1.1 Introduction

The Education Finance System (EFS) is a financial data collection system to be used by local and regional boards of education, including charter schools and regional educational service centers (RESCs), to report data to the Connecticut State Department of Education (CSDE) supporting:

- State education financial reporting, including that required by Uniform Chart of Accounts (UCOA) legislation, and
- Federal education financial reporting, including that required by the Every Student Succeeds Act (ESSA) and the F-33 School-Level Finance Survey.

Sections 10-224 and 10-227 of the Connecticut General Statutes provide the legal authority for CSDE to collect financial data from local education agencies (LEAs).

The EFS is designed to allow LEAs to upload expenditure records obtained from local accounting systems to minimize manual data entry. However, prior to upload each record must be classified using EFS Codes as to:

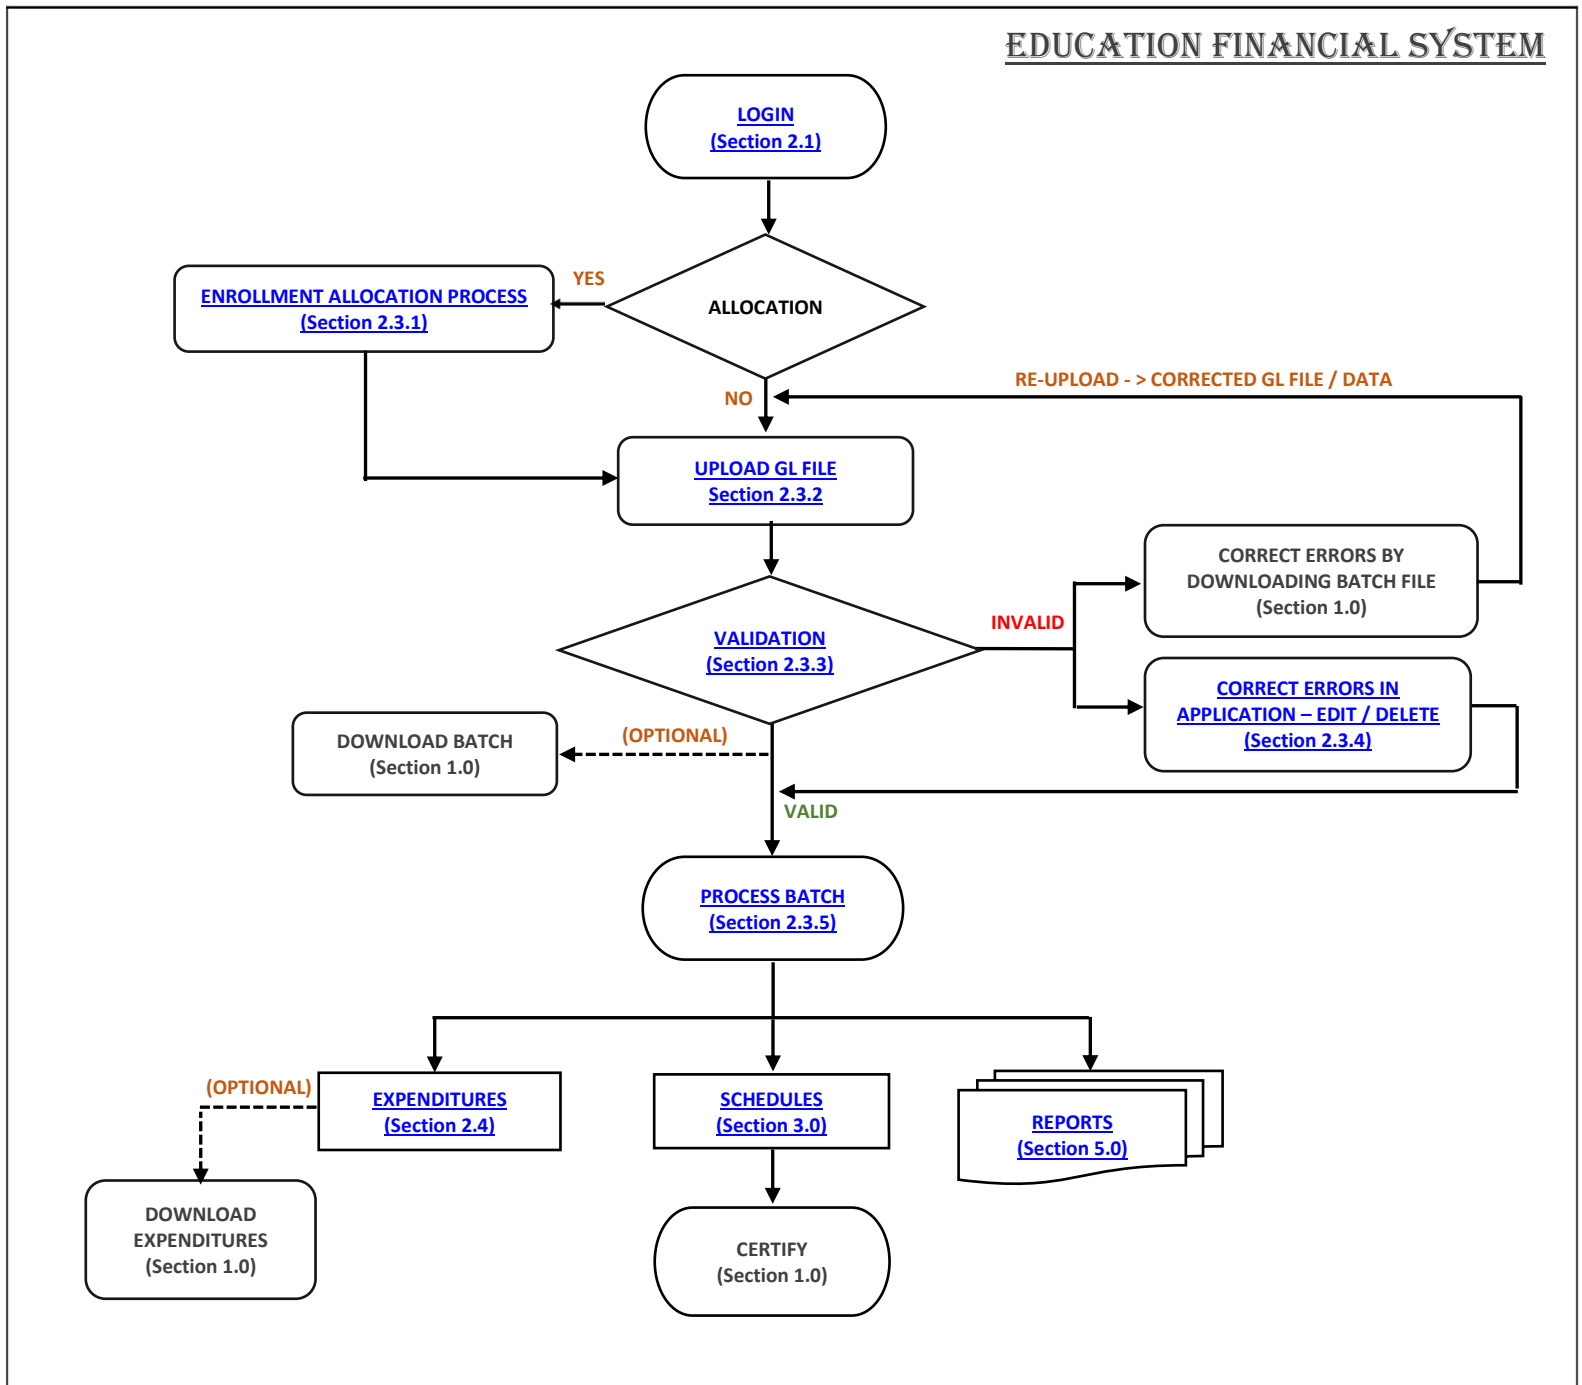

- Funding Source
- Function
- Object
- Education Type
- PreK
- Allocation
- Location

Classifications, coding and definitions are based on National Center for Education Statistics (NCES) codes as listed in the publication FINANCIAL ACCOUNTING FOR LOCAL AND STATE SCHOOL SYSTEMS 2014 EDITION (NCES 2015-347). This document is available at:

<https://nces.ed.gov/pubs2015/2015347.pdf>. The coding is intended to provide complete, uniform and comparable data for each school district and school. Where necessary, however, we have created additional detailed codes to allow for an appropriate reporting for our purposes.

1.2 General Instructions

1.2.1 EFS Overview

Note : Press Ctrl + Click on each of the Process to navigate to the respective sections in the document

1.2.2 Basis of Accounting

Reporting in EFS must utilize the accrual or modified accrual basis of accounting and cover the period July 1 through June 30 regardless of the LEA's fiscal year. Expenditures must include encumbrances as of June 30.

1.2.3 Inclusions and Exclusions

The EFS collects expenditure data, and limited revenue data, for all public prekindergarten through grade 12 education in Connecticut. This includes board of education expenditures and expenditures from state and federal grants as well as the value of in-kind services. In addition to records from the LEA's accounting system, expenditure data may also include:

- In-kind services data provided by town officials.
- Expenditures for land, facilities acquisition and construction, debt service, interest, major remodeling and equipment, whether made from the board of education budget or from the town budget.

There are several categories of expenditures which are excluded from public PreK through grade 12 education expenditures, regardless of their funding source. Expenditures for the following must either be excluded from EFS reporting altogether or identified using the applicable EFS coding:

- Community services;
- Nonpublic school health services;
- Nonpublic school transportation services to nonmember students (except as required on the Transportation Schedule);
- Nonpublic expenditures from state and federal grant programs;
- Adult and adult basic education programs;
- Vocational agriculture services to adults and out-of-school youth;
- Continuing education programs;
- Volunteer services;
- Tuition summer school;
- Student activity funds;
- Salaries and fringe benefits for uncertified personnel in certified positions;
- Noneducational expenditures;
- Other nonpublic expenditures; and
- PTO and PTA contributions.
- Depreciation expense; in EFS, expenditures for school construction, property and equipment are reported in the year incurred.

Employee benefit expenditures reported such as retirement, health insurance, etc., must be reported "net" of related revenues from non-local tax sources (e.g., contributions from the State Teachers' Retirement Board, employee co-payments, etc.).

1.2.4 Charter School Reporting

Charter school districts report expenditures in EFS consistently with the requirements for local and regional school districts. The schedule applicability matrix in Section 3.1 lists the EFS schedules applicable to each type of district. The following additional information applies to charter school districts:

- Before completing EFS, please complete the Worksheet for Determining Approved Charter School Application Expenditures (see [Appendix F](#)).
- To complete EFS, you will need, in addition to your regular accounting records, the details of services provided by your local school district or other town agencies. Report these in EFS as in-kind expenditures (see [Section 4.2](#) instructions for EFS Funding Source Codes 12-17).
- For certain state and federal grants, the local board of education has the option to
 - Pass the grant money on to the charter school, or
 - Hold the money in an account, provide services to the charter school and pay for those services from that account. For the charter school district, this is considered an in-kind expenditure.

