Child and Adult Care Food Program (CACFP) Meal Patterns for Adults

Breakfast	
Food components ¹	Minimum quantities
Milk, fluid: Low-fat (1%) or fat-free milk, unflavored or flavored ²	8 fluid ounces (fl oz)
Vegetables, fruits, or portions of both 3, 4, 5	¹/2 cup
Grains 6, 7, 8, 9, 10	
Whole grain-rich (WGR) or enriched bread or bread product,	2 ounce equivalents
e.g., biscuit, roll, or muffin	(oz eq) ⁹
WGR, enriched or fortified cooked breakfast cereal ¹¹ , cereal grain ¹² , or pasta	1 cup
WGR, enriched, or fortified ready-to-eat (RTE) breakfast cereal (dry, cold) 11	
Flakes or rounds	2 cups
Puffed	2 ¹ / ₂ cups
Granola	¹/₂ cup

Menu planning notes for breakfast

Breakfast must include all three components. Use the USDA's Food Buying Guide for Child Nutrition Programs (FBG) to determine the amount of purchased food that meets the requirements. Commercial processed foods not listed in the FBG require a Child Nutrition (CN) label or product formulation statement (PFS). For more information, refer to the CSDE's resources, Using Child Nutrition (CN) Labels in the CACFP, Using Product Formulation Statements in the CACFP, and Accepting Processed Product Documentation in the CACFP, and visit the "Crediting Commercial Processed Products" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers Programs webpage. Foods made from scratch must have a recipe that documents the crediting information per serving. For more information, visit the "Crediting Foods Made from Scratch" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers Programs webpage.

■ Refer below for important menu planning notes ▶

- ² Allowable types of milk include low-fat (1%) milk and fat-free milk, either unflavored or flavored. The USDA's CACFP best practices recommend serving only unflavored milk. Yogurt that meets the sugar limit (no more than 3.83 grams of sugars per ounce) may be served in place of milk once per day when it is not served as the MMA component in the same meal. Six ounces (weight) or ³/₄ cup (volume) of yogurt credits as 8 fluid ounces of milk. For more information, refer to the CSDE's resource, *Crediting Yogurt in the CACFP*, and visit the "Milk Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- The vegetables component includes fresh vegetables, frozen vegetables, canned vegetables, rehydrated dried vegetables, and pasteurized 100 percent full-strength vegetable juice. Vegetables credit based on volume (cups), except raw leafy greens such as lettuce and spinach credit as half the volume served, e.g., 1 cup of lettuce credits as ½ cup of the vegetables component. A serving of cooked vegetables must be drained. Dried vegetables (such as potato flakes and dried soup mix) credit based on their rehydrated volume and require a PFS. The USDA's CACFP best practices recommend that CACFP menus include at least one serving per week of each vegetable subgroup (dark green, red/orange, beans and peas (legumes), starchy, and other). For more information, refer to the CSDE's resource, Vegetable Subgroups in the CACFP, and visit the "Vegetables Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.

