

# Summary Charts of the Requirements for Meal Modifications for Children in the \ Child and Adult Care Food Program

The charts in this document summarize the meal modification requirements for child care centers, family day care homes, emergency shelters, and at-risk afterschool care centers that participate in the U.S. Department of Agriculture's (USDA) Child and Adult Care Food Program (CACFP). For detailed guidance, refer to the Connecticut State Department of Education's (CSDE) [Guide to Meal Modifications for Child Care Programs in the Child and Adult Care Food Program](#) and visit the CSDE's [Special Diets in the Child and Adult Care Food Program](#) webpage.

## Overview of Requirements for Meal Modifications

The requirements for meal modifications for children in the CACFP are defined by the USDA's nondiscrimination regulations ([7 CFR 15b](#)) and CACFP regulations ([7 CFR 226.20\(g\)](#)). These regulations outline the required modifications for children whose disability restricts their diet (disability reasons) and the optional modifications for children who do not have a disability but have other special dietary needs (non-disability reasons).

- **Disability reasons:** The USDA requires reasonable meal modifications on a case-by-case basis for children whose disability restricts their diet, based on written documentation from a state licensed healthcare professional or registered dietitian. Meal modifications must be related to the disability or limitations caused by the disability. [Chart 1](#) summarizes the requirements for meal modification requests for disability reasons.
- **Non-disability reasons:** Meal modifications for non-disability reasons are optional. [Chart 2](#) summarizes the requirements for meal modification requests for disability reasons.

For detailed guidance on meal modifications for disability and non-disability reasons, refer to the CSDE's resource, [Overview of the Requirements for Meal Modifications for Children in the Child and Adult Care Food Program](#) and [Guide to Meal Modifications for Child Care Programs in the Child and Adult Care Food Program](#), and visit the CSDE's [Special Diets in the Child and Adult Care Food Program](#) webpage.

## Chart 1: Meal Modification Requests for Disability Reasons

The examples of medical conditions in chart 1 are not all-inclusive and might not require meal modifications for all children. The determination of whether a child has a physical or mental impairment that restricts their diet must be made on a case-by-case basis based on a medical statement signed by a state licensed healthcare professional or registered dietitian.

## Summary Charts of the Requirements for Meal Modifications for Children in the CACFP

- “Case-by-case basis” means specific to the individual medical condition and dietary needs of each child, based on the specific information provided by the state licensed healthcare professional or registered dietitian in the child’s medical statement or, if applicable, the child’s Section 504 plan or Individualized Education Program (IEP).
- A state licensed healthcare professional is an individual who is authorized to write medical prescriptions under state law. The Connecticut State Department of Public Health (DPH) defines these individuals as physicians (MD), physician assistants (PA) and certified physician assistants (PAC), doctors of osteopathy (DO), and advanced practice registered nurses (APRN).

Type of request	How disability determined	Plan on file	Examples of medical conditions	Required documentation
Child determined to have disability (physical or mental impairment) under Section 504; disability restricts child’s diet; and required meal modification is outside USDA meal patterns	Section 504 meeting	504 plan and Individualized Health Care Plan (IHCP)  May also have an Emergency Care Plan (ECP) depending on child’s medical condition	Medical conditions that substantially limit a major life activity and affect child’s diet  <b>Examples:</b> Metabolic diseases, (e.g., diabetes or phenylketonuria (PKU)) and food anaphylaxis (life-threatening food allergy)	Medical statement signed by state licensed healthcare professional or registered dietitian (or 504 plan, if applicable)  Medical statement must include: 1) information about how child’s physical or mental impairment restricts child’s diet; 2) explanation of what must be done to accommodate child; and 3) food or foods to be omitted and recommended alternatives, if appropriate

## Summary Charts of the Requirements for Meal Modifications for Children in the CACFP

Type of request	How disability determined	Plan on file	Examples of medical conditions	Required documentation
Child determined to have disability (physical or mental impairment) under Individuals with Disabilities Education Act (IDEA); disability restricts child's diet; and required meal modification is outside USDA meal patterns	Planning and Placement Team (PPT) Meeting	Individualized Education Program (IEP) and IHCP  May also have an ECP depending on child's medical condition	Medical conditions that meet IDEA recognized disability categories, require related services under IDEA, and affect child's diet  <b>Examples:</b> Autism, traumatic brain injury and other health impairment, e.g., heart condition and diabetes	Medical statement signed by state licensed healthcare professional or registered dietitian (or 504 plan, if applicable)  Medical statement must include: 1) information about how child's physical or mental impairment restricts child's diet; 2) explanation of what must be done to accommodate child; and 3) food or foods to be omitted and recommended alternatives, if appropriate

## Chart 2: Meal Modification Requests for Non-disability Reasons

The requirements for optional meal modifications for non-disability reasons depend on whether the modifications are within or outside the USDA meal patterns.

- Modifications within the USDA meal patterns:** Meal modifications are within the meal patterns if they are only modified for texture (such as chopped, ground, or pureed foods) or they only include substitutions within the same meal component, such as a banana for strawberries (fruits component), lactose-free milk for regular milk (milk component), and chicken for pork (meats/meat alternates component). These modifications do not require a medical statement. However, the CSDE recommends obtaining a medical statement to ensure clear communication between parents/guardians and the CACFP facility regarding the appropriate meal modifications for the child. [Chart 1](#) summarizes the requirements for meal modification requests for disability reasons.
- Modifications outside the USDA meal patterns:** Meal modifications are outside the meal patterns if they include noncreditable foods. Noncreditable foods are foods and beverages that do not meet the meal pattern requirements for reimbursable meals and snacks (refer to the CSDE's resource, [Noncreditable Foods in the Meal Patterns for the Child and Adult Care Food Program](#)). Examples include entrees that do not meet the crediting requirements for the [meats/meat alternates component](#) milk substitutes that do not meet the USDA's nutrition standards for fluid milk substitutes. Meal modifications for non-disability reasons that are outside the meal patterns require a medical statement signed by a state licensed healthcare professional or registered dietitian.

Type of request	Required documentation for meals outside the USDA meal pattern	Required documentation for meals within the USDA meal pattern
Personal food preferences, e.g., gluten-free foods, organic foods	Medical statement signed by state licensed healthcare professional or registered dietitian that indicates: 1) information about how child's personal food preferences restrict child's diet; 2) explanation of what must be done to accommodate child; and 3) food or foods to be omitted and recommended alternatives, if appropriate	None

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotope, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture  
Office of the Assistant Secretary for Civil Rights  
1400 Independence Avenue, SW  
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
