Schedule 1: Selected Student Accounting	1
Schedule 2: School Calendar and Schedule	1
Schedule 5: Staff Attendance	2

Introduction

The 2022-23 ED165 collection has seen two long standing sections removed and the data collected elsewhere. Schedule 1B. Truancy has shifted to the June Collection of the Public School Information System (PSIS). Schedule 6, Connecticut Physical Fitness Assessment, is now collected by the CPFA Individual Student Collection.

The remaining portions of the ED165 remain the same, except for the updating of school year.

For questions regarding the ED165, Connecticut School Data Report, please email Raymond Martin at raymond.martin@ct.gov.

Who Should File?

All public schools and programs must submit an ED165, except programs that do not serve grades kindergarten through Grade 12, part-time programs and school/programs that did not have enrollment on October 1. These may include:

1. Pre-kindergarten programs
2. Transition programs
3. Programs that had no enrollment on October 1.
4. Adult Education programs
5. Part-Time programs
 - a. Part-Time Magnet Programs
 - b. Programs that are embedded in a public school and whose students attend some classes in the host school (Please see below)

As stated above, programs that are embedded in a public school and whose students attend some classes in the host school can be exempted under certain circumstances. This exemption must be requested and approved by CSDE. Exemptions must be requested and approved annually. Past approval of exemption requests has no bearing on current year exemptions. Programs must qualify in the school year the exemption is sought to receive an exemption.

To qualify for the exemption, programs must meet all of the following criteria:

1. The program must be reported in the Directory Manager system as having a Program Location of the host school;
2. The program's October 1 enrollment (as reported to the state on the Public School Information System [PSIS]) of less than 10 students;
3. The program follows the same schedule as the host school;
4. The program's students receive some of their instruction in classes with the students of the host school;
5. The program and the host school are run by the same district, and
6. The program's grade range is generally consistent with the host school.

Districts interested in applying for an exemption should contact Raymond Martin at Raymond.martin@ct.gov. Requests for exemption must be in writing (emails are acceptable) and should address all of the criteria above. Exceptions are for one year only. Districts with more than one program which meet the criteria are strongly encouraged to make one consolidated exemption request.

Individual Schedule Directions

Note: all data are for 2022-23, unless specifically stated otherwise

SCHEDULE 1. SELECTED STUDENT ACCOUNTING

Readiness to Learn

Filed by: All elementary schools with kindergarten students

General Instructions: Record the number of kindergartners enrolled on October 1, 2022, who regularly attended a Head Start program, nursery school, licensed day care center or public preschool program between September 1, 2021, and August 31, 2022.

NOTE: Do NOT count students who only attended family day care centers.

Special Consideration: If a student is repeating Kindergarten, determine their pre-kindergarten experience status between September 1, 2020, and August 31, 2021 and include them in the figure reported.

SCHEDULE 2. SCHOOL CALENDAR AND SCHEDULE

Filed by: All Schools

A and B: School Calendar

General Instructions: Report the number of days of instruction and hours of instruction for both Half/Extended-day K and Grades 1-12 and Full-day K that were scheduled for your school at the start of the school year. "Actual School Work," reported as Hours of Instruction Per Year, may not include time for lunch/snack, recess, homeroom, passing time, nonacademic opening/closing exercises or instructional time that is not required of all students. Use the School Calendar Worksheet (attached to ED165 form) to calculate the total instructional hours per year and retain a copy of that schedule for later reference.

Legal Considerations (Excerpts):

- C.G.S. Sec. 10-15 Towns to Maintain Schools: "Public Schools including kindergartens shall be maintained in each town for at least one hundred eighty days of actual school sessions during each year. ..."
- C.G.S. Sec. 10-16 Length of School Day: "Each school district shall provide in each school year no less than one hundred and eighty days of actual school sessions for grades kindergarten to twelve, inclusive, nine hundred hours of actual school work for full-day kindergarten and grades one to twelve, inclusive, and four hundred and fifty hours of half-day kindergarten, provided school districts shall not count more than seven hours of actual school work in any school day towards the total required for the school year."

Schedule 2 (continued)

Special Considerations:

- Grades within a school operating under different schedules: In some schools, different grades within the school operate under different schedules. For example, Grades 1 and 2 may have an extra recess period that Grades 3-5 do not have; or, in a K-8 school, Grades 1-4 operate on an elementary schedule while Grades 5-8 operate on a middle school schedule. Determine the hours of instruction for each set of grades. Use multiple copies of the School Calendar Worksheet for this purpose. The school average to be reported on Schedule 3 will be a student-weighted average of the different schedules. For example, if Grades 1-2 have 80 students and 940 hours of actual school work and Grades 3-5 have 120 students and 980 hours of actual schoolwork, you should report 964 hours ($\{[80 \times 940] + [120 \times 980]\} / \{80 + 120\}$) on Schedule 2. Do not count Kindergarten students in this calculation.

