Record Layout

The following is a list of all the fields and guidance for completing each student record.

Requirements:

Mandatory - If this field is not complete, an error is generated.

Optional - Districts have the option to report this field or leave it blank.

Recommended - We recommend that this field be reported, but your district has the option to leave it blank.

Conditional - This field may be required depending upon the response to a related field.

Disallowed - Districts may not report this field for this submission. This field is for display purposes only.

Origins of Data:

PSIS - Public School Information System; the PSIS Registration module is referenced for student data.

CECS - Connecticut Educator Certification System is referenced for EIN.

DM - Directory Manager is referenced for Facility 1 Code and Course Facility Code.

Objective

The purpose of the User Guide is to provide Local Education Agencies (LEA's) with procedures and guidance for submitting data via the TCS Application.

The User Guide is organized into three sections:

- Section I: General Reference - includes an overview of this collection and defines the data collected
- Section II: Step-by-step Instructions for use of the system
- Section III: Reference tables and terminology

Please note that the Frequently Asked Questions (FAQs) that were previously in this guide have been moved to the Help Site: <http://portal.ct.gov/SDE/Performance/Data-Collection-Help-Sites/TCS-Help-Site>

Documentation Standards:

Standards used in this documentation include the following:

- Fields displayed on a screen are referenced using ALL CAPS
- Field values are in **bold**
- Screens are referenced using *italics*
- Buttons or menu selections are in **bold**

Legend:

Represents important information or cautionary instructions related to data reporting.

Represents helpful tips and references to other sections of documentation for related topics.

Represents reminders of information previously stated related to the current topic.

Section I: Handbook / Reference Guide

Teacher-Course-Student (TCS) Overview

The Teacher-Course-Student (TCS) application collects information on students, teachers and courses. Analyses of TCS data can greatly inform school and district strategies to increase the college and career readiness of all learners (e.g., course-taking patterns and course completion rates for students from different subgroups and schools, alignment of middle/high school courses to college-level courses). The CSDE has made TCS data available to all districts through CSDE's data portal, EdSight. This allows districts to make informed decisions about the current state of instruction and learning and the ways in which both can be improved, monitored and shared.

Statutory Reference: C.G.S. 10-10a - https://www.cga.ct.gov/2015/pub/chap_163.htm#sec_10-10a

How TCS Data are Used

TCS data is used to evaluate schools/districts based on the extent to which their students:

1. Access college/career readiness coursework including AP, IB, dual-enrollment, CTE, and workplace experience courses;
2. participate in arts coursework in high school;
3. are over-age and under-credited, especially as to whether students in 9th grade are on-track to graduation;

TCS data will also be used to provide secure reports to teachers on the characteristics/performance of their students as reported by the district to the CSDE.

On occasion, the CSDE receives requests for data that are fulfilled using TCS (e.g. Middle School course offerings in STEM, course availability on sign language, pre-kindergarten classroom size, etc.).

Collection Period

Collected on a July 1st – August 31st calendar (to allow for the reporting of summer school).

- The application opens in the spring, once open it is accessible 24/7.

Due Dates: Timely and Accurate

- Timely: August 15
- Accurate: September 15

Reporting Entity	Timely	Accurate	Freeze Date
LEA's	August 15, 2021	September 15, 2021	October 1, 2021
APSEP's	July 15, 2021	N/A	N/A

Each collection year, the exact calendar due dates are published in the *Data Collections Guide*. Should the Timely and Accurate Due Dates fall on a weekend or holiday, and the district is unable to submit the file on those dates, it is assumed that the data are due to the CSDE on the business day prior to the listed due date.

It is critical that the CSDE receive complete, accurate data in a timely fashion. The CSDE will monitor the timely and accurate submission of all federally and state mandated data by local education agencies (LEAs). Please work with all program offices (Special Education, English Language Learner, Homeless, Gifted/Talented, and non-publics as applicable) to ensure data submitted to the CSDE are timely and accurate, in accordance with Connecticut General Statute (C.G.S. Title 10). Though the CSDE does not aim to trigger federal rules, not adhering to these timelines could affect the district's Special Education Determination reported on the LEA-Level Annual Performance Report.

The Department defines *Timely and Accurate* as a holistic system analysis, thereby ensuring the monitoring of data submitted is not about minor edits/errors, but instead is about systemic failure to report and/or follow reporting directions/guidelines.

Timely

For these purposes, the CSDE defines **Timely** as:

1. submission of all required data by the due date (no extensions);
2. passed general edit checks and provided complete data.
 - a. did not report placeholder data;
 - b. no missing data (i.e., failure to report an entire field or school, etc.);
 - c. all reports are error free;
 - d. the data pass all reasonability tests (no unexplained significant changes in counts or percentages of students within various data points);
 - e. Reviewing and resolving all necessary warnings/reports to ensure data quality;
 - f. **Processing the Data Collection**, as applicable; and
 - g. Pre-certification or Mid-Year Certification of the data collection, as applicable.

