Introduction

Welcome to the Connecticut State Department of Education's (CSDE) user manual for the Summer Food Service Program (SFSP) module. The Connecticut Online Application and Claiming System for Child Nutrition Programs (CNP System) is a Web-based software solution that provides administrators, state users and sponsors with efficient and immediate access to applications, claims and related nutrition program functions.

Web Site Benefits and Features

The CNP System is a user-friendly Web application that allows authorized users to submit and approve applications, claims, and miscellaneous forms via the Internet, as their security rights permit. Key CNP System features include:

- a software system that manages information regarding sponsors, applications, claims, and reports;
- a single integrated database that serves all Child Nutrition Programs;
- the ability to save partially completed forms online, allowing the user to complete the process at a later time;
- individual user IDs and passwords for secure login to program functions and accurate tracking of user behavior; and
- a robust security module that streamlines security setting controls by enabling administrators to easily assign users to numerous predefined groups and eliminating the need to manually set each user's security access.

User Manual

This user manual is intended for use by authorized sponsors of the U.S. Department of Agriculture (USDA) SFSP. It is designed to provide a general understanding of how to use the CNP System in an effective and efficient manner. This manual provides:

- a general explanation of each feature available;
- screen examples of Web site pages and forms;
- step-by-step instructions for utilizing the Web site features; and
- tips and notes to enhance your understanding of the CNP System.

Getting Started

Before you can begin using the CNP System, you must be assigned a user ID and password by the CNP System Help Desk that provides the required security rights. Once this setup is complete, you may use the Internet and your assigned user ID and password to access and log on to the CNP System Web site.

2

Accessing the Web Site

You can access CNP System from any computer connected to the Internet by opening your Internet browser and entering the CNP System URL in the browser's address line. The CNP System URL is <https://ct.cnpus.com/prod/Splash.aspx>.

Figure 1 shows the CNP System home page.

TIP: You can add this URL to your browser's FAVORITES list or create a shortcut to the Web site on your desktop for quicker access to the site. Refer to your browser or operating system help files for further information.

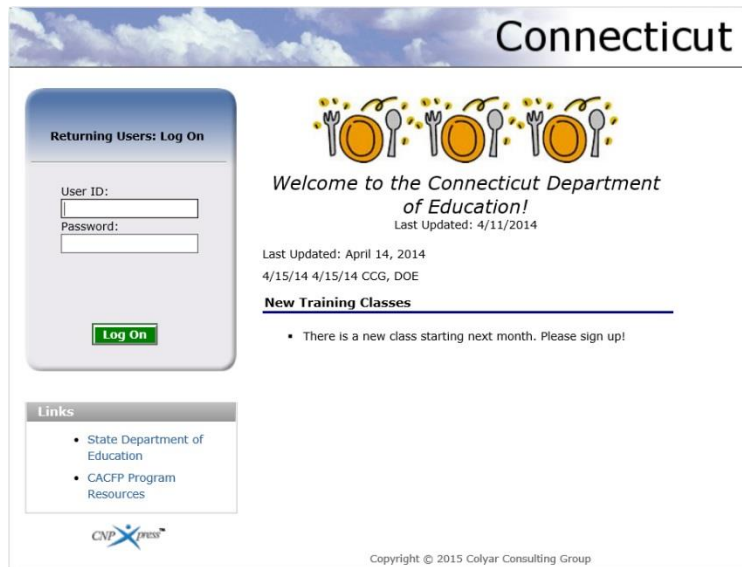

Figure 1: CNP System Home Page

About the CNP System Home Page

The CNP System Home Page consists of three major sections:

- bulletin board;
- log on; and
- links.

The **bulletin board** is managed by the CSDE and provides general information. It also includes information related to claim submission timelines and technical assistance contacts.

The **log on** section is where authorized users enter their user ID and password. It also provides a link for users that have entered a valid user ID but have forgotten their password, to be transferred to another Web page to reset their password.

The **links** section provides access to the CSDE's school nutrition programs Web sites and additional information.

Logging On

To log on

1. Access the CNP System by typing the URL (<https://ct.cnpus.com/prod/Splash.aspx>) into the address line of your web browser.
2. Enter your assigned **User ID**.
3. Enter your **Password**.
4. Select **Log On**.

