

Comparison of the Grains Component Requirements in the Meal Patterns for School Nutrition Programs

School Year 2024-25 (July 1, 2024, through June 30, 2025)

This document compares the requirements for the grains component in the U.S. Department of Agriculture’s (USDA) meal patterns for grades K-12 and preschool (ages 1-4) in the school nutrition programs, including the updates required by the USDA final rule, *Child Nutrition Programs: Meal Patterns Consistent with the 2020-2025 Dietary Guidelines for Americans*. The school nutrition programs include the [National School Lunch Program \(NSLP\)](#), [School Breakfast Program \(SBP\)](#), [Seamless Summer Option \(SSO\)](#) of the NSLP, [Afterschool Snack Program \(ASP\)](#) of the NSLP, and [Special Milk Program \(SMP\)](#). The SSO follows the NSLP and SBP meal patterns.

Comparison of the Grains Component Requirements in the Meal Patterns for School Nutrition Programs

Grains Component

The USDA regulations define different requirements for the grains component in the NSLP, SBP, and ASP meal patterns for grades K-12 and preschool.

- **Grades K-12:** The meal pattern requirements for grades K-12 are defined by [7 CFR 210](#) (lunch) and [7 CFR 210.10\(o\)\(2\)](#) (snack) of the NSLP regulations and [7 CFR 220](#) (breakfast) of the SBP regulations.
- **Preschool (ages 1-4):** The preschool meal pattern requirements are defined by [7 CFR 210.10\(p\)](#) (lunch) and [7 CFR 210.10\(o\)\(3\)](#) (snack) of the NSLP regulations and [7 CFR 220.8\(o\)](#) (breakfast) of the SBP regulations. The preschool meal patterns are the same as the Child and Adult Care Food Program (CACFP) meal patterns for children ([7 CFR 226.20](#)).

School food authorities (SFAs) must ensure that all foods served as the grain component meet the specific meal pattern requirements for each school nutrition program and grade group.

For information on the NSLP and SBP meal pattern and crediting requirements for grades K-12, refer to the CSDE's [Menu Planning Guide for Grades K-12 in the National School Lunch Program and School Breakfast Program](#) and [Crediting Summary Charts for the Meal Patterns for Grades K-12 in the School Nutrition Programs](#), and visit the CSDE's [Meal Patterns for Grades K-12 in School Nutrition Programs](#) webpage and [Crediting Foods in School Nutrition Programs](#) webpage.

For information on the ASP meal pattern and crediting requirements for grades K-12, refer to the CSDE's [Afterschool Snack Program Handbook](#) and [Crediting Summary Charts for the Afterschool Snack Program Meal](#)

[Pattern for Grades K-12](#), and visit the CSDE's [Afterschool Snack Program \(ASP\)](#) webpage.

For information on the NSLP, SBP, and ASP preschool meal pattern and crediting requirements, refer to the CSDE's [Menu Planning Guide for the Preschool Meal Patterns of the School Nutrition Programs](#) and [Crediting Summary Charts for the Preschool Meal Patterns of the School Nutrition Programs](#), and visit the CSDE's [Meal Patterns for Preschoolers in School Nutrition Programs](#) webpage.

For a comparison of the lunch and breakfast meal pattern requirements for preschool and grades K-12, refer to the CSDE's [Comparison of Lunch and Breakfast Meal Pattern Requirements for Preschool and Grades K-12 in the School Nutrition Programs](#). For a comparison of the ASP meal pattern requirements for preschool and grades K-12, refer to the CSDE's [Comparison of Afterschool Snack Program \(ASP\) Meal Pattern Requirements for Preschool and Grades K-12](#).

Changes to Grains Component for School Year 2025-26

Effective July 1, 2025, the USDA final rule, [Child Nutrition Programs: Meal Patterns Consistent with the 2020-2025 Dietary Guidelines for Americans](#), implements the changes below to the grains component of the NSLP, SBP, and ASP meal patterns for grades K-12 and preschool.

- Aligns the ASP meal pattern for grades K-12 with the Child and Adult Care Food Program (CACFP) snack meal pattern requirements (including the grains component name and the required ounce equivalents (oz eq), except that the NSLP and SBP weekly whole grain-rich (WGR) requirement applies. At least 80 percent of the grains offered weekly in ASP snacks must be WGR, based on the oz eq of offered grains.

Comparison of the Grains Component Requirements in the Meal Patterns for School Nutrition Programs

- Establishes a new added sugars limit for breakfast cereals in the NSLP, SBP, and ASP meal patterns for grades K-12 and updates the current limit for the NSLP, SBP, and ASP preschool meal patterns from total sugars to added sugars. Breakfast cereals cannot exceed 6 grams of added sugars per dry ounce.

Guidelines for Americans, the added sugars limit for breakfast cereals will be the same for preschool and grades K-12 (refer to “[Changes to the Grains Component for School Year 2025-26](#)”).