1.2.5 RESC Reporting

RESCs report expenditures in EFS consistently with the requirements for local and regional school districts, with the exception that for RESCs established as governmental entities, total expenditures from governmental funds, and for RESCs not established as governmental entities, total expenditures, must be reported. The following additional information applies to RESCs:

- The EFS expenditure codes allow classification of expenditures between those that apply to RESC schools/school district, vs. those that apply to other functions that RESCs perform. EFS Education Types 1, 2, and 3 identify expenditures for elementary and secondary education that apply to RESC schools/school districts. Other education types are used to indicate expenditures for other RESC activities.
- The EFS Federal, State, and Private/Miscellaneous Funding Schedules provide separate sections for total RESC expenditures and for RESC school/school district expenditures. The sources of funding need to be reconciled with EFS expenditure reporting separately for each section.
- Ensure that total expenditures reported in EFS are not duplicated. The effects of inter-fund transactions must be eliminated before entering expenditures in EFS. The expenditure should be reported where ultimately incurred. For example, for a school which is charged an internal fee for copier usage, the expenditure should be reported for that school.

1.2.6 Filing requirements

Section 10-227 of the Connecticut General Statutes requires that EFS data be submitted on or before September 1.

1.2.7 Audit

Section 10-227 of the Connecticut General Statutes requires that each LEA's EFS submission be certified by an Independent Public Accountant. The CSDE Office of Internal Audit (OIA) annually publishes an Agreed-Upon Procedures package to be performed by the independent accountant. It is the LEA's responsibility to ensure that the required Agreed-Upon Procedures reports are submitted to the CSDE on or before December 31. This report should be submitted in accordance with the instructions provided in the OIA package.

For local and state audit purposes, all supporting documentation and work papers generated in submitting the EFS data must be maintained. It is the Superintendent's responsibility to maintain the supporting documentation necessary for a complete audit trail, including appropriate documentation for data provided by the town.

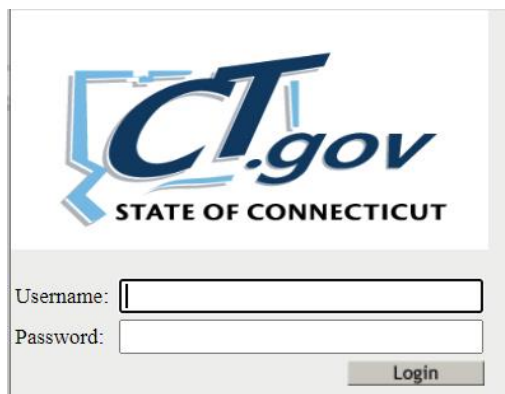

2.0 System Procedures

2.1 Logging in instructions

2.1.1 How to Access EFS data collection

Prerequisites: (An account in Directory Manager (DM) with an EFS role assigned.)

- Your username and password are sent in two separate emails when you are first added to Directory Manager by your LEA Security Manager. Usernames and passwords should NOT be shared, as each are unique to the assigned individual.
- Using Google Chrome or Microsoft Edge, go to the <https://csde.ct.gov> website. The system displays the State of Connecticut Login screen.

- Enter your Username and Password and select Login.
 - If you only have access to EFS, the system displays the Grants Data System Acknowledgement screen.
 - If you have access to more than one application, the system displays the CSDEHome Page.
 - Select Education Financial System from the Application drop-down menu and click Continue. The system displays the Grants Data System Acknowledgement screen.

NOTE: If you do not have access to EFS, contact your LEA Security Manager. If you do not know who your Security Manager is, please click this link and contact one of them:

https://edsight.ct.gov/SASStoredProcess/guest?_action=form.properties.execute.newwindow&_program=/CTDOE/EdSight/Release/Reporting/Public/Reports/StoredProcesses/DMRolesSearchReport_SiteCore. If you have a user name and password created but forgot your user name or password or both, or if you want to change your password, please go to this website to change:
<http://sdeportal.ct.gov/portaluser/>.

IMPORTANT: At this time, there are no school-level permissions. Permissions are only available at the DISTRICT-level.

2.2 Local File Upload Preparation Procedures

2.2.1 Extract data from local accounting system

- From your local accounting system, extract the expenditure account records, minimum fields to include:
 - Expenditure (expenditure to include encumbrances)
 - Account Number
 - Account Description

A	B	C	D	E	F	G	H	I	J	
Data Entry Columns							General Ledger Extract			
EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Number	Account Description	

Tip: Local account codes may be parsed to aid in sorting records to assign EFS codes (refer to Appendix A for tutorial in using this function in Excel).

- Copy the three columns from your local accounting system data and paste into the EFS data entry template (column H, I, J). (Click here to obtain template: <http://portal.ct.gov/SDE/Fiscal-Services/EFS/EducationFinancialSystem/Documents>)

2.2.2 Assigning EFS Codes to each record

- Using the EFS data entry template fill in column A through J, where (column H, I, J) should be your expenditure data.
- Using the EFS codes provided in section 4, complete column A through G.

A	B	C	D	E	F	G	H	I	J	
Data Entry Columns							General Ledger Extract			
EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Number	Account Description	
1	1000	B1	1	N		0105211	152,909.40	1000-01-21-1000-1-000-110005-	Teacher Salaries	

2.2.3 Options for adding or modifying records before uploading to EFS website

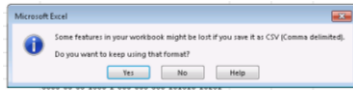

- Expenditures not recorded in the local accounting system may be added to the EFS template, as long as the appropriate EFS codes are used. We recommend that a description be included in the Account Description field (Column I), however the system will accept blank entries in Column I and J.
 - Example: Inkind funding expenditure...
- Expenditure line items can be modified/adjusted to suit the needs of the district, to give the most accurate reporting possible.
 - Example: Distributing/apportioning expenditure lines to different schools...

Tip: It will be helpful to refer to section 4.7.2 for allocation functions available in EFS.

2.2.4 Saving as *.csv (comma separated value) file

- Once all of the expenditure records have been assigned the proper EFS codes, also delete any data you may have used for sorting from columns K on, then save the Excel file.
- Saving to a *.csv file (this is the required format for upload)

- Go to File > Save as > desktop (this will save the file to your desktop, but it could be saved anywhere that is accessible)
- Under “Save as Type” select “CSV (Comma delimited) (*.csv)” from dropdown list
- Click save
- A message will appear, click yes.

2.3 GL File Upload Procedures

 - Edit- depending on the error, correct each record accordingly, using the dropdown list provided.
 - Delete- delete the record from the expenditure batch.

- Once the last error line has been cleared, the batch will need to be revalidated, click “Revalidate Batch”.

2.3.5 Process batch

- Once the batch has been validated without errors, click “Process Batch”.

- Warning prompt: if this is not the first time that the batch has been processed, proceeding with “process batch” will overwrite all previously processed batches and changes that have been made.

- Click “Process Batch”.

2.4 Expenditure Screen

2.4.1 Introduction

The expenditure screen shows all processed expenditure records from the uploaded file, as well as expenditure records added manually. This screen can be accessed only after an uploaded file has been processed per Section 2.3.5. The screen is accessed from the top of the application navigation menu.

The screenshot shows the 'Expenditure Detail' screen in the EFS (Education Financial System) application. The navigation bar at the top includes 'Home', 'Expenditures' (highlighted with a red circle), 'Schedules', 'Data Issues', and 'Reports'. The fiscal year is set to 2018-2019. The search criteria section includes dropdown menus for Funding Source Code, Education Type Code, Object Code, Function Code, PreK Code, Allocation Flag, Is Manual Entry?, CSDE Location Code, Expenditure, Account Code, Account Description, and Schedule Line. A 'Search' button is located at the bottom right of the search criteria section. Below the search criteria is an 'Add Record' button and an 'Export as CSV' button. The table below shows two expenditure records:

Funding Source Code	Function Code	Object Code	Education Type Code	PreK Code	Allocation Flag	Location Code	Expenditure	Account Code	Account Description	
1	21XX	B2	2	N		2440014	\$528.92	1105000	JUNE PAYCOM	 
1	21XX	B2	2	N		2440014	\$127.94	1105000	RETIREMENT PLAN	 

Figure 1 Expenditure screen

Additional batches may be processed, however will overwrite all expenditure records including manual entries. It may be useful to download existing expenditures before processing another batch by using the export functionality described in Section 2.4.4 below. The download file can be used in developing a revised upload file, to avoid errors experienced in the original upload.

2.4.2 Searching and Sorting Expenditures

As there could be hundreds or even thousands of expenditure records for most districts, searching and sorting capability is provided on this page to aid in locating specific expenditures.

There are 11 search criteria that can be specified for searching expenditures. Details are listed below:

Search Criteria	Type	Description
Funding Source Code	Dropdown of Pre-defined Values	Specifies the funding source code to search. Ex. 1, 2, 3, 4, etc.
Education Type Code	Dropdown of Pre-defined Values	Specifies the education type code to search. Ex. 1, 2, 3, 4, etc.
Object Code	Dropdown of Pre-defined Values	Specifies the object code to search. Ex. B1, B2, S1, S10, etc.
Function Code	Dropdown of Pre-defined Values	Specifies the function code to search. Ex. 1XXX, 27XX, etc. Note that any numeric values provided in the upload file are converted into EFS standard values while processing the batch.
PreK Code	Dropdown of Pre-defined Values	Specifies the pre-k code to search: 'N' for no and 'Y' for yes.
Allocation Flag	Dropdown of Pre-defined Values	Specifies the allocation flag to search. Ex. 1, 2, 3, 4, etc.
Is Manual Entry?	Dropdown of Pre-defined Values	Specifies whether to search for only manual entries. Manual entries are entries which have been added after batch processing.
CSDE Location	Dropdown of Pre-defined Values	Specifies the location codes to search. For example Hartford School District would have entries 0640011, 0641211, etc.
Expenditure	Free text of numeric values only	Specifies exact amount of expenditure to search. Ex. specifying 100 will show only expenditures of \$100.00.
Account Description	Free text	Specifies wildcard keyword to search in account description. Ex. specifying "supplies" would return all expenditure records which contain that word in the account description such as "Instructional Supplies".
Account Code	Free text	Specifies wildcard keyword to search in account code. Ex. specifying "2000" would return all expenditure records which contain that text in the account code such as "3000-41-23-2000-5-000-000-000".

Table 1 Search criteria list

In addition to the search function, records may be sorted by any column.

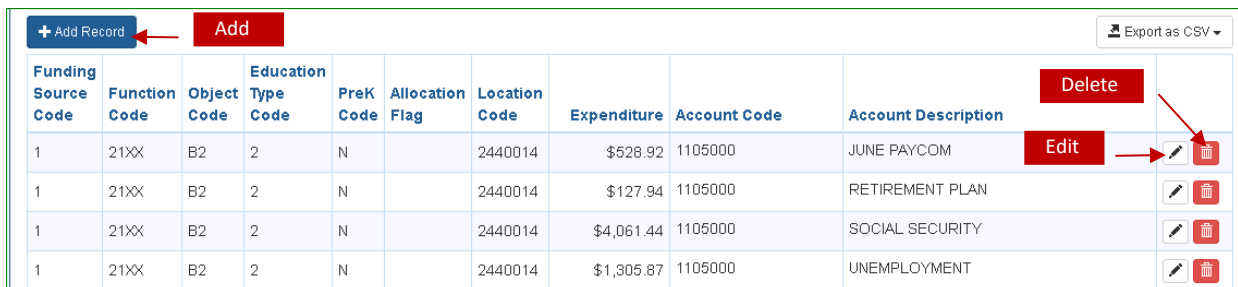

Funding Source Code	Function Code	Object Code	Education Type Code	PreK Code	Allocation Flag	Location Code	Expenditure	Account Code	Account Description	
1	25XX	B1	1	N		2440014	(\$975,000.00)	1401000	ELIMINATIONS

1	1XXX	B2	1	N		2445114	(\$722,704.00)	1210000	BENEFITS	 

Figure 2 Sorting data by column

Clicking on the header of a particular column sorts the data by ascending and clicking it again sorts the data by descending. Note that the sort order is preserved when navigating to different pages of the expenditure screen, however is lost if the search criteria are changed.