Accurate

The CSDE defines **Accurate** as:

1. District corrects data errors within the edit checking timeframe established for each data collection.
 - a. Reviews and resolves all necessary verification and cleaning reports;
 - b. Certifies data exceptions, as applicable; and
 - c. Enters summer school data, as applicable.
2. District certifies the collection by the accurate date.

Certification

The CSDE requires that all final data submissions be reviewed and certified by **certified administrators only**. The TCS Certifier certifies that the below is true:

“In my role as a certified administrator, I hereby attest that I have reviewed the data contained herein and these data are, to the best of my knowledge, valid and accurate and in accordance with the requirements included in Title 10 of the Connecticut General Statutes. I further understand that upon certification, these data may be used in federally mandated reporting, state longitudinal data system public reporting, and in accordance with Freedom of Information Act data requests made of the Connecticut State Department of Education.”

Certification locks the data against any further changes. For a district to certify, all records must be complete. When you certify, the *Certification Confirmation* report is presented with the summary for your district. Print this report for your records.

NOTE: The TCS data collection may be audited.

Gaining Access and User Roles

Gaining Access

TCS is a Portal-based data collection. Your LEA Security Manager is responsible for assigning and maintaining TCS roles in Directory Manager (DM).

- If an individual already has a DM account, he/she will use their existing username/password.
- If an individual is new to DM, he/she will receive one email with a unique username and a second email with a password.
- **Usernames and passwords should NOT be shared**, as each is unique to the assigned individual. This process improves accountability for any errors or changes entered into the system and it allows the department to identify exactly who to contact should we have questions about a specific student record.
- The list of TCS LEA Users and Certifiers from DM will be used to conduct all communication about the TCS system.

NOTE: If you do not know who your LEA Security Manager visit the DM Help Site (<http://portal.ct.gov/SDE/Performance/Data-Collection-Help-Sites/Directory-Manager-Help-Site>) for a listing of all LEA Security Managers.

We do not have the ability to limit reports/views to the school level. Therefore, it is important that all of your TCS LEA Users are aware of their responsibilities under FERPA regarding protection of student level data.

Managing Student Data

Who/What to Report

Report in TCS every student, registered to your district, who earned a **final Outcome Grade** at any point during the academic year. Every student must be a publically funded by a Connecticut town and registered in the *Public School Information System* (PSIS).

TCS would prefer to receive only one FINAL GRADE per student, per course (NCES COURSE DESCRIPTION), per teacher (EIN), per SECTION CODE, per DISTRICT COURSE CODE in a given facility.

- a. If there is more than 1 record per SASID, NCES COURSE DESCRIPTOR, EIN, FACILITY1CODE, SECTION CODE, and DISTRICT COURSE CODE the records will be picked up by our new Duplicates Report and need to be reconciled.

If final grades cannot be submitted, TCS will allow marking period grades to be submitted under the following conditions:

- a. Unique SESSION START DATE and SESSION END DATES must be reported to reflect the specific marking period being submitted.
- b. COURSE CREDITS EARNED must be reported proportionally to the marking period.
 - i. Example: If you are submitting four quarter records each COURSE CREDITS EARNED must reflect the credit that was available to be earned for that specific quarter only (i.e. if a course is worth 1.00 credit then each quarter a student can earn 0.25 credits).
 - ii. Do not submit cumulative COURSE CREDITS EARNED (i.e. if a course is worth 1.00 credit DO NOT submit 0.25, 0.50, 0.75, 1.00).

- c. AVAILABLE CREDIT (within NCES COURSE CODE) should reflect the total available credit for the course (i.e. a course is worth 1.00 credit and 4 quarter records are submitted, the NCES COURSE CODE should reflect 1.00 AVAILABLE CREDIT for each record).

IMPORTANT: Do not report:

- TCS data from a previous school district for students who transferred into your district;
- students placed by another state into your school;
- students unilaterally placed by their parents where the district has not accepted programmatic responsibility for the child’s education through the development and implementation of an IEP; or
- Services Plan students

For students in grades **PK-6 records may be reported at the grade-level** (i.e. 1 record per student for 3rd grade).

NOTE: You must report PK students, unless they receive related services only. If they do not receive a grade in a traditional sense, you can use “pass” or “P” or “SB” (if they are standards based) for *Outcome Grade* and “P” for *Outcome Grade Status*.

For students in **grades 7-12 records must be reported at the course-level** (i.e. 1 record for science, 1 record for math, 1 record for social studies, etc.).

NOTE: The **Identification of Missing SASIDs** report lists SASIDs for whom the LEA/APSEP is required to report.

TCS Reporting District

It is important to note that the Reporting District in PSIS and TCS are the same.

