strategies in the course of the same year that the plan is issued, and
- include indicators of success, including a Summative Rating of Effective or better at the conclusion of the improvement or remediation plan.

#### **Administrator Support Plan Procedures**

1. If the summative performance of an Administrator is rated ineffective, the Evaluator will provide the Administrator with written notification that a conference is required. The Evaluator will set a date and time for this conference, which should take place within three weeks after the ineffective rating is determined (possible June meeting for articulation of planning for following school year – this must align to district calendar and personnel schedules; e.g., 10-month versus 12-month administrative staff).

- 2. The Evaluator will conduct the conference with the Administrator. At this meeting, the Evaluator will state the concern(s) regarding the Administrator's performance and the Administrator will be given the opportunity to verbally respond to the concern(s).
- 3. If, after this meeting, the Evaluator determines that an Administrator Support Plan is needed, he/she will notify the Administrator in writing of the specific reasons for placing the Administrator on an Administrator Support Plan. This notification may occur at any time within the next thirty working days.
- 4. Once the Administrator receives this notification, he/she will have ten working days to respond in writing to the Evaluator. However, a response is not required.
- 5. At any time after notification of being placed on an Administrator Support Plan, the Administrator has the option of requesting a support team. This two-person team will consist of one administrative staff member from the district and one administrator or consultant outside the district selected by the Evaluator. The nature of this team is purely supportive (not punitive). The team will assist, and not evaluate, the Administrator in mutually agreed upon ways.
- 6. Following the conclusion of the ten working day response period, the Evaluator will schedule a meeting within the next ten working days to determine the plan of action for the Administrator Support Program.
- 7. This Administrator Support Plan will include a restatement of the area(s) of concern, what type/extent of improvement is needed, steps to be taken to achieve that improvement, and an estimate of the time (days/weeks) when the improvement should be observable.
- 8. The Administrator Support Plan will be implemented by the Evaluator working in conjunction with the Administrator. Both parties are responsible for taking appropriate and timely measures in an effort to effect an improvement in the Administrator's professional practice.
- 9. If improvement is not evident after stated estimation of time (see Step 7) additional action may be taken to either intensify support or begin action in support of dismissal.

#### **Career Development and Professional Growth**

The Bethany Public School District will provide opportunities for Administrator career development and professional growth based on the results of the evaluation. Administrators with an evaluation of Effective or Exemplary will be able to participate in opportunities to further their professional growth, including attending state and national conferences and other professional learning opportunities.

For Administrators rated Exemplary, the following career development and professional growth opportunities would be available: observation of peers; mentoring/coaching to early career administrators or administrators new to Bethany, participating in development of administrator improvement and remediation plans for peers whose performance is developing or below standard; leading professional learning communities for their peers; and, targeted professional development based on areas of need.

#### **Evaluation – Informed Professional Learning**

Bethany Public Schools has established a system upon which its highest performing Administrators (those Administrators who consistently demonstrate Exemplary Summative Ratings) are provided opportunities for professional learning that replaces the standard protocols for professional learning outlined in the *Bethany Public Schools Professional Administrator Growth and Evaluation Plan*. Through their professional growth planning, Administrators can control their own professional development after receiving feedback and guidance from their direct Evaluator.

Professional growth options include, but are not limited to the following:

- <u>Peer Coaching</u> The Peer Coaching option includes the participation of two or more administrators to practice peer support through a collegial approach to the observation and review of learning situations in the classroom. This option requires participation in a training component designed to assist in observation, feedback, and communications techniques.
- Reflection and Continuous Learning This option provides the Administrator the opportunity
  to engage in self-evaluation of the effects of leadership practice on educator and student
  performance. Through collaboration with the designated Evaluator and possibly other
  colleagues. The Administrator will analyze school and/or district professional development
  needs, school and/or district student performance outcomes, and propose supports structures
  to improve practice and performance.
- <u>Independent Project</u> This option allows for the Administrator to enrich his/her knowledge of leadership practices or related areas through an examination of professional literature, participation in professional organizations, participation in action research, attendance at seminars, workshops or related professional activities.
- <u>Portfolio</u> This option allows Administrators the opportunity to develop a portfolio that focuses on a portion of one of the following.
  - o Bethany Public Schools Teaching and Learning Framework.
  - o Connecticut's Common Core of Leading.
  - Connecticut Common Core State Standards.
  - Standards for School Leaders (as applies to Administrators).
- Other Administrators are encouraged to creatively explore and design options which improve effectiveness, encourage professional growth and positively impact student learning. Creative options are developed in collaboration with the Evaluator and other district colleagues.

### **VII. Dispute Resolution Process**

The success of the Administrator Evaluation Process is based upon cooperation and mutual respect of both the Administrator and Evaluator. It is hoped that conflicts can be avoided through thoughtful planning, open communication and calibrated training. On occasion, however, conflicts may arise. In that event, the Administrator shall be entitled to representation at all levels of the resolution process. The appeal procedure is designed to facilitate the resolution of disputes generated by the evaluation process, such as where an Evaluator and Administrator cannot agree on objectives/goals, the evaluation period, feedback on performance and practice, or final Summative Rating. Resolutions must be topic specific and timely.

