| Section | I. | Purpose |
|----------------|-----------|----------------|

The purpose of this grant is to promote academic and social success for students participating in the Open Choice program in the Sheff Region. The grant is intended to provide supplemental funding towards programs and supports that work to ensure Open Choice students have positive school experiences and academic and social success. Activities funded by this grant should assist schools in developing specific goals related to supporting student achievement, limiting student attrition, reducing chronic absenteeism, increasing high school graduation rates, and increasing academic preparedness for college and careers. The grant also allows districts to implement a variety of strategies to improve school climate and student academic achievement for all students.

|----------------|------------|-------------------|
| Section | II. | Background |
|----------------|------------|-------------------|

On April 18, 1989, eighteen school-aged children from the metropolitan Hartford, Connecticut area, acting through their parents, commenced the civil action *Sheff v. O’Neill* in the Hartford Superior Court against the State of Connecticut. In 1996, the Connecticut Supreme Court rendered a decision in the case and held that the de facto racial, ethnic and economic isolation of schools in Hartford violated Hartford students’ State Constitutional rights. Since 2003, the plaintiffs and the state have entered into several sequential stipulated agreements from Phase I through Phase IV and the final agreement, signed by the Connecticut Superior Court on March 21, 2022, spelling out certain goals for reducing racial and ethnic isolation in Hartford and the steps the state would take to achieve such goals. The Comprehensive School Choice Plan (CCP), signed by the state defendants, the plaintiffs and the City of Hartford on January 26, 2022 and the Connecticut Superior Court on March 21, 2022 as an Order of the Court, reflects the final agreement of the parties and articulates a plan for meeting demand of Hartford-resident students for a diverse educational environment through a sustainable system of integrated education.

As outlined in each of the stipulations and the CCP, the Open Choice program is among those voluntary interdistrict programs that contribute to the terms of the applicable agreements. This statewide program is intended to reduce racial, ethnic and economic isolation, improve student achievement, and provide parents with a choice of educational programming. The Connecticut State Department of Education (CSDE) seeks to raise awareness about Open Choice in the Sheff Region and increase the scope and level of academic and social supports for participating students, their families and receiving districts to improve educational and social outcomes and increase participation in the program. Per commitment #22.i of the CCP, the academic and social support grant is intended to promote academic achievement and a positive school climate in Open Choice schools and support activities directed at student retention, student and family engagement, educational advancement, and strong graduation rates for Hartford-resident students.

|----------------|-------------|--------------------|
| Section | III. | Eligibility |
|----------------|-------------|--------------------|

To be eligible for Open Choice, Academic and Social Support Grant, each applicant must receive Open Choice students and submit an application outlining the strategies and programs that the district will implement to provide academic and social support to the students, along with limiting attrition in the Open Choice program.

Eligibility Requirements for 2023-24:

Although Open Choice is a statewide program, this Open Choice Academic, Student and Social Support grant is specifically intended to support school districts and families participating in the Open Choice program in the Sheff Region pursuant to the CCP. Only those school districts that participate in the Open Choice Program in the Sheff Region are eligible for funding through this grant (See Connecticut General Statutes (C.G.S) Section 10-266aa(o)).

Districts must complete a grant application in Connecticut’s Electronic Grants Management System (eGMS) to the status of “LEA Superintendent/Authorized Rep Approved” by the due date and offer new Open Choice seats for the 2023-24 school year, to be eligible for funding.

A condition of the grant is the applicant’s agreement to participate in site visits by the CSDE whenever the CSDE deems site visits are necessary.

| | | |
|----------------|------------|----------------|
| Section | IV. | Funding |
|----------------|------------|----------------|

All awards are subject to the availability of sufficient funding.

It is anticipated that there will be approximately \$3 million available to fund academic and social support activities for students for the 2023-24 school year. This funding is in addition to, not in place of, the statutorily provided Open Choice enrollment grant currently funded on a tiered basis pursuant to C.G.S. 10-266aa(g)(2), as amended by Public Act 22-80 §27 and 28, depending on the district’s level of participation in the program. Upon CSDE’s approval of the required grant application, grants are awarded on an entitlement basis.

As indicated in commitment #22.i. of the CCP, the Academic and Social Support Grant structure is directed to support increased family and student engagement activities, reduce attrition, increase enrollment of students in upper grade levels, and advance other priorities to foster and support Open Choice participation. The prior year application provided notice of the 2023-24 framework to allow districts to structure seat declarations and programming plans to maximize access to resources.

For this Academic and Social Support Grant for the 2023-24 school year, districts that offer new seats for the 2023-24 school year will receive funding as follows based on October 1, 2022 Open Choice student enrollments:

Per Pupil Award: Districts receiving Open Choice students for 2023-24 will receive \$675 per student in Grades PK-5, \$1,200 per student in Grades 6-10, and \$1,000 per student in Grades 11-12 based on their certified October 1, 2022, Open Choice enrollment, as filed in the CSDE’s Public School Information System (PSIS). This per pupil framework is intended to support increased enrollments at the upper grade levels.