2.4.3 Modifying Expenditures

This screen also allows modification (i.e. create, update and delete) of any expenditure record. Each expenditure record has two small buttons in the last column to Edit or Delete. There is a larger green button on the top left of data grid to Add expenditures.

Funding Source Code	Function Code	Object Code	Education Type Code	PreK Code	Allocation Flag	Location Code	Expenditure	Account Code	Account Description	
1	21XX	B2	2	N		2440014	\$528.92	1105000	JUNE PAYCOM

1	21XX	B2	2	N		2440014	\$1,305.87	1105000	UNEMPLOYMENT	 

Figure 3 Expenditure modify buttons

The Edit button opens a popup with existing values prefilled for that particular expenditure record. Any field except allocation flag may be revised (allocation may only be specified before processing the batch).

EFS PreK Code N - Non Prek	Account Description JUNE PAYCOM

✕ Cancel Save

Figure 4 Edit record popup

If the changed values would result in an invalid combination of EFS codes, an error message will appear when the Save button is selected.

Keep in mind that changing the EFS code values on the Edit Record screen will also change relevant data on EFS schedules. For example, changing function code to “27X1” (Transportation to Out of Town Magnet Schools) in the above popup would move that expenditure from line TR2 to TR5 on the Transportation Schedule. This capability can be used to move records between different lines or schedules.

The Delete button removes the expenditure record from the system entirely; it cannot be restored.

Figure 5 Delete record confirmation

Like editing, deleting will change schedule data if that expenditure was connected to any schedule line.

The Add Record button opens the same popup screen as does the Edit button, but with empty fields to create a new expenditure entry. Records added here will also automatically add to applicable EFS schedule lines. As on the Edit Record popup screen, validation rules will be checked on saving and an error message will appear if applicable.

Figure 6 Add record popup

2.4.4 Exporting Expenditures

The system provides the capability to export expenditures into a downloadable CSV file. This data can then be saved for reference or used as the basis for a new revised upload file. One reason this can be helpful is that the download includes all manual entries made after processing the batch so that they can be included in a revised upload.

The button to export expenditures is located on the top right of the data grid. When this button is selected, two options, “Export All” and “Export Filtered”, will appear.

Figure 7 Export expenditures options

‘Export All’ will ignore any search filters currently on the page and exports all expenditure data into a single CSV file. This option can take time to export depending on the number of expenditure records. ‘Export Filtered’, on the other hand, will only export expenditures as currently filtered using the search criteria on the page. Only 20 records are visible per page but the export will include all applicable records from all pages.

The exported CSV file can be viewed and modified in Microsoft Excel or similar office applications and notepad. You can filter, sort or modify through columns in the Microsoft Excel or similar applications.

2.4.5 Schedule Status

The status of all schedules, as well as the general status of the collection, is shown on the Home page:

Collection is not ready to certify.

Schedule Status ?	
The list below indicates status as marked on each schedule. All schedules must be marked as either Completed or Not Applicable before certifying the collection.	
Schedule Name	Status
In kind	Completed
Expenditures for Land, Buildings, Capital Construction and Debt Service	Completed
Food Services	Completed
Special Education	Not Completed
Transportation	Completed
Tuition and Transportation Revenues (Board of Education)	Completed
Tuition and Transportation Revenues (Town)	Completed
Federal Funding	Completed
State Funding	Completed
Private/Miscellaneous Funding	Not Completed
Local Funding	Completed
Claim for Exceeding Statutory School Year	Completed
Regional High School Tuition Assessment and Detail of Pupils Sent Out of the District	Completed
Universal Service Fund (USF)	Not Applicable
Federal Impact Aid	Not Applicable

Each schedule may be accessed by clicking on the schedule name. The status is based on the checkboxes located on each schedule, as described in section 3.2.4. This page also indicates if the collection is ready to certify based on completion of all schedules. Note that if a new expenditure file is uploaded, the status of schedules previously marked as “Completed” will be changed to “Not Completed”.

2.4.6 Data Issues Status

Data Issues Status ?	
All data issues must have a status of Completed or Not Applicable before certifying the collection.	
Data Issues Type	Status
In-Schedule Trending	Completed
Trending - Shows status since last run. Run Now to Verify	Not Completed
Desk audit	Not Completed

Each data issue type may be accessed by clicking on the name. The status is based on whether or not all questions within each type have been answered, refer to section 6.0 for further details. Please note, “Trending” data issues must be run manually, therefore, the status shows the last time they were run. Users can update the status by clicking on the “Run now to verify” button or directly go to the trending page to rerun the trending list.

2.5 Expenditure Summary

2.5.1 Expenditure summary – Local and Regional School Districts

The Elementary/Secondary Education section is similar to the old ED001 schedule 12, line 1213/1. The reconciliation to Total Expenditures section adds back the expenditures not included in the upper section, to arrive at the total expenditures reported. The “Total EFS Expenditures” line is the same amount as the total shown on the Expenditure Detail page.

3.2.1 Expenditures from EFS database

Expenditures shown are from the uploaded expenditure file, EFS allocation function, and manual entries made on this or other schedules that are saved in the EFS expenditure database. To expand to view the details or add entries to these lines, click on the expansion down arrow or description:

Local Expenditures for Current Year Food Services Programs					
Line	Description	Amount	Last Year's Amount	Amount Change	Percent Change
FS101	Expenditures from Board of Education Budget (Local Sources Only)	\$ 204,147.33	\$29,302.64	\$174,844.69	596.69%

The details then appear:

Funding Source	Function	Object	Ed Type	PreK	Location	Expenditure	Account Code	Account Description	
12	311X	B2	1	N	0250211	\$166.83	2100-10-2520-0000-0000-50-00000-2-521000-	TOWN INKIND FINANCE DEPT BENEF

The edit button will open a pop-up window where the record may be revised:

Use the drop down arrows on to revise the EFS codes; enter the expenditure amount and account code and description directly. Note that the only EFS Code options available will be those that apply to the particular line; other revisions may be made on the Expenditure Screen (see Section 2.4.3). Click the “Save” button to save the changes.

-  The add button will open the same pop-up, with no data prefilled.
-  The trash can (delete) button will delete the record.

The revised data will be saved in the EFS expenditure database and will update all schedules as applicable based on the EFS Codes.

3.2.2 Schedule Manual Entries

For lines with no expansion arrow, enter amounts directly on the screen.

Line	Description	Amount	Last Year's Amount	Amount Change	Percent Change
FS201	Sales to Students and Adults	\$ 990,200.00	\$1,290,493.73	(\$300,293.73)	-23.27%

Before leaving the  page, click the button at the bottom of the page.

3.2.3 Prior year comparison

The prior year amount, and the amount and percentage changes of the current amount from the prior year amount are shown for information.

3.2.4 Marking a schedule as complete or not applicable

Each schedule includes checkboxes for identifying if the schedule has been completed or is not applicable to your district. Before the collection can be certified, one of these boxes must be checked on every schedule.

In order to mark a schedule as Completed, there must be no errors on that schedule. If a new expenditure file is uploaded, all “Mark a Schedule as Completed” checkboxes will be cleared.

In order to mark as schedule as Not Applicable, there must be no data appearing on the schedule, either those from expenditure records or manual entries.

3.3 District Contact & Certification Information

The screenshot shows the EFS interface. The 'Schedules' dropdown menu is open, and 'District Contact and Certification' is highlighted. The 'Certify' button is also highlighted. The main content area shows a form for 'Compliance with State Education Law' and 'Certification' with a 'Current Status' of 'Uncertified' and a 'Last Uncertified Reason' of 'to adjust object and function coding'.

To enter contact information and certification, go to Schedules > District Contact and Certification

3.3.1 Description

The District Contact and Certification Schedule is applicable to local and regional school districts, charter schools, and RESCs.

3.3.2 Line instructions

Contact Information

Enter contact information for the person in the district who is best able to answer questions concerning information reported in EFS for:

- Expenditures
- Land, Buildings, Capital Construction and Debt Service
- Universal Service Fund

Compliance with State Education Law

Confirm compliance with state education law by clicking either the “yes” or “no” radio button. “No” answers will require follow-up by CSDE.

Certification

The initial state of the collection is “Uncertified”, which allows EFS data to be entered, modified, or deleted. When the district has completed all data entry in EFS and the status of all schedules is either “Completed” or “Not Applicable”, the Superintendent, Charter School Administrator, or RESC Director

must certify the collection by clicking the “Certify” button, which changes the state of the collection to “Certified”. Data may not be entered, modified, or deleted when the collection is certified, however all schedules and reports are available for viewing.

Districts may request that the collection be uncertified to allow changes, by emailing SDE.efs@ct.gov.

3.4 In-Kind Expenditure Schedule

3.4.1 In-Kind Expenditure Schedule Description

In-kind expenditures reported in EFS are for services provided by other municipal agencies which directly support the public elementary and secondary educational programs of the school district. The school district reports these expenditures based on documentation obtained from the town's chief municipal officer or designee. The excel worksheet below (or similar) may be used to summarize in-kind services.

InKind worksheet.xlsx

The worksheet(s) together with all supporting documentation must be kept on file by the school district. Any expenditure which fails to meet the necessary auditing tests will be disallowed for EFS reporting purposes.

EFS reporting may include the allocated portion of direct costs incurred by the town for both public elementary and secondary educational programs and other municipal functions. In this case, allocation documentation of the following must be made available, on request, to CSDE or its representatives:

- a) Rationale for allocation including showing direct support of educational activities,
- b) Allocation method used,
- c) Percentage allocated,
- d) Cost base against which the allocation has been made,
- e) Worksheets which document staff time, fringe benefits and supplies used for those direct services, and
- f) That if the town did not provide these services, then the board of education would have to contract these services from private vendors or perform these services with board of education employees.

Note that indirect costs for operating overhead are not reportable as in-kind expenditures in EFS.

3.4.2 In-Kind Expenditure Schedule line instructions

All entries on the In-Kind Schedule are expenditures from the EFS database. The records to be included on each line are based on EFS codes as listed in the table below. The EFS Codes are defined in Section 4.

3.5 Food services expenditure schedule

3.5.1 Food services expenditure schedule description

This schedule is used to determine what amount, if any, of food service expenditures may be considered as a local contribution to education. This schedule must be completed only if local funds are expended to reduce or eliminate an operating deficit for the current or prior year. Entries on the Food Services Schedule are expenditures from the EFS database or manual entries on the schedule. The amounts to be included on each line are based on EFS codes, or described further as listed in the table below. The EFS Codes are defined in Section 4.

3.6 Special education expenditure schedule

3.6.1 Special education expenditure schedule description

Special education expenditures to be included in this schedule are defined in Sections 10- 76a and 10-76f of the Connecticut General Statutes. Special education functions are those activities exclusively devoted to the task of identifying and implementing special education programs and services in conjunction with the activities of the planning and placement team (PPT). Costs not considered unique to a special education program such as heating, property insurance and food supplies are includable in this schedule, therefore, only if provided in a building devoted exclusively to special education programs, in which case they should be reported in Lines SE201 – SE210. Otherwise, such costs are considered nonspecial education and are not to be included on this schedule. Entries on this schedule all are expenditures from the EFS database. The amounts to be included on each line are based on EFS codes, or described further as listed in the table below. The EFS Codes are defined in Section 4.

