

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

This guidance applies to reimbursable meals and snacks served in child care centers, family day care homes, emergency shelters, at-risk afterschool care centers, and adult day care centers that participate in the U.S. Department of Agriculture's (USDA) Child and Adult Care Food Program (CACFP).

For information on the CACFP meal patterns for children and the CACFP adult meal patterns, visit the Connecticut State Department of Education's (CSDE) [Meal Patterns for the Child and Adult Care Food Program](#) webpage. For information on the crediting requirements, visit the CSDE's [Crediting Foods in the Child and Adult Care Food Program](#) webpage and [Crediting Documentation for the Child Nutrition Programs](#) webpage.

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

Overview of CN Labeling Program

The CN Labeling Program is a voluntary federal labeling program for the Child Nutrition Programs. The CN label on a product communicates how the product contributes to the meal pattern requirements. CN-labeled products provide a warranty against audit claims when the product is prepared according to the manufacturer's instructions.

The CN Labeling Program is operated by the USDA Agricultural Marketing Service (AMS) in collaboration with the USDA's Food and Nutrition Service (FNS) and Food Safety and Inspection Service (FSIS), and the U.S. Department of Commerce's National Oceanic and Atmospheric Administration Seafood Inspection Program (NOAA SIP). Manufacturers participating in the CN Labeling Program must have quality control procedures and inspection oversight that meet USDA's requirements.

Eligible products

CN labels are available only for main dish entrees that provide at least ½ ounce equivalent (oz eq) of the meats/meat alternates (MMA) component in the meal patterns for the USDA's Child Nutrition Programs. MMA include meat, poultry, and seafood; cheese; yogurt and soy yogurt; dry beans, peas and lentils; whole eggs; tofu; nuts and seeds; nut and seed butters; shelf-stable, dried and semi-dried meat, poultry, and seafood products; surimi seafood; and tempeh.

Examples of CN-labeled products made with MMA include beef patties, cheese or meat pizzas, meat or cheese and bean burritos, egg rolls, and breaded seafood portions. Products contributing only to the grains, fruits, and vegetables components are not eligible for CN labels.

CN labels also typically indicate the contribution of other meal components that are part of these products. For example, CN-labeled pizza may list contributions to the MMA, grains, and vegetables components. CN-labeled breaded chicken nuggets may list contributions to the MMA and grains components.

Benefits of using CN-labeled products

A CN label statement clearly identifies the contribution of a commercial product toward the meal pattern requirements, based on the USDA's evaluation of the product's formulation. CN labeling provides a warranty that the product contributes to the meal pattern requirements when the processed product is used according to the manufacturer's instructions. CN labels also simplify cost comparisons of similar products.

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

Considerations for CN-labeled products

The CN crediting statement declares the quantities of the creditable food items in a processed food that can be used to meet the meal pattern requirements. However, it does not provide any other guarantees. For example, the CN label does not indicate that the product:

- is healthier, more nutritious, or of a higher quality than a food that is not CN labeled; or
- is safer to eat, or free of pathogens or allergens; or

CACFP facilities must obtain additional information to determine if a CN-labeled product meets the Buy American requirements and any preferred or required nutrition standards.

CN-labeled products are not required

The USDA does not require that manufacturers make CN-labeled products or that schools and institutions participating in the Child Nutrition Programs purchase foods with CN labels. Purchasing decisions are at the discretion of the local school or institution. Schools and institutions that require CN-labeled products must clearly state this information in their purchasing specifications.

Identifying CN Labels

The CN label is found on the product packaging and will contain the required elements below.

- The federally required label featuring the product name, inspection legend, ingredient statement, name and address of manufacturer or distributor, and net weight.
- The CN logo, which is a distinct border with “CN” on each side surrounding the meal pattern contribution statement.
- The meal pattern contribution statement, which provides specific crediting information for the serving.
- The USDA FNS authorization statement: “Use of this logo and statement authorized by the Food and Nutrition Service, USDA.”
- A unique six-digit product identification number, which is assigned by the USDA’s AMS.
- The month and year of AMS approval or the NOAA SIP approval, which is listed after the FNS authorization statement. The date is written using numbers to represent the month/year of final label approval (refer to “[Dates on CN Labels](#)” in this document).

