

CT Transition Assessment Resource Manual - Transition Assessment Tools

Table Description:

The following table presents a curated list of Transition Assessment Resources designed to support transition planning for students with disabilities. Each row represents a specific assessment tool, while the columns are organized by the transition domains that each assessment may address. These domains include:

- **Employment**
- **Postsecondary Education/Training**
- **Independent Living Skills/Activities of Daily Living**
- **Community Participation**
- **Health & Behavior**
- **Self-Determination/Self-Advocacy**
- **Communication**
- **Social Skills/Interpersonal Relationships**

For each assessment, the table indicates whether it addresses a particular domain. A cell will display **"Yes"** if the assessment covers that domain, or **"No"** if it does not.

How to Use This Table:

To find the most appropriate assessment tool for your needs:

1. Identify the domain(s) you want to assess based on the student’s transition goals (e.g., Employment or Independent Living).
2. Scan down the column for that domain to find assessments marked **"Yes"** these tools include content relevant to that area.
3. Once you’ve identified potential assessments, review the corresponding rows to compare tools across multiple domains. This can help you select assessments that address more than one area of need.
4. Use this information to guide your selection of age-appropriate, meaningful assessments that align with the student’s strengths, preferences, and postsecondary goals.

This table is intended to support Planning and Placement Teams (PPTs), educators, and service providers in making informed decisions about which assessments to use as part of a comprehensive, individualized transition planning process.

Assessment	Employment	Post secondary Education/ Training	Independent Living Skills/ Activities of Daily Living	Community Participation	Health & Behavior	Self Determination Self Advocacy	Communication	Social Skills/ Interpersonal Relationships