3.8 Federal funding schedule

3.8.1 Federal funding schedule description

The Federal Funding Schedule reports details of expenditures from federal funds, and reconciles to the total expenditures from federal funds used for free public elementary and secondary education as reported in the EFS expenditure database.

Amounts on the Federal Funding Schedules may be manual screen entries, expenditures imported from the eGrants Management System (eGMS), or from the EFS expenditure table. The EFS Codes are defined in Section 4.

The expenditures from consortium grants imported from eGMS onto line FF102/ FC102/ FR302 represent all expenditures made on your district's behalf as reported by the fiscal agent for the grant(s). Amounts shown may differ from actual payments received by your district. Description of the grants and fiscal agent are shown on the "Consortium Member Report Non-Fiscal Agent" report available in eGMS. The full consortium expenditure must be included in your district's EFS expenditure table; contact the fiscal agent if you need more information or to correct discrepancies.

Ensure that only expenditures are included; do not report any unexpended portion of grants. Any reimbursements due should be reported on the modified accrual basis to the extent that they cover expenditures. Keep in mind that for federal grants, the liquidation period is sixty (60) days. Supporting documentation of the reported expenditures must be maintained on file.

3.9 State funding schedule

3.9.1 State funding schedule description

The State Funding Schedule reports details of expenditures from state funds, and reconciles to the total expenditures from state funds used for free public elementary and secondary education as reported in the EFS expenditure database.

Amounts on the State Funding Schedule may be manual screen entries, expenditures imported from the eGrants Management System (eGMS), or from the EFS expenditure table. The EFS Codes are defined in Section 4.

The expenditures from consortium grants imported from eGMS onto line SF102/ SC102/ SR302 represent all expenditures made on your district's behalf as reported by the fiscal agent for the grant(s). Amounts shown may differ from actual payments received by your district. Description of the grants and fiscal agent are shown on the "Consortium Member Report Non-Fiscal Agent" report available in eGMS. The full consortium expenditure must be included in your district's EFS expenditure table; contact the fiscal agent if you need more information or to correct discrepancies.

Ensure that only expenditures are included; do not report any unexpended portion of grants. Any reimbursements due should be reported on the modified accrual basis to the extent that they cover expenditures. Keep in mind that for state grants, the liquidation period is thirty (30) days. Supporting documentation of the reported expenditures must be maintained on file.

3.12 Tuition and transportation revenue schedules

3.12.1 Tuition and transportation revenue schedules description

The Tuition and Transportation Revenue Schedules include all public elementary and secondary tuition and transportation paid by individuals, Connecticut school districts, other Connecticut government agencies, and out-of-state school districts and agencies. These schedules are completed by RESCs and local and regional school districts. For local and regional districts, there are two schedules, to separately report revenues received by the board of education and by the town.

Notes:

- Do not include nonpublic tuition or transportation revenues anywhere on this schedule.
- For the purposes of this schedule, gifted and talented programs are to be reported as regular or nonspecial education.
- Do not report on this schedule any revenues from state and federal grants or from regional district assessments paid by member towns.

All expenditures supported by these revenues must be reported in EFS using the appropriate EFS codes. Amounts on the Tuition and Transportation Revenue Schedules are manual screen entries. Note that each line below includes a reference to the revenue source codes listed in the U.S. Department of Education’s publication Financial Accounting for Local and State School Systems: 2014.

3.14 Land, Buildings, Capital Construction and Debt Service schedule

3.14.1 Land, Buildings, Capital Construction and Debt Service schedule description

The Expenditures for Land, Buildings, Capital Construction and Debt Service Schedule reports all school facility acquisition and construction, and education debt service expenditures, made from board of education, town, or agency accounts. These expenditures may come from local, state, federal, or private source funds. This schedule includes four independent sections:

- Expenditures for Land, Buildings, and Capital Construction: Expenditures that support any activity involving school facility acquisition or construction, however they were financed.
- Funding source for Land, Buildings, and Capital Construction Expenditures: Specify the portions of the expenditures funded by long-term borrowing and by current funds. The total must equal the total expenditures reported.
- Expenditures for Debt Service and Selected Non-Debt Service Capital Construction: Education debt service and certain school construction expenditures. Expenditures in this section generally will not reconcile with the other sections of this schedule.
- School Construction Grant Payments Information: State grant payments related to school construction are shown by CSDE to assist the preparer in identifying projects and debt payments to be reported elsewhere on this schedule. Only a local official can determine if expenditures relating to these grant payments are eligible to be reported.

See Appendix C for further information and examples of expenditures to report on this schedule.

3.16 Universal Service Fund Data

3.16.1 Universal Service Fund Data schedule description

The purpose of the Universal Service Fund (USF) Schedule is to collect the amount of refunds, credits, or discounts received for the benefit of the school district via the Universal Service Administrative Company. A description of the USF and its operation is available at <http://www.usac.org>. The amount reported on the USF Schedule is **not** included in district expenditures reported in EFS. The CSDE will add the amount reported on this schedule to the expenditures reported in the EFS database for external reporting on total school district expenditures.

Data Item for USF				
US101/ UC101/ UR101	Any Universal Service Fund (USF) source refunds, credits or service provider discounts received during the school year.	Screen entry	See detailed description below.	Data Item Sheet for USF, Line 4

Description of amount to report on Line US101/UC101/UR101

Report refunds paid to the school district/municipality, credits applied to school district/ municipality accounts, or discounts received by the service provider on behalf of the school district/municipality for public elementary and secondary education services. Note: The USF administers programs that provide assistance that goes beyond public elementary and secondary education, which are not eligible to be reported on this line. For example, the local public library is eligible to apply for USF support however that support is not reported on the USF Schedule because the use is for other than elementary and secondary education.

Do not include the amount reported on Line US101/UC101/UR101 in the expenditures reported in the EFS database. Further, expenditures reported in EFS must be net of any USF refunds received during the fiscal year, whether the refund relates to the current or a prior fiscal year.

To assist in determining the amount to be reported, the amounts committed for each year are available on the Universal Service Administrative Company website: <http://www.usac.org/sl/tools/commitments-search/Default.aspx>.

At this web address you have the option to select a BASIC search or an ADVANCED search.

- 1) Click on the “Advanced Search” term. This will bring you to a new web page.
- 2) From the Funding Year pull down menu select the applicable year.
- 3) In the City field, enter the name of your town/city.
- 4) From the State pull-down menu select Connecticut. Leave other fields blank (entering a zip code may erroneously omit some town funding, especially in towns with more than one zip code).
- 5) Click the Search button. What will be displayed is a list of approved applicants (including public and private schools and/or districts, libraries, and some municipal offices) for your town.
- 6) Select from the list those applicants that are from your school district, and add their total amounts (far right column) to arrive at your total commitment amount. In some cases, there may be only one applicant from your district. In other cases, each school and the district may file separately.

The website has the option to download the data into an Excel file to assist you in this process. Some adjustments to formatting the data may be required. Additional information regarding the search option is located at <http://www.usac.org/sl/tools/default.aspx>.

Please note that the commitment amount determined from the website may not match what you will report on this schedule, due to the timing of when the actual services were received or due to the difference between what level of services the commitment amount was based on versus the actual services that were received.

The CSDE does not receive commitment data from the Universal Service Administrative Company for public elementary and secondary education services. While we cannot answer specific questions regarding USF benefits received by your district, our Office of Information Systems, at (860) 713-6610, may be able to assist with general questions regarding technology.

3.19 Charter School Related Party and Management Organization Information schedule

3.19.1 Charter School Related Party and Management Organization Information schedule description

The Charter School Related Party and Management Organization Information schedule collects information related to the management of the charter school.

All related party activity must be disclosed. FASB Statement No. 57 provides guidance on the definition of related parties. Related parties include persons or organizations related through marriage, ability to control, ownership, family or business association. Past exercise of influence or control need not be shown, only the potential or ability to directly or indirectly exercise influence or control for the current school year.

Your Certified Public Accountant (CPA) can provide assistance regarding the definition of related parties relative to FASB Statement No. 57. The CSDE requires that the CPA who reviews this schedule review all related party activity regardless of materiality. All related party activity is of equal importance, regardless of the amount, frequency or type of activity.

Unlike the other schedules in EFS, where expenditures are limited to only those activities relating to providing elementary and secondary education services, on this schedule report all charter school related party activity goods/services and/or payments to charter school management organizations.

When reporting the goods/services, report the annual amount by the type of good or service. If a related party provides more than one type of service during the fiscal year, e.g., bookkeeping services and transportation services, list both services and the annual amount for each service.

If a related party provides management-related type services, that information must be reported in both the Related Party and Charter School Management Organization sections of this schedule.

EFS Funding Source Code 10: Other Local Funds - Other

EFS Funding code 10 is used when the expenditure is designed by local officials to not be managed via the normal local appropriation process.

EFS Funding code 10 is a catch all code used when the EFS Funding codes 6, 7, 8, and 9 can not be used.

- formerly 2016-17 ED001 Schedule 9 Lines 924.01 - 924.99: Other . These lines in the ED001 Schedule 9 were for the district to list other additional situations (other than those listed on lines 920, 921, 922, or 923) where a special situation existed in the management of funds among the municipality and the Board of Education’

Below is an example of when EFS Funding code 10 might be used.

- If the municipality received up to 2% of your Education Cost Sharing (ECS) Grant under the set-aside provisions of C.G.S. 10-262k for compensatory education programs this year, and the entire amount for the grant is not appropriated, and you did not code the expenditure(s) with an EFS Funding code of “1”, Local Budget Appropriation, then EFS Funding code of “10” does apply to the expenditure(s). If, however, the municipality did appropriate this grant, i.e., you coded the expenditure(s) with an EFS Funding code of “1”, Local Budget Appropriation, then you would not use EFS Funding code of “10”.

EFS Funding Source Code 11: Unliquidated Encumbrances from Prior Year

Reporting of Unliquidated Encumbrances from Prior Year (EFS Funding Source Code 11)

Expenditures reported in EFS must be reduced to reflect any encumbrances funded from the appropriated board of education budget reported as expenditures in the prior year that were not liquidated in part or in total. Report the unliquidated portion of these encumbrances as expenditure credit amounts using EFS Funding Source Code 11; EFS will reduce local funds by the amount of the unliquidated encumbrances on all applicable EFS schedules and reports.

EFS Funding code 11 is used when you need to report the unliquidated amount of encumbrances from 2016-17 which were committed against funds from the appropriated board budget.

Formerly 2016-17 ED001 Schedule 9 Line 927 type expenditure: Unliquidated Encumbrances from Prior Year

EFS Funding Source Code 12: Local Tax InKind

EFS Funding code of “12” is for an expenditure incurred by a municipal agency other than the Board of Education. Rather than the Board of Education managing various expenditures, municipal officials determine it is in the best interest of the municipality that other local officials manage the expenditure. Further, the expenditure is funded from a local tax source. For the most part, the local tax source is the local property tax. However, the municipality may have other local funding sources that are not state source funds, that are not federal source funds, that are not private source funds or that are not Medicaid source funds. An example may be an expenditure that is supported not by the local property tax, but rather by a fee charged by the municipal official as a substitute for the local property tax.

Under the direction of the town’s Chief Municipal Officer, documentation will need to be provided to the Superintendent that will enable the school district to code the expenditure. A worksheet(s) similar to the one shown in the user guide section labeled “In-Kind Expenditure Schedule” can be used to summarize in-kind services. The worksheet(s) together

with all supporting documentation must be kept on file in the board of education office along with your file copy of the EFS.