Breakfast

Menu planning notes for breakfast, continued

- ⁴ Pasteurized full-strength juice credits as either the vegetables component or fruits component at only one meal or snack per day. Juice includes fruit and vegetable juice, frozen pops made from 100 percent juice, pureed fruits and vegetables in smoothies, and juice from canned fruit in 100 percent juice. For more information, refer to the CSDE's resources, *Crediting Juice in the CACFP* and *Crediting Smoothies in the CACFP*. The USDA's CACFP best practices recommend serving whole fruits (fresh, frozen, canned, and dried) more often than juice.
- The fruits component includes fresh fruit; frozen fruit; dried fruit; canned fruit in juice, water, or light syrup; and pasteurized 100 percent full-strength fruit juice. The creditable serving of canned fruit in 100 percent juice may include the juice but cannot include water or syrup. Fruits credit based on volume (cups), except dried fruits credit as twice the volume served, e.g., ½ cup of raisins credits as ½ cup of the fruits component. For more information, visit the "Fruits Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- ⁶ Grain products and recipes must be made with creditable grains (whole grains, enriched grains, bran, and germ). For information on identifying creditable grains, refer to the CSDE's resources, *How to Identify Creditable Grains in the CACFP*, *Crediting Whole Grains in the CACFP*, and *Crediting Enriched Grains in the CACFP*, and visit the "Grains Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- At least one serving of grains per day must be WGR. The USDA's CACFP best practices recommend at least two servings of WGR grains per day. WGR foods for the CACFP contain at least 50 percent whole grains and the remaining grain ingredients are enriched, bran, or germ. For more information, refer to the CSDE's Guide to Meeting the Whole Grain-rich Requirement for the CACFP and visit the "Whole Grain-rich Requirement" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- ⁸ Grain based desserts do not credit as the grains component. Examples include cookies, piecrusts in sweet pies, doughnuts, cereal bars, granola bars, sweet rolls, pastries, toaster pastries, cake, and brownies. Sweet crackers such as graham crackers and animal crackers are not grain-based desserts. However, the CSDE recommends limiting sweet crackers to no more than twice per week between all meals and snacks. For more information, visit the USDA's webpage, Grain-based Desserts in the CACFP.
- ⁹ Grain products and recipes must meet the required weights (groups A-E) or volumes (groups H-I) in *Grain Ounce Equivalents for the CACFP* or provide the minimum creditable grains per serving. For more information, refer to the CSDE's resources, *Calculation Methods for Grains Ounce Equivalents for the CACFP* and *How to Use the Grain Ounce Equivalents Chart for the CACFP*, and visit the "Ounce Equivalents" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- Meat/meat alternates (MMA) may substitute for the entire grains component at breakfast up to three times per week. A 2-ounce serving of MMA substitutes for 2 oz eq of the grains component. For more information, visit the USDA's webpage, Serving Meat and Meat Alternates at Breakfast, and the "Meat/Meat Alternates Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- Breakfast cereals cannot contain more than 6 grams of sugars per dry ounce (no more than 21.2 grams of sucrose and other sugars per 100 grams of dry cereal). For more information, refer to the CSDE's resource, Crediting Breakfast Cereals in the CACFP.
- ¹² Examples of cereal grains include amaranth, barley, buckwheat, cornmeal, corn grits, kasha, millet, oats, quinoa, wheat berries, and rolled wheat.

Lunch and Supper

Menu planning notes for lunch and supper

- Lunch must include all five components. Supper must include four components (meat/meat alternates, vegetables, fruits, and grains). Milk is optional at supper. Use the USDA's Food Buying Guide for Child Nutrition Programs (FBG) to determine the amount of purchased food that meets the requirements. Commercial processed foods not listed in the FBG require a CN label or PFS to document crediting information. For more information, refer to the CSDE's resources, Using Child Nutrition (CN) Labels in the CACFP, Using Product Formulation Statements in the CACFP, and Accepting Processed Product Documentation in the CACFP, and visit the "Crediting Commercial Processed Products" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers Programs webpage. Foods made from scratch must have a recipe that documents the crediting information per serving. For more information, visit the "Crediting Foods Made from Scratch" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers Programs webpage.
- ² Allowable types of milk include low-fat (1%) milk and fat-free milk, either unflavored or flavored. The USDA's CACFP best practices recommend serving only unflavored milk. Yogurt that meets the sugar limit (no more than 3.83 grams of sugars per ounce) may be served in place of milk once per day when it is not served as the MMA component in the same meal. Six ounces (weight) or ³/₄ cup (volume) of yogurt credits as 8 fluid ounces of milk. For more information, refer to the CSDE's resource, *Crediting Yogurt in the CACFP*, and visit the "Milk Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- The MMA component must be served in a main dish, or a main dish and one other food item. A serving is the edible portion of cooked lean meat, poultry, or fish, e.g., cooked lean meat without bone, breading, binders, fillers, or other ingredients. Commercial processed products require a CN label or PFS to credit. For more information, refer to the CSDE's resources, *Crediting Commercial Meat/Meat Alternates in the CACFP* and *Crediting Deli Meats in the CACFP*, and visit the "Meat/Meat Alternates Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage. The USDA's CACFP best practices recommend serving only lean meats, nuts, and legumes; limiting processed meats to one serving per week; and serving only low-fat or reduced-fat natural cheese.
- ⁴ APPs must meet the requirements in appendix A of the CACFP regulations (7 CFR 226). For more information, refer to the CSDE's resource, Requirements for Alternate Protein Products in the CACFP.
- ⁵ For a 1-ounce serving of tempeh to credit as 1 ounce of MMA, the product's ingredients must include only soybeans (or other legumes), water, tempeh culture, and for some varieties, vinegar, seasonings, and herbs. Tempeh products that contain other ingredients require a CN label or PFS to document crediting information.
- ⁶ Surimi seafood is a pasteurized, ready-to-eat, restructured seafood product usually made from pollock (fish). A CN label or PFS is required for commercial products that indicate a different crediting amount.
- ⁷ Tofu must contain at least 5 grams of protein in 2.2 ounces (½ cup) to credit as 1 ounce of MMA. For more information, refer to the CSDE's resource, *Crediting Tofu and Tofu Products in the CACFP*.
- 8 Cooked dry beans and peas (legumes) credit as either the MMA component or the vegetables component but one serving cannot credit as both components in the same meal. For more information, refer to the CSDE's resource, *Crediting Legumes in the CACFP*.
- Oreditable nuts and seeds include almonds, Brazil nuts, cashews, filberts, macadamia nuts, peanuts, pecans, walnuts, pine nuts, pistachios, and soy nuts. Nuts and seeds cannot credit for more than half of the MMA component at lunch or supper. They must be combined with another meat/meat alternate to meet the total requirement. For more information, refer to the CSDE's resource, *Crediting Nuts and Seeds in the CACFP*.
- ¹⁰ Yogurt and soy yogurt cannot contain more than 23 grams of total sugars per 6 ounces (no more than 3.83 grams per ounce). For more information, refer to the CSDE's resource, *Crediting Yogurt in the CACFP*.
- ¹¹ The vegetables component includes fresh vegetables, frozen vegetables, canned vegetables, rehydrated dried vegetables, and pasteurized 100 percent full-strength vegetable juice. Vegetables credit based on volume (cups), except raw leafy