#### Procedure:

- 1. In the event of a conflict, the Administrator will submit a written dispute to the Evaluator, explaining the specific component(s) of the evaluation process being disputed and the reason(s) for the dispute.
- 2. Within three working days of articulating the complaint in writing, the Administrator will meet and discuss the matter with the Evaluator with the objective of resolving the matter informally.
- 3. If there has been no resolution, the district will establish a panel consisting of a district administrator of equal management level as the Administrator, and a mutually agreed upon third party, such as an independent consultant, RESC consultant, or Regional Superintendent, within three working days of the informal meeting.
- 4. The panel will review information from the Evaluator and the Administrator and will meet with both parties within five working days after receiving the aforementioned information. The panel must come to a resolution with unanimous agreement.
- 5. Should the process established not result in the resolution of a given issue, the determination regarding that issue will be made by the district Superintendent.

### Introduction

#### **History**

Connecticut's first leadership standards were formally adopted in 1999 and after 12 years of use were revised based on the national Interstate School Leadership Licensure Consortium (ISLLC) Standards. The Common Core of Leading-Connecticut School Leadership Standards (CCL-CSLS), adopted by the Connecticut State Department of Education in 2012, currently serves as the foundation for a variety of state functions, including leadership preparation program accreditation, licensure assessment, and administrator evaluation and support throughout an administrator's professional career. The CCL-CSLS identifies six performance expectations that describe the knowledge, skills and dispositions necessary in key areas of leadership practice.

In accordance with the *Connecticut Guidelines for Educator Evaluation*, the *Leader Evaluation Rubric* was developed to describe the indicators of leadership practice within the six performance expectations of the CCL-CSLS in a standards-based rubric with ratings across four performance levels. The *Leader Evaluation Rubric* established a common language to operationalize the six performance expectations as well as to guide professional conversations about leadership practice. The tool was well received as it promoted continuous improvement of school and district leaders; however, feedback from the field indicated the need to revise the rubric in order to remove redundancies and make it more manageable.

In February 2015, the Connecticut State Department of Education (CSDE) convened a Leader Validation Rubric Committee to begin phase one of a validation study of the *Leader Evaluation Rubric*. The committee included an extensive group of practicing administrators and superintendents representative of various school districts and educational organizations throughout Connecticut. Their process began by reviewing work that was currently in progress by other organizations, as well as research into rubrics used nationally. What resulted from this intensive process is the *CT Leader Evaluation and Support Rubric 2015*.

### Structure of the CT Leader Evaluation and Support Rubric 2015

The CT Leader Evaluation and Support Rubric 2015 is organized into four domains and addresses leadership practices from each of the six performance expectations of the CCL-CSLS. The four domains are as follows: Instructional Leadership, Talent Management, Organizational Systems, and Culture and Climate. While the CT Leader

Evaluation and Support Rubric 2015 is one option to use in the evaluation and support of administrators, the CCL-CSLS still remain as Connecticut's leadership standards and apply to all Connecticut administrators. Please note that in the progression of practice across four levels of performance that the performances described in the Exemplary column are in addition to the performances described in the Proficient column. The CT Leader Evaluation and Support Rubric 2015 also includes Potential Sources of Evidence. Each administrator and his or her evaluator are encouraged to discuss which sources of evidence would provide the most useful information about the administrator's performance and practice during the goal-setting process. The list of sources provided is not intended to be all inclusive but serves as an illustrative sampling.

Initial responses to the revised *CT Leader Evaluation and Support Rubric 2015* praise the emphasis on a leader's role in the following key areas: the alignment of school and district improvement processes; recruitment, development, and retention of a diverse workforce; commitment to equitable and ethical practices; and investment in building the capacity of others to expand and exhibit their leadership potential.

### **Training and Calibration**

The CT Leader Evaluation and Support Rubric 2015 may be used by evaluators who have been trained in conducting effective observations and providing high-quality feedback. CSDE-sponsored trainings include training focused on the use of the CT Leader Evaluation and Support Rubric 2015, as well as on the administrator evaluation and support model as a whole. Accurate and reliable evaluation of administrator performance and practice based on the domains, indicators and attributes of the CT Leader Evaluation and Support Rubric 2015 can only be achieved through training, experience and professional judgement. To ensure consistent and fair evaluations across different observers and settings, evaluators need to regularly calibrate their judgments against those of their colleagues. Engaging in ongoing calibration activities conducted around a common understanding of effective leadership practice will help to establish inter-rater reliability and ensure fair and consistent evaluations. Calibration activities offer an opportunity to participate in rich discussion and reflection through which to deepen understanding of the CT Leader Evaluation and Support Rubric 2015 and ensure evaluators can accurately measure leadership practice as described in the indicators within the rubric.