The reporting district is the district in which the student is registered.

- Public Schools, including students attending:
 - Public schools within your district
 - OPEN Choice students attending schools within your district
 - Approved Private Special Education Programs
 - Residential facilities
 - Out-of-state schools
 - Students placed in “other non-public” facilities
 - Students placed in municipal detention centers
 - Students placed in Age Appropriate Community Based Programs
- Quasi-Public - Endowed and Incorporated Academies
- Charter Schools
- Regional Education Service Center (RESC)
- CT Technical High School System (CTHSS)
- Department of Corrections (USD1)
- Department of Children and Families (USD2)
- Department of Mental Health and Addiction Services (DMHAS)

For *OPEN Choice* students, the receiving district is the REPORTING DISTRICT. These are also the only students attending a RESC-operated facility that are not reported in PSIS by the RESC.

How to Submit Data

LEA's may submit data in the following ways:

Manual Entry

LEA's enter data directly into the application.

Screen sample for manually adding a record:

Student Interoperability Framework (SIF) Transmission

SIF acts as a messenger, it brings the data to TCS. **However, it does not bring the data through the TCS validation process.** You still need to login to TCS directly to complete the collection. SIF is currently open to PowerSchool districts only.

LEA's should work with the State Department of Education SIF Team to configure their district. More information is available on the SIF Help Site: <http://portal.ct.gov/SDE/Performance/Data-Collection-Help-Sites/SIF>

Batch Upload

LEA's or APSEP's create a batch manually or extract one from their local student information system. TCS allows separate batch uploads. More information is available in the step-by-step procedures.

NOTE: It is recommended to upload batches by school rather than one large batch upload for the entire district.

Data Field Descriptions

The following is a list of fields are collected in TCS:

NOTE: Fields are listed in the order displayed in the Record layout.

NCESCourse Code A National Center for Educational Statistics (NCES) course code. The NCES established the National Cooperative Education Statistics System (Cooperative System) to assist in producing and maintaining comparable and uniform information and data on early childhood education and on elementary and secondary education. These data are intended to be useful for policymaking at the federal, state, and local levels.

For the 2020-2021 school year SCED codes 7.0 and 8.0 will be used. Note that there is no only one classification system, so the same set of codes are used for **Prior-to-Secondary and Secondary courses. The course coding structure has not changed.**

NCES COURSE CODES may not always match your course content 100%. You may need to choose a NCES COURSE CODE that is the best fit.

Rules

- Mandatory

Values

- 12-character alpha-numeric code
 - See [Table D](#) for an example of how to create an NCES code.
- **Prior-to-Secondary Course**
 - **Course Description-** 5 digit numeric value from **SCED 7.0 or 8.0** indicating the content of the course
 - SCED code information is available at: <http://portal.ct.gov/SDE/Performance/Data-Collection-Help-Sites/TCS-Help-Site/Documentation>
 - **Course Code Rigor Level-**1 digit character value determined by school indicating the rigor level of the course
 - See [Table E-Course Code Rigor Levels](#)
 - Values
 - G-General or Regular
 - B-Basic
 - X-No Specified Level
 - E-Enriched or Advanced
 - H-Honors (AP courses should be coded as H)
 - Rigor should be determined at the course level and not the student level.

TEACHER-COURSE-STUDENT USER GUIDE

- It is understood that based on IEP requirements, some students will receive modifications. That information is available in the IEP and does not also need to be indicated in the NCES Course code for that student.
- **Grade span**- 4 digit numeric value determined by school indicating the grade-level of the course (i.e. preschool would be PKPK, kindergarten would be KGKG, a course for 4th graders would be **0404**, a course for 7th or 8th graders would be **0708**)
- **Sequence**- 2 digit numeric value determined by school indicating whether a course is a part of a sequence of courses (i.e. **11** indicates the course is not a part of a sequence, **12** indicates the course is the first course in a two-course sequence)
 - Sequence is **not** meant to differentiate marking period grades.
 - A course is a part of a sequence **only** if a student must complete all components of the sequence before earning credit.
- **Secondary Course**
 - **Course Description**- 5 digit numeric value from **SCED 7.0 or 8.0** indicating the content of the course
 - SCED code information is available at:
<http://portal.ct.gov/SDE/Performance/Data-Collection-Help-Sites/TCS-Help-Site/Documentation>
 - **Course Code Rigor Level**-1 digit character value determined by school indicating the rigor level of the course
 - See [Table E-Course Code Rigor Levels](#)
Values
 - G-General or Regular
 - B-Basic
 - E-Enriched or Advanced
 - H-Honors (AP courses should be coded as H)
 - **C-College**
 - Rigor should be determined at the course level and not the student level.
 - It is understood that based on IEP requirements, some students will receive modifications. That information is available in the IEP and does not also need to be indicated in the NCES Course code for that student.
 - **Available Credit**- 4 digit numeric value determined by school indicating the Carnegie Credits available for that course (i.e. 1.00 or 0.50)
 - **Sequence**- 2 digit numeric value determined by school indicating whether a course is a part of a sequence of courses (i.e. **11** indicates the course is not a part of a sequence, **12** indicates the course is the first course in a two-course sequence).
 - Sequence is **not** meant to differentiate marking period grades.
 - A course is a part of a sequence **only** if a student must complete all components of the sequence before earning credit.