Note: If you do not have a user ID and password, contact the CNP System Help Desk at ColyarHelp.SDE@ct.gov or 860-713-6681. The Help Desk is open Monday through Friday from 8:00 a.m. to 4:00 p.m.

TIP: The Password is case-sensitive, so be sure to use upper-case and lower-case letters, if necessary.

To change your password

If this is your first time logging on, the CNP System will automatically require you to change your password.

1. Select a new password and enter it into the box provided.
2. Re-enter your new password for confirmation.
3. Select **Save** to continue to the CNP System Programs page.

Note: Security configuration settings require a password that contains at least eight (8) characters.

CNP System Content Overview

Once you are logged in, the top portion of the CNP System application contains key elements that provide basic information about your location within the CNP System and your organization (see figure 2). Table 1 describes these key elements.

Figure 2: CNP System Content Overview

Table 1: Key Elements of the CNP System	
Item	Description
Program Name	The selected program name appears in the gray area at the top of the page.
Menu Items	<p>Menu items display on the blue menu bar at the top of the page. Selecting a menu item will take you to its menu page.</p> <p>Users may not have access to all menu items. If you are unable to select a particular menu item, you do not have the necessary security rights. Contact the CNP System Help Desk for assistance at ColyarHelp.SDE@ct.gov or 860-713-6681. The Help Desk is open Monday through Friday from 8:00 a.m. to 4:00 p.m.</p>
Breadcrumb Trail	The navigation, or breadcrumb trail, identifies your location within the Web site. Selecting a specific portion of the trail will take you back to that particular screen.
Program Year	The selected program year displays on the right beneath the menu bar. Upon logging in, the CNP System defaults to the most current active program year.
Information Box	The information box displays general information regarding the sponsor/site.
Log Out	The log out button displays in the menu bar. The CSDE recommends selecting Log Out to properly exit the CNP System.

Note: For security reasons, the CNP System will automatically log you out after twenty (20) minutes of inactivity.

Screen Options

Data entry screens in the CNP System offer the user some or all of the following options: **VIEW**, **MODIFY**, **DELETE** and **INTERNAL USE ONLY**. The Screen Options area is located on the top right side of the screen, directly beneath the colored bar (see figure 3).

Figure 3: Screen Options Example

Table 2 describes each of the possible screen options.

DELETE	Deletes the current record displayed on the screen. The user will be presented with a confirmation screen to validate that they intend to delete the record.
INTERNAL USE ONLY	This option is only available to authorized CSDE users.

CNP System Programs Page

Once you successfully log on, the CNP System Programs page is displayed (see figure 4). Actual access to specific modules is based on the user’s security rights.

TIP: The Accounting, Maintenance and Configuration, and Security tiles are always gray because these are administrative modules that are only available to authorized CSDE users. Sponsors will not have access to these modules.

SFSP Home Page

The SFSP home page contains the message board used by CSDE administrators to post SFSP-related messages to sponsors. Messages may contain important news regarding submission due dates, upcoming training, legislative changes or any other SFSP-specific information.

Message board content is managed by authorized CSDE staff.

To access the SFSP home page

1. Log on to the CNP System Web site.
2. On the Programs screen, select **Summer Food Service Program**.

Note: If a user only has access to the SFSP module, the Programs screen is not displayed.

3. The **Summer Food Service Program** home page displays.

Note: CSDE administrators maintain the message boards for all CNP System modules.

SFSP menu options

From the SFSP home page, you can select a menu item from the blue menu bar at the top of the page. The SFSP menu bar contains menu items specific to the SFSP. Table 4 describes the features available for each menu option, which the remainder of this manual will discuss in detail.

Please note: Individual users may have varying menu options due to the user's security configuration.

Error Processing

All information entered and saved on the CNP System is verified to ensure it conforms to data entry guidelines and system rules. The site performs two types of checks on information entered: Input Edits and Business Rule Edits.

Input Edits

Whenever you save information or proceed to a new screen, the site checks for input errors. These errors may include entry errors such as an invalid data entry (e.g., entering a four-digit zip code), or a nonlogical entry (e.g., entering a greater number of eligible than enrolled children).

If a form contains an input error and the user selects **Save**, the screen either displays the error code and description in red at the top of the page (the error code is a letter), or displays a message next to the field in error. Input errors *must be corrected* before you can proceed. The CNP System will *not* save data entered on a screen that contains an input error. The user must correct the input errors and select **Save** again.

