## College Advising Corps – UCONN

Serving as a professional advisor to the CAC and providing resources around college access.

Attend multiple trainings monthly to expand personal knowledge on the college application process and resources

Keep timelines around all post secondary options.  
School | Work | Career

Inform and support students about financial aid opportunities, not limited to FAFSA.

Conduct multiple meetings with each student to secure post-graduation plans

Post and provide information about opportunities for students to meet college representatives and career recruiters

The College advising Corps aims to educate each senior about ALL their options for post-graduation plans. We help students answer the following question: "How am I going to happily create financial stability for my future self?"
