## **ED166 Error Messages**

Below is a list of the error messages you may encounter. Note that the best practice is always to update your local student information system (SIS), extract a new batch, and upload again. These errors cannot be corrected directly in the ED166 application. Messages are listed in alphabetical order. All tables referenced below can be found in the ED166 User Guide which is posted on the ED166 Help Site Documentation page.

This record appears to be a duplicate of a record that has already been entered. Both records have the same SASID, Local Incident Number (if provided), Date of Incident, Time of Incident (if provided), Incident Type, and Sanction Type. If you are attempting to edit an existing record go to Edit Incident or include the SAITN in your batch.	As stated in the error message add the SAITN if the uploaded record is an update or a record previously reported. You may also wish to review the Multiple Incident Types/Sanctions Guide for information on how to report and incident with multiple types or sanctions.
This record has an invalid State Assigned Incident Tracking Number. Please correct the number or leave this field blank.	If you are attempting to update a record previously reported a valid SAITN must be included. This number can be downloaded from the ED166 application. If you are reporting a new record this field should be blank.
