

This list includes commercial fruit and vegetable products that comply with the [Connecticut Nutrition Standards \(CNS\)](#). Foods are evaluated for compliance with the CNS based on the amount **as served** including any **added accompaniments** such as butter, margarine, oil, sugar, salad dressings, dips, ketchup and mustard, e.g., carrots with dip, salad with low-fat dressing, French fries with ketchup and vegetables cooked with oil. The Connecticut State Department of Education (CSDE) encourages schools to review the nutrient content of allowable products, and select the most nutrient-rich products that also meet the "Better Choice" recommendations (refer to the green and white columns on the right). **The CSDE strongly encourages schools to offer a la carte food choices that include a variety of minimally processed and naturally nutrient-rich whole foods such as fruits, vegetables, whole grains, low-fat or nonfat dairy, lean meats and legumes.**

Product formulations and packaging can change. **The nutrition information below is based on the package label or manufacturer information supplied at the time of product review.** If this information does not match the product label, please submit the product's nutrition information to the CSDE following the guidance in [Submitting Food and Beverage Products for Approval](#).

The CSDE's [List of Acceptable Foods and Beverages](#) webpage is updated regularly and is subject to change. To assist in identifying new items added since the previous edition of this list, the manufacturer and food item (first two columns) of all new items are highlighted in pink. For contact information for listed vendors, refer to the CSDE's [Contact Information for Vendors](#).

Note: The approval below is only for the product exactly as listed. If the product is sold a la carte combined with any accompaniments (e.g., butter, margarine, oil, sugar, salad dressings, dips, ketchup, and mustard), the nutrition information for the accompaniments must be added to the nutrition information for the fruit/vegetable item to determine if the serving still complies with the CNS (refer to the CSDE's [CNS worksheets](#)). This documentation must be maintained on file by the district and be available upon request for the CSDE's annual Healthy Food Certification (HFC) documentation review..

FRUITS AND VEGETABLES, including fresh, frozen, canned, and dried

FRUITS AND VEGETABLES, including fresh, frozen, canned, and dried				FRUITS AND VEGETABLES															Exemptions to Sugar Standards: The following fruit and vegetable products are exempt from the CNS sugars standard: dried whole fruits or vegetables, dried whole fruit or vegetable pieces, and dehydrated fruits or vegetables all without added sweeteners (including nutritive sweeteners, nonnutritive sweeteners, and sugar alcohols) and fats (including chemically altered fat substitutes).			Better Choice Recommendations Choose products that meet all recommendations		
				Exemptions: The following fruits and vegetables are exempt from all nutrient standards: 1) fresh and frozen fruits and vegetables with no added ingredients except water; 2) canned fruits with no added ingredients except water or that are packed in 100 percent juice, extra light syrup, or light syrup, all without added artificial sweeteners, nonnutritive sweeteners or sugar alcohols and fats (including chemically altered fat substitutes); and 3) low sodium/no salt added canned vegetables with no added fats, nonnutritive sweeteners, or sugar alcohols. These foods are identified in the "Product code and notes" column below.
