**MIC3 STATE COUNCIL**

1. The minutes from the 3DEC2021 State Council were approved.
2. MIC3 is seeking student videos memorializing their experiences with successful education transitions under the Compact. There have not yet been many submissions, so it would be great to have a submission from Connecticut. Ms. Chapman noted that she has shared the MIC3 handout with transitioning families, but the feedback from many families is that the handout is somewhat intimidating with the list of requirements and detailed instructions. It might be helpful to simplify the submission process so families are not discouraged by the complexity of creating the videos. Superintendent Austin said that Groton would be willing to have its students put together a presentation of their overall experiences transitioning into Groton and how they are welcomed into their new school, but it would be more of a focus on the district’s program for welcoming students and less on MIC3 transition issues. Attorney Anastasio will present the council’s feedback to the MIC3 central office.
3. MIC3 Annual Business Meeting (ABM) Update: The ABM will be held in-person in Little Rock, Arkansas on November 4<sup>th</sup> and 5<sup>th</sup>. There will be an option for attendees to participate remotely so those individuals who are either unable or uncomfortable with traveling can also attend. MIC3 is considering removing some of the activities normally schedule for the ABM off the meeting agenda and holding those activities online. This might provide council members with an opportunity to attend distinct parts of the ABM such as the panel discussion and training sessions. Attorney Anastasio will provide more information if this option becomes available.
4. Other matters: The movement to include the National Guard and Reserves in the Compact is ongoing in other states. Attorney Anastasio briefly discussed the legislation in Arkansas as an example of the concern of inadvertently altering the Compact language. The Compact constitutes a contract between the member states. If one state unilaterally changes the Compact, then the agreement is no longer binding with respect to that state.

Representative Cheeseman indicated that she will continue to look out for any legislative initiatives that are intended to expand the Compact so that Connecticut does not mistakenly remove itself from the Compact.