Lunch and Supper

Menu planning notes for lunch and supper, continued

greens such as lettuce and spinach credit as half the volume served, e.g., 1 cup of lettuce credits as ½ cup of the vegetables component. A serving of cooked vegetables must be drained. Dried vegetables (such as potato flakes and dried soup mix) credit based on their rehydrated volume and require a PFS. The USDA's CACFP best practices recommend that child care menus include at least one serving per week of each vegetable subgroup (dark green, red/orange, beans and peas (legumes), starchy, and other). For more information, refer to the CSDE's resource, *Vegetable Subgroups in the CACFP*, and visit the "Vegetables Component" section of the CSDE's Crediting Foods in CACFP Child Care Programs webpage.

- Pasteurized full-strength juice credits as either the vegetables component or fruits component at only one meal or snack per day. Juice includes fruit and vegetable juice, frozen pops made from 100 percent juice, pureed fruits and vegetables in smoothies, and juice from canned fruit in 100 percent juice. For more information, refer to the CSDE's resources, Crediting Juice in the CACFP and Crediting Smoothies in the CACFP. The USDA's CACFP best practices recommend serving whole fruits (fresh, frozen, canned, and dried) more often than juice.
- ¹³ Vegetables may substitute for the entire fruits component at lunch and supper. If lunch or supper includes two servings of vegetables, they must be different kinds.
- 14 The fruits component includes fresh fruit; frozen fruit; dried fruit; canned fruit in juice, water, or light syrup; and pasteurized 100 percent full-strength fruit juice. The creditable serving of canned fruit in 100 percent juice may include the juice but cannot include water or syrup. Fruits credit based on volume (cups), except dried fruits credit as twice the volume served, e.g., ½ cup of raisins credits as ½ cup of the fruits component. For more information, visit the "Fruits Component" section of the CSDE's Crediting Foods in CACFP Child Care Programs webpage.
- Grain products and recipes must be made with creditable grains (whole grains, enriched grains, bran, and germ). For information on identifying creditable grains, refer to the CSDE's resources, How to Identify Creditable Grains in the CACFP, Crediting Whole Grains in the CACFP, and Crediting Enriched Grains in the CACFP, and visit the "Grains Component" section of the CSDE's Crediting Foods in CACFP Child Care Programs webpage.
- At least one serving of grains per day must be WGR. The USDA's CACFP best practices recommend at least two servings of WGR grains per day. WGR foods for the CACFP contain at least 50 percent whole grains and the remaining grain ingredients are enriched, bran, or germ. For more information, refer to the CSDE's Guide to Meeting the Whole Grain-rich Requirement for the CACFP and visit the "Whole Grain-rich Requirement" section of the CSDE's Crediting Foods in CACFP Child Care Programs webpage.
- ¹⁷ Grain based desserts do not credit as the grains component. Examples include cookies, piecrusts in sweet pies, doughnuts, cereal bars, granola bars, sweet rolls, pastries, toaster pastries, cake, and brownies. Sweet crackers such as graham crackers and animal crackers are not grain-based desserts. However, the CSDE recommends limiting sweet crackers to no more than twice per week between all meals and snacks. For more information, visit the USDA's webpage, Grain-based Desserts in the CACFP.
- Grain products and recipes must meet the required weights (groups A-E) or volumes (groups H-I) in *Grain Ounce Equivalents for the CACFP* or provide the minimum creditable grains per serving. For more information, refer to the CSDE's resources, *Calculation Methods for Grains Ounce Equivalents for the CACFP* and *How to Use the Grain Ounce Equivalents Chart for the CACFP*, and visit the "Ounce Equivalents" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- Breakfast cereals cannot contain more than 6 grams of sugars per dry ounce (no more than 21.2 grams of sucrose and other sugars per 100 grams of dry cereal). For more information, refer to the CSDE's resource, Crediting Breakfast Cereals in the CACFP.
- ²⁰ Examples of cereal grains include amaranth, barley, buckwheat, cornmeal, corn grits, kasha, millet, oats, quinoa, wheat berries, and rolled wheat.