### Comparison of CT Leader Evaluation Rubric and CT Leader Evaluation and Support Rubric 2015

In the revised rubric, the six Performance Expectations of the CCL-CSLS have been reorganized into four domains and renamed to capture the most essential skills of a leader.

| CT Leader Evaluation Rubric  | CT Leader Evaluation and Support Rubric 2015               |
|--|--|
| Performance Expectation 1: Vision, Mission and Goals:                                | Domain 1: Instructional Leadership                         |
| Element A: High Expectations for All   | Indicator 1.1 Shared Vision, Mission and Goals             |
| Element B: Shared Commitments to Implement and Sustain the Vision, Mission and Goals | Indicator 1.2 Curriculum, Instruction and Assessment       |
| Element C: Continuous Improvement toward the Vision, Mission and Goals               | Indicator 1.3 Continuous Improvement                       |
|  | Domain 2: Talent Management                                |
| Performance Expectation 2: Teaching and Learning                                     | Indicator 2.1 Recruitment, Selection and Retention         |
| Element A: Strong Professional Culture   | Indicator 2.2 Professional Learning                        |
| Element B: Curriculum and Instruction  | Indicator 2.3 Observation and Performance Evaluation       |
| Element C: Assessment and Accountability   |  |
|  | Domain 3: Organizational Systems                           |
| Performance Expectation 3: Organizational Systems and Safety                         | Indicator 3.1 Operational Management                       |
| Element A: Welfare and Safety of Students, Faculty and Staff                         | Indicator 3.2 Resource Management                          |
| Element B: Operational Systems   |  |
| Element C: Fiscal and Human Resources  | Domain 4: Culture and Climate                              |
| Performance Expectation 4: Families and Stakeholders                                 | Indicator 4.1 Family, Community and Stakeholder Engagement |
| Performance Expectation 4: Families and Stakeholders                                 | Indicator 4.2 School Culture and Climate                   |
| Element A: Collaboration with Families and Community Members                         | Indicator 4.3 Equitable and Ethical Practice               |
| Element B: Community Interests and Needs   |  |
| Element C: Community Resources   |  |
| Performance Expectation 5: Ethics and Integrity                                      |  |
| Element A: Ethical and Legal Standards of the Profession                             |  |
| Element B: Personal Values and Beliefs   |  |
| Element C: High Standards for Self and Others  |  |

### Connecticut Leader Evaluation and Support Rubric 2015 — At a Glance

#### ► Domain 1: Instructional Leadership

Domain 2: Talent Management

Education leaders ensure the success and achievement of all students by developing a shared vision, mission and goals focused on high expectations for all students, and by monitoring and continuously improving curriculum, instruction and assessment.

- 1.1 Shared Vision, Mission and Goals Leaders collaboratively develop, implement and sustain the vision, mission and goals to support high expectations for all students and staff.
- 1.2 Curriculum, Instruction and Assessment Leaders develop a shared understanding of standards-based best practices in curriculum, instruction and assessment.
- 1.3 Continuous Improvement Leaders use assessments, data systems and accountability strategies to monitor and evaluate progress and close achievement gaps.

Education leaders ensure the success and achievement of all students by implementing practices to recruit, select, support and retain highly qualified staff, and by demonstrating a commitment to high-quality systems for professional learning.

- 2.1 Recruitment, Selection and Retention Recruits, selects, supports and retains effective educators needed to implement the school or district's vision, mission and goals.
- 2.2 Professional Learning Establishes a collaborative professional learning system that is grounded in a vision of high-quality instruction and continuous improvement through the use of data to advance the school or district's vision, mission and goals.
- 2.3 Observation and Performance Evaluation Ensures high-quality, standards-based instruction by building the capacity of educators to lead and improve teaching and learning.

### Domain 3: Organizational Systems

Domain 4: Culture and Climate

Education leaders ensure the success and achievement of all students by managing organizational systems and resources for a safe, high-performing learning environment.

- 3.1 **Operational Management** Strategically aligns organizational systems and resources to support student achievement and school improvement.
- 3.2 **Resource Management** Establishes a system for fiscal, educational and technology resources that operate in support of teaching and learning.

Education leaders ensure the success and achievement of all students by collaborating with families and other stakeholders to respond to diverse community needs and interests, by promoting a positive culture and climate, and by modeling ethical behavior and integrity.

- 4.1 Family, Community and Stakeholder Engagement Uses professional influence to promote the growth of all students by actively engaging and collaborating with families, community partners and other stakeholders to support the vision, mission and goals of the school and district.
- 4.2 **School Culture and Climate** Establishes a positive climate for student achievement, as well as high expectations for adult and student conduct.
- 4.3 **Equitable and Ethical Practice** Maintains a focus on ethical decisions, cultural competencies, social justice and inclusive practice for all members of the school/district community.

### **Domain 1: Instructional Leadership**

Education leaders ensure the success and achievement of all students by developing a shared vision, mission and goals focused on high expectations for all students, and by monitoring and continuously improving curriculum, instruction and assessment.

#### 1.1 Shared Vision, Mission and Goals Leaders collaboratively develop, implement and sustain the vision, mission and goals to support high expectations for all students and staff.
