Carnegie Learning High-Dosage Tutoring

Live, online acceleration support

Extend Your Teachers' Impact

Certified tutors deliver standards-aligned support using high-quality instructional material that addresses gaps, aligns to your scope and sequence, and sets expectations for on-grade-level learning.

Prepare All Students for Grade-Level Learning

Accelerate learning with tutoring that's designed to support your school's scope and sequence. Plus, a focus on key prerequisite skills will help your students succeed in grade-level learning.

Accelerate Growth with High-Quality Instructional Materials (HQIM)

Each lesson is designed to personalize the learning experience for each student, utilizing HQIM aligned to standards and based on research.

Actionable Data on Student Progress

Robust learning data ensures that tutoring is tailored to each student's needs. In each 8- to 10-week program, pre- and post-assessments and ongoing formative assessments measure growth and suggest areas for future focus.

“

This program has impacted my student a lot by helping her understand math and getting the help that she needed to better her grade in math overall. Even her teacher has noticed the improvement.

Your Partners in Tutoring Success

Make your goals a reality with High-Dosage Tutoring services. You'll get intensive, online instruction for specific grade bands or courses that will accelerate learning for students, no matter their starting point. Let's team up to customize a comprehensive tutoring strategy that fits your school's or district's exact needs.

Flexible Implementation Options

What could your math or reading tutoring program look like? The possibilities are endless. Based on your school's or district's needs, your program could include:

- On-demand, by-appointment, or pre-scheduled tutoring
- Live, video-based online tutoring sessions in 15-, 30-, or 45-minute increments
- One-on-one or small group sessions
- Flexible scheduling over 4-6 days per week
- Sessions offered before, during, after school, on Saturdays, or over the summer
- A focus on specific, pre-identified content sequence or student-identified needs
- Options to choose a favorite or first available tutor

Let Us Do the Heavy Lifting

Our team of experts sets you up for success. Beyond providing the highest-quality tutors, we'll take care of...

- Recruiting, managing, and training tutors
- Scheduling weekly tutoring hours
- Setting up an easy-to-use scheduling tool for students and parents
- Providing a complete, district-customized platform for virtual tutoring sessions
- Managing day-to-day support needs
- Answering quick questions via email or text message
- Gathering daily and weekly progress reports for key stakeholders
- Compiling ongoing formative assessment data to inform instruction
- Helping you promote tutoring throughout your school and community
- Supporting your student incentive programs to boost engagement
