

CT 9th Annual Secondary Transition Symposium: Transitioning Back into **ACTION!**

Advocating-Career-Training-Independence-Opportunity-Networking

Friday, May 10, 2024 | 9:00 a.m. – 4:30 p.m.

Central Connecticut State University

The Connecticut Secondary Transition Symposium brings students and their families together with educators and other professionals to improve secondary transition programming and services for students with disabilities.

Our Keynote speaker will be Jane M. Moen, Executive Director of 'A Little Compassion Inc.' in Deep River, CT. The Mission of A Little Compassion is to build a safe, kind, and inclusive community for all regardless of neurodiversity. Their flagship program, The Nest Coffee House, takes the lead in providing authentic and enriching employment and social opportunities for neurodiverse young adults as well as offering support for their families. Through education and empowerment programming, The Nest increases public awareness and acceptance to ensure that neurodiverse young adults are seen and valued.

All participants must register through Canvas* to gain access to the symposium materials. Instructions for Canvas will be sent within the registration confirmation notice.

There is a \$15 registration fee. Students/Youth are FREE (cost to be covered by CT State Department of Education).

Registration is available on the SERC Events page found at <https://ctserc.org/events> (or use QR code provided here).

*Canvas is the Learning Management System where our Symposium's materials and activities will take place.
