

Bridgeport Public Schools – October 13, 2022

How we leveraged the use of DIBELS data to support high-quality instruction and continuous improvement

Talent

- School Based DIBELS Expert
- Elementary Academic Support Instructor (EASI)
- Measured effectiveness of EASI position and intervention provided

Academics

- Used instruction focus to inform summer school instruction
- End-of-year (EOY) data used at the beginning of year (BOY) to start instruction the first week of school
- Instructional focus determined using DIBELS data

Climate

- DIBELS expert at each school creates:
 - Familiarity with the data system
 - Builds capacity to understand data
 - Facilitates communication at school-level

Operations

- Includes student demographics to disaggregate by multilingual and students receiving special education services
- DIBELS expert creates efficiency
- Build DIBELS Data System (DDS) and secondary groupings to access data
- Identify roles & permissions for staff at school and district-level
