

Identifying Products that Meet the USDA’s Nutrition Standards for Fluid Milk Substitutes in the CACFP

This document indicates how to determine if commercial products credit as fluid milk substitutes in the U.S. Department of Agriculture’s (USDA) meal patterns for the Child and Adult Care Food Program (CACFP). This guidance applies to CACFP adult day care centers, child care centers, family day care homes, emergency shelters, at-risk afterschool care centers, and adult day care centers.

The guidance in this document does not apply to fluid milk substitutes for participants whose disability restricts their diet. For detailed guidance on the meal modification requirements for disability reasons, refer to the Connecticut State Department of Education’s (CSDE) [Guide to Meal Modifications in CACFP Child Care Programs](#) and [Guide to Meal Modifications in CACFP Adult Day Care Centers](#).

Identifying Products that Meet the USDA's Nutrition Standards for Fluid Milk Substitutes in the CACFP

The USDA allows CACFP sponsors to offer fluid milk substitutes for participants who do not consume regular cow's milk due to non-disability reasons. These fluid milk substitutes must comply with the USDA's nutrition standards for fluid milk substitutes (7 CFR 210.10(d)(3)). Beverages that do not meet these requirements cannot be served in CACFP meals and snacks unless the participant has a medically documented disability that specifically requires this substitution.

For detailed guidance on the USDA's requirements for fluid milk substitutes, refer to the CSDE's resources, [Allowable Fluid Milk Substitutes for Non-disability Reasons for Adult Participants in the Child and Adult Care Food Program](#), and [Allowable Fluid Milk Substitutes for Non-disability Reasons for Children in the Child and Adult Care Food Program](#).

Fluid milk substitutes are plant-based beverages designed to replace cow's milk, such as soy milk, almond milk, rice milk, and oat milk. Fluid milk substitutes must meet the USDA's nutrition standards for fluid milk substitutes. CACFP sponsors may offer allowable fluid milk substitutes as a replacement for cow's milk in meals and snacks for participants who do not consume milk due to non-disability reasons. Only certain brands of fluid milk substitutes meet the USDA's standards.

Required Documentation for Fluid Milk Substitutes

CACFP sponsors must have documentation on file to claim reimbursement for meals and snacks that contain fluid milk substitutes. Prior to providing a fluid milk substitute for a non-disability reason, CACFP child care programs and adult day care centers must obtain a written request that identifies the reason for the milk substitute from one of the following:

- the child's parent/guardian (or for adult participants, the participant or their guardian/caregiver);
- a state licensed healthcare professional, i.e., physician (MD), physician assistant (PA) and certified physician assistant (PAC), doctors of osteopath (DO), and advanced practice registered nurse (APRN); or
- a registered dietitian (RD) or registered dietitian nutritionist (RDN).

For example, a parent may submit a written request for an allowable brand of soy milk because her child is a vegetarian. CACFP child care programs and adult day care centers must maintain all requests for fluid milk substitutes on file with participants' other medical records.

Identifying Products that Meet the USDA's Nutrition Standards for Fluid Milk Substitutes in the CACFP

Instructions for Identifying Allowable Fluid Milk Substitutes

Use the chart on page 3 ([Comparison Chart: Meeting the USDA's Nutrition Standards](#)) to enter the product's information in column 4, then complete column 5 to determine if the fluid milk substitute complies with each standard.