Section Code

A code generated by the LEA/school to uniquely identify a class/section of a course.

All SASIDs with the same values for COURSE FACILITY CODE, NCES COURSE CODE, DISTRICT COURSE CODE, and SECTION CODE represent students sitting in one class/section.

All EINs with the same values for COURSE FACILITY CODE, NCES COURSE CODE, DISTRICT COURSE CODE, and SECTION CODE represent teachers teaching one class/section.

NOTE: If an EIN teaches multiple sections of the same NCES COURSE CODE and does not have unique SECTION CODES, it will appear that all students are in the same section. This is relevant in particular when CSDE is looking at class sizes.

Outcome/Grade Status An indicator to clarify the final OUTCOME/GRADE field that describes the circumstances under which the student exited from membership in a course.

NOTE: Districts can only use Outcome/Grade Status of NG or SE in TCS - if page 8 of the IEP indicates that the student is in a:

- Non Graded situation or
- Working towards IEP Goals and Objectives.

Rules

- Mandatory

Values

P	Completed the course/section with a PASSING grade
F	Completed the course/section with a FAILING grade
R	RETAINED (for use in ONLY grades PK-3)
W	WITHDREW from course/section
TR	TRANSFERRED to/from course/section
I	Course/section requirements for grading are INCOMPLETE
AU	AUDIT course, no grade issued
NG	NO GRADE, per IEP requirements
SE	Working towards IEP Goals and Objectives

Course Credits Earned The number of Carnegie credits the student earned in the course.

Rules

- Conditional
- If NCES Course Code contains **Available Credit** then COURSE CREDITS EARNED is mandatory.
- If final grades cannot be submitted, TCS will allow marking period grades to be submitted under the following conditions:
 - a. COURSE CREDITS EARNED must be reported proportionally to the marking period.
 - i. Example: If you are submitting four quarter records each COURSE CREDITS EARNED must reflect the credit that was available to be earned for that specific quarter only (i.e. if a course is worth 1.00 credit then each quarter a student can earn 0.25 credits).
 - ii. Do not submit cumulative COURSE CREDITS EARNED (i.e. if a course is worth 1.00 credit DO NOT submit 0.25, 0.50, 0.75, 1.00).

Values

- 4-digit numeric (e.g. 1.50)

Section II: Step by Step Procedures

TCS Data Collection Procedures

How to Access the TCS System

Prerequisites

- Authorization for the State of Connecticut Login website at <https://csde.ct.gov>
 - You have an account and TCS role assigned in Directory Manager (DM).
 - Your username and password are sent in two separate emails when you are first added to Directory Manager by you LEA Security Manager. Usernames and passwords should NOT be shared, as each are unique to the assigned individual.

Step Action

- 1 Go to the <https://csde.ct.gov> website. The system displays the State of Connecticut Login screen.

- 2 Enter your **Username** and **Password** and select Login.
 - If you only have access to TCS, the system displays the *TCS Confidentiality Acknowledgement* screen - Go to Step 4.
 - If you have access to more than one application, the system displays the *State Department of Education Home Page*.

NOTE: If you do not have access to TCS, contact your LEA security manager.

NOTE: If you are the LEA Security manager and you need access to TCS, a person cannot assign a role to themselves. If you contact one of the individuals below. To facilitate the process when you send an email requesting access cc your Superintendent:

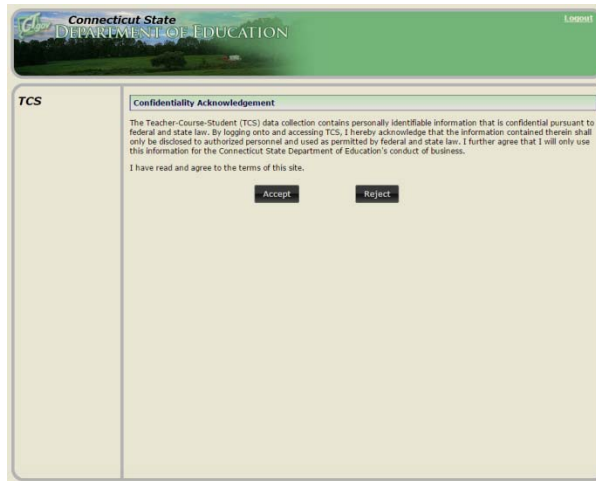

Laura Guerrero
LAURA.GUERRERA@CT.GOV

Raymond Martin
RAYMOND.MARTIN@CT.GOV

IMPORTANT: At this time, there are no school-level permissions. Permissions are only available at the DISTRICT-level.

