

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

This document provides guidance on meeting the meal pattern and crediting requirements for the milk component of the U.S. Department of Agriculture's (USDA) [Summer Food Service Program \(SFSP\) meal patterns](#). For information on the SFSP meal patterns, visit the “[Meal Patterns](#)” section of the Connecticut State Department of Education's (CSDE) SFSP webpage. For information on the crediting requirements, visit the CSDE's [Crediting Foods in the Summer Food Service Program](#) webpage and [Crediting Documentation for the Child Nutrition Programs](#) webpage.

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

## Overview of Meal Pattern Requirements

The SFSP meal patterns require 1 cup of milk at breakfast, lunch, and supper. A 1-cup serving of milk may be offered as one of the two required meal components at snack.

- **Breakfast:** Milk may be served as a beverage, on cereal, or a combination of both.
- **Lunch and supper:** Milk must be served as a beverage.
- **Snack:** Milk may be served as a beverage, on cereal, or a combination of both. Milk cannot be served when juice is the only other snack component. To increase nutrient variety, the CSDE recommends not serving milk when yogurt is the only other snack component.

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

## Crediting Requirements

The milk component includes only fluid milk. Milk must be pasteurized, meet all state and local requirements, and contain vitamins A and D at levels specified by the Food and Drug Administration (FDA). Training on the crediting requirements for the milk component is available in the CSDE's Summer Meals annual training module, [Crediting Foods in the Summer Food Service Program Meal Patterns Part 2: Milk Component](#).

## Allowable types of fluid milk

The milk component allows unflavored or flavored pasteurized whole milk, reduced-fat milk, low-fat milk, fat-free milk, buttermilk, lactose-reduced milk, and acidophilus milk. The SFSP meal patterns do not require any restrictions for milk fat content or flavor.

## Milk substitutes for disability reasons

The USDA requires that SFSP sponsors must make reasonable meal modifications on a case-by-case basis for children whose disability restricts their diet, based on written documentation from a state licensed healthcare professional or registered dietitian. Meal modifications must be related to the disability or limitations caused by the disability.

- A **state licensed healthcare professional** is an individual who is authorized to write medical prescriptions under state law. The Connecticut State Department of Public Health (DPH) defines these individuals as physicians (MD), physician assistants (PA) and certified physician assistants (PAC), doctors of osteopathy (DO), and advanced practice registered nurses (APRN).
- A **registered dietitian** (RD) or registered dietitian nutritionist (RDN) is an individual with a minimum of a graduate degree from an accredited dietetics program and who completed a supervised practice requirement, passed a national exam, and completes continuing professional educational requirements to maintain registration. For more information, visit the Academy of Nutrition and Dietetics' (AND) [Registered Dietitian Nutritionist Fact Sheet](#) website.

When a child has a medically documented disability that requires a milk substitute, the SFSP sponsor must provide an appropriate substitute based on the child's medical statement. SFSP sponsors may serve nondairy beverages in place of fluid milk when the child's medical statement supports the substitution.

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

For more information, refer to [USDA Memo CACFP 14-2017 and SFSP 10-2017: Policy Memorandum on Modifications to Accommodate Disabilities in the Child and Adult Care Food Program and Summer Food Service Program](#) and the CSDE's [Guidance for Meal Modifications in the Summer Food Service Program](#), and visit the "[Meal Modifications for Special Diets](#)" section of the CSDE's SFSP webpage.

## Milk substitutes for non-disability reasons

SFSP sponsors that are not school food authorities (SFAs) cannot serve fluid milk substitutes to children without a disability. In addition, the USDA does not allow juice, water, and other beverages to substitute for milk in SFSP meals and snacks for children without a disability.

The SFSP meal patterns do not allow nondairy fluid milk substitutes for children without a disability. Fluid milk substitutes are plant-based beverages designed to replace cow's milk, e.g., soy milk, almond milk, cashew milk, rice milk, and oat milk.

SFAs operating the SFSP may choose to serve fluid milk substitutes that meet the following requirements:

- USDA's nutrition standards for fluid milk substitutes; and
- the state beverage requirements for nondairy milk substitutes ([Section 10-221q of the Connecticut General Statutes](#)).

Products that meet these requirements are listed on list 17 of the CSDE's [List of Acceptable Foods and Beverages](#) webpage. Certain brands of soy and oat milk are the only nondairy milk products that currently meet the USDA's nutrition standards for fluid milk substitutes.

For additional guidance on the requirements for fluid milk substitutes in SFSP sites operated by SFAs, refer to the CSDE resources, [Allowable Fluid Milk Substitutes for Non-Disability Reasons in the School Nutrition Programs](#) and [Identifying Products that Meet the USDA's Nutrition Standards for Fluid Milk Substitutes in the School Nutrition Programs](#).

