Section	I.	Purpose
---------	----	---------

The purpose of this grant is to promote academic and social success for students participating in the Open Choice program in the Sheff Region. The grant is intended to provide supplemental funding towards programs and supports that work to ensure Open Choice students have positive school experiences and academic and social success. Activities funded by this grant should assist schools in developing specific goals related to limiting student attrition, reducing chronic absenteeism, increasing high school graduation rates, and increasing academic preparedness for college and careers. The grant also allows districts to implement a variety of strategies to improve school climate and student academic achievement for all students.

Section	II.	Background
---------	-----	------------

On April 18, 1989, eighteen school-aged children from the metropolitan Hartford, Connecticut area, acting through their parents, commenced the civil action *Sheff v. O’Neill* in the Hartford Superior Court against the State of Connecticut. In 1996, the Connecticut Supreme Court rendered a decision in the case and held that the de facto racial, ethnic and economic isolation of schools in Hartford violated Hartford students’ State Constitutional rights. Since 2003, the plaintiffs and the state have entered into several sequential stipulated agreements from Phase I through Phase IV, spelling out certain goals for reducing racial and ethnic isolation in Hartford and the steps the state would take to achieve such goals. On January 10, 2020, the Connecticut Superior Court signed the Phase IV Stipulation and Order (Phase IV Stipulation), approving the most recent agreement among the state defendants, the plaintiffs and the City of Hartford as an Order of the Court through June 30, 2022.

As outlined in each of the stipulations and orders, the Open Choice program is among those voluntary interdistrict programs that contribute to the terms of the applicable agreements. This statewide program is intended to reduce racial, ethnic and economic isolation, improve student achievement, and provide parents with a choice of educational programming. The Connecticut State Department of Education (CSDE) seeks to raise awareness about Open Choice in the Sheff Region and increase the scope and level of academic and social supports for participating students, their families and receiving districts to improve educational and social outcomes and increase participation in the program.

Section	III.	Eligibility
---------	------	-------------

To be eligible for a grant, each applicant must receive Open Choice students and submit an application outlining the strategies and programs that the district will implement to provide academic and social support to the students, along with limiting attrition in the Open Choice program.

Eligibility Requirements for 2021-22:

Although Open Choice is a statewide program, this Open Choice Academic, Student and Social Support grant is specifically intended to support school districts and families participating in the Open Choice program in the Sheff Region pursuant to the Phase IV Stipulation and the previous stipulations. Only those school districts that participate in the Open Choice Program in the Greater Hartford Region and contribute to the goals of the Phase IV Stipulation are eligible for funding through this grant (See Connecticut General Statutes (C.G.S.) Section 10-266aa(o); 10-262(f)).

Districts that do not submit a grant application by the due date or do not offer new Open Choice seats for the 2021-22 school year will not be eligible for funding.

The applicant agrees to participate in site visits by the CSDE whenever the CSDE deems site visits necessary.

Section	IV.	Funding
---------	-----	---------

It is anticipated that there will be approximately \$2.8 million available to fund academic, and social support activities for students. This funding is in addition to, not in place of, the statutorily provided Open Choice enrollment grant currently funded on a tiered basis depending on the district's level of participation in the program. Upon CSDE's approval of the required grant application, grants are awarded on an entitlement basis.

If the district offers new seats for 2021-22, funding is to be distributed as follows based on 2020-21 Open Choice student enrollments:

- Per Pupil Award: Districts receiving Open Choice students and offering new additional Open Choice seats for 2021-22 will receive \$575 per student in Grades PK-5 and \$900 per student in Grades 6-12 based on their certified October 1, 2020, Open Choice enrollment, as filed in the CSDE's Public School Information System (PSIS).
- Limiting Attrition Award: Districts receiving Open Choice students will receive \$300 per student in Grades PK-12 based on their October 1, 2020, certified Open Choice enrollment, as filed in PSIS as an additional incentive to address attrition. Attrition remains an ongoing focus of the Open Choice Program. Although this award provides funding for maintaining student enrollments, districts should design programming plans to increase participation and reduce attrition.
- Targeted Professional Learning: Successful applicants will receive \$5,000 for professional learning that must be used for school climate and culturally responsive education programming. These funds should be used in concurrence with the district's approved school climate plan or similar plan approved by the district and the Hartford Region Open Choice School Plan. The CSDE strongly encourages districts to participate in professional learning related to culturally responsive teaching that can help with the development of positive relationships with students and families and reduce attrition. The professional learning funds must be used for school climate and culturally responsive education programming as set forth in this grant application and must be clearly articulated on the budget (ED 114) and budget narrative. Some programs that may be funded through this grant include, but are not limited to: *ADL Programming; Rachel's Challenge Program; Comprehensive School Climate Inventory; Culturally Proficient Leadership and Instruction Module; Improving School Climate Training; Culturally Responsive Programming; Connecticut Welcoming Schools Initiative; Bully-Proof Your Classroom; and Courageous Conversations.*

**All awards are subject to the availability of sufficient funding**

Section	V.	Allowable Costs
---------	----	-----------------

In order to ensure that students remain in and complete the Open Choice program, the CSDE encourages participating districts to implement strategies that will benefit students in need of academic and/or social support, as well as improving social climate within the schools. When determining how to use these grant funds, districts should consider the academic and social needs of the students in the Open Choice program and the types of supports that will improve and enrich their school experience. Students benefitting from programs or services funded by the grant must include, but are not limited to, students enrolled in the district through the Open Choice program. In order for the proposal to be approved, districts must propose and implement research-based strategies or those with evidence of past success. An area of focus for this 2021-22 grant award is limiting attrition of students enrolled in an Open Choice program. In order to reduce attrition prior to graduation, the CSDE requests that districts focus a portion of the grant funds on programs designed to engage families, keep students in the Open Choice program, and improve the academic work and social experiences of students participating in the program.

Activities that may be funded through this grant include, but are not limited to:

- summer school or other summer programs;
- school climate activities and/or programs;
- professional learning for teachers;
- family engagement activities, including program information and academic development;
- before-and after-school enrichment programs;
- family-school liaison;
- bilingual services for English learners and/or parents;
- supplemental reading and/or mathematics programs; and
- tutorial services.

In order to secure cooperative services, districts that are unable to purchase services within current resources may enter into agreements with other districts. Examples of such services include, but are not limited to, professional development, a support specialist or a combined summer school program.

Allowable costs for this grant, in support of academic, student and social support activities, such as those listed above, include the following:

- salaries and benefits;
- staff stipends;
- substitute teachers (if necessary, to provide release time for professional learning);
- instructional supplies and materials, including educational software and technology;
- school climate professional learning and services;
- snacks for before-and/or after-school academic and social activities;
- contracts for academic and/or social support services by an outside agency or community partner;
- parent/guardian transportation;
- pupil transportation for activities beyond the school day, not covered by the CREC Open Choice transportation grant; and

- emergency transportation for the student and family, such as illness of the child, required meetings and attendance to student activities.

***Indirect costs are not allowable for this grant.***

Costs for other activities, programs and supports may be approved beyond those listed in this section. If you plan to expend funds on items or services other than those listed above, contact the program manager, Janet Foster, at [janet.foster@ct.gov](mailto:janet.foster@ct.gov), prior to submitting the grant application. Funds must be used to supplement, not supplant, the district’s educational offerings. All budgeted expenses must clearly support the proposed strategies.

Section	VI.	Grant Period
---------	-----	--------------

The CSDE shall award this grant for fiscal year 2021-22 with the anticipation of funding being available for the fiscal year. The CSDE anticipates that the grant period will begin July 1, 2021, and conclude June 30, 2022. The final status report for the 2021-22 grant must be submitted by July 22, 2022.

Grantees should not assume automatic renewal of their grant. Funding is dependent upon available funds, sustaining and/or increasing participation in the Open Choice program, successful site reviews (if applicable), submission of an acceptable and complete final report, and other factors affecting the quality or delivery of services.