Retention Award: Districts receiving Open Choice students will be eligible for an additional award from a \$300,000 retention pool, based on their year over year retention rate as reflected in their certified Open Choice enrollment on October 1, 2022 as filed in PSIS. Districts that retain at least 85% of their Open Choice students will receive a scaled distribution from the \$300,000 retention pool based on 1 time the prorated share for 85% to 94.9% retention and 1.5 time the prorated share for 95% and higher retention rates.

Engagement: Grant recipients will receive \$9,000 to increase student retention through engagement. Districts must identify how the funds will be used to meaningfully enrich the student experience as a means to retain and attract students. Engagement/enrichment efforts must be included in the budget in the eGMS.

Targeted Professional Learning: Successful applicants will receive \$5,000 for professional learning that must be used for school climate and culturally responsive education programming. These funds should be used in concurrence with the district’s approved school climate plan or similar plan approved by the district and the Hartford Region Open Choice School Plan. The CSDE strongly encourages districts to participate in professional learning related to culturally responsive teaching that can help with the development of positive relationships with students and families and reduce attrition. The professional learning funds must be used for school climate and culturally responsive education programming as set forth in this grant application and must be clearly articulated on the eGMS. Some programs that may be funded through this grant include, but are not limited to: *ADL Programming; Rachel’s Challenge Program; Comprehensive School Climate Inventory; Culturally Proficient Leadership and Instruction Module; Improving School Climate Training; Culturally Responsive Programming; Connecticut Welcoming Schools Initiative; Bully-Proof Your Classroom; and Courageous Conversations.*

| Section | V. | Allowable Costs |
|---------|----|-----------------|
|---------|----|-----------------|

When determining how to use these grant funds, districts should consider the academic and social needs of the students in the Open Choice program and the types of supports that will improve and enrich their school experience. Students benefitting from programs or services funded by the grant must include, but are not limited to, students enrolled in the district through the Open Choice program. For the proposal to be approved, districts must propose and implement research-based strategies or those with evidence of past success. An area of focus for this 2023-24 grant award is limiting attrition of students enrolled in an Open Choice program and increasing access for students in the upper grade levels. To reduce attrition prior to graduation, the CSDE requests that districts focus a portion of the grant funds on programs designed to engage families, keep students in the Open Choice program, and improve the academic work and social experiences of students participating in the program.

Activities that may be funded through this grant include, but are not limited to:

- summer school or other summer programs;
- school climate activities and/or programs;
- professional learning for teachers;
- family engagement activities, including program information and academic development;
- before-and after-school enrichment programs;
- family-school liaison;
- bilingual services for English learners and/or parents;
- supplemental reading and/or mathematics programs; and
- tutorial services.

In order to secure cooperative services, districts that are unable to purchase services within current resources may enter into agreements with other districts. Examples of such services include, but are not limited to, professional development, a support specialist or a combined summer school program.

Allowable costs for this grant, in support of academic, student and social support activities, such as those listed above, include the following:

- salaries and benefits;
- staff stipends;
- substitute teachers (if necessary, to provide release time for professional learning);
- instructional supplies and materials, including educational software and technology;
- school climate professional learning and services;
- snacks for before - and/or after-school academic and social activities;
- contracts for academic and/or social support services by an outside agency or community partner;
- parent/guardian transportation; required meetings and attendance to student activities
- pupil transportation for activities beyond the school day, not covered by the CREC Open Choice transportation grant; and
- emergency transportation for the student and family, such as illness of the child.

Indirect costs are not allowable for this grant.

Costs for other activities, programs and supports may be approved beyond those listed in this section. If you plan to expend funds on items or services other than those listed above, contact the program manager, Janet Foster, at janet.foster@ct.gov, prior to submitting the grant application. Funds must be used to supplement, not supplant, the district’s educational offerings. All budgeted expenses must clearly support the proposed strategies.

| | | |
|----------------|------------|---------------------|
| Section | VI. | Grant Period |
|----------------|------------|---------------------|

The CSDE shall award this grant for fiscal year 2023-24 with the anticipation of funding being available for the fiscal year. The CSDE anticipates that the grant period will begin July 1, 2023, and conclude June 30, 2024. The final status report for the 2022-23 grant must be submitted in the state’s eGMS by July 21, 2023.

Grantees should not assume automatic renewal of their grant. Funding is dependent upon available funds, increasing participation in the Open Choice program, successful site reviews (if applicable), submission of an acceptable and complete final report, and other factors affecting the quality or delivery of services.

| | | |
|----------------|-------------|--------------------------------|
| Section | VII. | Submission Requirements |
|----------------|-------------|--------------------------------|
