CONNECTICUT STATE DEPARTMENT OF EDUCATION

## Our Partners

# Our Collective Agreement

- Stay Engaged
- Seek to Understand
- Listen Mindfully
- Isolate the Experience of Protected Classes (e.g., Race, National Origin, Ancestry)
- Share Learning, Protect Stories
- Commit to Seeking, Speaking, and Supporting Truth
- Value Student Voice

# Reflections: Session 1 Learning Activities

**What is the effect (%) of race in your life?**

## **Unpacking Identity and Culture Toss**

We explored:

- visible and invisible characteristics that form our identity
- how it feels when aspects of our identity are lost or taken from us

We considered:

- ways we ask our students and families to give up parts of their identities on a daily basis or in day to day interactions
- ways we might ensure that differences are honored in school communities

## **Earned and Unearned Advantages and Disadvantages**

We explored:

- conditions or circumstances that put one in a favorable or superior position (e.g., ingroup bias), and
- conditions or circumstances that put one in an unfavorable or inferior position (e.g., outgroup bias)

# Disparate Impact

*“Disparate impact occurs when policies, practices, rules or other systems that appear to be neutral result in a disproportionate impact on a protected group.”*

# Intention vs. Impact

## Attitudes

- An **attitude** is your evaluation of some concept (person, place, thing, or idea).
- **Explicit attitudes** are those you deliberately think about and report
- **Implicit attitudes** are positive and negative evaluations that occur outside your conscious awareness and control

# Intention vs. Impact

## Institutional Bias

“Those established laws, customs, and practices which systematically reflect and produce group-based inequities in any society. An institution may be biased **whether or not the individuals maintaining those practices have biased intentions**”

# Valuing Humanness

## Affirming Identity

- Social Identity refers to how a person sees themselves as being part of an in-group or of an out-group. As such, group membership is associated with appearances as result of experiences related to such perceived group.
- The process by which a person identifies with a group involves: 1) Social Categorization, 2) Social Identification, 3) Social Comparison
- Affirming Identity requires that we support who students are as individuals.

# Naming Harms

## Microaggressions

Racial microaggressions are brief and commonplace daily verbal, behavioral, and environmental indignities, whether intentional or unintentional, that communicate hostile, derogatory, or negative racial slights and insults to the target person or group. They are not limited to human encounters alone but may also be environmental in nature, as when a person of color is exposed to an office setting that is mono-racial in heritage or identity.

# Naming Harms

## Institutional/Systemic Racism

Institutional racism is discriminatory treatment, unfair policies and inequitable opportunities and impacts, based on race, produced and perpetuated by institutions (schools, mass media, health care, etc.). Individuals within institutions take on the power of the institution when they act in ways that advantage and disadvantage people, based on race.

# HYV's *Schools That Work For Us* Framework

## ***Schools That Work For Us* is a framework that reflects:**

- 6 years of HYV research, data collection and analysis of single issues affecting young people (e.g., attendance, discipline).
- Research and data collection via surveys, interviews, and hundreds of youth meetings since 2012.
- Issue organization into categories resulting in 8 themes— struggle; resources; mental health; freedom; full safety; teaching and learning; relationships; and collective power.
- Feedback and ideas from community forums during which HYV shared the *Schools that Work For Us* framework with more than 150 people.
- Discussions with young people across the state to “test” the fidelity of the framework to see if it reflected the experiences and concerns of other students across the state.
- Findings that for the young people who attended the community series, and students attending majority-Black and Brown schools in cities throughout Connecticut, the framework reflected their experiences and concerns.