Snack

Menu planning notes for snack

- Snack must include two of the five components. Only one of the two components may be a creditable beverage, such as milk or juice. The USDA's CACFP best practices recommend serving a vegetable or fruit for at least one of the two required snack components. Use the USDA's Food Buying Guide for Child Nutrition Programs (FBG) to determine the amount of purchased food that meets the requirements. Commercial processed foods not listed in the FBG require a CN label or PFS to document crediting information. For more information, refer to the CSDE's resources, Using Child Nutrition (CN) Labels in the CACFP, Using Product Formulation Statements in the CACFP, and Accepting Processed Product Documentation in the CACFP, and visit the "Crediting Commercial Processed Products" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers Programs webpage. Foods made from scratch must have a recipe that documents the crediting information per serving. For more information, visit the "Crediting Foods Made from Scratch" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers Programs webpage.
- Allowable types of milk include low-fat (1%) milk and fat-free milk, either unflavored or flavored. The USDA's CACFP best practices recommend serving only unflavored milk. For more information, refer to the CSDE's resource, *Crediting Yogurt in the CACFP*, and visit the "Milk Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- ³ A serving of the MMA component is the edible portion of cooked lean meat, poultry, or fish, e.g., cooked lean meat without bone, breading, binders, fillers, or other ingredients. Commercial processed products require a CN label or PFS to credit. For more information, refer to the CSDE's resources, *Crediting Commercial Meat/Meat Alternates in the CACFP* and *Crediting Deli Meats in the CACFP*, and visit the "Meat/Meat Alternates Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage. The USDA's CACFP best practices recommend serving only lean meats, nuts, and legumes; limiting processed meats to one serving per week; and serving only low-fat or reduced-fat natural cheese.
- ⁴ APPs must meet the requirements in appendix A of the CACFP regulations (7 CFR 226). For more information, refer to the CSDE's resource, Requirements for Alternate Protein Products in the CACFP.
- ⁵ For a 1-ounce serving of tempeh to credit as 1 ounce of MMA, the product's ingredients must include only soybeans (or other legumes), water, tempeh culture, and for some varieties, vinegar, seasonings, and herbs. Tempeh products that contain other ingredients require a CN label or PFS to document crediting information.
- ⁶ Surimi seafood is a pasteurized, ready-to-eat, restructured seafood product usually made from pollock (fish). A CN label or PFS is required for commercial products that indicate a different crediting amount.
- ⁷ Tofu must contain at least 5 grams of protein in 2.2 ounces (½ cup) to credit as 1 ounce of MMA. For more information, refer to the CSDE's resource, *Crediting Tofu and Tofu Products in the CACFP*.
- ⁸ Cooked dry beans and peas (legumes) credit as either the MMA component or the vegetables component but one serving cannot credit as both components in the same meal. For more information, refer to the CSDE's resource, *Crediting Legumes in the CACFP*.
- Oreditable nuts and seeds include almonds, Brazil nuts, cashews, filberts, macadamia nuts, peanuts, peanuts, pine nuts, pistachios, and soy nuts. Nuts and seeds cannot credit for more than half of the MMA component at lunch or supper. They must be combined with another meat/meat alternate to meet the total requirement. For more information, refer to the CSDE's resource, Crediting Nuts and Seeds in the CACFP.
- ¹⁰ Yogurt and soy yogurt cannot contain more than 23 grams of total sugars per 6 ounces (no more than 3.83 grams per ounce). For more information, refer to the CSDE's resource, *Crediting Yogurt in the CACFP*.