Figure 5 shows examples of input errors.

The screenshot shows a web form titled "Site Profile". At the top, there is a red banner with the text "Input Errors" and a message "A| Value is required. Please re-enter." Below this banner, the form is divided into a section titled "Site Information". This section contains three input fields: "Site ID" with the value "200000916", "Site Name" with a red error box, and "County" with a dropdown menu and a red error box.

Figure 5: Examples of Input Errors (Partial Screen)

Business Rule Edits

Business rule edits are used to ensure that data entered on a form conforms to state-defined guidelines/requirements and federal regulations. When the user initiates a save, the CNP System will perform business rule edit checks and identify whether errors exist. After the user corrects any input errors, the CNP System will display a confirmation screen stating that the entered data has been saved.

The user may correct business rule errors immediately or at another time. The entered data will not be lost. The errors will display at the top of the screen with an error code (usually four to five digits) and error description. Business rule edits do *not* prohibit the CNP System from saving the data entered on the screen.

Figure 6 shows examples of business rule errors.

Code	Error Description

8205	Facility Information - Facility Name is required.

2. Facility Name:

Figure 6: Example of Business Rule Errors (Partial Screen)

In addition, business rule edits have an error severity that indicates whether an error is considered an error or a warning. **Errors** appear in red and must be corrected before the form can be submitted. **Warnings** appear in blue and indicate an “out of the ordinary” data value (see figure 7). Warning errors do not need to be corrected prior to form submission.

Code	Warning Description
001	The Application Packet is not considered complete until the prior year's Food Safety Inspection Report has been submitted.

Figure 7: Example of a Warning Error

Note: CSDE administrators maintain the verbiage for business rule error messages. If you think an error message is incorrect or unclear, please contact the CNP System Help Desk.

Selecting a Program Year

Information for sponsors and sites is displayed based on the selected program year. After logging on to the CNP System, the “active” program year is the default selection and displays in the top-right corner in the blue bar. To view information from a prior year, you will need to change the program year.

Note: A sponsor will be unable to select a new year if they have not been granted the security right. Contact the CNP System Help Desk and request access to the **Select Year** security right if you think this is in error.

To select a program year

1. Select **Year** on the blue menu bar at the top of the page. The **Year Select** screen displays (see figure 8).
2. Select the year.

Note: The selected year is indicated by **< Selected**.

3. Use the menu bar to return to your task in the program.

TIP: The ability to view and/or modify a program year is controlled by the CSDE’s system administrator.

Sponsor Search

Note: If you are associated with only one sponsor, the CNP System will default to the sponsor's data.

If you are associated with more than one CNP sponsor, you must search for and select a sponsor using the Sponsor Search function before beginning any task. When the Sponsor Search screen displays, you can search for the sponsor using all or part of the sponsor ID, name, or any other combination of parameters provided on this screen.

To search for a Sponsor

1. On the menu bar, select **Search**. [If the Sponsor Search screen is already displayed, begin at Step 2.] The **Sponsor Search** screen displays (see figure 9).
2. Enter search parameters (see table 5 for additional information on using the search parameters).
3. Select **Search**.
4. Select the sponsor you wish to access.

TIP: The sponsors list displays based upon the search criteria entered. If no selections were made, the list displays all available sponsors with the designated status (default is "Active").

2 — GETTING STARTED

The sponsor search parameters follow a specific set of rules. These are described in the table 5. The search is confined to the sponsors in the respective program year displayed at the top right of the screen.

If the type of search is identified as “includes,” the system will search for any sponsor that includes the parameter in any portion of the selected field. For example, if the user entered “386” in the **Sponsor ID** parameter, the system will retrieve sponsors with sponsor IDs of “00386” and “01386.”

If the type of search is “exact match,” the system will search only for any sponsor that exactly matches the parameter. For example, if the user selected “Adams” in the **County** parameter, the system will retrieve all sponsors associated with the county of Adams.

Table 5: Rules for Sponsor Search Parameters

If the “Search all available Programs” box is checked, the results display changes in appearance (see figure 10). The system will ignore all search criteria except for the sponsor ID and sponsor status. If the sponsor name is entered, and no sponsor ID is entered, the system will ignore all search criteria except for sponsor name. If no parameters are entered, the system will retrieve all sponsors in all programs.