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

Figure 1 shows an example of a CN label and the required elements. For detailed guidance on CN labels and the required elements, refer to [Module 8: Meal Pattern Documentation for Crediting Commercial Processed Products](#) of the CSDE's training program, *What's in a Meal: Meal Patterns for Grades K-12 in the School Nutrition Programs*.

Figure 1. Sample CN label

The image shows a sample Child Nutrition (CN) label for a "Chicken Stir-fry Bowl". The label is enclosed in a rectangular border. At the top, the product name "1 Chicken Stir-fry Bowl" is centered. Below it, the ingredients list "2 Ingredients: Chicken, brown rice, broccoli, red peppers, carrots, onions, water, olive oil, soy sauce, spices" is centered. In the center of the label, there is a box containing the meal pattern contribution statement "4 Each 4.5 oz Chicken Stir-fry Bowl provides 1.5 oz eq meat, 1.0 oz eq grains, ¼ cup dark green vegetable, ¼ cup red/orange vegetable, and ⅛ cup other vegetable for Child Nutrition Meal Pattern Requirements (Use of this logo and statement authorized by the Food and Nutrition Service, USDA, 06/25)." This box is flanked by "CN" logos on both sides. Above the box, the "CN" logo "3" is centered, and to its right is the six-digit product identification number "5 000000". Below the box, the net weight "8 Net weight: 18 pounds" is on the left, and the company information "9 Chicken Wok Company, 1234 Kluck Street • Poultry, PA, 12345" is centered. On the right side of the label, there is a circular inspection legend "10 INSPECTED U.S. DEPARTMENT OF AGRICULTURE P-XX" with a date stamp "7 06/25" next to it.

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

USDA's CN Label Verification System

The USDA's CN Label Verification System assists CACFP facilities and state agency reviewers with verifying the status of a CN label, such as the crediting information, CN number, and approval date, and the validity of a CN label copied with a watermark. For example, if a manufacturer has not updated the authorization date on the CN label, the CN Label Verification Report would include the updated "Valid Until" date of the label.

The CN Label Verification System publishes two monthly reports: 1) a list of products with valid CN labels (CN Label Verification Report); and 2) a list of contact information for manufacturers authorized to produce CN-labeled products (CN Label Manufacturers Report). These lists are available on the USDA's [Child Nutrition Authorized Labels and Manufacturers](#) webpage.

Dates on CN Labels

Once authorized by the USDA, CN labels are valid for five years under the condition that the manufacturer remains an authorized CN producer and the product formulation does not change. The date printed on the CN label is the original date of authorization or the date of the most recent authorization for use of that CN label. This is different from the "Valid Until" date shown on the CN Label Verification Report, which indicates when the current authority to use the label expires.

Manufacturers may choose to leave the original authorization date on the label when they receive reauthorization of their CN label so that label inventories do not go to waste. For example, if a CN label was originally authorized on February 15, 2024, it is valid until February 15, 2029. The manufacturer may resubmit the same product for reauthorization of the CN label. If reauthorization is granted, the "Valid Until" date is updated to five years from the most recent date of authorization on the CN Label Verification Report, but the date on the CN label may remain as "02/24."

Meal Pattern Contribution of CN Labels

CN labels indicate the meal pattern contribution of the MMA component and other meal components (such as grains, vegetables, and fruits) in one serving of the product. CN labels do not include milk component crediting. Guidance for each meal component on a CN label is summarized below.

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

MMA contribution

A CN-labeled product lists the serving's MMA contribution in oz eq.

Grains contribution

A CN-labeled product that contains a grain portion includes one of the crediting terms below to indicate if the product credits as whole grain-rich (WGR) or enriched.

- The term “oz eq grains” on the CN label indicates that the product meets the WGR criteria for the NSLP, SBP, and ASP meal patterns for grades K-12. WGR means that the grain portion of a product is at least 50 percent whole grain with the remaining grains being enriched.
- The term “oz eq grains (enriched)” means that the grain portion of the product is primarily made from enriched grains. These products credit toward the grains component but do not meet the WGR criteria.

The CACFP meal patterns require at least one serving of WGR grains per day..

