

RFI 008 – Addendum Frequently Asked Questions and Answers

RFI 008 Addendum: This document represents an addendum to RFI #008 for High Dosage Tutoring Services. This document includes all questions from prospective proposers regarding this RFI along with responses from the Connecticut State Department of Education (CSDE).

Question: Are there specific grade bands or grade levels this RFI will focus on?

CSDE Response: The RFI focuses on grades 6-10.

Question: Is the district looking for any all virtual providers of tutoring at this time within this RFI?

CSDE Response: We (CSDE) are not certain what the districts are looking for. The RFI application does ask whether providers will provide services in person or virtual.

Question: Are there specific grade bands or grade levels this RFI will focus on?

CSDE Response: The RFI focuses on grades 6-10.

Question: We'd like to confirm whether CSDE would consider a platform-based tutoring model for this RFI: where the vendor provides the digital platform, instructional content, and supporting materials that tutors use during sessions, but does not employ or supply tutors directly. Instead, the vendor partners with schools, districts, and/or the state that recruits and manages their own tutoring staff. Would this model fall within the scope of what CSDE is looking for under this RFI?

CSDE Response: We will take receipt of all applications and review them based on the criteria listed within the RFI request. The response questions are included on page 7 of the [Connecticut High Dosage Tutoring \(HDT\) Providers](#) RFI.