To search for a site

1. On the menu bar, select **Search**.

Applications

Now that you know how to access and log on to the CNP System, the remainder of the manual will explore the functions of the SFSP module. Let’s first look at the Applications component of the CNP System, where users manage yearly enrollment of sponsors and sites and review Advance Requests.

About the Program Year Enrollment Process

To participate in the SFSP, sponsors must submit an application packet for the upcoming program year to the CSDE for review and approval. Figure 12 shows the Application Packet screen for enrolling in a new program year.

2015 - 2016 Application Packet

Figure 12: Enrolling in a New Program Year

Before beginning the application packet, sponsors must select the “Add” action on the Application Packet screen. The user is then transferred to the SFSP Sponsor Application screen. Data designated by the CSDE to roll over from the prior year’s final approved application will pre-populate the sponsor and site application forms.

A new application packet must be submitted by the sponsor and approved by the CSDE each program year. Once the application packet is approved, and the program year has commenced, monthly claims for reimbursement may be submitted.

Submitting an Application Packet

The sponsor can submit the application packet to the CSDE once the application is deemed complete by the CNP system. To be able to submit an application packet, the packet must contain:

- a completed Sponsor Application with no errors;
- at least one completed SFSP Site Application with no errors;
- a completed Budget Detail with no errors; and
- all items in the Checklist (must be identified as submitted to the CSDE with a submitted date).

TIP: Since site field trip data can be entered **only** for CSDE-approved sites, they are usually not part of the initial Application Packet submission by the sponsor.

Once the application packet has been submitted to the CSDE for approval, the Packet History section of the Application Packet screen will display the event, and the packet status changes to **Submitted for Approval**. Figure 13 shows the Packet History section.

Applications Menu

The Applications menu is the starting point for all tasks related to the annual SFSP enrollment process. Menu items are based on security levels.

To access the Applications Menu

1. On the blue menu bar, select **Applications**. The Applications Menu displays.
2. Select an application item to access that application function.

Figure 14 displays the complete list of Applications menu items for authorized state users. It is important to note that sponsors have significantly fewer Applications menu items.

Item	Description
Sponsor Manager	SFSP Sponsor's Profile, Site and Hold Information
Application Packet	SFSP Applications Forms (Sponsor and Site)
Advance Requests	Request Sponsor's SFSP Advance(s) for the current year
Advance Requests Manager	Manage requested Sponsor's SFSP Advance(s) for the current year
Download Forms	Forms Available for Downloading

Figure 14: SFSP Applications Menu Screen for CSDE Users

TIP: The **Sponsor Manager** and the **Advance Requests Manager** are CSDE-only screens. Sponsors will not see these screens on their menu.

Application Packet

To participate in the SFSP, sponsors must submit an application packet to the CSDE for review and approval. At the beginning of each program year, sponsor data are rolled over from the prior year's most recent approved application packet and must be verified by sponsors prior to being approved by the CSDE to participate in the SFSP for the current year. The sponsor updates any data that is no longer valid, as well as enters additional data required by the CSDE.

The Application Packet contains the Sponsor Application, Site Application and other forms required as a part of the packet. After selecting Application Packet from the Applications menu, each required packet item and its status displays (see figure 15). If any packet item requires attention (such as an error within a form or a checklist item needs to be completed), a red arrow displays next to the Application Packet item. If the Application Packet item has been completed correctly and contains no errors, a green check displays next to the Application Packet item.

Note: Sponsors cannot begin SFSP operations until their application packet has been approved for the respective program year.

Note: After an application packet has been approved, if a sponsor revises an item within the Application Packet (excluding the Site Field Trip screen), the Application Packet must be resubmitted for approval. Modifications to the Site Field Trip screen do not initiate the application packet approval process

To access the Application Packet

1. On the blue menu bar, select **Applications**. The Applications menu screen displays.
2. On the menu, select **Application Packet**. If necessary, search for and select a Sponsor. The Application Packet screen displays.
3. Select the packet item you want to access.

If the application packet is under review by the CSDE, it becomes “read only” to the sponsor. The Application Packet screen is displayed with the following message to help make the sponsor aware that they can no longer modify the submitted packet during this time (see figure 16).