- 3 Select **TCS** from the Application drop-down menu, click **Continue**. The system displays the *TCS Confidentiality Acknowledgement* screen.

- 4 Select **Accept**. The system displays the *TCS Home* screen.
- 5 This procedure is complete.

How to Upload your File

Step Action

- 1 Using your worksheet program (for example excel or notepad), save the file as a .csv or .txt file type by selecting **Save As**.
- 2 Click **File Upload** on the left of the screen.

- 3 Select a file to upload by selecting **Choose File**.

The screenshot shows the 'File Upload' form. The 'Choose File' button is circled in red. The form includes a 'File Upload' header, a 'Select a file to upload' field with a 'Choose File' button and 'No file chosen' text, a 'What is the format of this file?' section with radio buttons for 'Comma-Separated Values (CSV)' and 'Fixed-Length Text', a checkbox for 'First Row Contains Field Names', and an 'Upload File' button. A note at the bottom states: 'Please click the Upload File button only once. Do not close the browser while a file is uploading.'

- 4 Choose your .csv or .txt file from where you have saved it on your local computer/server. Then click **Open**.
- 5 Click whether the file is **Comma-Separated Values (CSV)** or **Fixed-Length Text**.

The screenshot shows the 'What is the format of this file?' section. The 'Comma-Separated Values (CSV)' radio button is selected.

- 6 If your file does contain field names in the first row select "First Row Contains Filed Names."

The screenshot shows the 'First Row Contains Field Names' checkbox. The checkbox is checked.

- 7 Click **Upload File**.
- 8 Confirm whether or not the first row is a header row. Then click **Confirm**.

TCS Home ▶ File Upload Confirmation

File Upload Confirmation

You indicated on the previous page that your file contains a header row with column names. The first row of your file is highlighted below and will be ignored.

Warning: Will appear new records from this Batch into the Collection as well as update the values for any records that already exist for the indicated Facility ID. This is the **OVERWRITE** mode. If you want to add records to the Collection for the current school year, they will then be indicated by the new records in the Batch. You are now sure you want to change these records. It is recommended that you merge within the tool.

Warning: All state or local records for that Facility ID are in Processed. Any existing records in the Collection for that Facility ID will remain unprocessed.

Process

- 19 You will have to select one of the following actions per Facility 1 Code:
- **Merge** will process all batch records into the collection, updating any records that already exist or adding new records that do not exist in the collection.
 - **Overwrite** will delete all existing records in the collection. The batch records will then be added to the collection as if there have not been any previous records processed.
 - **Ignore** batch records will NOT be processed and existing collection records will remain.

20 Click **Process**.

How to Certify

On the **Certify** screen, the district will find a summary of **SASIDs reported and Processed by Facility 1 Code**. “**TCS SASIDs %**” is the percentage of **PSIS SASIDs** (as defined as students registered to the district for 90 days or longer in **PSIS Registration**) for whom at least one record was reported to **TCS**. The “**Additional SASIDs**” column is the count of **SASIDs** that were enrolled in the district fewer than 90 days but earned a final **Outcome/Grade** and were reported to **TCS**. The “**Total SASIDs**” column is the sum of **TCS SASIDs** and **Additional SASIDs**. When the **Total TCS SASID %** is **100** the district is eligible to **Certify**.

NOTE: Only Certified Administrators with the **TCS Certifier** role assigned in **Directory Manager** have access to certify these data.

NOTE: Districts must report **100%** of their students who were enrolled in their district **90 days or longer**. The **Certify** button will not appear until the district has reached the **100% threshold**.

Step Action

- 1 Using the navigation menu on the left of the screen, select the **Certify** menu option. The system displays the **Certify** screen. The **CSDE** will not “turn on” the **Certification** button until after the end the academic year.

TCS Home ♦ Certify

Below is the summary of TCS to PSIS counts for your district.

Facility Code	Facility Name	TCS Records	TCS SASIDs	PSIS SASIDs	TCS SASID %	Additional SASIDs	Additional Records	Total SASIDs	Total Records
		4	3	129	2.33%	0	0	3	4
		0	0	167	0.00%	0	0	0	0
		0	0	122	0.00%	0	0	0	0
TOTALS		4	3	418	0.72%	0	0	3	4

- 2 Select **Certify**.
- 3 In order to certify the data collection, you must meet the reporting threshold for each **Facility 1 Code** *and* the total students registered by your district **PSIS REGISTRATION**. If you do not meet this threshold, the **Certify** button will not be available.
- 4 If the **Certify** button is not available and the district believes it qualifies for a **Certification Override**, the district can request a **Certification Override** via email. Please follow the steps below.