Any expenditure which fails to meet the necessary auditing tests will be disallowed for EFS reporting purposes.

Proration or allocation documentation must be made available, on request, to the Department of Education or its representatives. Such documentation should include rationale, allocation methods, percentage allocated and cost base against which the allocation has been made.

DO NOT include as in-kind services, expenditures and/or revenues for:

- General Town Administration Services
- Indirect Costs
- Community Services
- Nonpublic School Health Services
- Nonpublic School Transportation Services to Nonmember Students
- Nonpublic Expenditures*** from Federal Grant Programs
- Adult and Adult Basic Education Programs
- Continuing Education Programs
- Volunteer Services
- Capital Expenditures for Land and Buildings (those not eligible for credit under C.G.S. 10-261 and C.G.S. 10-262f(20))
- Any Expenditures for Debt Service***
- Tuition Summer School

Employee benefit expenditures reported in the EFS such as retirement, health insurance, etc. must be reported “net” of related revenues from non-local tax sources (e.g., contributions from the State Teachers’ Retirement Board, employee co-payments, etc.).

The amount of employee benefit expenditures reported in the EFS must be the amount supported by local tax source funds only. For example, required payments to a town’s legally constituted self-insurance reserve fund for an employee health plan can be reported as an in-kind service. However, the amount reported in the EFS must 1) be properly allocatable to services directly supporting public elementary and secondary education, 2) be reasonable, and 3) be the amount supported by local tax source funds net of any third party revenue such as from the State Teachers’ Retirement Board and employee co-payment.

If you plan to allocate in-kind services provided directly for the support of the public elementary and/or secondary school of the district, you must be prepared to show:

- Direct support of educational activities;
- Worksheets which document staff time, fringe benefits and supplies used for those direct services; and
- That if the town did not provide these services, then the board of education would have to contract these services from private vendors or perform these services with board of education employees.

This would then include the possibility of reporting direct costs incurred by the town. **INDIRECT COSTS FOR OPERATING OVERHEAD** are NOT reportable.

The value of in-kind services provided to the school district funded from local tax revenues may include the following:

- Fiscal services provided for the school district such as data processing, payroll, purchases and accounts payable services.
- Legal services provided for the schools such as representation by Corporation Counsel.

- Police protection services provided within school buildings during the school day and/or school crossing guard services, when pay and fringe benefit programs are provided from the budget of the municipal police department.
- Grounds, driveways, roads and sidewalk maintenance services provided to the board of education property by the municipal highway department.
- School building cleaning, maintenance and/or repair services as furnished by employees of the municipality or as covered by town contracts.
- Property, liability and employee insurance coverage as included in municipal master policies. The school district's share of total annual premium costs must be reported in this section. Payout of claims is not reportable, only the annual contributions made to the plans or the legally created self-insurance sinking funds are to be reported.
- The value of health services furnished to the school district by employees of the local municipal health department.
- Note: For EFS reporting purposes, like the former ED001, those expenditures are considered as coming from local tax source funds, so those expenditures are coded with EFS Funding Source Code 12 Local Tax InKind and not EFS Funding Source Code 14 State Inkind.
- Any other type of in-kind service supported by local tax revenues and made available to the school district by the municipality. Examples include the value of bookkeeping and accounting services furnished to the school district.

EFS Funding Source Code 12 was part of the former ED001 Schedule 1 Column 1: From Local Tax Revenues.

EFS Funding Source Code 13: Federal InKind

Like EFS Funding code of "12", EFS Funding code of "13" is for an expenditure incurred by a municipal agency other than the Board of Education. Rather than the Board of Education managing various expenditures, municipal officials determine it is in the best interest of the municipality that other local officials manage the expenditure. However, unlike Like EFS Funding code of "12", EFS Funding code of "13" is used for an expenditure that is funded from a federal funding source, e.g., grant from federal source funds, contract from federal source funds, etc.

Please refer above to the instructions for EFS Funding Source Code 12: Local Tax InKind regarding expenditure documentation, proration or allocation documentation, and the types of expenditure that can and can not be reported.

EFS Funding Source Code 13 was part of the former ED001 Schedule 1 Column 2: Other Than Local Tax Revenues.

EFS Funding Source Code 14: State Inkind

Like EFS Funding code of "12", EFS Funding code of "14" is for an expenditure incurred by a municipal agency other than the Board of Education. Rather than the Board of Education managing various expenditures, municipal officials determine it is in the best interest of the municipality that other local officials manage the expenditure. However, unlike EFS Funding code of "12", EFS Funding code of "14" is used for an expenditure that is funded from a state funding source, e.g., grant from state source funds, contract from state source funds, etc.

Note: Expenditures made from progress payments received for minor school construction projects managed by the town, for EFS reporting purposes, like the former ED001, are considered as coming from local tax source funds, so those expenditures are coded with EFS Funding Source Code 12 Local Tax InKind and not EFS Funding Source Code 14 State Inkind.

Please refer above to the instructions for EFS Funding Source Code 12: Local Tax InKind regarding expenditure documentation, proration or allocation documentation, and the types of expenditure that can and can not be reported.

EFS Funding Source Code 14 was part of the former ED001 Schedule 1 Column 2: Other Than Local Tax Revenues.

EFS Funding Source Code 15: Private Inkind

Like EFS Funding code of “12”, EFS Funding code of “15” is for an expenditure incurred by a municipal agency other than the Board of Education. Rather than the Board of Education managing various expenditures, municipal officials determine it is in the best interest of the municipality that other local officials manage the expenditure. However, unlike EFS Funding code of “12”, EFS Funding code of “15” is used for an expenditure that is funded from a private funding source, e.g., grant from a private educational foundation source funds, PTA/PTO source funds, booster club source funds, a private individual in the community, etc.

Please refer above to the instructions for EFS Funding Source Code 12: Local Tax InKind regarding expenditure documentation, proration or allocation documentation, and the types of expenditure that can and can not be reported.

EFS Funding Source Code 15 was part of the former ED001 Schedule 1 Column 2: Other Than Local Tax Revenues.

EFS Funding Source Code 16: Medicaid Inkind

Like EFS Funding code of “12”, EFS Funding code of “16” is for an expenditure incurred by a municipal agency other than the Board of Education. Rather than the Board of Education managing various expenditures, municipal officials determine it is in the best interest of the municipality that other local officials manage the expenditure. However, unlike EFS Funding code of “12”, EFS Funding code of “16” is used for an expenditure that is funded from Medicaid.

Please refer above to the instructions for EFS Funding Source Code 12: Local Tax InKind regarding expenditure documentation, proration or allocation documentation, and the types of expenditure that can and can not be reported.

EFS Funding Source Code 16 was part of the former ED001 Schedule 1 Column 2: Other Than Local Tax Revenues.

EFS Funding Source Code 17: Other Local InKind

This is a catch all EFS Funding Source Code if there is some funding source that is “other than” or not applicable to the previous EFS InKind funding codes 12, 13, 14, 15, 16.

EFS Funding Source Code 17 was part of the former ED001 Schedule 1 Column 2: Other Than Local Tax Revenues.

EFS Funding Source Code 18: State Charter School Operating Grant (Charters Only)

This EFS code is for use by charter schools only. Use this EFS code to report amounts expended from the state charter school operating grant. When you code your expenditures using this EFS Funding Source Code, after you upload your data to the EFS web application, those expenditures will appear in the State Charter School Grant and Reserve Fund Monitoring Schedule in either Line MC902 or MC903. This will assist in reconciling the current year expenditures that are also reported in the State Funding Schedule and also the current year expenditures with those funds the charter school chooses not to expend until a future school year(s). Funds not expended in accordance with the applicable statute must be refunded to the State Department of Education.

* The “X” in the EFS function code is a wild card, it represent any numbers, for example for 1XXX, the X could have any value (1001, 1002, 1999...).

The table above lists a description for various function expense classifications. The applicable EFS

Function Codes follow, for the most part, the Function Codes provided in the federal publication [Financial Accounting for Local and State School Systems 2014 Edition](#) document. That is to say that the EFS Function Codes and NCES Handbook Function Codes are both a length of 4 positions. The first position of the EFS Function Code corresponds to the first position of the NCES Handbook Function Code. So for example, the EFS Function Code 1XXX corresponds to the NCES Handbook Function Code 1000. The second position of the EFS Function Code corresponds to the second position of the NCES Handbook Function Code. Again, for example, the EFS Function Code 21XX corresponds to the NCES Handbook Function Code 2100.

This pattern is true for the other EFS Function Codes, other than EFS Function Codes 27X1, 27X2, 27X3, 27X4, 311X, 3121, and 3122. These codes were developed to allow for appropriate reporting for Connecticut purposes.

In order to limit the length of the EFS User Guide, the information in the NCES Handbook is not repeated here (similar to the former End of Year School Report (ED001) Instruction Manuals).

For each EFS Function Code below, you will see a brief reference to the NCES Handbook Function Code with a brief narrative. If applicable, you will see more specific instructions if the EFS Function Code is unique to Connecticut. If applicable, you will also see some instructions from the former ED001 Schedule 12 functions instructions.

These NCES Classifications of Expenditures along with their narrative can be found in the federal publication [Financial Accounting for Local and State School Systems: 2014 Edition](#) document, pages 123 through 134, you will find guidance on the Function group of codes.

EFS Education Type Code 2 “Special Education other” and EFS Education Type Code 3 “Special Education 10-76f” general instructions.

Here are some general instructions regarding special education reporting. For the EFS data collection, you will see two EFS Education Type codes for Special Education. Those are EFS Education Type Code 2 “Special Education other” and EFS Education Type Code 3 “Special Education 10-76f”.

Special education expenditures to be included are defined in C.G.S. Sections 10-76a and 10-76f. Special education functions are those activities exclusively devoted to the task of identifying and implementing special education programs and services in conjunction with the activities of the planning and placement team (PPT). Costs not considered unique to a special education program such as heating, property insurance and food supplies are not reported using EFS Education Type Code “2” or EFS Education Type Code “3”, therefore, only if provided in a building devoted exclusively to special education programs, in which case they should be reported using EFS Education Type Code “3”. Otherwise, such costs are considered nonspecial education and are not to be reported using EFS Education Type Code “2” or EFS Education Type Code “3”.

C.G.S. Section 10-76d(e)(5) relating to educational costs of students placed by state agencies, and Section 10-76g(b) relating to special education costs for other exceptional children, each state that if such costs exceed the town’s board of education budgeted estimate of such expenditures, then any portion of the state grant which relates to such excess special education expenditures shall be treated by the town treasurer as a reduction in expenditures by crediting such expenditure account, rather than town revenue.

Our understanding of the intent of this language is that:

1. If sufficient local funds are appropriated to cover the costs of these students, then there is no restriction on the town’s use of the state grant funds.
2. If, however, insufficient local funds are appropriated to meet such special education expenditures, the town must turn over the state grant money to the local board of education or credit the amount to the appropriate board of education’s expenditures account, i.e., the state grant funds must be used to support those additional costs.

NOTE: This statutory language governs how such a transaction is to be recorded in the town’s accounting records. For EFS reporting purposes, TOTAL special education expenditures must still be reported in the EFS.

Again for the EFS data collection, you will see two EFS Education Type codes for Special Education. Those are EFS Education Type Code 2 Special Education other and EFS Education Type Code 3 Special Education 10-76f.