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

## Additional milk requirements for Summer Meals sites in public schools

In addition to meeting the SFSP meal pattern requirements, milk and nondairy milk substitutes offered by Summer Meals sites that operate in public schools must also meet the state beverage requirements of Section 10-221q of the Connecticut General Statutes. The state beverage statute applies to all beverages available for sale to students on school premises, as part of and separately from reimbursable meals and snacks.

The CSDE's [List of Acceptable Foods and Beverages](#) webpage identifies products that comply with the federal and state requirements. Milk is available in [list 16](#). Fluid milk substitutes are available in [list 17](#). **Note:** Fluid milk substitutes for non-disability reasons are allowed only for school food authority (SFA) sponsors of the SFSP. SFSP sponsors cannot offer nondairy fluid milk substitutes for non-disability reasons.

### Milk in smoothies

Milk credits as the milk component when served in fruit and vegetable smoothies. The minimum creditable amount is  $\frac{1}{4}$  cup. If a smoothie contains less than 1 cup of milk per serving, the SFSP menu must include the additional amount from another serving of milk.

Crediting milk in amounts less than the full serving applies only to smoothies. SFSP menus must always offer the full 1-cup serving of milk with each meal.

To credit milk in smoothies made from scratch, SFSP sponsors must have a recipe that documents the amount of milk per serving. To credit milk in commercial smoothies, SFSP sponsors must obtain a product formulation statement (PFS) that states the amount of milk per serving. The PFS must also attest that commercial mixes with milk are made using ingredients that meet federal, state, and local definitions for fluid milk.

For more information, refer to the CSDE's resources, [Crediting Smoothies in the Summer Food Service Program](#) and [Using Product Formulation Statements in the Summer Food Service Program](#).

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

## Milk in prepared foods

The SFSP meal patterns require fluid milk as a beverage. Milk does not credit when cooked in cereals, puddings, cream sauces, or other foods. For example, milk does not credit when used to make quiche or macaroni and cheese.

In addition, foods made from milk do not credit, such as cheese, yogurt, and ice cream. For information on crediting cheese and yogurt as the meat/meat alternates component, refer to the CSDE's resource, [Requirements for the Meats/Meat Alternates Component of the Summer Food Service Program Meal Patterns](#).

## Noncreditable milk

Some examples of foods that do not credit as the milk component for the SFSP meal patterns include nondairy milk substitutes (e.g., soy milk, rice milk, almond milk, and cashew milk), milk that is cooked or baked in foods (e.g., cereals, puddings, and cream sauces), nutrition supplement beverages, powdered milk beverages, and reconstituted milk powder (unless approved for use by the CSDE based on the continuing unavailability of milk, as specified by [7 CFR 225.16\(f\)\(7\)](#)).

In addition, the restrictions below apply only to certain types of SFSP operations.

- **For SFSP sponsors operating on the premises of public schools**, noncreditable milk also includes milk that does not meet the state beverage requirements of [Section 10-221q of the Connecticut General Statutes \(C.G.S.\)](#). The state beverage statute requires that milk cannot exceed 4 grams of sugars per fluid ounce and cannot contain artificial sweeteners. For more information, refer to the CSDE's resources, [Allowable Beverages for Connecticut Public Schools](#).
- **For SFAs operating the SFSP**, noncreditable milk also includes nondairy milk substitutes that do not meet the USDA's nutrition standards for fluid milk substitutes and that do not meet the state beverage requirements of C.G.S Section 10-221q. For more information, refer to the CSDE's resources, [Allowable Fluid Milk Substitutes for Non-Disability Reasons in the School Nutrition Programs](#) and [Identifying Products that Meet the USDA's Nutrition Standards for Fluid Milk Substitutes in the School Nutrition Programs](#).

For more information, refer to the CSDE's resource, [Noncreditable Foods in the Meal Patterns for the Summer Food Service Program](#).

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

## Keeping Milk Cold

Implementing procedures to keep milk cold is important for food safety and helps make milk more appealing to children. Milk must be kept at 40°F or below but tastes best at 35°F. SFSP sponsors should develop procedures to maintain milk at 35°F during all points of the meal service including receiving, storing, and serving.

New England Dairy's [Chill Out with Cold Milk](#) webpage contains resources to help staff serve cold milk.

# Requirements for the Milk Component of the Summer Food Service Program Meal Patterns

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture  
Office of the Assistant Secretary for Civil Rights  
1400 Independence Avenue, SW  
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
3. email: [program.intake@usda.gov](mailto:program.intake@usda.gov)

This institution is an equal opportunity provider

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems, gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education's nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email [louis.todisco@ct.gov](mailto:louis.todisco@ct.gov).