- a. Submit an email to CSDE: Keryn.Felder@ct.gov
 - i. Subject: "Certification Override-*DISTRICT NAME*"
 - ii. Include the Facility 1 Code Name that did not meet the reporting threshold.
 - iii. Include the reason for not meeting the reporting threshold.

5 The CSDE will review the Certification Override request and follow-up with next steps.

Case Management Reports

Missing SASIDs

Use the Missing SASIDs report to ensure TCS data is reported for all your students. Before you **Process** the data, the Missing SASIDs report displays *all* students enrolled in the district for 90 days (cumulative calendar) or longer. Each of these students must be reported to TCS. After the data is **Processed**, the Missing SASIDs report displays students for whom a record was not reported. Likely, the district will need to upload more data to account for these students. However, if a student appears on the Missing SASIDs report for whom you do not have data, there is an exception code drop down to the right. The dropdown will only contain options for which the student is potentially eligible (i.e. "01: Pre-K student – Related Services Only" will not appear for a student who is not enrolled in pre-k in PSIS Registration). Every student must have data reported or an applicable exception code selected before the district can **Certify**.

Note: A summary of exception code usage will appear on the Certification Summary Statistics page that Superintendents must review before **Certifying** the collection.

Note: TCS will accept records for student who earned a final Outcome/Grade and were enrolled in the district fewer than 90 days. These students will never appear in the Missing SASIDs report. These students will be accounted for as "Additional SASIDs" on the **Certify** page.

REMINDER: Once your file is **Validated** you have to **Process** the batch!

NOTE: Once you **Process** the batch, the SASIDs with a least 1 processed record will be removed from this report. Please remember that this does not indicate that all of the data for a student has been submitted.

Step Action

- 1** Using the navigation menu on the left of the screen, select the Reports menu option. The system displays the Reports screen.
- 2** Review the SASIDs that are identified as missing from the collection. Remember, all students will appear on the Missing SASIDs report until the uploaded data have been **Processed**.
- 3** Upload or hand-enter additional records for all students identified as Missing.
- 4** Should there be students identified on the Missing SASIDs report for whom the district does not have data, select the applicable Exception Code in the dropdown to the right of the screen. The dropdown will only contain options for which the student is potentially eligible (i.e. "01: Pre-K student – Related Services Only" will not appear for a student who is not enrolled in pre-k in PSIS Registration).

Code	Reason for Not Submitting Data for a Student Enrolled in District
01	Pre-K student – Related Services Only
02	Student receiving transition services only and engaged in Workplace Experience
03	Student not in district long enough to earn final outcome/grade

- 5** If you select an exception code in error, please contact the department via email with the subject “Restore Missing SASID-*[District Name]*” with the SASID that needs to be restored to the Missing SASIDs report.
- 6** Repeat the above steps until there are no longer any students on the Missing SASIDs report.

College and Career Readiness Report (formerly the Indicator 5 Report)

College and Career Readiness Report:

This report contains counts of students by grade meeting each of the following criteria: • AP: The count of students with at least one record for an Advanced Placement Course.

- IB: The count of students with at least one record for an International Baccalaureate Course.
- Dual Enrollment: The count of students with at least one record for a course with a Dual Enrollment Code.
- CTE Cluster: The count of students with at least one course from a CTE Cluster.
- Workplace Experience: The count of students with at least one record for a Workplace Experience Course with at least 0.5 available credits.
- Workplace Exception Count: The count of students reported via the Missing SASIDs Report using the “02” Workplace Exception option.

NOTE: This report will not match Indicator 5 of the Next Generation Accountability Report (published on EdSight). The report below is a count of one year of data; Indicator 5 is calculated using multiple years of TCS data. The purpose of this report is to provide a summary of the counts of students who have TCS records in the 2015-16 school year collection that will contribute to the Indicator 5 calculation. Any changes to the PSIS June Collection or TCS will result in changes to the counts in the Next Generation Accountability Report.

9th Grade Tracking Report (formerly the Indicator 7 Report)

This report identifies the 9th grade students reported in TCS and the June PSIS collection for the current school year and places them in one of the following counts:

- 1) Students who earned 5 or more total credits in the school year
- 2) Students who earned less than 5 total credits in the school year

The student level data are reported by facility for students in grades 9 only.

NOTE: This report will not match Indicator 7 of the Next Generation Accountability Report (published on EdSight). The report below is a count of one year of data; Indicator 7 is calculated using multiple years of TCS data. The purpose of this report is to provide a summary of the counts of students who have TCS records in the current school year collection that will contribute to the Indicator 7 calculation. Any changes to the PSIS June Collection or TCS will result in changes to the counts in the Next Generation Accountability Report.

Arts Access Report (formerly the Indicator 12 Report)

This report counts the number of students reported in TCS and the June PSIS collection for the current school year who participated in at least one dance, theater, music or visual arts course.