The Application Packet is currently under review by the State and is unavailable for changes.

Sponsor Application

The Sponsor Application screen provides access to the sponsor's annual application for the SFSP. The sponsor is required to complete a new sponsor application annually; however, if an application is contained within the CNP System from the previous year, the CSDE has identified select application data that rolls over from the previous year and prefills a new year's application.

To view a Sponsor Application (Original)

1. On the blue menu bar, select **Applications**.
2. From the Applications menu, select **Application Packet**. The current year's Application Packet screen displays.
3. Select **View** next to the **Sponsor Application** packet item. The sponsor application for the designated program year is displayed

Note: If there are multiple versions of a Sponsor Application within the CNP System (i.e., revisions exist), the CNP System defaults to the version with the **most current Application Effective Date** designated on the Sponsor Application's Internal Use Only section.

To view a Sponsor Application (Revision)

1. On the blue menu bar, select **Applications**.
2. From the Applications menu, select **Application Packet**. The most current year's Application Packet screen displays.
3. Select the revision link under the **Latest Version** column. The sponsor application history for the designated program year displays.
4. Select the application version you would like to view.

TIP: The **View** option appears in two situations: 1) If the user only has view-access security rights; or 2) If the user has modify-access security rights BUT the Application Packet has been submitted to the CSDE and is under CSDE review, and therefore can no longer be modified.

To add a Sponsor Application

1. On the blue menu bar, select **Applications**.
 2. From the Applications menu, select **Application Packet**. The most current year's Application Packet screen displays.

 4. Enter required information.
 5. Select **Save**. A confirmation screen displays.
 6. Select **Edit** to return to the Sponsor Application screen.
- OR
- Select **Finish** to return to the Application Packet screen.

TIP: The **Add** option only appears for new sponsors. If a sponsor had an application in the previous year and has elected to enroll in the new year, the prior year's application information is rolled over into the new year's application as a starting point. The user would select **Modify** to review and update this information.

To modify a Sponsor Application

1. On the blue menu bar, select **Applications**.
 2. From the Applications menu, select **Application Packet**. The most current year's Application Packet screen displays.

 6. Select **Edit** to return to the Sponsor Application screen.
- OR
- Select **Finish** to return to the Application Packet screen.

TIP: The **Modify** option only appears when the Application Packet has not been submitted. Once an application has been submitted and approved by the CSDE, a revised application must be submitted, i.e., the **Revise** option displays.

To delete a Sponsor Application

1. On the blue menu bar, select **Applications**.
2. From the Applications menu, select **Application Packet**. The most current year's Application Packet screen displays.
3. Select **Modify** next to the **Sponsor Application** packet item. The Sponsor Application for the designated program year displays.
4. Select **DELETE** on the Edit menu in the top-right corner.
5. The CNP System transfers you to the bottom of the screen and a warning message displays.
6. Select the **Delete** button at the bottom of the page. A confirmation message displays.

WARNING: A Sponsor Application can only be deleted if the sponsor has not yet submitted any claims for the program year. Once the application has been deleted, it is permanently removed and cannot be restored. Use caution before deleting an application.

To revise a Sponsor Application

Note: Only CSDE-approved applications can be revised. Once a sponsor revises any item within the Application Packet, the Application Packet must be resubmitted and the CSDE review and approval process starts again.

1. On the blue menu bar, select **Applications**.
2. From the Applications menu, select **Application Packet**. The most current year's Application Packet screen displays.
3. Select **Revise** next to the **Sponsor Application** packet item. The Sponsor Application for the designated program year displays.

SFSP Site Applications

Sponsors must complete a Site Application for each of their sites. The Site Application screen provides access to the site’s annual application for the SFSP for both new and renewing sites. Sites must complete a new application annually; however, if an application is contained within the system from the previous year, the CSDE has identified select application data that rolls over from the previous year and pre-fills a new year’s application.

To access the sponsor’s site list

1. On the blue menu bar, select **Applications**.
2. From the Applications menu, select **Application Packet**. The most current year’s Application Packet screen displays.

Claims

The CNP System Claims component allows sponsors to submit monthly online reimbursement claim requests to the CSDE, review claim rates, and review historical payment summaries.