EFS Education Type Code 2 Special Education other is equivalent to the former ED001 Schedule 4 column 1 other expenditure data.

EFS Education Type Code 3 Special Education 10-76f is equivalent to the former ED001 Schedule 4 column 2 Special Education per C.G.S. 10-76f expenditure data.

EFS Code: 2 Special Education other

NCES Code 200: Special Programs

These instructions below for EFS Education Type Code “2” are similar to those found for the former ED001 Schedule 4 column 1 Special Education Expenditures Data.

Use EFS Education Type Code “2” for these types of Expenditures:

- Amounts by which tuition payments to approved private special education residential facilities exceed the education rates (see Appendix D) set by SDE.
- Personnel costs of special education supervisory personnel employed in excess of the number of such personnel required per C.G.S. Section 10-76dd.
- Apportioned cost of instructional and administrative personnel employed less than 50% of their time in special education. The balance (nonspecial education cost) does not get reported using EFS Education Type Code “2”. Those instructional and administrative personnel costs would be reported using EFS Education Type Code “1”.

- Apportioned cost of pupil personnel services staff employed less than one third of their time in special education. The balance (nonspecial education cost) would be reported using EFS Education Type Code “1”.
- Special education expenditures reimbursed from the following sources and reported on State or Federal Schedule. **(Any expenditures in excess of the reimbursement received or due should be reported using EFS Education Type Code “3”):**
 - ✓ Board of Education Services for the Blind (Schedule 8, line 802)
 - ✓ Medicaid (per C.G.S. 10-76d(a))*
 - ✓ Third Party Billing/Insurance (Schedule 8, line 808)
 - ✓ IDEA Part B
 - ✓ Preschool Incentive Grant

*Per Connecticut General Statute 10-76d(a)- The Department of Social Services provides a grant to the local board of education based on the federal portion of Medicaid claims processed for Medicaid eligible services provided to Medicaid eligible students. The expenditures from this revenue source should be reported using EFS Education Type Code “2” if they are expended on special education services.

- Special education expenditures reimbursed from any other funding source reported on the State or Federal Funding Schedule.
- Expenditures for programs for gifted and talented students.
- Assistance is available from the Bureau of Special Education at 860-713-6910 if you have a question regarding a particular program expenditure.

EFS Code: 3 Special Education 10-76f

NCES Code 200: Special Programs

These general instructions below for EFS Education Type Code “3” are similar to those found for the former ED001 Schedule 4 column 2 Special Education Expenditures Data.

Use EFS Education Type Code “3” for these types of Expenditures:

- Actual expenditures for special education services supported by the State Agency Placement and Excess Cost Grants. Do not include expenditures for regular education pupils who are placed in private residential facilities by a state agency and have been included in the ED001 SEDAC – G system. These are among those pupils that are identified in the SEDAC – G system as grant type 4, which in the ED001 SEDAC – G database have a GRANT TYPE CODE of 4. These are not special education costs and do not belong on this schedule.
- All other expenditures for special education and related services as defined in the aforementioned sections of the Connecticut General Statutes. PPT records and IEP files may serve as a guide in this determination.
- Instructional and administrative personnel must participate at least one-half of their employment time in special education before any portion of their salary and fringe cost can be reported using EFS Education Type Code “3”. The comparable time requirement is one-third for pupil personnel services staff such as social workers, guidance, health, school psychologists, speech pathologists, occupational therapists and physical therapists. Employment time refers to the total job involvement, not just the school day.

It is recognized that pupil personnel services staff render substantial services to special education pupils. However, there is a presumption by SDE that the entire school system derives some benefit from these professional ancillary services.

THEREFORE, NO MORE THAN 85% OF A PUPIL PERSONNEL SERVICES PERSON’S salary, fringe and

travel costs can be reported using EFS Education Type Code “3”. The balance (nonspecial education cost) does not get reported using EFS Education Type Code “3” or EFS Education Type Code “2”.

Assistance is available from the Bureau of Special Education at 860-713-6910 if you have a question regarding a particular program expenditure.

EFS Code: 4 Nonpublic Education

NCES Code 500: Nonpublic School Programs

EFS Code 4 is equivalent to former ED001 Schedule 9 Line 903 Nonpublic Health Services and Schedule 9 Line 904 Nonpublic School Transportation.

Below are some instructions formerly in the ED001 for Schedule 9 Line 903 and Line 904.

Line 903: Nonpublic Health Services: Report all board of education expenditures for nonpublic health services whether or not such services are eligible for reimbursement under C.G.S. Section 10-217a. All such services must be excluded from the ED001.

Line 904: Nonpublic School Transportation: Report here amounts expended from the board budget for the transportation of nonpublic school students whether or not such services are eligible for reimbursement under C.G.S. Section 10-277 or 10-281. (See Schedule 6 instructions to determine if such expenditures are reportable for reimbursement on this schedule.)

EFS Code: 5 Adult/Continuing Education

NCES Code 600: Adult/Continuing Education Programs

EFS Code 5 is equivalent to former ED001 Schedule 9 Line 902 Adult Education and Schedule 9 Line 905 Continuing Education Programs.

Below are some instructions formerly in the ED001 for Schedule 9 Line 902 and Line 905.

Line 902: Adult Education: Report all board expenditures for adult education programs. (Note: For Lines 902 through 919, report only the amounts which were included as part of Line 901.) Example: A federal grant for adult education would not have been included in Line 901. Expenditures from that grant should likewise not be included here.

Line 905: Continuing Education Programs: Report all expenditures from the board budget for programs of continuing education. Continuing Education does not include costs by the school district for school district staff who are taking courses to increase or maintain their certification.

EFS Code: 6 Community Services

NCES Code 800: Community Services Programs

EFS Code 6 is equivalent to former ED001 Schedule 9 Line 908 Community Services

Below are some instructions formerly in the ED001 for Schedule 9 Line 908.

Line 908: Community Services: Report expended amounts for community services such as recreational programs.

These EFS Education Type codes listed below (7, 8, 9) do not have an equivalent Financial Accounting for Local and State School Systems: 2014 Edition “Program” code.

EFS Code: 7 Tuition-Based Summer School

The Financial Accounting for Local and State School Systems: 2014 Edition does not list an NCES code comparable to the EFS Code.

For EFS Education Code 7 Tuition-Based Summer School, there is no equivalent NCES Program Code for this EFS Education Type Code in The Financial Accounting for Local and State School Systems: 2014 Edition. This EFS Code was created to continue to identify activities for providing other than “Free Summer School” services to resident pupils. In the past these activities were included in the districts work papers documenting these activities, and if they were comingled with expenditures reported in the former ED001 Schedule 9 line 901 Total Expenditures From Appropriated Board of Education Budget, they were specifically identified in the former ED001 Schedule 9 line 909 Tuition Summer School.

Below are some instructions formerly in the ED001 for Schedule 9 Line 909.

Line 909: Tuition Summer School: If you expended funds from the board budget for summer school programs for which students included in your average daily membership (ADM) had to pay tuition, report those expenditures here. If your summer school program was tuition free to your ADM, make no entry here. Tuition charged to nonresident pupils has no bearing on this item.

Below are some instructions from the former ED001’s APPENDIX 1, the GLOSSARY OF TERMS.

Free Summer School means expenses for instruction during summer school programs that are provided at no cost to resident pupils.

So, if the municipality or school district chooses to operate any summer school program(s) for which there is a charge to resident pupils, those are reported using EFS Education Type Code “7”.

EFS Code: 8 Non-Elementary/Secondary Educational Services

The Financial Accounting for Local and State School Systems: 2014 Edition does not list an NCES code.

EFS Code 8 is equivalent to former ED001 Schedule 9 Line 916 Other.

Below are some instructions formerly in the ED001 for Schedule 9 Line 916.

Noneducational Expenditures: Report here any noneducational expenditures made from the appropriated board budget. (Example: Work performed by maintenance personnel paid by the board for maintenance of nonschool buildings, property or equipment.)

EFS Code: 9 Other Non-Reportable Expenditures

The Financial Accounting for Local and State School Systems: 2014 Edition does not list an NCES code.

This is a catch all EFS Education Type Code if something other than EFS Education Type Codes 1 through 8 is not applicable.

EFS Code 9 is equivalent to former ED001 Schedule 9 Line 918 Other.

4.7 EFS Allocation Code

Allocation	
Description	EFS Allocation Code
No allocation	0
Basis - salary expenditures (for fringe benefit allocation only)	1
Basis - student enrollment	2 - 9

An EFS Allocation Code is required when the CSDE Location Code for the district central office is used with a school-level expenditure (discussed in Section 4.8). The two types of allocations are discussed in sections 4.7.1. and 4.7.2 below.

4.7.1 Allocation Basis - salary expenditures (for fringe benefit allocation only)

Employee fringe benefit expenditures must be reported in EFS consistently with the education type, location and function code of the associated salaries. For example, both the salary and benefits for a teacher providing regular education instruction at one school would be reported using EFS Education Type 1, EFS Function Code 1XXX, and the location code for the school. Benefits may be allocated as described below.

This allocation applies only to employee fringe benefits, EFS Object Code “B2”. The expenditure amount for a record identified with EFS Allocation Code “1” and a particular EFS Education Type will be allocated to EFS expenditure segments based on salary expenditures reported with the same EFS Education Type. The allocation ignores the EFS codes included in the records for EFS Object Code “B2”; codes are assigned based on the salary records. For example, suppose a district is reporting five salary records:

EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Code	Account Description	
1	21XX	B1	1	N		1700011	48172.00	2121-15-2243-87	Cent Svcs Sp Ed	
1	26XX	B1	1	N		1700011	24135.00	2630-15-2243-22	Staff Maint	
1	21XX	S2	3	N		1700211	272972.00	2121-02-2243-87	Staff Special Ed	
1	21XX	S2	3	N		1700411	13587.00	2121-02-2243-87	Staff Special Ed	
1	222X	S1	2	N		1700211	82971.00	2220-02-2243-87	Teachers Special Ed	
							<u>441837.00</u>			

If the district reports three fringe benefit records with EFS Allocation Code “1”:

EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Code	Account Description
1	26XX	B2	1	N	1	1700011	21295.00	2121-15-5522-81	Health
1	26XX	B2	1	N	1	1700011	50870.00	2121-15-5522-83	FICA
1	26XX	B2	3	N	1	1700011	68855.00	2121-15-5522-87	Benefits Special Ed

141020.00

The fringe benefits will be allocated based on the salary records:

EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Code	Account Description
1	21XX	B2	1	N	1	1700011	14187.50	2121-15-5522-81	Health
1	26XX	B2	1	N	1	1700011	7107.95	2121-15-5522-81	Health
1	21XX	B2	1	N	1	1700011	33890.35	2121-15-5522-83	FICA
1	26XX	B2	1	N	1	1700011	16979.65	2121-15-5522-83	FICA
1	21XX	B2	3	N	1	1700211	65590.29	2121-15-5522-87	Benefits Special Ed
1	21XX	B2	3	N	1	1700411	3264.71	2121-15-5522-87	Benefits Special Ed

141020.00

Note that no benefits are allocated based on EFS Education Type 2 salaries because there were no benefit records with that type. Also note that this allocation excludes the salary and benefits of uncertified staff in certified positions, EFS Object Codes S3 and S4. Districts must separately identify expenditures for these objects and assign the proper EFS coding.