C. Standard Full School Day Schedule

General Instructions: Report the number of full school days for students, the opening and closing times for students on full school days, the amount of time students receive for lunch on those days and the availability for recess on full school days. By definition, school days shortened for teacher parent conferences, teacher professional development, prior to holidays, etc. are shorter than a full school day and therefore should not be counted on Schedule 2C. If your school has more than one type of full school day (i.e., days that have different start and end times), report the most common full school day and only report the number of full school days using that schedule on line C1. When calculating the amount of time available to students for lunch, make certain any passing time afforded to students to get to and from the cafeteria is not included in the lunch period. When answering the question on recess, make certain to report what is scheduled to be available on a full school day. Report the highest grade in your school where recess of at least 20 minutes per day is scheduled to be offered.

Special Considerations:

- Different lunch lengths: If your standard school day has lunch periods of differing lengths, report an average lunch period length. For example, if lunches are normally 20 minutes, but are 30 minutes on Fridays, a prorated average for a normal week would be 22 minutes $[20 \text{ minutes} * 4 \text{ days} + 30 \text{ minutes on Friday} = 110 \text{ minutes per week} / 5 \text{ days} = 22 \text{ minutes per day}]$.
- High school lunch/studies: Some high schools do not offer set lunch periods. Instead, they allow students to eat during their study periods, if they have one. Schools using this model should not report these periods, unless all students are required to have a study period (common practice is not sufficient). If the lunch/study is required of all students, report the portion of the lunch/study in which students may eat. Please note the time reported available for lunch in the lunch/study period may not be counted as instructional time on Schedule 2B above.
- Teachers' discretion over recess: Some schools give teachers some discretion over recess. If teachers of a certain grade are given the discretion to choose whether or not to schedule recess or not, do not count that grade as having recess. If, on the other hand, recess is scheduled, but teachers are given the authority to cancel recess on a given day for a class or a student, count that grade as having recess.

SCHEDULES 3 & 4. RESERVED FOR FUTURE NEEDS

SCHEDULE 5. STAFF ATTENDANCE

Filed by: All Schools Open in 2021-22

General Instructions: For the 2021-22 school year, record to one decimal place under total FTE days absent the sum of the whole and part school days absent due to illness (including personal, family and worker's compensation) and personal time (including family funeral, religious holidays, and jury duty) for classroom teachers. For the purposes of this schedule, consider the absence of only full-time and part-time classroom teachers who worked exclusively in your school and itinerant teachers who work at least .5 FTE in your school during the 2021-22 school year. Record under FTE classroom teacher count the number of full-time equivalent classroom teachers working in your school in 2021-22. Classroom teachers are

certified professionals who provide direct instructional services to pupils. Count full-time and part-time people serving as kindergarten, elementary, art, music, physical education, English, world language, mathematics, reading, health, science, social studies, vocational education, bilingual, English as a second language, remedial reading or mathematics, gifted and talented, and special education except speech and hearing. Record under FTE classroom teacher count the number of full-time equivalent classroom teachers working in your school in 2021-22.

Note: Do not report the average number of days absent for teachers, the state needs the aggregate numbers to make district-level calculations.

Special Considerations:

- Part-time staff: All staff that are scheduled to work only in your school at least one half day per week should be reported. Count only the full-time equivalent time missed. For example, if a .4 FTE world language teacher missed a day, add 0.4 days to the sum for classroom teachers.
- Long-term illness: If a staff member out on a long-term illness (greater than 10 days) was replaced by a person fully certified for the position, report only those days before the appropriately certified substitute started or when the substitute was out ill. If no appropriately certified substitute was hired, include all of the days of a long-term illness. If a teacher died or left in the middle of the school year, count as absences the number of days until a person fully certified for the position replaced the teacher.
- School (re) opened in September 2022: If your school was not operating in the 2021-22 school year, leave this schedule blank.
- Positions vacant at the beginning of the school year – If your school had a vacant position at the beginning of the school year that was covered by a substitute and eventually filled, treat the days before the position was filled as teacher absences.

Connecticut School Data Report, 2022-23

INSTRUCTIONS

1. Read Directions for Completing the ED165 thoroughly.
2. The ED165 must be completed by all Connecticut public schools and programs with students in kindergarten through grade 12, **except** the following types of programs/schools:
 - a. Pre-kindergarten-only programs/schools;
 - b. Transition programs;
 - c. Programs/schools that had no enrollment on October 1;
 - d. Adult education programs, and
 - e. Part-time programs;
 - i. Part-time magnet programs;
 - ii. Programs that have received an exemption from the CSDE because they are embedded in a public school and whose students attend some classes in the host school (See ED165 Directions for criteria and application process).
3. Submit data only for those questions that pertain to your school/program.
4. Enter the data through the ED165 web-based data entry system or submit them to your central office for entry (depending on district policy).
5. Final edited copies must be entered and certified in the ED165 data entry system no later than **June 20, 2023**.
6. If you have questions, please email Raymond Martin at raymond.martin@ct.gov.