About the Claims Process

A sponsor submits a reimbursement claim to the CSDE for every month in which one or more sites participates in the SFSP. Sponsors may enter sponsor and site information into the monthly claim form beginning the first of every month. Sponsors have fifteen days from the last day of the claim month/year to submit an original claim.

Note: Claims cannot be created for a month if there is no approved Application Packet in effect for that period. If you cannot access claims for a specific month, be sure your Application Packet has been approved. If your Application Packet has been approved and you still cannot enter a claim for a specific month, contact the CNP System Help Desk to validate the effective date of the sponsor application and site application.

At the time claims are submitted, they are checked by the CNP System to ensure they conform to established business rules governing reimbursement claim eligibility and approval.

Table 7 identifies the steps related to submitting and processing claims.

Performed by	Task
Sponsor	Complete the Claim for Reimbursement forms for the selected claim month. Submit error-free claim to the CSDE for processing.
CSDE	Review and approve claim. Select claim for inclusion in the payment process. Send payment information to the appropriate CSDE Bureau for payment.

Sponsors use the Claims menu to access SFSP claim functions, view current claim rates, and view payment summaries (see figure 25).

Claim Dates

Various dates are used in the CNP System claims function. Table 8 identifies and describes the dates used.

Date	Description
Date Created	This date is set to the current CNP System date when the claim is initially created.
Date Modified	This date is set to the current CNP System date when the claim is initially created and each time the claim is saved.
Date Received	This date is typically set to the date the claim was first submitted to the CSDE. The value of this field is used to validate the 60 day claim rules.
Date Accepted	This date is set to the current CNP System date each time the claim is submitted for payment and contains no errors. If errors are detected during the submit process, the date is not set. These claims are identified with a status of “Accepted.” Accepted claims can be modified until they are included in a payment batch.
Date Processed	This is the date that the claim was added by the CSDE into the batch payment process. Once the claim has been added to a batch (i.e., “batched”), it cannot be modified. These claims are identified with a status of “Accepted*” until the batch process has completed. When the batch process is completed, the status of the claim is “Processed.” If a change is required to a claim that has a status of “Accepted*” or “Processed,” a revised claim must be entered into the system.

Claims

The SFSP claim function is used to enter, modify, and view claims. The CNP System is set to submit claims at the site level. Original and upward adjusted claims cannot be submitted if the received date is more than 60 days from the last day of the claim month/year. To create a claim in a given month, an approved Application Packet must be in effect for the period.

Note: Claims can be modified **until** the CSDE has added them into the batch payment process. After a claim has been included in a payment batch, the status of the claim is "Accepted*" until the batch process has completed. When the batch process is complete, the status of the claim is "Processed."

identifies errors, the errors must be corrected before the user can submit the claim for payment.

WARNING: An original claim cannot be submitted by a sponsor if the received date is more than 60 days since the last day of the claim month/year. For exceptions to this rule, contact the CNP System Help Desk.

WARNING: If the sponsor has less than ten days in their final month of operation, the sponsor may submit a combined claim representing the current month plus the previous month.

If the sponsor is operating only one month that is **less** than ten days, the CSDE must instruct the sponsor to increase the number of operating days to ten or more. Since the claim is calculated based on the number of meals and not the number of days, this will not cause a calculation problem and will allow the sponsor to submit a claim into the system.

To modify an unprocessed claim

Claims can be modified as many times as desired until the claim has been submitted **and** processed by the CSDE for payment distribution.

1. From the Claims menu, select **Claim - SFSP**. The Claim Year Summary screen displays.
2. Select the desired Claim Month. The Claim Month Details screen displays.
3. Select **Modify**. The Claim Site List screen displays.
4. Under Actions, select **Modify** to the left of the Site you wish to view. The Site Claim Report screen displays.

5. Update claim information.
6. Select **Save**. If there are no errors, the data is saved and the user is returned to Claim Site List screen.
7. Repeat steps 4-6 for each desired site claim you would like to modify.
8. Once all site claims are completed, select the **Continue** button on the Claim Site List screen. The Claim Month Details screen displays. Review the data for accuracy.
9. To submit the modified claim, check the **Certification** box and select the **Submit for Payment** button.

Note: When the **Submit for Payment** button is selected, the CNP System performs additional edit checks. If the CNP System identifies errors, the errors must be corrected before the user can submit the claim for payment.