NOTE: The purpose of this report is to provide a summary of the counts of students who have TCS records in the current school year collection that will contribute to the Indicator 12 calculation. Any changes to the PSIS June Collection or TCS will result in changes to the counts in the Next Generation Accountability Report.

Special Education Students

How does my organization report our Special Education students?

All students who are registered to your district in PSIS are required to be reported in TCS. Please note that special education courses are not specified within the NCES course codes or at the course level. The NCES Course Code book states: "Treatment of special education courses. There are no course descriptions in SCED that are intended solely for students with disabilities, or that indicate that a course has been modified for these students. When this information is appropriate, users will need to add an element in order to note that a course is adapted to meet the individual needs stated in a student's Individual Education Programs (IEP)." The CSDE is not requiring an added element to indicate the child's enrollment in a special education course.

The 18-21 year old population should be reported. There are NCES course codes that indicate life skills, workplace experience courses (i.e. off-site transition programs or internships), etc. Indicating that the student is earning 0.00 credits is acceptable. The students engaged in workplace experience courses, if reported using the applicable NCES Course Codes, will apply to the district's accountability index under Indicator 5.

When a student attends an APSEP, who is responsible for determining available credit within the NCES Course Code and the Course Credit Earned?

The LEA is ultimately responsible for the student's IEP and Transcript, which in turn means the LEA is responsible for determining course credits earned. The APSEP must inform the LEA of the courses they offer (with associated NCES course codes) and the recommended credits earned by the student attending their facility. However, the LEA must determine from that information, the Course Credits Earned that the district is willing to accept toward completion of the credits required for a local diploma as outlined in Connecticut Education Statutes (C.G.S. Section 10-69(b)). These considerations regarding course offerings and credits earned should be addressed through the PPT. Ultimately, Course Credits Earned should align with the student's transcript that is issued by the LEA.

When is it appropriate to use Outcome/Grade Status "NG" or "SE"?

The Outcome/Grade Status of "NG" or "SE" can only be used in TCS if page 8 of the IEP indicates that the student is in a:

- Non Graded situation or
- Working towards IEP Goals and Objectives.

Middle School Students Taking High School Courses

NOTE: When a middle school student takes a high school course, a secondary NCES Course Code must be used. This is critical because in state accountability, only secondary NCES Course Codes are analyzed for Indicators 5, 7, and 12.

When do I submit their records to TCS?

Report the courses to TCS for the academic year the student took the course.

What if the students don't receive the credit until they matriculate to the high school?

That's ok; still report the course with the credit in the academic year the student took the course. The student earned the credit for the course they took and it should correspond with that course in TCS reporting.

User Roles in DM?

What if I forget my User ID?

Visit <http://sdeportal.ct.gov/portaluser/> or contact your LEA Security Manager and ask them to look-up your User ID.

What if I forget my password?

Visit <http://sdeportal.ct.gov/portaluser/> or contact your LEA Security Manager and ask them to reset your password.

What should we do if a User with a TCS role no longer works in our organization?

Contact your LEA Security Manager and ask them to inactivate the person's account in DM. For security purposes, this should be completed as soon as the position is terminated.

What should we do if a User with a TCS role is no longer responsible for inputting TCS data?

Contact your LEA Security Manager, ask them to either remove the TCS role for this user or inactivate the user's account in DM. For security purposes, this should be completed immediately upon termination of the assignment.

- If the user has other roles in DM, the LEA Security Manager should remove the TCS role.
- If the user does not have other roles in DM, the LEA Security Manager should inactivate the user's account.

What should we do if a User's phone number or email address is not accurate?

Contact your LEA Security Manager and ask them to update the user's account in DM.

What should we do if we have a new TCS user?

Contact your LEA Security Manager, ask them to create/update the user's account in DM with either the TCS Certifier role (note: only one certifier should be assigned for your LEA and that person is a certified administrator) OR LEA User role (enters TCS data).

What if we do not know who our LEA Security Manager is?

If you do not know who your LEA Security Manager is, visit the DM Help Site for a listing of all LEA Security Managers: <http://portal.ct.gov/SDE/Performance/Data-Collection-Help-Sites/Directory-Manager-Help-Site>

Terminology

CECS	Connecticut Educator Certification System
CSDE	Connecticut State Department of Education
DM	Directory Manager is the official listing of all districts, schools and other educational facilities. DM is also used to manage users and their roles for all Portal Applications.
EIN	Educator Identification Number
Final Outcome Grade	The grade that appears on a student's transcript
PSIS Registration	Public School Information System - This application is used for year round registration of student enrollments.
SASID	State Assigned Student Identifier
TCS	Teacher-Course-Student