Serving the Same Foods to Preschoolers and Grades K-12

SFAs must consider the different meal pattern requirements for preschool and grades K-12 when making menu planning and purchasing decisions for grain foods that will be served to both groups. Grain foods served to both groups must comply with whichever meal pattern requirements are stricter. The examples below show how these requirements apply.

- The NSLP and SBP meal patterns for grades K-12 have stricter whole grain-rich (WGR) criteria than the preschool meal patterns (refer to “[R9: WGR requirement](#)” in this document). Grain foods served to both groups must comply with the WGR criteria for grades K-12.
- Grain-based desserts credit in the NSLP and SBP meal patterns for grades K-12, but not the preschool meal patterns (refer to “[R12: Grain-based Desserts](#)” and “[R13: Identifying grain-based desserts](#)” in this document).
- The preschool meal patterns require a sugar limit for breakfast cereals, but the meal patterns for grades K-12 do not. Breakfast cereals served to both groups must comply with the preschool sugar limit (refer to “[R17: Sugar Limit for Breakfast Cereals](#)” in this document).

Effective with school year 2025-26 (beginning July 1, 2025), the USDA final rule, *Child Nutrition Programs: Meal Patterns Consistent with the 2020-2025 Dietary*

School menus must meet these requirements unless meals are co-mingled. “Co-mingling” is the practice of serving meals to a variety of grades in the same service area at the same time. This typically occurs due to operational constraints within a school, such as limited time and space.

When preschoolers and older grades are co-mingled, SFAs may use the meal pattern of the older grades for preschoolers if the meal service meets three criteria: 1) the preschoolers and students from older grade groups are served together in the same place at the same time; 2) it is hard to tell the preschoolers from older students; and 3) it would be operationally difficult to serve different foods or different amounts of foods during the combined meal service. For example, SFAs that serve lunch or breakfast to preschoolers and grades K-5 in the same service area at the same time may choose to follow the K-5 lunch or breakfast meal pattern for both groups because it would be difficult for food service staff to determine which children are in preschool or kindergarten.

Comparison of the Grains Component Requirements in the Meal Patterns for School Nutrition Programs

SFAs must use the preschool meal pattern when meals are served to preschoolers in a different area or at a different time than students in older grades. The preschool meal patterns provide the amounts and types of foods that most younger children need for healthy growth and development. The USDA strongly encourages SFAs to find ways to serve grade-appropriate meals to preschoolers and older students to best address their nutritional needs.

For additional guidance, refer to the USDA's [Serving School Meals to Preschoolers](#) and [USDA Memo SP 37-2017: Flexibility for Co-Mingled Preschool Meals: Questions and Answers](#), and visit the "Preschoolers Eating with Other Grades: Co-mingled Meals" section of the CSDE's Meal Patterns for Preschoolers in School Nutrition Programs webpage. Training on co-mingled meals is available in "Module 3: Meal Pattern Comparison of Preschool and Grades K-12" of the CSDE's [Preschool Meal Pattern Training for the School Nutrition Programs](#).

Considerations for Reducing Choking Risks for Young Children

Children younger than 4 are at the highest risk of choking. Examples of grain foods that may cause choking include hard pretzels; pretzel chips; corn chips; breakfast cereals that contain nuts, whole-grain kernels (such as wheat berries), and hard chunks (such as granola); and crackers or breads with seeds, nut pieces, or whole-grain kernels. Consider children's age and developmental readiness when deciding what types of grain foods to offer in preschool menus and modify foods and menus as appropriate. For additional guidance, visit the "[Choking Prevention](#)" section of the CSDE's [Food Safety for Child Nutrition Programs](#) webpage.

Crediting Documentation

SFAs must be able to document that grain menu items meet the crediting and WGR requirements and required quantities of the school meal patterns. SFAs must obtain a product formulation statement (PFS) from the manufacturer if a commercial product's ingredients statement and packaging do not provide sufficient information to determine if it meets these requirements. For more information, refer to the CSDE's resources, [When Commercial Grain Products Require a Product Formulation Statement to Credit in the School Nutrition Programs, Using Product Formulation Statements in the School Nutrition Programs](#), and [How to Use the Grain Ounce Equivalents Chart for the National School Lunch Program and School Breakfast Program](#).

Training on the requirements for PFS forms is available in Module 6: Meal Pattern Documentation of the CSDE's training program, [What's in a Meal: National School Lunch Program and School Breakfast Program Meal Patterns for Grades K-12](#).

Foods made from scratch must have a standardized recipe that documents the crediting information per serving. For more information, visit the "[Crediting Foods Made from Scratch](#)" section of the CSDE's Crediting Foods in School Nutrition Programs webpage.