WARNING: An original claim cannot be submitted by a sponsor if the received date is more than 60 days from the last day of claim month/year. For exceptions to this rule, contact the CNP System Help Desk.

To revise a processed claim

Claim revision resulting in a downward adjustment may be submitted at any time. Claim revisions resulting in an upward adjustment may be submitted if the submission date is within 30 days of the last day of the original claim month. Revised claims must be re-processed by the CSDE regardless of their original status.

1. From the Claims menu, select **Claim - SFSP**. The Claim Year Summary screen displays.
2. Select the desired claim month. The Claim Month Details screen displays.
3. The Claim Site List screen displays. Under Actions, select **Revise** to the left of the Site Name whose claim you wish to revise. The Claim for Reimbursement screen displays

Note: The **Add Revision** button will only display on Claim Month Details screens that currently have no claims created.

4. Make any necessary changes to the claim.
5. Select **Save**. If there are no errors, the data is saved and the user is returned to the Claim Site List screen.
6. Repeat steps 3-5 for each desired site.
7. Once all site claims are completed, select the **Continue** button on the Claim Site List screen. The Claim Month Details screen displays. Review the data for accuracy.

To submit the revised claim, check the **Certification** box and select the **Submit for Payment** button.

Note: Revised claims must be reprocessed by the CSDE regardless of their original status.

Claim Rates

The CNP System provides a screen to view claim for reimbursement rates by year. The rates displayed apply for the rate year defined at the top of the page. Meals are reimbursed based on the designated rate established by the USDA. The reimbursement rates are entered annually by authorized CSDE staff through the Claim Rate Maintenance screens in the Maintenance and Configuration module.

Application Packet Process

This section of the manual provides information on how the CSDE can review and approve SFSP Application Packets through the CNP System.

Note: For security purposes, users can only view sponsors with whom they are associated.

Submitting a SFSP Application Packet

All new enrollment or renewal enrollment applications are initially created with a status of “Pending Validation.” Once the Application has been saved, the CNP System validates the business rules and the application’s status is set by the CNP System to either “Error” (if any errors exist) or “Not Submitted” (no errors, but the Application Packet has not been submitted).

Only complete Application Packets that have no errors can be submitted to the CSDE. To submit a completed Application Packet, the sponsor would select the **Submit for Approval** button. This simulates sending a completed Application Packet in the mail. Application items are placed in a view-only mode for the sponsor.

An Application Packet can be submitted to the CSDE (i.e., the **Submit for Approval** button is enabled) only if the following conditions have been met:

- the Sponsor Application must contain no errors;
- at least **one** site or provider application must exist and contain no errors;
- a board of directors members list must exist and contain no errors;
- a budget must exist and contain no errors;
- all items in the Checklist must be submitted (item is submitted, checkbox checked and date submitted is entered); and
- the sponsor is not closed.

Once the sponsor has submitted the Application Packet, the CSDE will review each item in the submitted Application Packet. The CSDE may approve each application item, deny an application item, or return the application item and its respective Application Packet back to the sponsor for correction.

6 — APPLICATION PACKET

If the Application Packet is denied or returned to the sponsor for correction, the CSDE will provide comments within the respective Application Packet item as to why the application was denied or what needs to be corrected in order to resubmit the Application Packet.

Note: If the sponsor submits a Revised Application, which occurs when a sponsor makes any changes to an Application Packet that has already been approved, the original packet's status automatically changes to "Not Submitted." The CSDE is required to review and approve the revised items in the Application Packet.

Application Packet Statuses

Statuses are used to manage the workflow of the application packet. Each packet can have only one status at a time.

Not Submitted

- The packet has a status of "Not Submitted" when the packet is created for the first time or when any of the packet items are created, revised or modified, but the Application Packet has not been submitted to the CSDE.

Submitted

- The packet has a status of "Submitted" when the sponsor uses the **Submit for Approval** button on the Application Packet screen to submit the error-free packet to the CSDE for review.
- If the packet status is "Submitted," the entire packet becomes read-only to the sponsor.
- All applications that are "Submitted" must ultimately be "Approved," "Denied" or "Returned for Correction" or "Withdrawn."

Approved

- The packet has a status of "Approved" when the CSDE has approved each packet item and has selected the **Approve** button on the Application Packet screen.

