

## SECTION 4

### NET CURRENT EXPENDITURES PER PUPIL

This section reflects the terminology associated with public elementary and secondary costs per pupil. The 1999-2000 data have not been fully audited. The audits may result in changes in the data presented here. The audited information will be available through the State Department of Education's Internet home page by June 2001.

#### **ADM 1999-2000**

Represents the average daily membership (ADM) calculated from the October 1999 Student Census Report/Racial Survey (ED006) and the 1999-2000 End of Year School Report (ED001). ADM represents resident students adjusted for school sessions in excess of the 180-day/900-hour minimum, tuition-free summer school, full time equivalent (FTE) prekindergarten pupils and participation in Open Choice. As a result of these adjustments, in many districts a fractional ADM number will be reported.

#### **NCE 1999-2000**

Net current expenditures (NCE) are calculated as defined in Connecticut General Statutes Section 10-261(a)(3). NCE includes all current public elementary and secondary expenditures from all sources, excluding reimbursable regular education transportation, tuition revenue, capital expenditures for land, buildings and equipment, and debt service. The principal portion of debt service for items that can be included in NCE, such as certain minor repairs and roof replacements, may count toward NCE.

#### **NCEP 1999-2000**

Net current expenditures per pupil (NCEP) represents NCE divided by ADM.

#### **NCEP Rank**

Each town is ranked between 1 (highest) and 169 (lowest) in NCEP.