Comparison of the Grains Component Requirements in the Meal Patterns for School Nutrition Programs

Comparison Chart for the Grains Component

Requirement	Grades K-12: NSLP, SBP, SSO	Grades K-12: ASP	Preschool (Ages 1-4): NSLP, SBP, SSO, ASP
<p>G1: Component name</p>	<p>Grains</p> <p>Resources Grains Component for Grades K-12 (CSDE webpage) Meal Patterns for Grades K-12 in School Nutrition Programs (CSDE webpage) NSLP Regulations (7 CFR 210.10) SBP Regulations (7 CFR 220.8)</p>	<p>Grains/breads. The ASP meal pattern for grades K-12 refers to the grains/breads component instead of the grains component because the USDA’s final rule (77 FR 4087), <i>Nutrition Standards for the National School Lunch and School Breakfast Programs</i>, does not apply to the ASP meal pattern for grades K-12.</p> <p>Change for school year 2025-26: Effective July 1, 2025, the USDA final rule, <i>Child Nutrition Programs: Meal Patterns Consistent with the 2020-2025 Dietary Guidelines for Americans</i>, aligns the grains component of the ASP meal pattern for grades K-12 with the CACFP snack meal pattern requirements (including the grains component name and the required oz eq quantities) except that at least 80 percent of the grains offered weekly in ASP snacks must be WGR, based on the oz eq of offered grains.</p> <p>Resources Grains/Breads Component for Grades K-12 in the ASP (CSDE webpage)</p>	<p>Grains</p> <p>Resources Grains Component for Preschoolers (CSDE webpage) Final Rule (81 FR 24347): Child and Adult Care Food Program: Meal Pattern Revisions Related to the Healthy, Hunger-Free Kids Act of 2010 Final Rule Correction (81 FR 75671): CACFP Meal Pattern Revisions Related to the Healthy, Hunger-Free Kids Act of 2010</p>

Requirement	Grades K-12: NSLP, SBP, SSO	Grades K-12: ASP	Preschool (Ages 1-4): NSLP, SBP, SSO, ASP
<p>G2: Creditable grains</p>	<p>Whole grains, enriched grains, bran (such as oat bran, wheat bran, corn bran, rice bran, and rye bran) and germ (such as wheat germ). Bran and germ credit the same as enriched grains.</p> <p>Corn: Corn ingredients credit if they are whole grain, enriched, or treated with lime (nixtamalized). Nixtamalization is a process in which dried corn is soaked and cooked in an alkaline (slaked lime) solution. This process results in a product with similar nutrition to whole-grain corn.</p> <p>Hominy, corn masa, and masa harina: Ingredients labeled as hominy, corn masa, or masa harina are nixtamalized, and therefore credit as whole grains. However, cornmeal and corn flour do not credit unless they are whole grain, enriched, or nixtamalized. If the product’s ingredients statement does not provide sufficient information, SFAs must obtain a product formulation statement (PFS) from the manufacturer to document that cornmeal and corn flour ingredients meet one of these requirements. Corn flour ingredients that are not whole grain, enriched, or nixtamalized count toward the limit for noncreditable grains under the WGR criteria (refer to “R10: WGR Criteria”).</p> <p>Resources Crediting Enriched Grains in the School Nutrition Programs (CSDE) Crediting Whole Grains in the School Nutrition Programs (CSDE) Grains Component for Grades K-12 (CSDE webpage) Guide to Meeting the Whole Grain-rich Requirement for the NSLP and SBP Meal Patterns for Grades K-12 (CSDE) USDA Memo SP 34-2019, CACFP 15-2019, and SFSP 15-2019: Crediting Coconut, Hominy, Corn Masa, and Masa Harina in the Child Nutrition Programs</p>	<p>Same</p> <p>Resources Crediting Enriched Grains in the School Nutrition Programs (CSDE) Crediting Whole Grains in the School Nutrition Programs (CSDE) Grains/Breads Component for Grades K-12 in the ASP (CSDE webpage) USDA Memo SP 34-2019, CACFP 15-2019, and SFSP 15-2019: Crediting Coconut, Hominy, Corn Masa, and Masa Harina in the Child Nutrition Programs</p>	<p>Same</p> <p>Resources Crediting Enriched Grains in the School Nutrition Programs (CSDE) Crediting Whole Grains in the School Nutrition Programs (CSDE) Grains Component for Preschoolers (CSDE webpage) How to Identify Creditable Grains for the Preschool Meal Patterns of the School Nutrition Programs (CSDE) USDA Memo CACFP 09-2018: Grain Requirements in the Child and Adult Care Food Program; Questions and Answers USDA Memo SP 34-2019, CACFP 15-2019, and SFSP 15-2019: Crediting Coconut, Hominy, Corn Masa, and Masa Harina in the Child Nutrition Programs</p>

Comparison of the Grains Component Requirements in the Meal Patterns for School Nutrition Programs

For more information, visit the “Grains Component” section of the [Crediting Foods in School Nutrition Programs](#) and [Meal Patterns for Preschoolers in School Nutrition Programs](#) webpages, or contact the [school nutrition programs staff](#) at the Connecticut State Department of Education, Bureau of Child Nutrition Programs, 450 Columbus Boulevard, Suite 504, Hartford, CT 06103-1841. This document is available at https://portal.ct.gov/-/media/sde/nutrition/nslp/crediting/comparison_grain_crediting_snp.pdf.

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA’s TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant’s name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
3. email: program.intake@usda.gov

This institution is an equal opportunity provider.

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems, gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education’s nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email louis.todisco@ct.gov.