Snack

Menu planning notes for snack, continued

- The vegetables component includes fresh vegetables, frozen vegetables, canned vegetables, rehydrated dried vegetables, and pasteurized 100 percent full-strength vegetable juice. Vegetables credit based on volume (cups), except raw leafy greens such as lettuce and spinach credit as half the volume served, e.g., 1 cup of lettuce credits as ½ cup of the vegetables component. A serving of cooked vegetables must be drained. Dried vegetables (such as potato flakes and dried soup mix) credit based on their rehydrated volume and require a PFS. The USDA's CACFP best practices recommend that CACFP menus include at least one serving per week of each vegetable subgroup (dark green, red/orange, beans and peas (legumes), starchy, and other). For more information, refer to the CSDE's resource, Vegetable Subgroups in the CACFP, and visit the "Vegetables Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- Pasteurized full-strength juice credits as either the vegetables component or fruits component at only one meal or snack per day. Juice includes fruit and vegetable juice, frozen pops made from 100 percent juice, pureed fruits and vegetables in smoothies, and juice from canned fruit in 100 percent juice. For more information, refer to the CSDE's resources, Crediting Juice in the CACFP and Crediting Smoothies in the CACFP. The USDA's CACFP best practices recommend serving whole fruits (fresh, frozen, canned, and dried) more often than juice.
- The fruits component includes fresh fruit; frozen fruit; dried fruit; canned fruit in juice, water, or light syrup; and pasteurized 100 percent full-strength fruit juice. The creditable serving of canned fruit in 100 percent juice may include the juice but cannot include water or syrup. Fruits credit based on volume (cups), except dried fruits credit as twice the volume served, e.g., ¼ cup of raisins credits as ½ cup of the fruits component. For more information, visit the "Fruits Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- 14 Grain products and recipes must be made with creditable grains (whole grains, enriched grains, bran, and germ). For information on identifying creditable grains, refer to the CSDE's resources, How to Identify Creditable Grains in the CACFP, Crediting Whole Grains in the CACFP, and Crediting Enriched Grains in the CACFP, and visit the "Grains Component" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- At least one serving of grains per day must be WGR. The USDA's CACFP best practices recommend at least two servings of WGR grains per day. WGR foods for the CACFP contain at least 50 percent whole grains and the remaining grain ingredients are enriched, bran, or germ. For more information, refer to the CSDE's Guide to Meeting the Whole Grain-rich Requirement for the CACFP and visit the "Whole Grain-rich Requirement" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- Grain based desserts do not credit as the grains component. Examples include cookies, piecrusts in sweet pies, doughnuts, cereal bars, granola bars, sweet rolls, pastries, toaster pastries, cake, and brownies. Sweet crackers such as graham crackers and animal crackers are not grain-based desserts. However, the CSDE recommends limiting sweet crackers to no more than twice per week between all meals and snacks. For more information, visit the USDA's webpage, Grain-based Desserts in the CACFP.
- Grain products and recipes must meet the required weights (groups A-E) or volumes (groups H-I) in *Grain Ounce Equivalents for the CACFP* or provide the minimum creditable grains per serving. For more information, refer to the CSDE's resources, *Calculation Methods for Grains Ounce Equivalents for the CACFP* and *How to Use the Grain Ounce Equivalents Chart for the CACFP*, and visit the "Ounce Equivalents" section of the CSDE's Crediting Foods in CACFP Adult Day Care Centers webpage.
- Breakfast cereals cannot contain more than 6 grams of sugars per dry ounce (no more than 21.2 grams of sucrose and other sugars per 100 grams of dry cereal). For more information, refer to the CSDE's resource, Crediting Breakfast Cereals in the CACFP.
- ¹⁹ Examples of cereal grains include amaranth, barley, buckwheat, commeal, corn grits, kasha, millet, oats, quinoa, wheat berries, and rolled wheat.

For more information on the CACFP adult meal patterns, refer to the CSDE's *Guide to Meeting the Meal Pattern Requirements for CACFP Adult Day Care Centers* and visit the Meal Patterns for CACFP Adult Day Care Centers and Crediting Foods in CACFP Adult Day Care Centers webpages, or contact the CACFP staff at the Connecticut State Department of Education, Bureau of Child Nutrition Programs, 450 Columbus Boulevard, Suite 504, Hartford, CT 06103-1841.

This handout is available at https://portal.ct.gov/-/media/SDE/Nutrition/CACFP/MealPattern/Adult_Meal_Pattern_CACFP.pdf.

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: https://www.usda.gov/sites/default/files/documents/ad-3027.pdf, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

- mail: U.S. Department of Agriculture
 Office of the Assistant Secretary for Civil Rights
 1400 Independence Avenue, SW
 Washington, D.C. 20250-9410; or
- 2. fax: (833) 256-1665 or (202) 690-7442; or
- 3. email: program.intake@usda.gov

This institution is an equal opportunity provider.

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems, gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education's nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email louis.todisco@ct.gov.
