## Data Collection and Maintenance

1. New sponsors must submit the [Civil Rights Pre-award Survey for the Child and Adult Care Food Program](#) as part of the original agreement. **This requirement is for new sponsors only.**
2. Determine the number of potentially eligible beneficiaries by racial or ethnic category for the area served by the institution each year. Sponsors report this information on the [Civil Rights Potential Beneficiary Data Determination Form for the Child and Adult Care Food Program](#), which uses current school population data provided by the Connecticut State Department of Education (CSDE).
3. Collect actual beneficiary data by racial or ethnic category for **each** child care center, outside-school-hours care center, adult day care center, and family day care home under the jurisdiction of the institution each year. Sponsors report this information on the [Child and Adult Care Food Program Civil Rights Beneficiary Data Collection Form](#).

CACFP sponsors **cannot use visual observation and identification** to collect race or ethnicity data. Refer to "[Self-identification of Race and Ethnicity by Participants](#)" below.

4. Maintain all CACFP records on file for three years after the date of submission of the final claim for reimbursement for the fiscal year to which they pertain, or if an audit is outstanding, until the audit is closed, as required by CACFP regulations. For additional guidance, refer to the CSDE's resource, [Records Retention Requirements for the Child and Adult Care Food Program](#).
5. Ensure that all civil rights data is maintained under safeguards, restricting access of records only to authorized personnel.

## Self-identification of Race and Ethnicity by Participants

As indicated in [USDA Memo CACFP 11-2021 and SFSP 07-2021: Collection of Race and Ethnicity Data by Visual Observation and Identification in the Child and Adult Care Food Program and Summer Food Service Program – Policy Rescission](#), the use of visual observation and identification by CACFP institutions and facilities is not an appropriate method for collecting race or ethnicity data in the CACFP. This means that CACFP facilities **cannot use visual observation and identification** to collect race or ethnicity data.

The preferred method of collecting demographic data is self-identification and self-reporting. Examples include using data from other sources in which the respondent has self-identified race or ethnicity, such as the CACFP income eligibility applications or data for other funding sources like Head Start.

CACFP facilities should explain the importance of this data to participants and encourage them to self-identify and self-report. CACFP facilities must ensure that applicants and participants are made aware that failure to provide racial or ethnic identity information will **not** impact their eligibility for the CACFP.

## Training

1. Sponsors must provide civil rights training on an annual basis to all “frontline staff” who interact with applicants or participants, as well as those persons who supervise “frontline staff.” Training is required so that people involved in all levels of administration of programs that receive Federal financial assistance understand civil rights-related laws, regulations, procedures, and directives.
2. Specific subject matter for civil rights training must include, but not be limited to the topics below.
  - a. Collection and use of data
  - b. Effective public notification systems
  - c. Complaint procedures
  - d. Compliance review techniques
  - e. Resolution of noncompliance
  - f. Requirements for reasonable accommodation of persons with disabilities
  - g. Requirements for language assistance
  - h. Conflict resolution
  - i. Customer service

# Civil Rights Requirements for the CACFP

## Limited English Proficiency (LEP)

1. Local agencies that fail to provide services to persons with LEP may be discriminating on the basis of national origin.
2. Agencies are required to take reasonable steps to assure meaningful access to the information and services they provide. Reasonable steps would include providing translators or appropriate translations of SFSP materials and applications.
3. What constitutes the need for reasonable steps is contingent on a number of factors, including:
  - the number of LEP persons served;
  - the frequency LEP persons that come in contact with services;
  - the nature and importance of the services; and
  - the resources available to recipients and costs.

## Equal Opportunity for Religious Organizations

1. Faith-based and community-based organizations (FBOs and CBOs) have a long history of involvement in the federal nutrition assistance programs and a tradition of supporting low-income people by providing a wide range of social services. These organizations are important and longstanding partners in the USDA's efforts to provide nutrition assistance to those in need.
2. Nutrition assistance program policy encourages the participation of FBOs/CBOs on an equal footing with other kinds of local cooperating organizations, and avoids barriers that would make their participation difficult. In addition, the FNS has undertaken special initiatives that recognize the role of FBOs/CBOs in serving low-income people.
3. The USDA promulgated a regulation on July 9, 2004, to ensure the elimination of unwarranted barriers to the participation of faith-based organizations in USDA-funded programs on the basis of religion. The regulation, titled *Equal Opportunity for Religious Organizations* is codified at [7 CFR Part 16](#), and ensures a level playing field for the participation of faith-based organizations and other community organizations in USDA programs.