- **Column 1** indicates the minimum nutrients per cup (8 fluid ounces) for the eight required nutrients of the USDA's nutrition standards for fluid milk substitutes.
- **Column 2** indicates the unrounded Daily Value (% DV) for each nutrient. The unrounded % DV is the current daily value for each nutrient indicated in the Food and Drug Administration's (FDA) [Reference Guide: Daily Values for Nutrients](#).
- **Column 3** indicates the rounded percent % DV for each nutrient. The rounded % DV is based on the FDA labeling laws (refer to Appendix H of the FDA's [A Food Labeling Guide: Guidance for Industry](#)). It is listed on the Nutrition Facts label and indicates how each nutrient in the serving contributes to a daily diet of 2,000 calories.
- **Column 4:** Enter the nutrients per cup or % DV from the Nutrition Facts label or manufacturer's nutrient analysis. **Note:** Product information might list nutrient values, % DV (unrounded or rounded), or both. If any nutrient values are missing, the CACFP sponsor must obtain this information from the manufacturer.
- **Column 5:** Check "yes" or "no" to indicate if the product meets each nutrient standard (either the nutrients per cup in column 1 or the unrounded % DV in column 2 or the rounded % DV in column 3). If all "yes" boxes are checked, the product is an allowable fluid milk substitute. Submit information to the CSDE so compliant products may be added to the list of allowable products.

Additional requirements for child care centers in public schools: In addition to meeting the USDA's nutrition standards for fluid milk substitutes, fluid milk substitutes must also comply with the applicable requirements below.

- Fluid milk substitutes for ages 1-5 must be unflavored.
- Fluid milk substitutes offered in child care centers in public schools must meet the state beverage requirements for nondairy milk substitutes under [Section 10-221q](#) of the Connecticut General Statutes. They cannot contain artificial sweeteners and cannot exceed 4 grams of sugar per ounce, 35 percent of calories from fat, and 10 percent of calories from saturated fat.

To be an allowable fluid milk substitute, a commercial product must meet each nutrient standard (either the nutrients per cup in column 1 or the unrounded or rounded % DV in column 2). Check that the product also meets the additional requirements for ages 1-5 and child care centers in public schools indicated above.

Identifying Products that Meet the USDA's Nutrition Standards for Fluid Milk Substitutes in the CACFP

Comparison Chart: Meeting the USDA's Nutrition Standards

Column 1	Column 2	Column 3	Column 4	Column 5
USDA requirements: Minimum nutrients per cup (8 fluid ounces)	Unrounded % DV ¹	Rounded % DV ²	Product information ³	Meets nutrient standard in column 2 or 3
Calcium: 276 milligrams (mg)	21.23%	20%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Protein: 8 grams (g)	16%	16%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Vitamin A: 150 micrograms (mcg) retinol activity equivalent (RAE)	16.67%	20%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Vitamin D: 2.5 micrograms (mcg)	12.5%	15%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Magnesium: 24 mg	5.71%	6%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Phosphorus: 222 mg	17.76%	20%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Potassium: 349 mg	7.43%	10%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Riboflavin: 0.44 mg	33.85%	35%		<input type="checkbox"/> Yes <input type="checkbox"/> No
Vitamin B12: 1.1 mcg	45.83%	45%		<input type="checkbox"/> Yes <input type="checkbox"/> No

- ¹ The unrounded % DV is the minimum nutrients per cup divided by the current daily value for each nutrient (refer to the FDA's [Reference Guide: Daily Values for Nutrients](#)).
- ² The rounded % DV is based on the FDA labeling laws and is listed on the Nutrition Facts label (refer to Appendix H of the FDA's [A Food Labeling Guide: Guidance for Industry](#)).
- ³ Indicate the product's nutrients per cup or % DV (either unrounded or rounded). The manufacturer's product information might list nutrient values, % DV, or both.

Identifying Products that Meet the USDA's Nutrition Standards for Fluid Milk Substitutes in the CACFP

For more information, visit the Connecticut State Department of Education's (CSDE) [Special Diets in CACFP Child Care Programs](#) webpage or [Special Diets in CACFP Adult Day Care Centers](#) webpage or contact the [CACFP staff](#) at the Connecticut State Department of Education, Bureau of Child Nutrition Programs, 450 Columbus Boulevard, Suite 504, Hartford, CT 06103-1841. This document is available at https://portal.ct.gov/-/media/sde/nutrition/cacfp/specdiet/identify_allowable_nondairy_milk_substitutes_cacfp.pdf.

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
3. email: program.intake@usda.gov

This institution is an equal opportunity provider.

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems, gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education's nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email louis.todisco@ct.gov.
