

## SECTION 6

### STATE FORMULA GRANT AID AS A PERCENTAGE OF SELECTED CURRENT EXPENDITURES (SCE) FROM 1995-96 TO 1999-2000 SORTED IN QUINTILES BY ECS WEALTH RANK

The analysis on the following page illustrates state support of selected current expenditures for public elementary and secondary education for fiscal years 1995-96 through 1999-2000. As used in this analysis, selected current expenditures include all educational expenditures except those supported by miscellaneous revenues, state and federal prepayment grants, school construction, nonelementary/secondary education (e.g., adult education), nonpublic and capital building expenditures and debt service. State aid includes the following grants: Education Cost Sharing (ECS), special education, public transportation and vocational agriculture.

The data in this analysis are sorted in quintiles — five groups of school districts based on 2000-01 ECS town wealth. This analysis is based on 158 school districts. To avoid duplication, the eight high school districts are not included. Groups 2, 3 and 4 include 32 school districts, while Groups 1 and 5 include 31. Also included is a list of the school districts in each quintile.

This analysis includes new state aid as a percentage of new selected current expenditures. It also isolates the portion of new education spending that is derived from state effort versus local effort. A figure of 100 percent, for example, would mean that all new spending for that year was subsidized by state grant revenues.

Due to space restrictions, only the summary report is included here. However, in addition to the quintile report, town-by-town figures will be available through the State Department of Education's Internet home page.

**State Formula Grant Aid as a Percentage  
of Selected Current Expenditures (SCE)  
Sorted in Quintiles by ECS Wealth Rank**

Expenditure Year	Selected Current Expenditures (in millions) *	Formula Grant State Aid (in millions) **	State Aid as a % of SCE	New Selected Current Expenditures (in millions) *	New Formula Grant State Aid (in millions) **	New State Aid as a % of New SCE
