## Objective

The purpose of the SEDAC User Guide is to provide Districts with procedures and guidance for submitting data regarding the use of this data collection.

The SEDAC User Guide is organized into four separate documents:

Handbook or reference guide on purpose of this collection and definition of data collected

Step by step procedures for use of the system

Frequently Asked Questions (FAQs)

## Best Practice for Reporting Students with Disabilities

The SDE recommends that districts **communicate the below at a minimum on a MONTHLY basis.**

It is crucial that SEDAC data managers (1) use your district's vendor system and (2) work with EVERY ONE of your schools and/or case managers to identify a list of students that fit the criteria below and communicate this to PSIS district coordinators to help ensure **nexus** information and **special education status** is reported accurately in PSIS for every student:

1. Students your district **evaluated, found eligible and determined you will be providing special education services**, the PSIS district coordinator needs to enter the Nexus District Entry Date in PSIS Registration to ensure the accuracy of subsequent collections. ***Evaluation Timelines Eligible Student Records with Nexus Missing*** data cleaning report is there to help you - resolve ALL cases immediately.
2. Students who **moved into your district with an IEP from another district**, the PSIS district coordinator needs to enter the Nexus District Entry Date in PSIS Registration to ensure the accuracy of subsequent collections. ***SEDAC Nexus Missing*** data cleaning report is there to help you - resolve ALL cases immediately.

### ?

**What do we use for the NEXUS DISTRICT ENTRY DATE?**

Report the date in PSIS Registration:

1. That the parent signed the IEP for initial Consent for Special Education Placement (ED626), on or after Eligibility Determination.  
\*In the case of a parent request for delayed entry into school for children ages 3, 4 or 5 report the District Entry Date (example: 4 year old found eligible for special education in May, parent requests to delay start of school until the fall).
2. If a student with disabilities is transferring into your district, report the District Entry Date.
3. If a DCF-603 is involved, report the "as of" date on the DCF-603.

*Reminder:* additional FAQs around Nexus District are located in the Frequently Asked Questions (FAQs) document located on the [SEDAC Help Site](#).

3. Students who **returned to general education**, the PSIS district coordinator needs to enter the Nexus District Exit Date in PSIS Registration to ensure the accuracy of subsequent collections.
4. Students whose **placement (facility code 1) has changed and the date of that change**, the PSIS district coordinator needs to enter this in PSIS Registration to ensure the accuracy of subsequent collections.

Additionally, the SDE recommends that districts **upload Evaluation Timelines data on a MONTHLY basis**.

Once a district submits their Evaluation Timelines data, they can use the ***Evaluation Timelines Eligible Student Records with Nexus Missing*** data cleaning report to resolve all cases where a student was reported as "Eligible", but Nexus District and Nexus Entry Date has not been entered in PSIS Registration.

### **How this will help your district:**

- **PSIS:**
  - Nexus Information and Special Education field will be reported in a timely/accurate manner
  - Eliminate the need to open past PSIS collections to update special education status
- **SEDAC:**
  - Students with disabilities will be reported in a timely/accurate manner
  - Decrease in the number of citations a district receives for Student(s) Missing from Certified Oct 1 Child Count
- **Other Implications:**
  - Restraint and Seclusion (R/S) special education incidents will be entered accurately and within the mandatory two business day state reporting rule
  - Assessment Demographic Fields in PSIS Registration will be reported in a timely/accurate manner; which impacts Accountability Reporting

## PSIS

### Parent Initiated Placements (No IEP)

#### APPENDIX H – Parent Initiated Placements (No Individualized Education Program)

Do not report student in PSIS in cases where:

1. Parent rejects District individualized education program (IEP),
2. Student was unilaterally placed in a private facility by parents, and
3. District has not accepted programmatic responsibility for the child's education through the development and implementation of an IEP.

#### FAQs

1. Parent rejects District IEP, student is parent-enrolled in a facility. District, in order to settle (potential or pending) litigation, provides some funding to offset the parent's costs. District has not accepted programmatic responsibility for the child's education through the development and implementation of an IEP.
  - District DOES NOT report in PSIS or SEDAC.
  - Not eligible for SEECG
2. Parent rejects District IEP, student is parent-enrolled in a facility. Parent and District have not come to an agreement at collection time. Parent and/or District have not filed for Due Process.
  - District DOES NOT report in PSIS or SEDAC.
  - Not eligible for SEECG.
3. Parent rejects District IEP, student is parent-enrolled in a facility. Parent and District have not come to an agreement at collection time. Parent and/or District have filed for Due Process (*this includes Mediations, Hearings and Complaints*).
  - District reports in PSIS and SEDAC. Facility Code should reflect the placement the parent is rejecting (do not report where the student was unilaterally placed by the parents).
  - May be eligible for SEECG
  - Once the Due Process is resolved, if the hearing decision is that the district is NOT responsible for the student the District would exit the student effective the hearing officer decision date and delete the student from affected PSIS collections.

## OPEN Choice

### APPENDIX E – Reporting Guidelines for the OPEN Choice Program

Students participating in the OPEN Choice program are always reported in PSIS by the receiving district, generally in the same way as other students enrolled in the district. However, the nature of the OPEN Choice program requires specialized reporting in PSIS for the fields identified below.

1. Student educated in a public school of the OPEN Choice receiving district:
  - Special Program status Code “02”.
  - Facility Code 1 – the OPEN Choice receiving district facility where the student is enrolled.
  - Nexus District – complete only if the student is Special Education; use the Nexus code for the OPEN Choice receiving district (Reporting District).
2. Student sent out of the OPEN Choice receiving district to a **private** special education facility in accordance with an IEP or other special circumstances:
  - Special Program status Code “12”.
  - Facility Code 1 – the private special education facility attended by the student.
  - Facility Code 2 – the OPEN Choice receiving district facility where the student **would otherwise be** enrolled if not outplaced.
  - Nexus District – complete only if the student is Special Education; nexus code for the OPEN Choice receiving district (Reporting District).
3. Student sent out of the OPEN Choice receiving district to **another public school district (including RESC)** facility in accordance with an IEP or other special circumstances. Students in this situation are the **only** students attending another public school district (including RESC) facility that are not reported by that district but instead are reported by the OPEN Choice receiving district:
  - Special Program status Code “22”.
  - Facility Code 1 – the generic “Other” facility code 9990199.
  - Facility Code 2 – the OPEN Choice receiving district facility where the student **would otherwise be** enrolled if not outplaced.
  - Nexus District – complete only if the student is Special Education; nexus code for the OPEN Choice receiving district (Reporting District).
4. Student sent out of the OPEN Choice receiving district to a **detention center**:
  - Special Program status Code “32”.
  - Facility Code 1 – the detention center where the student is placed.
  - Facility Code 2 – the OPEN Choice receiving district facility where the student **would otherwise be** enrolled if not in a detention center.
  - Nexus District – complete only if the student is Special Education; nexus code for the OPEN Choice receiving district (Reporting District).

### Active Students w/ Disabilities receiving Special Education and Related Services

The following tables contain data based on the most current information you have provided via the Special Education Data Application & Collection (SEDAC). The information should accurately reflect all students with disabilities for whom your school district was fiscally responsible on October 1 of the collection year, which includes students receiving services under an IEP as well as a services plan. Your Nexus Students educated out-of-district are also included. Districts have already reviewed the Child Count Verification Reports while reporting their SEDAC data. These data are used by the CSDE to determine Connecticut's Federal Child Count. Print the report and have the Superintendent of schools (or designee) read the statement at the conclusion of this report and certify via signature that the data are accurate.