Table C – Teacher Types

Teachers WITH an EIN will be classified into a 100s code category.	
Teacher Type Code	Teacher Type Description
101	Certified Teacher, Teacher of Record
102	Certified Teacher, Instructional Support
103	Certified Teacher, Co-Teacher
104	Certified Teacher, In-class Facilitator
105	Certified Teacher, Online-class Facilitator
106	Certified Teacher, Tutor of Homebound Student
107	Certified Teacher, Tutor of Expelled Student

Teachers WITHOUT an EIN will be classified into a 200s code category.	
Teacher Type Code	Teacher Type Description
201	Non-certified Teacher, Teacher of Record
202	Non-certified Teacher, Instructional Support
203	Non-certified Teacher, Co-Teacher
204	Non-certified Teacher, In-class Facilitator
205	Non-certified Teacher, Online-class Facilitator
206	Non-certified Teacher, Tutor of Homebound Student
207	Non-certified Teacher, Tutor of Expelled Student

Long-Term Substitute Teachers WITH an EIN will be classified into a 300s code category. The assignment must be more than 40 days.	
Teacher Type Code	Teacher Type Description
301	Long-term Sub with EIN, Teacher of Record
302	Long-term Sub with EIN, Instructional Support
303	Long-term Sub with EIN, Co-Teacher
304	Long-term Sub with EIN, In-class Facilitator
305	Long-term Sub with EIN, Online-class Facilitator

Long-Term Substitute Teachers WITHOUT an EIN will be classified into a 400s code category. The assignment must be more than 40 days.	
Teacher Type Code	Teacher Type Description
401	Long-term Sub without EIN, Teacher of Record
402	Long-term Sub without EIN, Instructional Support
403	Long-term Sub without EIN, Co-Teacher
404	Long-term Sub without EIN, In-class Facilitator
405	Long-term Sub without EIN, Online-class Facilitator

Exceptions - Teachers who cannot be classified in the Certified, Non-certified and Long-term Substitute codes will be classified into a 500s code category.	
Teacher Type Code	Teacher Type Description
501	Teacher of student placed Out of State
502	International Guest Teacher
503	Teacher of student placed Out of District
504	Teacher of Transfer Student
505	Case Manager
506	Occupational/Physical Therapist
507	Professor – College or University
508	Teachers with Rotating Schedules
509	Teacher with Teach for America
510	Case Manager of Student ages 18-21 in Transitional Program/TVSP

Table D – NCES Course Code Structure Explanation

PRIOR-TO-SECONDARY

Course Description		Course Code Rigor Level	Grade Span		Sequence	
						
Life and Physical Sciences	Biology	No specific level of rigor	grades 7 and 8		"1 of 1"—not part of a sequence	
						
English Language and Literature	Reading (grade 6)	General	grade 6		"1 of 1"—not part of a sequence

SECONDARY

Course Description		Course Code Rigor Level	Available Credit	Sequence	
					
Social Sciences	U.S. Gov Comp	Honors	One Carnegie Unit	"1 of 1"—not part of a sequence	
					
Social Sciences	Public Speaking	Basic	One-half Carnegie Unit	"1 of 2" - 1 st part of a 2-course sequence	

NCES Course Code

Table E – Course Code Rigor Levels

The course’s level of rigor or difficulty. There are six options for coding this element:

B	Basic or remedial	A course focusing primarily on skills development, including literacy in language, mathematics, and the physical and social sciences. These courses are typically less rigorous than standard courses and may be intended to prepare a student for a general course.
G	General or regular	A course providing instruction in a given subject area that focuses primarily on general concepts appropriate for the grade level. General courses typically meet the state’s or district’s expectations of scope and difficulty for mastery of the content.
E	E=Enriched or advanced	A course that augments the content and/or rigor of a general course, but does not carry an honors designation.
H	H=Honors	An advanced-level course designed for students who have earned honors status according to educational requirements. These courses typically include additional content not found in general courses, and are formally designated as honors courses.
C	C=College	A course that is designed to be credit-bearing at a postsecondary institution.
X	X=No specified level of rigor	The notion of rigor may not be appropriate for some courses; survey or interest courses that expose students to a variety of subjects and study hall are examples.

The majority of courses that schools offer are general: intended for any student in the proper grade level range. However, some courses are distinguished by having more or fewer rigorous requirements than the general course and are designated as enriched/advanced, honors, or basic/remedial. Other secondary courses may confer credit at a postsecondary institution, and the level of rigor should be coded as college.

Table F – Outcome/Grade Status

Code	Description
P	Completed the course/section with a PASSING grade
F	Completed the course/section with a FAILING grade
R	RETAINED (for use in ONLY grades PK-3)
W	WITHDREW from course/section
TR	TRANSFERRED to/from course/section
I	Course/section requirements for grading are INCOMPLETE
AU	AUDIT course, no grade issued
NG	NO GRADE, per IEP requirements
SE	Working towards IEP Goals and Objectives