Denied

- The packet has a status of "Denied" when the CSDE selects the **Deny** button on the Application Packet screen.
- When a packet is "Denied," the packet remains view-only and nothing in the packet can be modified. The only way to edit items in a denied packet is for the CSDE to change the status of the packet to something other than "Denied."

- By denying an Application Packet, the status of all items within the packet is automatically set to “Denied.”
- An “Approved” packet cannot be “Denied.”

Returned for Corrections

- The packet has a status of “Returned for Corrections” when the CSDE selects the **Return** button on the Application Packet screen.
- This status unlocks the packet for the sponsor and sets the status back to “Not Submitted.”
- An “Approved” packet cannot be “Returned for Corrections.”

Withdrawn

- The packet has a status of “Withdrawn” when the sponsor or CSDE selects the **Withdraw** button on the Application Packet screen.
- An Application Packet with a status of “Approved” packet cannot be “Withdrawn.” If an application has been “Approved,” it can only be “Cancelled” or “Terminated” by the CSDE.

Application Statuses

Statuses are used to define the current state of an application packet item. Each application can have only one status at a time.

Pending Validation

- The application has a status of “Pending Validation” when the application has not yet been opened or saved.

Error

- The application has a status of “Error” if it has failed CNP System validation rules. Data entered is maintained.

Not Submitted

- The application has a status of “Not Submitted” when the application is saved without error, but the Application Packet has not been submitted to the CSDE.

Submitted

- The application has a status of “Submitted” when the sponsor has submitted the Application Packet to the CSDE for review (i.e., the sponsor has selected the **Submit for Approval** button).
- Any application that is marked “Not Submitted” is changed to “Submitted.”

6 — APPLICATION PACKET

- The Application Packet becomes read-only to sponsor users.

Approved

- The application has a status of “Approved” when the CSDE has approved the application (i.e., the CSDE selected “Approved” in the Internal Use Only section of the form).

Denied

- The application has a status of “Denied” when the CSDE has denied the application (i.e., the CSDE selected “Denied” in the Internal Use Only section of the form).
- If the application is “Denied,” it can no longer be modified by the sponsor. Only the CSDE can change the status of the application.
- When setting the application status to “Denied,” the CSDE should enter a comment in the Comments to sponsor field explaining the reason the application was denied.

Returned for Correction

- The application has a status of “Returned for Correction” when the CSDE has identified errors in the application and has selected “Returned for Correction” in the Internal Use Only section of the form.
- When setting the application status to “Returned for Correction,” the CSDE should enter a comment in the Comments to sponsor field explaining the reason the application was returned.

Withdrawn

- The application has a status of “Withdrawn” when the CSDE has selected “Withdrawn” in the Internal Use Only section of the form.
- If the Application Packet has ever been approved, there will not be an option to withdraw.

Claim Statuses

Statuses are used to define the current state of a claim. Each claim can have only one status at a time.

Not Eligible

- The claim has a status of “Not Eligible” when there is an application condition that is preventing claiming for the selected month (e.g., sponsor or site is not authorized on the Application Packet to operate for the selected month or the Application Packet status is not “Approved”).

Incomplete

- The claim has a status of “Incomplete” when the claim has been created in the CNP System but the **Save** button was never clicked (e.g., timeout, logout, etc.). The CNP System saves the data that has been entered, but no edits have been performed.

Error

- The claim has a status of “Error” when the claim has been submitted and has business rule violations.

Validated

- This site claim has a status of “Validated” when the site claim has been entered, validated, and contains no errors.
- Applicable only when the sponsor is participating in site-level claiming.

Accepted

- The claim has a status of “Accepted” when the claim has passed all on-line edits and additional edits (e.g., 15/30 days edit, etc.), and is ready to be included in the payment tracking process.
- The claim can still be modified. A revision is not necessary until the claim is included by the CSDE in a batch payment process.

Accepted*

- The claim has a status of “Accepted*” when the claim has been selected by the CSDE for inclusion in the batch payment process; however, the batch process has not run.
- The claim cannot be modified. If the claim requires a change, a revised claim must be submitted.

Processed

- Claim has been fully processed by the CSDE and has been sent to the CSDE Bureau responsible for disbursement of funds.
