2024-25 Four-Year Cohort Graduation Rates on EdSight

The 2024-25 four-year adjusted cohort graduation rates for the state, districts, schools, and student groups are [now available on EdSight](#).

Unsuppressed counts for individual districts and schools are available to

authorized users through EdSight Secure. Five- and six-year graduation rates for the cohorts of 2023-24 and 2022-23, respectively, will be released later this summer. The four-year graduation rate for all students for 2024-25 and the six-year graduation rate for students with high needs for 2022-23 will be part of the 2025-26 accountability results released later this fall.

Connecticut Cohort Verification System (CCVS)

The Connecticut State Department of Education (CSDE) is launching the Connecticut Cohort Verification System (CCVS) – a new application to streamline the verification of adjusted cohort graduation data. This application will be accessible starting in October 2026. Unlike in prior years when information had to be submitted manually via email/spreadsheets, the CCVS will store all evidence within the application, significantly reducing back-and-forth email correspondence. Please see the [memorandum for additional important information](#).

LAS Links Results for 2025-26 Now Available on EdSight

The LAS Links Results for 2025-26 including [Achievement](#), [Mastery](#), and [Growth](#) for the state, districts, and schools are now available on EdSight public and secure platforms. As in past years, these LAS Links Growth results, [linked here](#), will serve as Indicators 2e and 2f in the Next Generation Accountability System results that will be released later in the fall.

When Will New Data Become Available?

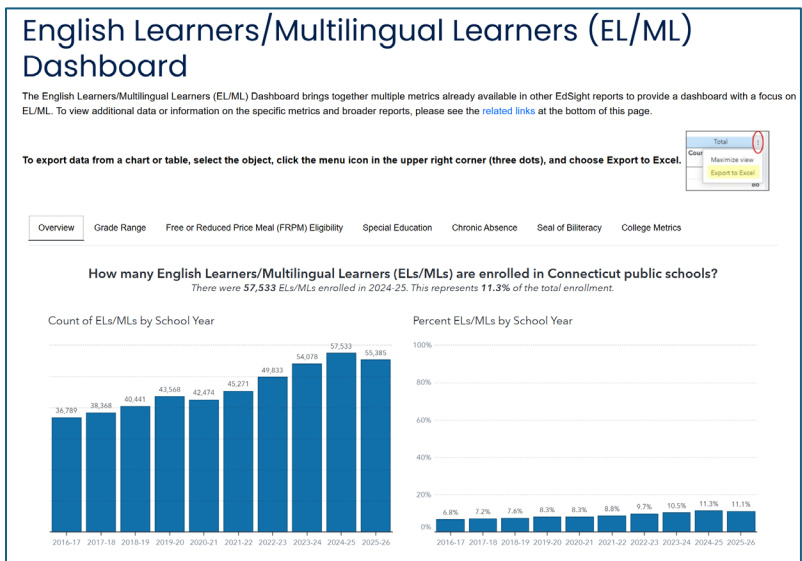

Check out the [Report Release Schedule](#) to see the estimated dates when the CSDE expects updated data to be available in reports. This schedule will be updated on an ongoing basis as circumstances change.

Connecticut SAT School Day Results in EdSight Secure

The 2025-26 results from the Connecticut SAT School Day are now available in EdSight Secure. As in prior years, the public release of all assessment results is expected in late August. Check out the [Report Release Schedule](#) to see the estimated dates when the CSDE expects updated data to be available in reports.

English Learner/Multilingual Learner (EL/ML) State Dashboard

The newly released [EL/ML State Dashboard](#) provides a state-level overview of EL/MLs in Connecticut public schools. This dashboard brings together multiple metrics about EL/MLs. Aside from total enrollment and prevalence, the dashboard also provides breakouts of EL/MLs by grade range, free-or-reduced-price meal eligibility, and special education, while also providing their rates of chronic absenteeism, seal-of-biliteracy attainment, and college outcomes.

Connecticut Blue Ribbon Schools Recognition Ceremony

The six schools named as [2026 Connecticut Blue Ribbon Schools](#) were recognized at a ceremony on Tuesday, June 9 at Conard High School in West Hartford. The event was graced by numerous dignitaries including Governor Lamont, Lieutenant Governor Bysiewicz, State Board Vice-Chair Benham, and other state and local elected officials. The highlight of the event was the six school leaders who spoke about factors that drove their success. These include:

- [Ridgefield's](#) counterintuitive 20-minute flex period before first period;
- [Oxford's](#) commitment to continuous adult learning and personalized instruction;
- [Meriden's](#) three key levers of people, practices, and culture;
- [Greenwich's](#) reimagining of intervention staffing and family involvement;
- [West Hartford's](#) commitment to teaching to the highest level of the standards; and
- [Danbury's](#) passion for creating world leaders.

Special thanks to West Hartford, Superintendent Paul Vicinus, Conard High School Principal Jocelyn Tamborello-Noble, and the entire West Hartford team for being incredible hosts. See press coverage at [CT News Junkie](#) and [CT Post](#).