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

Vegetables contribution

A CN-labeled product that contains vegetables lists the serving's contribution to the five vegetable subgroups in cups (dark green, red/orange, beans, peas, and lentils, starchy, and other). The CACFP meal patterns do not require the vegetable subgroups. However, the USDA's [CACFP best practices](#) recommend that CACFP menus include at least one serving per week of each vegetable subgroup. For more information, refer to the CSDE's resource, [Vegetable Subgroups in the Child and Adult Care Food Program](#).

As of July 1, 2024, the USDA final rule, [Child Nutrition Programs: Meal Patterns Consistent with the 2020-2025 Dietary Guidelines for Americans](#), changes the previous references in the regulations for Child Nutrition Programs from "legumes (beans and peas)" to "beans, peas, and lentils." Manufacturers may continue to use the term "legumes vegetables" on approved CN labels. At the time of application renewal or resubmission, manufacturers must update the term to "beans, peas, and lentils."

Fruits contribution

A CN-labeled product that contains fruit lists the serving's contribution to the fruits component in cups.

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

Acceptable Documentation

Acceptable and valid documentation for a CN label includes any of the documents below.

1. The original CN label from the product carton.
2. A photocopy or photograph of the CN label shown attached to the original product carton. CN labels that are photocopied or photographed must be visible and legible.
3. A CN label copied with a watermark displaying the product name and CN number provided by the vendor and the bill of lading (invoice).

CACFP facilities must maintain this documentation on file with all other menu records (refer to [“Storing CN Labels”](#) in this document). For additional guidance on accepting product documentation, refer to the CSDE’s resource, [Accepting Processed Product Documentation in the Child and Adult Care Food Program](#), and visit the [“Accepting Product Documentation”](#) section of the CSDE’s Crediting Documentation for the Child Nutrition Programs webpage.

CN labels with a watermark

Manufacturers may use a CN label with a watermark (refer to figure 2) when the CN logo and contribution statement are on separate product information from the actual product carton. Manufacturers may provide a watermarked CN label during the bidding process. Original CN labels on product cartons will not have a watermark.

Product information on a watermarked CN label can be changed. The USDA encourages CACFP facilities to verify that the watermarked CN label came from a product that was purchased and accurately reflects that product.

A watermarked CN label is acceptable documentation for the Administrative Review of the CACFP if it is attached to a bill of lading (invoice) that contains the product name and CN number (refer to figures 2 and 3). Valid and acceptable documentation for the watermarked CN label includes 1) a hard copy of the CN label copied with a watermark displaying the product name and CN number provided by the vendor; or 2) an electronic copy of the CN label with a watermark displaying the product name and CN number provided by the vendor.

For more information, refer to [USDA Memo SP 05-2025, CACFP 04-2025, and SFSP 02-2025: Guidance for Accepting Processed Product Documentation for Meal Pattern Requirements](#).

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

Storing CN Labels

CACFP facilities must maintain CN labels and crediting documentation on file in accordance with the records retention requirements for the CACFP (refer to the CSDE's resource, [Records Retention Requirements for the Child and Adult Care Food Program](#)). This documentation must be current and will be reviewed by the CSDE during the Administrative Review of the CACFP.

The CSDE recommends maintaining original CN labels from the product carton in a designated binder or folder for easy reference. Digital photos and scans of CN labels should be stored in an easily accessible electronic folder.

Guidance and Training for CN Labels

The requirements for crediting documentation for processed foods are defined in [USDA Memo SP 05-2025, CACFP 04-2025, SFSP 02-2025: Guidance for Accepting Processed Product Documentation for Meal Pattern Requirements](#). Additional guidance on the crediting documentation requirements is available on the CSDE's [Crediting Documentation for the Child Nutrition Programs](#) webpage.

Training on the requirements for CN labels is available in [Module 8: Meal Pattern Documentation for Crediting Commercial Processed Products](#) of the CSDE's training program, *What's in a Meal: Meal Patterns for Grades K-12 in the School Nutrition Programs*.

Using Child Nutrition (CN) Labels in the Child and Adult Care Food Program

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotope, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
3. email: program.intake@usda.gov

This institution is an equal opportunity provider.

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems; gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education's nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email louis.todisco@ct.gov.