4.7.2 Allocation Basis – student enrollment

This allocation allows minor school-level expenditures not identified to individual schools on the district’s accounting records to be allocated to schools based on student enrollment. See Section 4.8 for a description of expenditures that should be identified to a location on the district’s accounting records and must be reported in EFS using a CSDE Location Code for a school (i.e. not allocated).

To allocate an expenditure to particular schools based on student enrollment, an EFS Allocation Code must be assigned to those schools on the Enrollment Allocation Group schedule described in Section 2.3.1. For example, using EFS Allocation Code 2 to allocate an expenditure to the three schools checked:

Enrollment Allocation Groups											
Schools

The expenditure record to be allocated must use the CSDE Location Code for the district central office, along with the EFS Allocation Code chosen on the Enrollment Allocation Group schedule. In the above example, to allocate an expenditure record to the three schools identified, use EFS Allocation Code “2”:

Data Entry Columns							General Ledger Extract			
EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Number	Account Description

The expenditure will be allocated in EFS to the three schools based upon enrollment:

4.8 CSDE Location Code

CSDE Location Codes		
District	Location Name	CSDE Location Code
<i>DDD</i>	<i>District</i>	<i>DDDSSXX</i>
<i>DDD</i>	<i>Example Elementary School</i>	<i>DDDSSXX</i>

The CSDE Location Codes are assigned by CSDE in the Directory Manager application. The Location Code has 3 segments:

DDD – Three-digit code for your district. Leading zeros in the location code are optional (ex. for 0640411, either 0640411 or 640411 is valid).

SS – Two-digit school code to identify the school or program within your district: 00 for district central office, 01 or greater for school or program.

XX – Two-digit institution code, same for your district central office, schools and programs.

The codes applicable to each district school and program are shown on the CSDE Location Code table for your district, described in Section 2.3.1.

A CSDE Location Code must be included on each expenditure record. The code for a school or program may be used for any record. The code for your district central office may be used for district-level expenditures only (unless an allocation code is also used, see section 4.7). The distinction between a district and school-level expenditure is determined by the level of the function and object codes used. The following are district-level expenditures:

Function Level	Object Level
District	District
District	School
District	Both
Both	District
Both	Both

Expenditures must be reported separately for, and/or allocated to, each school listed on the Allocation Groups page described in Section 2.3.1. Expenditures may or may not be reported separately for the programs listed on the Allocation Groups page, depending on how the program is accounted for on the district's records. In some cases, small programs are physically located within a larger school building; there is no requirement to separate expenditures between the school and program.

The following school-level expenditures should be identified to particular schools on the district's accounting records and must be reported in EFS using a CSDE Location Code for a school:

- Salaries for school staff assigned to one school; e.g. principals, school office staff, teachers, teacher aides, librarians, custodians.
- Significant direct expenditures reasonably identifiable by school.

5.0 Reports

5.1 General report information

EFS includes several district and school-level expenditure reports, select the “Reports” header to open the Reports menu shown below. The functionality of the reports is similar, we will show using the District-Level Function/Object Summary Report as an example.

The screenshot shows the EFS (Education Financial System) interface. At the top, there is a navigation bar with the EFS logo and menu items: Home, Expenditures, Schedules, and Data Issues. A red callout box points to the 'Fiscal Year 2018-2019' dropdown menu, stating 'Current year is shown. Click here to select an earlier year.' Below the navigation bar is a 'Reports' header. The main content area is divided into 'District Level Reports' and 'School Level Reports'. The 'District Level Reports' section contains a table with 8 rows, each representing a report type and its corresponding 'View Report' button. A red callout box points to the 'View Report' button for the first row (DR1 - Function/Object Summary Report), stating 'Click here to open report.' The 'School Level Reports' section contains a single row for 'SR1 - Function/Object Summary Report' with a 'View Report' button.

6.0 Data Issues

There are three types of Data Issues: “In-Schedule Trending Analyses”, “Trending Analyses”, and “Desk Audits”. Select a data issue type from the drop-down menu, then reply by selecting one or more of the potential answers provided, and/or entering text in the “Other” box:

6.1.1 In-Schedule Trending Analyses

In-Schedule Trending Analyses compare amounts reported on one schedule line to the prior year amount; variances which fall outside of defined parameters generate a question which requires an answer and/or data revision. These analyses are created whenever a schedule is saved.

Reply by selecting one or more of the potential answers provided, and/or entering text in the “Other” box. Be sure to save your responses by clicking the “Save” button in the lower right-hand corner of the page.

6.1.2 Trending Analyses

Trending Analyses compare amounts reported on more than one schedule line to each other or to prior year amounts; variances which fall outside of defined parameters generate a question which requires an answer and/or data revision. To run these analyses, click on the “Perform Analyses” button.

Districts should recheck the trending analyses whenever EFS data have been revised, by clicking on the “Perform Analyses” button. Trending analyses will also be run automatically when EFS is certified, however it is recommended that they be run in advance of that step.

Reply by selecting one or more of the potential answers provided, and/or entering text in the “Other” box. Be sure to save your responses by clicking the “Save” button in the lower right-hand corner of the page.

6.1.3 Desk Audits

Desk Audits are prepared by CSDE staff based on review of EFS data. These become available when the EFS is re-opened for all districts for review of data issues, and to allow districts to revise data. Districts will be notified when these are available, estimated to be in late October.

Reply by selecting one or more of the potential answers provided, and/or entering text in the “Other” box. Be sure to save your responses by clicking the “Save” button in the lower right-hand corner of the page.

1	Data Entry Columns							General Ledger Extract			
	EFS Funding Source Code	EFS Function Code	EFS Object Code	EFS Education Type Code	EFS PreK Code	EFS Allocation Code	CSDE Location Code	Expenditure	Account Number	Account Description

- The Excel MID function extracts a given number of characters from the middle of a supplied text string or cell. For example, =MID(I3,1,4) returns "1000"; where "MID" is the function, "I3" is the cell to extract the information from, "1" is the location of the first character to extract, and "4" the number of characters to extract.

I	J	K	L	M
General Ledger Extract		Mid Function Example		
Account Number	Account Description	=MID(I3,1,4)	=MID(I3,6,2)	=MID(I3,9,2)
1000-01-21-1000-1-000-110005-	Teacher Salaaries	1000	01	21

Syntax:

=MID (text, start_num, num_chars)

=MID (I3, 1, 4)

Breakdown:

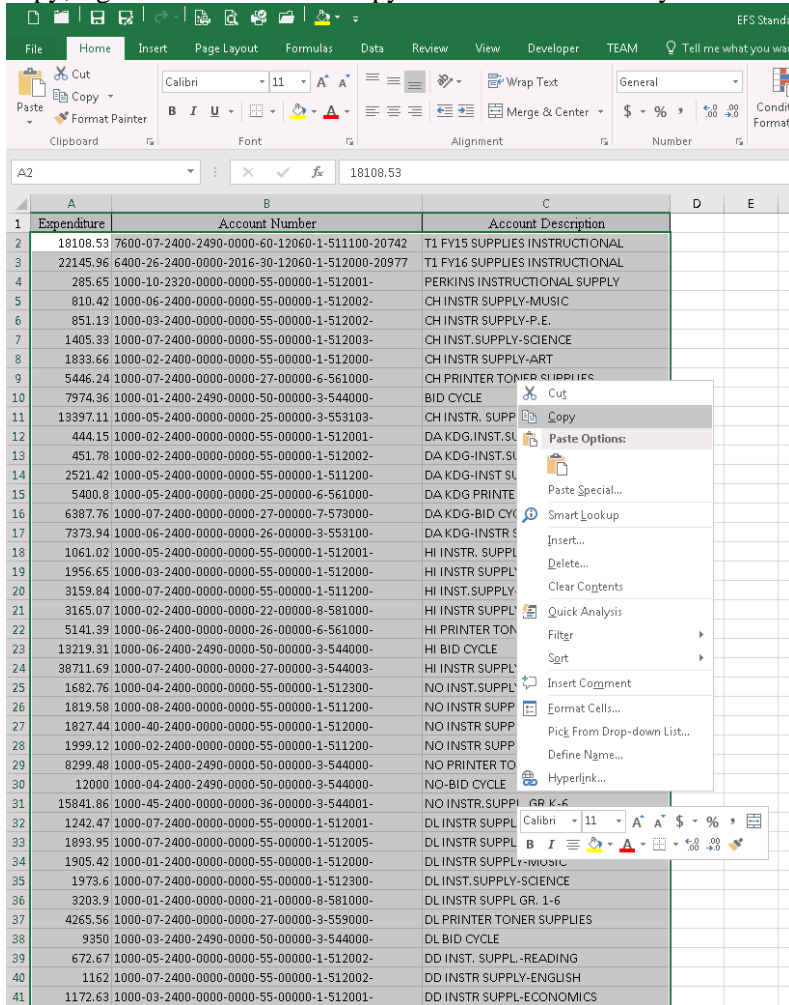

text - The text or cell to extract from.

start_num - The location of the first character to extract.

num_chars - The number of characters to extract.

Copying and pasting values

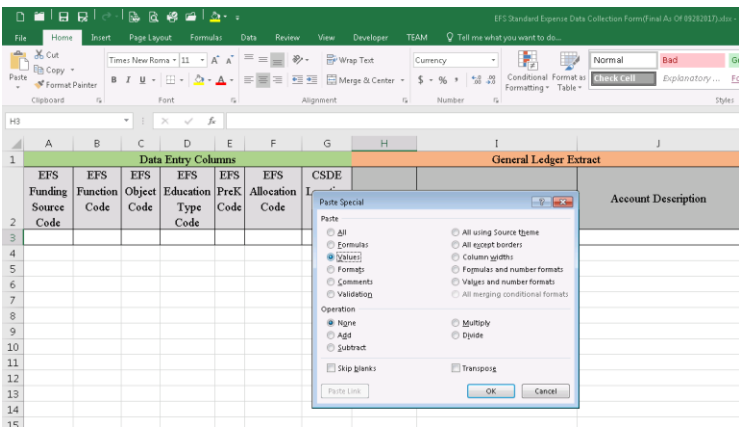

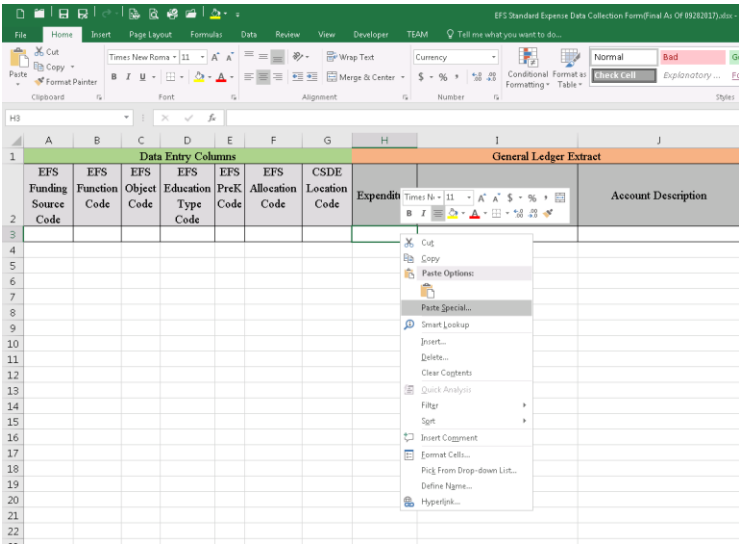

Before sorting the file to assign EFS codes, it is recommended that cell formulas be replaced with values. To copy and paste only the values of the cell (omitting formula), highlight the columns or range of the cell that you want to copy; right click and choose copy or control c on the keyboard

Appendix C - Land, Buildings, Capital Construction and Debt Service – Reporting Guidance

Reporting requirements for land, buildings, and capital construction depends on how the expenditures were financed. Section I below defines terms, Section II describes how the expenditures are to be reported in EFS, Section III provides reporting examples, and Section IV lists project type codes.

