**SUBJECT: Operational Memorandum No. 10-22**  
Annual Application Process for the Community Eligibility Provision (CEP)  
**Notification Due June 15, 2022**

This memo provides guidance to school food authorities (SFAs) on the CEP application deadlines for school year (SY) 2022-23.

The U.S. Department of Agriculture's (USDA) Food and Nutrition Service (FNS) has approved the Connecticut State Department of Education's (CSDE) request to extend the CEP deadlines listed in the table on page 3, pursuant to the waiver authority granted in Section 12(l) of the Richard B. Russell National School Lunch Act. Local educational agencies (LEAs) continue to respond to and recover from the COVID-19 pandemic, including managing challenges related to supply chain and staffing issues, which are demanding significant LEA resources. To facilitate the adoption of CEP for SY 2022-23, FNS acknowledged that additional time is necessary to gather accurate identified student data. **Note:** The extended deadlines are specific to the exceptional circumstances created by COVID-19 and are not permanent.

The CEP provides an alternative approach for offering school meals in LEAs and schools in low-income areas, instead of collecting individual household applications for free and reduced-price school meals. The CEP allows schools that predominantly serve students with low-incomes to offer free, nutritious school meals to all students through the National School Lunch Program (NSLP) and School Breakfast Program (SBP).

LEAs are eligible to participate in the CEP if the Identified Student Percentage (ISP) for the entire district, groups of schools, or an individual school meets or exceeds 40 percent. The ISP is the proportion of identified students (out of all enrolled students) who are directly certified for free school meals through a means other than the school meal application. The ISP is calculated by dividing the total number of identified students by the total student enrollment.

Participation in the CEP is not mandatory, even if a LEA meets eligibility requirements.

## Eligible LEAs Interested in Implementing the CEP

LEAs that meet at least one of the following criteria must formally apply to participate in the CEP for SY 2022-23:

- LEAs/schools electing CEP participation for the first time;
- LEAs/schools in the mid-cycle of CEP participation that are requesting changes to their currently approved ISP;
- LEAs/schools that are currently in the fourth year of CEP participation with an ISP greater than or equal to 40 percent, and would like to start a new four-year cycle; and
- LEAs/schools currently in the fourth year of CEP participation with a new, calculated ISP greater than or equal to 30 percent, but less than 40 percent (eligible for one “grace” year based on the ISP as of the LEA’s selected date between July 1, 2021, and June 8, 2022, in year 4 of the current four-year cycle).

## CEP Notification Requirements

LEAs and schools must notify the CSDE no later than **June 15, 2022**, if they intend to:

- formally apply for the CEP for the next school year;
- continue with their current ISP (for mid-cycle CEP participating LEAs and schools);
- recalculate their ISP; or
- withdraw from the CEP and revert to the regular meal counting and claiming process.

To notify the CSDE about the LEA/school’s CEP decisions above, e-mail your [CSDE school nutrition consultant](#).

## CEP Application Processes and Deadlines

Due to extenuating circumstances created by COVID-19 school closures, the application deadline for formal application for CEP participation (new or recalculating LEAs and schools) in SY 2022-23 is extended to **September 30, 2022**. Eligible LEAs interested in CEP participation must follow the CSDE’s guidelines to formally apply for the CEP and must submit all documentation to support ISP calculations from the same chosen date between **July 1, 2021, through June 8, 2022**. The CSDE will validate this data before finalizing and accepting any ISPs for claiming purposes for SY 2022-23.

The CEP application requires uploading three documents to the Connecticut Online Application and Claiming System for Child Nutrition Programs (CNP System). **All documents must draw data from the same chosen date:**

- 1) [CEP participation worksheets](#);
- 2) [master student enrollment file](#); and,
- 3) [student identification list](#).

**Note:** Do not upload any application documents to the CNP System before contacting the CSDE for guidance. The CEP application documents are available on the CSDE’s [CEP](#) webpage.

The table below summarizes the required CEP actions and due dates for LEAs. Questions may be directed to your [CSDE school nutrition consultant](#).

### **Grace Year for LEAs and Schools**

Participating LEAs and schools that are in year four of the four-year CEP cycle may continue participating in the CEP for one grace year (a fifth year) if the ISP on their selected date (between July 1, 2021, and June 8, 2022) is at least 30 percent, but less than 40 percent. Reimbursement for schools in a grace year is based on the ISP as of the LEA's selected date between July 1, 2021, and June 8, 2022, in year 4 of the current four-year cycle. During a "grace" year, the percentage of meals reimbursed at the free rate is based on the lower ISP, as determined by data from **one chosen date** anytime during the period from **July 1, 2021, through June 8, 2022**.

LEAs and schools that reach the required 40 percent threshold during the grace year (fifth year) are eligible to begin a new four-year cycle in the following school year. LEAs and schools that do not meet the threshold as of April 1, 2023, of the grace year must return to standard counting and claiming or elect another special provision option, and must collect school meal applications, in the following school year.