District Name:	School Name:
Contact Person:	Telephone: ext.
Contact person's email address:	

All data are for **2022-23**, unless the directions specifically state otherwise.

Schedule 1. Selected Student Accounting

Readiness to Learn (Schools with Kindergarten) Prekindergarten Educational Experience. Record the number of Kindergarten students enrolled October 1, 2022, who regularly attended a Head Start program, nursery school, licensed day care center or public preschool program between September 1, 2021, and August 31, 2022.	<u>Count</u>
Note: In past years, the collection of data on truant students was included in the ED165. These data are now collected on the June collection of the Public School Information System (PSIS).	

Schedule 2. 2022-23 School Calendar and Schedule (All Schools)

Refer to instructions in Directions for Completing the ED165. Use the attached School Calendar Worksheet for computing instructional hours. Report data as originally scheduled at the beginning of the school year.	
A. Number of Days of Instruction:	
B. 1. Number of Hours of Instruction Per Year Grades 1-12 & Full-day K:	
2. Number of Hours of Instruction Per Year: Half/Extended-day K:	

Schedule 2 (continued)					
C. Standard Full School Day Schedule – Answer the following questions for your school’s standard full day:					
1. Report the number of full (non-shortened) school days for students in your calendar year.			Number:		
2. School hours for students - use bell schedule for your standard full school day		Start Time:	:	End Time:	:
3. Lunch – Report the number of minutes per day each student is provided for lunch. If lunch periods are of different length, report the average length. High schools – please see the Directions for Completing the ED165 for directions on how to calculate study/lunch periods.				Minutes per day:	
4. Recess: Indicate if a recess of at least 20 minutes per day is provided to your students during full school days. If a recess of at least 20 min. is available, indicate the highest grade at which it is provided.		Recess of at least 20 min. provided? Yes ___ No ___		If yes, indicate the highest grade to which it <u>is provided</u> .	

Schedule 5. Staff Attendance 2021-22 (All Schools)

Record to one decimal point the total number of days absent for classroom teachers and the number of classroom teachers in 2021-22 . Refer to the Directions for Completing the ED165 for definitions of classroom teachers and what absences to count. <i>Note: Do <u>not</u> report average number of days absent.</i>	Total FTE days absent	FTE classroom teacher count
Classroom Teachers		

Schedule 6: Connecticut Physical Fitness Assessment (Grades 4, 6, 8 and High School)

The collection of Connecticut Physical Fitness Assessment (CPFA) results has been moved to the new CPFA Individual Collection application.

School Calendar Worksheet

This worksheet allows you to compute for your school the days and hours of instruction that have been planned for the school year. These data are reported on Schedule 2. Do not submit this worksheet. You should keep it for your records and may need it to confirm the instructional time data that are reported on Schedule 2. If your school has different schedules for different grades, complete a copy of this worksheet for each schedule and prorate the results by enrollment for Schedule 2.

Instructions:

1. Enter the number of full schedule, regular days, days shortened for professional development, and other shortened days in column A.
2. Enter the start time and end time of each of the types of days in columns B and C, respectively, and total them in column D, Minutes Available for Instruction. Do not include after-school activities or optional after-school courses.
3. Deductions for non-instructional time: In columns E through I, enter the portion of each day that is devoted to non-instructional activities. Daily announcements, attendance, and the Pledge of Allegiance should be considered non-instructional and deducted in either the Homeroom or Opening/Closing Exercises column. Unless all classes, including specials, are taught by the same teacher in the same room, time must be deducted for passing time. If passing time varies within a week or semester, enter the average number of minutes. Total the number of non-instructional minutes (columns E-I) and enter in column J.
4. Subtract the total of non-instructional minutes (column J) from the total minutes available for instruction (column D) and enter the total into column K (Total minutes of Instruction Per Day). Multiply the number of days reported in column A by the Total Minutes of Instruction Per Day (column K). Enter the result in column L, Total Instructional Minutes per Year.
5. In row 4, total the number of days of instruction (column A) and the Total Instructional Minutes per Year (column L). In row 5, convert the Minutes of Instruction Per Year to Hours of Instruction Per Year.

Scheduled Hours of Instruction

	A	B	C	D	Deductions for Non-instructional Activities (in minutes)						K	L
					E	F	G	H	I	J		
Type of Day	Number of Days	Start Time	End Time	(C-B) Total Minutes Available for Instruction	Lunch/ Snack	Recess	Home-Room	Passing Time	Opening /Closing Exercises	Total Non-instructional Minutes (Sum E-I)	Total Instructional Minutes Per day (D-J)	Total Instructional Minutes Per Year (K*A)
1. Full (non-shortened) school days	*											
2. Days shortened for professional development or parent conferences												
3. Other shortened days (exams, pre-holidays, etc)												
4. Totals (Sum Lines 1-3)	*											
5. Hours of instruction per year												*

* Report these three numbers on Schedule 2.