I. Definitions

School Construction - includes the following:

A. New building construction

Consists of all costs for the construction of an entire new facility, including:

- site acquisition,
- site improvements,
- outdoor athletic facilities,
- equipment (including kitchen and grounds) necessary for the facility (desks, chairs, computers, etc.),
- professional fees (legal, design, etc.).

Does not include operating costs such as:

- supply items such as books and paper,
- software purchased separately,
- maintenance contracts.

B. Purchase of an existing building

- costs associated with purchase of an existing building for use as a school,
- costs for expansion, alterations, or remodeling of purchased buildings,
- other costs consistent with guidelines for New Building Construction listed above.

C. Building additions

All costs necessary for the completion of adding new space to a facility, including:

- equipment purchases that are required for the added space (desks, chairs, computers, etc.),
- relocatable (a.k.a. portable, demountable) buildings that are purchased or included in a lease/purchase agreement (these are considered a site improvement, see item 6 below),
- other costs related to the addition consistent with guidelines for New Building Construction listed above.

D. Site acquisition

E. Major Remodeling

Permanent structural improvements or alterations. Does not include routine maintenance and repair costs for keeping the building in its original condition of completeness or efficiency.

Examples:

- “substantial” replacements (replace all lockers, replace gym floor, repaint entire wings, resurface entire parking lots, replace sections of bleachers),
- athletic facility upgrades (resurfacing track, adding artificial surfaces, adding sprinkler systems, regrading playing surfaces, etc.),
- large scale replacement of doors and windows for energy conservation measures.

- roof replacements
- code conformity upgrades
- oil tank replacements
- interior structural alterations
- technology wiring
- installation or upgrades of service systems.

School construction does not include costs for limited or routine repairs and maintenance including:

- minor roof repairs/patches
- parking lot patches
- oil tank repairs
- playing surface resurfacing
- replacing a section of wiring
- painting existing walls/ceiling
- repairing floors in existing rooms
- replacing a limited number of windows as part of maintenance program
- replacing a row or section of lockers in a building.

F. Installation or extension of a service system and other built-in equipment.

Service systems include heating, cooling, water, disposal, mechanical, electrical, communications, safety and security. Extension of a service system is the enlargement or expansion of an existing service system.

Examples:

- replacing a heating system with a heating/cooling system,
- replacing the electrical system in four rooms and extending the wiring into a new fifth room.

G. Improvements to sites

The permanent and structural alteration to the surface of the land, or any additional item permanently affixed to the land. Examples:

- initial grading, landscaping, seeding, and planting of shrubs and trees; constructing new sidewalks, roadways, overpasses, retaining walls, sewers and storm drains are improvements to sites,
- installing water mains, field hydrants and sprinkling systems, and outdoor drinking fountains are improvements to sites,
- original surfacing and soil treatment of athletic fields and tennis courts are improvements to sites,
- furnishing and installing, for the first time, playground or playing-field apparatus built into the grounds, flagpoles, gateways, fences and underground storage tanks that are not part of building service systems are improvements to sites,
- off site improvements necessitated by improvements made on the site, such as installing sewer lines and building roads, are improvements to sites,
- purchase or lease/purchase of a relocatable classroom.

Improvements to a site do not include a leased relocatable classroom or maintenance activities such as:

- maintaining the existing landscaping, shrubs and trees, sidewalks and roadways of school grounds,
- maintaining playing fields and related grounds.

II. Reporting in EFS

A. Land, Buildings, Capital Construction, and Debt Service Schedule

1. Expenditures for land, buildings, and capital construction section on Lines BT101 (or BR101 or BC101) and BT102 (or BR102). Report costs for all school construction. It is noted that costs for regular building maintenance performed over the years are not reported on this schedule, however, if the district did not perform a maintenance program over the years and had to renovate a deteriorated building, renovation expenditures would be reported here.
2. Funding Source for Land, Buildings, and Capital Construction Expenditures, in lines BT201 and BT202 (or BR201 and BR202, or BC201 and BC202). Report the funding source for the expenditures described in 1. above, either funded by long-term borrowing, or from current funds. The total should reconcile to the total expenditures.
3. Expenditures for Debt Service on Lines BT401-BT403 (or BR401-BR403 or BC401-BC403). Report principal and interest payments by the board of education, town, or agency on long-term loans including bonds that financed School Construction, and equipment for education, and interest on short-term loans. Debt service for transportation equipment should also be reported on the Transportation Schedule.

B. EFS Expenditure Data

School construction expenditures are not required to be reported in the EFS Expenditure database, as the reporting must be done manually on the Land, Buildings, Capital Construction, and Debt Service Schedule as described above. If expenditures are reported in the EFS Expenditure database, Function 4XXX must be used.

III. Reporting examples

A. School Construction project – no borrowing

1. Example project for an addition to a school building for which the town does not borrow funds:
 - The total expected cost of the addition is \$1,000,000.
 - The town will cover its part of the cost from local tax revenue.
 - The town applies to the State Department of Administrative Services for a school construction grant. The state assigns a school construction project number.
 - The state commits \$750,000 (or 75% of \$1,000,000) to support the project. The town will support the remaining \$250,000 with local funds.
 - The town asks for and receives \$375,000 in Progress Payment Grant funds from the State Department of Administrative Services during Year 1. The town places the funds in an account.
 - Over Year 1, the school district/town pays the contractor \$500,000. This was funded by \$125,000 from local funds and \$375,000 from Progress Payment Grant funds.
2. The amounts would be reported on the EFS Land, Buildings, Capital Construction and Debt Service Schedule as follows:
 - On Line BT101 (or BR101), select the project from the drop-down listing and report expenditures of \$500,000. For a charter school, report all data on Line BC101.
 - On Line BT202 (or BR202 or BC202), report the \$500,000 expenditure from current funds.

B. School Construction project with borrowing.

1. Example project for an addition to a school building for which a town needs to borrow funds:
 - The total expected cost of the addition is \$5,000,000.
 - The town will issue bonds to cover its part of the cost.

- The town applies to the state for a school construction grant. The state assigns a school construction project number.
- The state commits \$3,000,000 (or 60% of \$5,000,000) to support the project. The town will support the remaining \$2,000,000 with the proceeds of a bond issue.
- The town’s bank sells bonds on behalf of the town. The town places the proceeds from the sale of bonds in an account. The town agrees to the following the bond repayment schedule:

Fiscal Year	Principal payment	Interest payment
Year 1	\$500,000	\$20,000
Year 2	\$500,000	\$15,000
Year 3	\$500,000	\$10,000
Year 4	\$500,000	\$5,000

- The town asks for and receives \$600,000 in Progress Payment Grant funds from the State Department of Administrative Services during Year 1. The town places the funds in an account.
- Over Year 1, the school district/town pays the contractor \$1,000,000. This was funded by \$400,000 from bond proceeds and \$600,000 from Progress Payment Grant funds. In addition, the school district/town makes debt service payments of \$500,000 for principal and \$20,000 for interest.

2. The amounts would be reported on the EFS Land, Buildings, Capital Construction and Debt Service Schedule as follows:

- On Line BT101 (or BR101), select the project from the drop-down listing and report expenditures of \$1,000,000. For a charter school, report all data on Line BC101.
- On Line BT201 (or BR201 or BC201), report the \$400,000 funded from bond proceeds.
- On Line BT202 (or BR202 or BC202), report the \$600,000 funded from state grant progress payments
- On Line BT401 (or BR401 or BC401), report the \$500,000 principal payment.
- On Line BT402 (or BR402 or BC402), report the \$20,000 interest payment.

Appendix F – Worksheet For Determining Approved Charter School Application Expenditures

Instructions

This worksheet must be completed to reconcile the expenditures reported in EFS to the Charter School District’s accounting records, and retained for audit.

Line A: Total of expenditures generated from the approved activities contained in the charter school application from all sources and other charter school expenditures not included in the approved charter school application.

Report here the total amount expended, including encumbrances, for all charter school activities. This includes those approved activities contained in the charter school application from all sources and also any other charter school activities not included in the approved charter school application. For example, assume a charter school was approved to provide a kindergarten to grade four education program and the expenditures for that program were \$500,000. In addition to that approved program, some time during the year, the charter school was asked by community leaders to run a recreational arts and crafts program for high school kids. The charter school agrees to run the arts and crafts program. It was offered at night and cost \$10,000. That program was not part of the approved charter school application. On Line A, the charter school would report \$510,000 (the \$500,000 for the approved activities contained in the charter school application and the \$10,000 for the activities not contained in the charter school application).

Line B: DEDUCTIONS (Expenditures only, including encumbrances as at June 30)

List below the amounts included in the total expenditures (Line A) for the following categories of expenditures. The expenditures listed in Lines B1 through B8 are related to activities that were not part of the charter school’s approved application. These are not reportable as education expenditures in EFS. If these expenditures are included in the EFS expenditure database, they must be coded as identified in the brackets below to avoid being counted as education expenditures.

B1. Adult Education Services: Report expended amounts for adult education services. [EFS Education Type Code 5]

B2. Before and After School Daycare: Report expended amounts for before and after school daycare services. [EFS Education Type Code 8]

B3. Community Services: Report expended amounts for community services such as recreational programs. For example, assume a charter school was approved to provide a kindergarten to grade four education program. In addition to that program, the charter school was asked by community leaders to run a recreational arts and crafts program for high school kids. The charter school agrees to run the arts and crafts program. It was offered at night and cost \$10,000. That program was not part of the approved charter school application. On Line B3, the charter school would report the \$10,000 for the activities not contained in the charter school application. [EFS Education Type Code 6]

B4. Salaries of Uncertified Staff in Certified Positions: Report here the salaries or portions of salaries of staff that were not certified during all or part of the school year. C.G.S. 10-66dd has some provisions for charter schools regarding employees who are seeking certification. Salaries and employee benefits for noncertified personnel occupying positions that require certification are not reportable as education expenditures in EFS. If you have a question regarding an employee’s certification status, contact the Bureau of Educator Standards and Certification at 860-713-6770. A schedule detailing these noncertified salaries and benefits by funding source must be retained for audit purposes. [EFS Object Code S3]

A sample format is:

<u>Staff Person’s Name</u>	<u>Salary</u>	<u>Fringe Benefits</u>	<u>Funding Source</u>
----------------------------	---------------	------------------------	-----------------------

B5. Fringe Benefits of Uncertified Staff Occupying Certified Positions: Report any charter school expenditures for fringe benefits for the employees whose salaries were reported on Line B4. [EFS Object Code S4]

B6 - B8. Other: Use these lines to report other deductions of expenditures not specifically covered in Lines B1 through B5.

B9. Total of Lines B1 through B8.

Line C: Approved Charter School Application Expenditures: Enter the result of subtracting Line B9 from Line A.

The Approved Charter School Application Expenditures (Line C), plus any in-kind services (EFS Funding Source Codes 12-19), must equal the total public elementary and secondary expenditures as shown on the District-level Function/Object Summary Report.

WORKSHEET FOR DETERMINING APPROVED CHARTER SCHOOL APPLICATION EXPENDITURES
